About Spenda

Spenda Limited (ASX:SPX) offers a unique payments solution to remove friction across a closed loop and decentralised marketplace, such as franchise networks, member organisations or agricultural supply chain networks. Spenda's payments solution has three components - Software, Payments & Lending - and enables end-to-end e-invoicing integration, rapid ordering, digital trust and automated reconciliation.

Spenda creates an industry standard operating environment (SOE) that enables the effective and seamless transfer of data from multiple, disparate software systems in one standardised technology solution. Spenda's ability to analyse and understand payment flows throughout these networks enables the Company to offer customised financing solutions to clients, in order to improve their working capital efficiency and cash utilisation throughout their operations. For more information, see <https://spenda.co/investor-centre/>

This announcement has been authorised by the Company Secretary.
