

## Beonic secures new debt financing

SYDNEY, AUSTRALIA, 25th January 2024 – Beonic Limited (ASX:BEO) (Beonic or the Company), the world's leading provider of IoT solutions to Airports and Retail, advises that it has secured a loan facility ('the Facility') of USD \$2.1 million (~AUD\$3m) with Blue Venshures SPV 1 LLC ('Blue Venshures'). Funds from the Facility will be utilised in growth and restructuring initiatives and for general working capital purposes.

The Facility will replace the \$1.8 million loan Beonic previously had with Export Finance Australia, which had financial covenants that required a minimum of \$3 million cash at bank during the loan facility at the end of each quarter. The Facility with Blue Venshures has no financial covenants and as such provides Beonic with improved capital flexibility.

**Beonic CEO Billy Tucker said,** "The Facility provided by Blue Venshures secures our finances and provides sufficient working capital and a more flexible financing facility to execute on our growth strategy. I would like to take the opportunity to thank Export Finance Australia for their support of the Company. I am incredibly excited by Beonic's future, following the recent contract wins secured with Abu Dhabi Airport and JFK International. Having only recently commenced at Beonic, I am impressed with the opportunities within the business and I am happy to contribute to the facility along with our Chair, Bob Alexander, and other senior executives in order to help provide the capital flexibility we require to drive improved financial performance and deliver returns to our shareholders."
