**About TASK Group**

TASK Group is a leading provider of technology solutions enabling its global hospitality clients to maximise their customer relationships in an increasingly digital world.

TASK's end-to-end cloud-based platform helps clients to improve customer experiences across every transactional touchpoint, including digital customer-facing services, back-of-house and enterprise operations. The Group's ecosystem combines transaction services, personalisation, offer management and BI technology to help clients generate operational efficiencies, drive valuable data insights about their consumer base, activate new promotions and build brand loyalty.

## **TASK Group (ASX: TSK) – 2023 Annual General Meeting**

### **Chairman's address**

It is a privilege to address shareholders today and update you on the strong progress of the Group.

Today is our first AGM as an Australian Company. It completes the migration of our incorporation to Australia, which will simplify our corporate structure and administration of the Group and clarify the tax residency of the parent company.

The Company also completed the planned delisting from the New Zealand Stock Exchange last month, having already moved our primary listing to the ASX on 18 October last year. The consolidation of the Group's shares on the ASX will reduce listing costs and support increased liquidity.

I would like to reiterate once again that we greatly value our New Zealand-based stakeholders, including our shareholders, management, and employees and we maintain our strong ties with and presence in the country.

Our results for the half-year ended 30 September 2023 were lodged with the ASX earlier this morning.

The management team presented the results via a webcast, a replay of which will be available later this week, so I will only briefly touch on the first half highlights now.

Our first-half performance continues to underline the power of bringing TASK and Plexure together, as we delivered strong revenue growth and a solid operating profit, while continuing to make disciplined investment in product and development talent and capabilities.

The Group delivered revenue for the half-year of \$36.1 million, up 36% on the prior corresponding period.

Recurring revenue was up 57% to \$34.2 million as a result of the full six months of the new McDonald's commercial contract, compared to two months in the prior corresponding period.

With regards to our McDonald's relationship, it is important to note the seasonality of its revenue contribution, reflecting the increased customer engagement in the second half of the year due to McDonald's holiday campaigns.

We ended the period with strong cash in bank of \$31.1 million, leaving the business in a very strong position as we enter the second half.

Our cash position, together with the absence of debt, positions us well to continue to invest in our product and platforms to support profitable growth.

It's pleasing to confirm that the Group has improved its profitability upon 1H23 with \$3.3m in operating profit during this half, despite significant investment in product teams and development capability.

In the half, we continued to invest in technology people, processes, and systems to support our rapidly growing customer needs, our expanding digital features, and the ongoing development of our new payments solution – TASK Pay.

On behalf of the Board, I would like to sincerely thank our customers, partners, staff and shareholders for your continuing support. In particular, we look forward to maintaining a close connection to our New Zealand-based shareholders who have supported us during our last eleven years as an NZX-listed company.

We remain committed to delivering value to all our stakeholders, and we look forward to working closely with you in the future.
