Ansarada Sustainability Report 2023

## Our sustainability approach

# Strengthening four business fundamentals

We developed Ansarada's Sustainability Management Platform to simplify the complexities of initiating and progressing in sustainability with adherence to leading sustainability standards and frameworks baked in. While designed to aid our customers, we have also utilised it to progress our own sustainability journey. The intricacies of sustainability standards can be distilled back into four core business fundamentals - strategic planning, metrics and targets, risk management, and governance. Our approach and our products aim to reinforce these fundamentals within an organization, enabling purposeful growth and enhanced value to all stakeholders. Here is how we have applied them.

## Ansarada Sustainability Management

### 1. Strategy

We have assessed our ESG maturity and identified materiality focus areas, using this data to develop a fit-for-purpose and commercially viable strategy and roadmap.

### 2. Metric and targets

We are aligning our ESG metrics and targets with SASB and GRI standards to commence measuring and monitoring them effectively.

### 3. Risk management

We manage risks critical to our business processes with full visibility, utilizing our Workflow tool, GRC platform, and regular reporting.

### 4. Governance

We have supplied essential evidence demonstrating our commitment to ESG. Roles and responsibilities are maintained through efficient Workflow task management.

## Reports and disclosures

We plan to generate reports consistent with leading sustainability frameworks, aiming to share progress and outputs with the Board, shareholders, and stakeholders.

# Q&A

# Footnotes

1 Total Customers refers to active customers and includes consolidated customers numbers for both Ansarada NewCo Pty Ltd and Ansarada Group Limited (formerly thedocyard) including periods prior to the merger plus TriLine GRC from Q2 FY22 onwards. Total customers includes any subscription/contract with an active platform. Customers may have more than one deal platform, board portal or governance solution open at any given time. Customer numbers include customers acquired through the freemium strategy.

2 As at 30 June 2023, refers to unique data room user profiles (unique profiles excludes those deleted or disabled)

3 Ansarada has active contracts with 2 of the top 5 largest companies in the world by market capitalisation as at September 30, 2022.

4 Non-Deal customers includes active customers from GRC, Procure, Board and other non-deal related products.

5 International customers includes total active customers less customers from Australia and New Zealand.

6 EBITDA represents earnings before interest, tax, depreciation and amortisation. Adjusted EBITDA ('EBITDA (ADJ)') equals EBITDA excluding non-cash shared based expense, business combination costs, capital raising and restructure expenses

7 Cash Flow From Operations is the amount of cash generated by the regular operating activities of a business for the specified time period. Adjusted Cash Flow From Operations ('Cashflow (ADJ)') adjusted for one time (including business combination costs, non-recurring consultancy and restructure payments) or costs associated with prior periods (including Short Term Incentive payments in Q1 FY23 only)

8 AASB recognised Revenue for period ending 30 June 2023. Last twelve months (LTM) measures the accumulation of the prior 12 months AASB recognised revenue. \$0.2 million in revenue recorded in Q1 FY23 related to a specific contract that related to a prior period in FY22.

9 ARPA represents the average monthly revenue generated from customers on subscription-based contracts (includes TriLine GRC from Q2 FY22 onwards but excludes Procure subscriptions).

10 Subscriber refers to active paid subscription contracts/customers at period end, and TriLine GRC from Q2 FY22 onwards.

11 ARR or Annual recurring revenue refers to revenue, normalised on an annual basis, that Ansarada expects to receive from its ARR Subscribers for providing them with Ansarada's products or services. It is calculated by annualising MRR: Monthly Recurring Revenue (MRR) x 12

12 ARR subscribers refers to the subscribers with an enterprise contract that generate annual recurring revenue.

13 Customer Retention refers to the ARR subscribers that remain as active paying subscribers after a 12 month period. Retention is calculated as  $[1 - (\text{churn} / \text{opening ARR Subscribers})]$  over a 12 month period.

14 Net Dollar Retention refers to the amount of monthly recurring revenue in a period generated from ARR Subscribers active in a corresponding period 12 months earlier divided by the MRR from that prior period.

15 Deferred revenue consists of Platform Subscription and Transactional Usage which are expected to be recognised on a straight-line basis over the remaining life of the contract

16 A new win represents Ansarada closing a paying subscription/contract customer

17 Billed Revenue is the sum of all invoices sent in the month of October related to contracts signed less any credits from prior periods credited in October 2023.

18 Deals revenue is revenue generated from a customer subscription contract to utilise the Deal room product

# Deals - Secure Virtual Data Room, workflow, collaboration software

## The problem

In dealmaking, many complex parts are involved. Deals are highly confidential, and managing critical information securely is the most important aspect of every deal. There are tasks to do, different things to understand, various people's opinions to gather, and lots of information to sort. As a dealmaker, the goal is to bring all these different pieces together smoothly. A dealmaker must handle the complexity of deals and bring everything together securely to make successful deals happen.

## Current customers

## The solution

Ansarada Deals™ goes beyond a basic Virtual Data Room. Ansarada is highly secure and simple to use, it changes how deals are managed by offering a complete solution. It comes with many useful tools like Deal Workflow, AI-powered Data Rooms, Ansarada Q&A, PMI (Project Management Integration), and safe file sharing & storage. Customers can work together securely with your team and partners.

# Procure - Procurement management software

## The problem

Many organisations face a kind of organised confusion. Most organisations still use manual processes and spreadsheets to capture, manage, evaluate, report and make decisions and recommendations on highly complex infrastructure projects. This can mess up processes and make project teams take the risks including creating high levels of transparency, compliance and clear audit trails. When projects become big and complex, they need better and secure management.

## Current customers

## The solution

Ansarada Procure, our end-to-end project procurement management platform, we've helped organisations across the world deliver over \$1tr of infrastructure projects, including public transport, freight rail, toll roads, bridges, ports, stadiums, hospitals, IT systems and broader precinct renewals. Our technology turns security, collaboration, and efficiency of complex procurement management into the natural order for organisations and the people behind them.

## Projects run on our platform in FY23

# GRC - Governance, Risk and Compliance management software

## The problem

Most organizations still use manual processes and spreadsheets to capture, manage, and report corporate compliance, risk management, and regulatory change across the business. Static spreadsheets quickly fall apart when it comes to managing and tracking all the complex governance, risk and compliance efforts within an organisation.

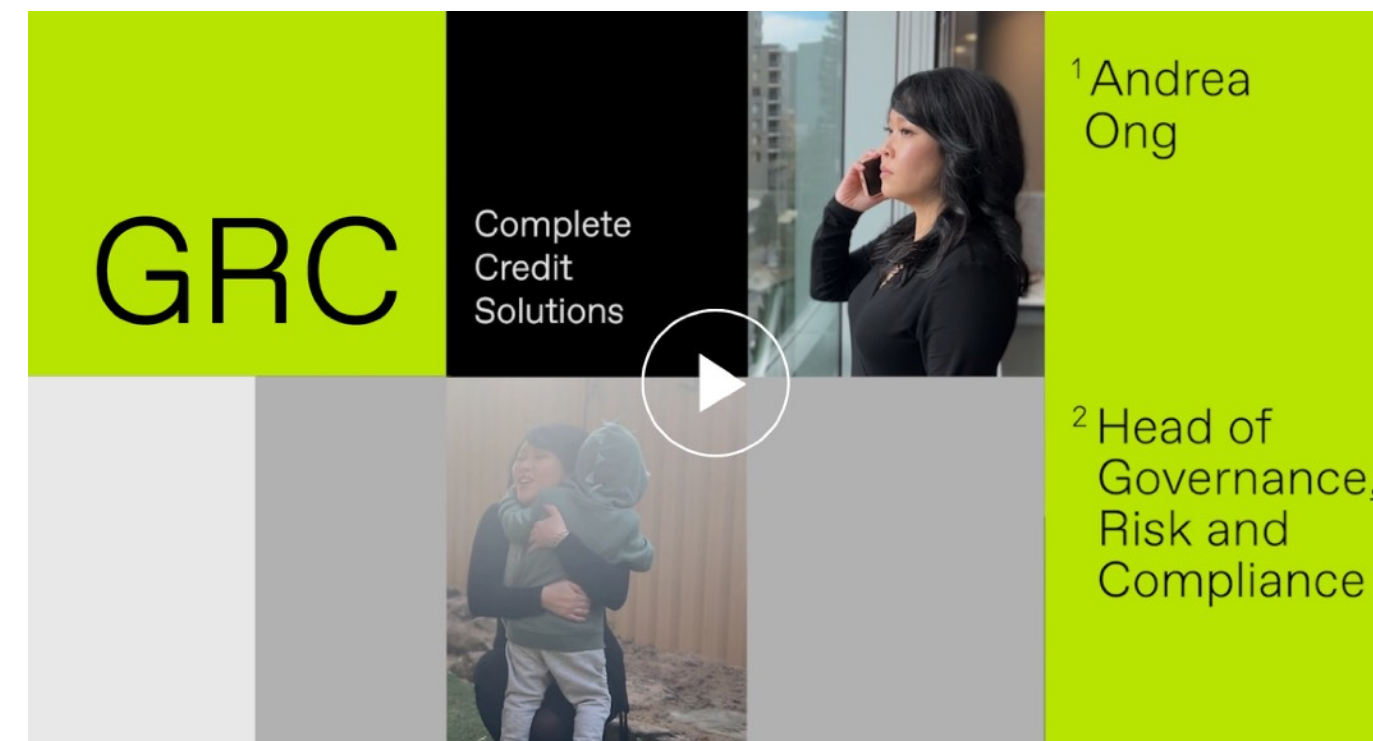

## The solution

Ansarada GRC is a leading GRC solution that helps organisations of all sizes - from 10-person startups to 10,000 employee corporations - manage GRC more effectively. It's a long-term, user-friendly solution designed to adapt and scale based on the growth of your organisation and your evolving GRC program.

# ESG - Sustainability management software

## The problem

The overwhelming demand for sustainability reports, the maze of compliance, the unexpected breadth of ESG considerations – from carbon emissions to cybersecurity – it's enough to leave even the most steadfast leader feeling adrift and uncertain. Embarking on an ESG journey can feel like diving into a sea of complexity, acronyms, and confusion. ESG is no longer optional, but a challenge waiting to be solved. The question is, how can businesses uncover the simplest, most effective, and cost-efficient way to navigate these uncharted waters?

## The solution

Ansarada helps businesses grow purposefully. Our Sustainability Management Platform transforms the complexities of sustainable practices into a clear and confident path forward. We bring order to the chaos, enabling companies to align with leading sustainability frameworks, deliver impact through innovation, bring people on the journey, and ultimately create long lasting value.
