"The retention and extension of our contract with State Bank of India during the half is an important cornerstone in Findi's long-term strategy in India. This contract establishes the foundation for Findi to build greater scale, develop a broader service offering and strengthen its competitive position going forward.

**ASX ANNOUNCEMENT: FND  
Operational Highlights**

During the half, Findi secured a 10-year contract with State Bank of India (SBI) that will generate revenue up to \$620 million through the Company deploying 4,219 ATMs across India.

The Company has been providing ATMs for SBI through a third-party outsourcing contract since 2016, which was due to expire in December 2023. The Company will now contract directly with SBI, India's largest bank. The ATMs will largely be at the existing service sites eliminating the initial time required to ramp up customer transaction volumes and with the current third-party contract continuing in the interim.

Findi is now one of the largest non-bank ATM operators in the world's most populous country, with a network of 20,500+ ATMs.

Undertaken by Findi's wholly owned subsidiary TSI India, the contract is expected to be 100 per cent funded from the Company's free cash flow and new bank facilities.

***Events Subsequent to 30 September 2023***

Subsequent to the end of the reporting period, Findi announced that its Indian subsidiary, Transaction Solutions International (India) Pvt Ltd (TSI India) had raised \$37.6 million via the placement to leading Indian investment group, Piramal Alternatives (Piramal) of Compulsory Convertible Debentures (CCD), which are compulsorily convertible to equity at IPO (refer to ASX announcement of 15 November 2023).

The entry equity valuation reflects a pre-IPO market capitalisation of \$153.0 million (post money \$190.6 million) ahead of TSI India's intended listing on the Bombay Stock Exchange.

The funds will be used to accelerate the execution of Findi's strategic imperatives including acquisitions, the expansion of the FindiPay digital payments business, the roll-out of white label ATMs (subject to approval from the Reserve Bank of India) and further transactions to scale up its merchant and ATM network.

**FY24 Outlook & Guidance**
