Deferred revenue contracted of \$19.1m end of Q2 with the majority to be recognised over the next 12 months. Additional work is underway to make ESG and GRC product suites competitive in the market. Overall sales pipeline and new customer wins lay the foundations for continued growth and positive cash flow in FY24 and beyond.
 - ARR target \$100m with continued disciplined execution of strategy to build scale in \$52bn addressable market¹⁰ to drive high-quality recurring revenues, sustainable growth and operating leverage

Ansarada Group Limited (ASX: AND), a global information governance software provider, is pleased to report on its quarterly activities and cash flows for the three-month period to 31 December 2023.

Sam Riley, CEO said, "Q2's results demonstrate Ansarada's momentum. We grew revenue by 10%, deferred revenue was up 14% and customer growth increased by a record 125%.

The consistent execution of our growth strategy is delivering these returns. In addition to improving M&A deal activity, ARR was up 7% and ARR from Deal use cases increased by 15%. We are well placed to capture an uplift in deal activity as and when this occurs.

Q2 adjusted EBITDA was \$3.0m. The renewal of Government contracts, and strong cash collections helped cash flow from operations to rise to \$5.7m. With our continued focus on operational efficiency, free cash flow was up 188% to \$3.6m. We ended the calendar year with a healthy balance sheet with \$24.6m of cash in the bank and no debt.

Ansarada's competitive position is also strengthening. New wins in Q2 were up 20% on the prior year. In line with our strategy to scale our digital channel, 73% of these new clients came from digital acquisition, an uplift of 56% compared to the prior year.

We also adjusted prices on new wins from October onwards, which was the first price increase we've implemented for several years. ARPA overall increased by 15% in the quarter vs pcp. Encouragingly, win rates did not reduce following the price adjustment. The adjustment will continue to positively influence ARPA as the year progresses.

Procure secured a major multi year contract extension with Sydney Metro, Australia's biggest public transport project (not included in ARR reporting), and the team have a number of exciting domestic and international opportunities in the pipeline.

Work is underway to address the competitiveness and product fit of our GRC and ESG solutions. While the long-term outlook remains attractive, these issues are impacting delivery timelines and the generation of meaningful revenue growth and scale in the short term.

Our momentum has continued into January, and we have a confident outlook for 2H FY24. With positive cash flows and a robust financial position, we can continue to invest in early stage products, pursue the significant growth opportunities ahead of us and maintain the optionality to deliver increased profits.

	Q2FY23	Q2FY24	% variance

Operational Performance

The Group saw a 125% increase in pro forma customer numbers compared to Q2 FY23, with total customer numbers reaching 13,691. Subscription customers ended 2,678, up 4% YoY driven by challenging macroeconomic conditions in M&A specifically, affecting new win volumes vs prior year.

Our e-commerce customer acquisition channel continued to improve its key metrics from acquisition to conversion, delivering +107% customer growth YoY. With a fast payback on customer acquisition costs and a strong balance sheet, we are well placed to continue scaling in FY24.

During the quarter, revenue reached \$14.5 million, 10% YoY. The Group's LTM revenue increased 5% vs LTM December 2022.

In addition to our customer growth, ARPA increased 15% YoY from \$1,352 in Q2 FY23 to \$1,551 in Q2 FY24.

Deferred revenue contracted increased to \$19.1m at the end of Q2 FY24, up 14% YoY, with the majority to be recognised over the following 12 months which provides confidence for continued financial performance.

The Group continues to build revenue scale and self-fund its growth with market-leading Deals and Procure software solutions, with emerging growth from GRC and ESG solutions. We have an attractive large global customer base and established acquisition channels that contribute to a high quality revenue profile.

The Group's cash flow balance increased to \$24.6 million as at December 31, 2023, driven by positive \$5.7 million in cash flow from operations. Cash flow from operations less capex (free cash flow) was positive in Q2 at \$3.6 million.

Cash Flow from Operations

The Group has a significant cash balance and no debt and expects to continue to self-fund its growth strategy and continue generating positive cash flows through FY24. Cash flow from operations increased to \$5.7m in Q2 FY24, up from \$2.1m in Q2 FY23.

Financial Summary

During the quarter, the Group recorded cash receipts from customers of \$16.2 million, up 5% YoY.

Cash payments during the quarter were primarily directed towards staff costs (\$5.6 million), research & development (\$0.1 million), product and operating costs (\$1.5 million), advertising & marketing (\$1.8 million) along with administration & corporate costs (\$1.7 million). Net operating cash flows for the quarter were \$5.7 million.

The Group's closing cash balance was \$24.6 million as at 31 December 2023.

The Group funded operations through operating cash flows and cash reserves and will be strategically investing in growth initiatives in line with the Group's stated objectives in the prospectus relating to capital and growth. Additionally, Ansarada remains open to pursuing strategic, technologically aligned, and culturally compatible acquisitions to accelerate growth.

Outlook - growth and continued cash flow positivity in FY24

Improving M&A market activity drives Deal volumes as we progress building new recurring revenue streams in new less economically sensitive markets.

We will continue our focus on efficiency, maximising digital strengths, improving conversion rates, recurring revenue and our strong Procure pipeline.
