December 2023 Quarterly Activities Report

The maiden 2,500m diamond drilling program undertaken at the highly prospective the Gorge Lithium Project in Ontario, Canada with visual spodumene observed across campaign and laboratory assays pending. Key strategic and operational milestones were achieved during the quarter, outlined below.

HIGHLIGHTS

- Diamond drilling undertaken at the Gorge Lithium Project with for a program of 2,500m with spodumene bearing pegmatites encountered in several holes drilled
- Drill program currently awaiting assays for approximately 180 samples
- Clearing and stripping work undertaken in preparation for the drill program reveals previously unmapped pegmatites and extensions to some known pegmatite occurrences at Gorge, further underlining the project's potential
- Balkan remains committed to evaluating new project opportunities
- Mr Karl Simich appointed Non-Executive Chairman

Balkan Mining and Minerals, Managing Director, Ross Cotton commented:

"The maiden diamond drilling activity conducted at our flagship Gorge Lithium Project in Ontario, Canada has revealed a widespread and prolific pegmatite hosted spodumene geology. We eagerly anticipate assays from the 2,500m program which will inform our next steps in advancing this exciting lithium-focused opportunity."

Whilst we remain extremely upbeat on the prospectivity of Gorge, the Board is continually reviewing opportunities to improve and diversify our project portfolio and will advise our shareholders of any new potentialities if and when appropriate."

Balkan Mining and Minerals Ltd (ASX: BMM; "Balkan", "BMM" or "the Company") provides the Company's quarterly activities report for the three months ended 31 December 2023 ("Quarter").

Balkan
Mining and Minerals Limited

ASX ANNOUNCEMENT

31 January 2024

Gorge Lithium Project (Ontario, Canada)

During the quarter, Balkan primarily focussed on exploration activities associated with the Company's Gorge Lithium Project in Ontario, Canada.

In October, Balkan announced that visual spodumene mineralisation had been observed in the first holes drilled at the Nelson pegmatite occurrence at Gorge (refer to **ASX Announcement dated 16 October 2023**). As the program was progressed, spodumene mineralisation has been visually identified in 8 of the first 10 holes completed in the program at both the Nelson and Koshman pegmatite prospects (refer to **ASX Announcement dated 12 December 2023**). The Company currently awaits assays on approximately 180 samples taken from the program and will inform the market as they come to hand.

The stripping and clearing associated with drilling preparation exposed extensions to known pegmatite occurrences at surface with the Nelson pegmatite strike now extending more than 200m. In addition, a new pegmatite dyke north east of Nelson, SP-23-2 was revealed to extend some 50m in strike length with widths at surface ranging from 2.6-5m thick and visual spodumene between 5-15% content.

The diamond drilling program was briefly paused during October after the observation of the traditional hunting season of the region's First Nation peoples. Shortly after the resumption of drilling, the Company took the decision to engage global drilling house Major Drilling Group International Inc to complete the program with a fit-for-purpose drill rig which led to substantial improvements in drilling rates and efficiency.

Whilst Balkan is awaiting the assays from the diamond drilling program, the Company notes that the most recently reported drilling included hole KS-23-009, which encountered 16.8m of spodumene mineralisation from 5.8m depth.

During the quarter, the Company made the payment of AU\$60,000 cash and AU\$100,000 in BMM shares to the vendor of the Gorge Lithium Project to move to 50% beneficial ownership of the project (for full details, refer to **ASX Announcement dated 4 July 2022**).

At a local level, Balkan continues to engage with relevant stakeholders including First Nations communities, land holders and regulatory agencies and authorities.

Ex-Gorge Canadian Projects

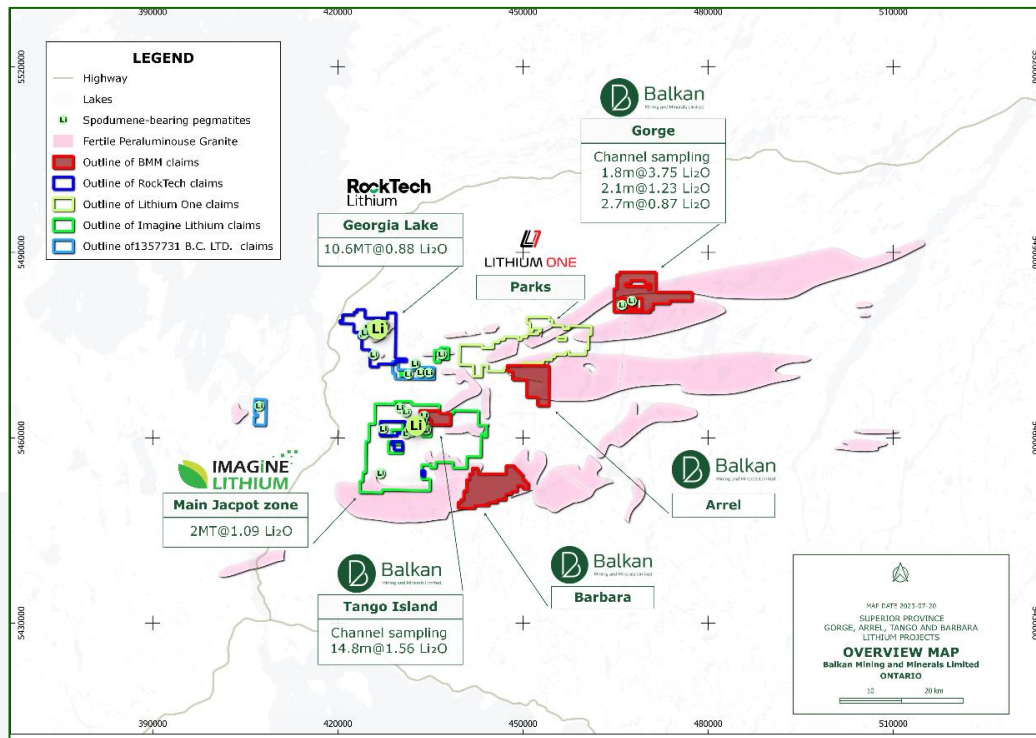

Figure 1 – BMM's Ontario Projects Location Map

During the quarter, the Company continued its analysis of data collected on its expanded Canadian project portfolio (Tango, Arrel, Corvette North & Northwest projects). The Company has continued its planning for the proposed follow-up field work programs on high priority targets identified at the Tango Project, where the Company made the payment of CA\$25,000 in cash and CA\$75,000 in BMM shares to retain the exclusive option to move to 100% ownership of the project (for full details, refer to **ASX Announcement dated 31 October 2022**). The Company also continued preliminary exploratory works on the Barbara Lake, Arrel and Corvette North and Northwest Projects.

ASX ANNOUNCEMENT

31 January 2024

Serbian Lithium-Borate Projects (Serbia)

The Company announced in September 2022, following the deferral of its planned drilling program at its Rekovac project due to events that were announced by an international copper producer operating in Serbia, and potentially inflammatory social media posts regarding the Company's operations, the Company continues to engage with relevant authorities with regards to BMM's Serbian activities and continues monitoring the situation impacting the Serbian mining sector.

Business Development

Consistent with the Company's objectives, further strategic opportunities were regularly reviewed during the quarter.

Further value accretive opportunities in critical minerals have continued to be assessed in-line with the Company's strategic objectives. BMM continues to believe that the long-term outlook for these minerals, especially in the North American and European markets, remains strong.

Corporate

In October, the Company advised the appointment of Ms Melanie Ross as Company Secretary and Mr Simon Acomb as Chief Financial Officer and Joint Company Secretary following the resignation of Mr Harry Spindler.

Shortly after the Company's AGM, which was held on 29 November 2023, Mr Sean Murray advised of his intention to retire from the Board, with Mr Karl Simich moving into the Non-Executive Chairman's role after serving as a Non-Executive Director since February 2023.

The Company wishes to thank Sean and Harry for their valuable service and contribution.

ASX Listing Rule Disclosures

Exploration Expenditure

In accordance with ASX Listing Rule 5.3.1, the Company spent \$838,000 on exploration work during the quarter, which comprised of assays, drilling and field work.

Competent Persons Statement

The information that relates to Exploration Targets or Exploration Results is based on information compiled by Mr Dejan Jovanovic, a Competent Person who is a Member of the European Federation of Geologists (EurGeol). The European Federation of Geologists is a Joint Ore Reserves Committee (JORC) Code 'Recognised Professional Organisation' (RPO). An RPO is an accredited organisation to which the Competent Person under JORC Code Reporting Standards must belong to report Exploration Results, Mineral Resources, or Ore Reserves through the ASX. Mr Jovanovic is the General Manager of Exploration and is a full-time employee of the Company. Mr Jovanovic has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the JORC 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' (the JORC Code 2012).

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements.

The Company confirms that the form and context in which the Competent Persons' findings are presented have not been materially modified from the original market announcements.

Forward-looking Statements

Certain statements included in this release constitute forward-looking information. Statements regarding BMM's plans concerning its mineral properties and programs are forward-looking statements. There can be no assurance that BMM's strategies for developing its mineral properties will proceed as expected. There can also be no assurance that BMM can confirm the presence of additional mineral resources, that any mineralisation will prove to be economic or that a mine will successfully be developed on any of BMM's mineral properties. The performance of BMM may be influenced by several factors outside the control of the Company and its Directors, staff, and contractors.

These statements include, but are not limited to, statements regarding future production, resources or reserves and exploration results. All such statements are subject to certain risks and uncertainties, many of which are difficult to predict and generally beyond the Company's control, which could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. These risks and uncertainties include, but are not limited to: (i) those relating to the interpretation of exploration sample, mapping and drill results, the geology, grade and continuity of mineral deposits and conclusions of economic evaluations, (ii) risks relating to possible variations in reserves and resources, grade, planned mining dilution and ore loss, or recovery rates and changes in project parameters as plans continue to be refined, (iii) the potential for delays in exploration or development activities or the completion of feasibility studies, (iv) risks related to commodity price and foreign exchange rate fluctuations, (v) risks related to failure to obtain adequate financing on a timely basis and on acceptable terms or delays in obtaining governmental approvals or in the completion of development or construction activities, and (vi) other risks and uncertainties related to the company's prospects, properties and business strategy.

Except for statutory liability, which cannot be excluded, each of BMM, its officers, employees, and advisors expressly disclaim any responsibility for the accuracy or completeness of the material contained in these forward-looking statements and excludes all liability whatsoever (including in negligence) for any loss or damage which any person may suffer as a consequence of any information in forward-looking statements or any error or omission. BMM undertakes no obligation to update publicly or release any revisions to these forward-looking statements to reflect events or circumstances after today's date or to reflect the occurrence of unanticipated events other than required by the Corporations Act and ASX Listing Rules. Accordingly, you should not place undue reliance on any forward-looking statement.
