## 1. OVERVIEW OF PROPOSED TRANSACTION

### 1.1. Background to Proposed Transaction/Agreement

On 3 January 2024, Strike announced that it had entered into a Share and Asset Purchase Agreement (**Agreement**) with certain parties including Miracle Iron Holdings Pty Ltd (**Miracle**) for the sale of 100% of the shares in wholly-owned subsidiary, Strike Iron Ore Holding Pty Ltd (**SIOPL**) in consideration of a cash purchase price of A\$20.5 million (the **Proposed Transaction**).<sup>1</sup>

SIOPL is the parent of Paulsens East Iron Ore Pty Ltd (**PEIOPL**), the owner of Strike's Paulsens East Iron Ore Project located in the Pilbara, Western Australia (**Paulsens East**). Further details regarding Paulsens East are set out in Annexure D.

Strike will receive A\$20 million on completion with A\$0.5 million deferred consideration payable by Miracle on 30 June 2024.

In connection with the proposed disposal of Paulsens East and subject to the grant of the exploration licence and receipt of any required ministerial approval under the *Mining Act 1978 (WA)*, Strike has also agreed to transfer Exploration Licence E47/5055 (currently an application for an exploration licence pending grant located ~20kms from Paulsens East) to Miracle for nominal consideration.

As detailed in section 1.7.1 below, Strike will apply part of the sale proceeds to fully discharge the US\$7.2 million loan owed to Good Importing International Pty Ltd (**GII**) (**GII Loan**),<sup>2</sup> with the remaining proceeds intended to be applied towards the advancement of Strike's Apurimac Iron Ore Project in Peru (**Apurimac**) and for working capital purposes. Further details regarding Apurimac are set out in Annexure E.

In addition, under the Agreement, GII has agreed to terminate the marketing agency and offtake arrangements granted to GII in respect of Apurimac<sup>3</sup> and Paulsens East<sup>2</sup>, in consideration for:

- Strike transferring either directly or indirectly a 20% interest in Apurimac Ferrum S.A.C. (**AF**), the owner of Apurimac, to JE United Ltd (**JEL**) (a nominee/associate of GII); and
- payment of A\$2 million by Miracle to GII at completion under the Agreement.

2 Refer Strike's ASX Announcements dated 28 February 2022: Funding Secured and Production to Commence at Paulsens East Iron Ore Project, 16 December 2022: Update on Paulsens East Project Financing and 4 April 2023: Further Update on Paulsens East Project Financing

3 Refer Strike's ASX Announcement dated 14 April 2021: Peru Iron Offtake Agreement Signed with US\$2 Million Prepayment

Miracle had also requested the cancellation of the Orion Royalty<sup>4</sup> that is payable to CXM Pty Ltd (**CXM**) for iron ore produced from Paulsens East (with CXM being a wholly-owned subsidiary of Orion Equities Limited (ASX:OEQ)) and CXM has agreed to do so on the following terms (under the Agreement):

- (a) CXM agrees to terminate and provide releases to Miracle (as the purchaser of Paulsens East) under the Orion Royalty; and
- (b) Miracle agrees to pay \$2 million (with a further \$3 million payment deferred to 30 June 2024) to CXM as consideration for the termination of the Orion Royalty.

CXM's entitlement under the Orion Royalty stems from Orion's sale of a portfolio of tenements (including the Paulsens East tenements) to Strike in September 2005.<sup>4</sup>

A \$2 million deposit has been paid by Miracle in accordance with the terms of the Agreement. This deposit is retained by Strike in certain circumstances or will be applied towards the (\$20 million) purchase price at completion.

Completion of the Agreement is conditional on receipt of Strike shareholder approval under the Listing Rules and no regulatory step being initiated that could prevent the contemplated transactions under the Agreement from proceeding.

A summary of the key terms of the Agreement is set out in Annexure B.

## 1.2. Background to Application of the ASX Listing Rules

ASX has confirmed that Listing Rule 11.2 applies to the proposed disposal of Paulsens East pursuant to the Agreement.

A disposal by a listed entity of its main undertaking can raise issues under Listing Rule 12.1 and 12.2, which obliges a listed entity to satisfy ASX on an ongoing basis that the level of its operations is sufficient, and its financial condition adequate, to warrant its continued quotation of its securities.

ASX has advised that:

- (a) in accordance with paragraph 4.7 of Guidance Note 12 (Significant Changes to Activities), Strike will be afforded a period of 6 months from the date of the Agreement (being 22 December 2023) to demonstrate to the ASX that it is compliant with Listing Rule 12.1; and
- (b) it will suspend trading in Strike's securities if Strike has not demonstrated compliance with Listing Rule 12.1 to ASX's satisfaction at the end of the 6-month period (being by 21 June 2024).

Following completion of the Agreement, the Company intends to focus on the advancement of Apurimac as the Proposed Transaction (as set out further below) provides a number of strategic benefits in respect of Apurimac, including the early termination of GII's offtake rights and the discharge of the GII Loan. Strike considers that the increased focus on the advancement of Apurimac will provide a sufficient level of operations to justify the continued quotation of its securities.

If Strike is unable to satisfy ASX in relation to Listing Rule 12.1, ASX will suspend trading in Strike's securities (from Monday, 24 June 2024). Strike will remain suspended from ASX until it undertakes an acquisition and re-complies with Chapters 1 and 2 of the Listing Rules, which will involve, amongst other matters, the issue of a prospectus and making a fresh application for admission to ASX). There is a risk that Strike will be suspended from ASX in June 2024 and may not be reinstated to ASX (for a significant duration or if at all) causing Shareholders will lose the opportunity to sell their shares on-market on ASX.

<sup>4</sup> Refer to the following ASX announcements: Orion's announcement dated 23 September 2005: CXL Retains a 25% Free Carried Interest in NT Uranium Tenements, Strike's announcement dated 20 September 2005: Acquisition of Uranium Tenements and Strike's announcement dated 11 August 2008: Acquisition of Outstanding Interests in Berau Coal and Paulsens East Iron Ore Projects.

As a result of Strike having disposed of its main undertaking for the purpose of Listing Rule 11.2, Listing Rule 11.1.3 is likely to apply to any future acquisition by Strike, which may require Strike to re-comply with Chapters 1 and 2 of the Listing Rules.

### 1.3. Rationale for Proposed Transaction

Given prevailing market conditions, Strike's significant (US\$7.2 million) liability owed to GII and the significant financial requirements both with respect to the start up costs of mining operations together with the ongoing operating costs of iron ore projects in Australia (including ongoing working capital requirements), the Board believes that it is in the best interests of Shareholders to dispose of its interest in Paulsens East on the terms negotiated under the Agreement.

The Company notes that previous mining operations conducted at Paulsens East involved the mining of detrital iron ore which required a lower level of capital investment than that required to commence full scale production of iron ore from the main deposit on the hematite ridge at Paulsens East (refer Annexure D).

The Company has recognised the current market price for iron ore but also recognises the significant financial costs of commencing production relative to the available capital of the Company (inclusive of the GII loan liability), the time involved in commencing production to achieve economic production rates together with the significant volatility in iron ore prices. Taking these factor into account, the Company has determined to enter into the Proposed Transaction.

The sale of Paulsens East represents strategic benefits to Strike, including the following:

- (a) Strike will receive significant cash consideration (A\$20 million less the ~A\$11 million (US\$7.2 million) to discharge the GII Loan) plus an additional A\$0.5 million deferred cash consideration receivable on 30 June 2024;
- (b) Strike will clear a significant liability (~A\$11 million (US\$7.2 million)) under the GII Loan and quarterly interest payment obligations (at 10% per annum) will no longer be required;
- (c) Strike will accordingly not be required to consider alternative methods of meeting its obligations under the GII Loan, including the further sale of shares it holds in Lithium Energy or a capital raising; and
- (d) the improved working capital position will assist with the potential resumption of iron ore mining operations at Apurimac.

The disposal of a 20% interest in Apurimac to JEL also provides strategic benefits to Strike, including the following:

- (a) GII's offtake rights for 100% of the iron ore mined from Apurimac will be terminated ahead of its expiry on 31 August 2025, providing flexibility in relation to either the sale of Apurimac or the potential resumption of mining operations (and the sale of iron ore to local/other parties) at Apurimac and the obtaining of project financing for the same;
- (b) as a shareholder in AF, JEL will be called upon to contribute its share of funding towards the ongoing ownership costs of Apurimac and the development of Apurimac including the potential resumption of iron ore mining operations; and
- (c) post-completion, Strike will continue to retain an 80% interest in Apurimac and will, as the majority controlling interest, effectively maintain management control of Apurimac and its operations.

### 1.4. Overview of the Buyer

Miracle Iron Holdings Pty Ltd is a Perth based private company owned by Mr Chuanshui (Frank) Yin (who is the sole director and secretary).

Mr Yin has been active in developing Sino-Australia business ventures in the mining sector and has facilitated a number of negotiations between Chinese and Australian parties in mining development investments and off-take agreements. Mr Yin was also the Director and Chief Executive Officer (2012 - 2018) of Ishine International Resources Limited (former ASX:ISH), a

minerals exploration company with gold and copper projects in Western Australia, South Australia and Queensland.

Strike is satisfied in relation to Miracle's financial capacity to complete the transactions contemplated under the Agreement, after having completed due diligence on Miracle and Mr Yin, negotiating a significant A\$2 million deposit (non-refundable in certain circumstances and which has been received by the Company) and having sighted Miracle's bank account statement showing sufficient funds at call to fund Miracle's payment obligations at completion.

### 1.5. Financial Effects of Proposed Transaction

Strike's financial position before (as at 30 June 2023) and (pro-forma) after completion of the Proposed Transaction, is set out in Annexure C.

There is no change to the capital structure of Strike as a consequence of completion of the transactions contemplated in the Agreement.

### 1.6. Advantages and Disadvantages of Proposed Transaction/Agreement

The Directors consider that the following non-exhaustive list of advantages and disadvantages may be relevant to a shareholder's decision on how to vote on Resolution 1:

Advantages	Disadvantages
<p>(a) Refer to the strategic benefits outlined in Section 1.3 (Rationale for Proposed Transaction).</p> <p>(b) Strike will realise an upfront and certain value (in cash) for its investment in Paulsen East.</p> <p>(c) Strike will avoid incurring significant capital expenditure and exposure to development and market risks (associated with iron ore prices and foreign exchange rates) associated with the development of Paulsens East into production.</p> <p>(d) Strike will avoid the risk of dilution and other risks normally associated with a significant capital raising that may be required to fund the development of Paulsens East into production.</p> <p>(e) Strike will avoid the expenditure required to advance the development of Ashburton Link prior to receipt of regulatory approvals and the consortium members (Strike, CZR and CSL) securing financing (equity and or debt) and making a 'final investment decision' to proceed with development.</p> <p>(f) The disposal of Paulsens East provides an opportunity for Strike to remove the risks associated with Paulsens East.</p> <p>(g) Strike's net assets and total liabilities position will be significantly improved by the cash injection and the discharge of the GII Loan</p>	<p>(a) Strike will be disposing of its ownership of Paulsens East and will no longer be exposed to the project and potential iron ore production in Western Australia. Strike will also be focussing on its Apurimac Project in Peru. These changes may not align with the investment objectives or risk profile preferences of Shareholders.</p> <p>(b) Strike will not be able to realise potential future operating revenues attributable to Paulsens East (notwithstanding that significant capital expenditure and working capital would be required to bring Paulsens East into production).</p> <p>(c) Shareholders will forgo the opportunity to participate in any upside associated with Paulsens East.</p> <p>(d) After completion of the Agreement, Strike will forgo the opportunity to sell Paulsens East on superior terms (than that negotiated with Miracle under the Agreement) in the foreseeable future.</p> <p>(e) The consequence of completion of the Proposed Transaction is that ASX has determined that Strike will be selling its main undertaking and therefore be required by ASX, within a period of 6 months from the date of the Agreement (ie. by on or about 21 June 2024) to demonstrate to the ASX that the level of its operations is sufficient, and its financial condition adequate, to warrant its continued quotation of its securities,</p>

Advantages	Disadvantages
<p>(h) Strike will gain the potential upside with retaining its shares in Lithium Energy (and its lithium project in Argentina and graphite project in Queensland), as opposed to selling shares at current prices to provide working capital to develop Ashburton Link/Paulsens East, pay the GII Loan interest and principal amounts and meet corporate overheads.</p> <p>(i) Shareholders will retain an exposure to the iron ore sector via Apurimac with improved flexibility and increased cash funds (and no liabilities) to advance the development of Apurimac.</p>	<p>or risk being suspended from trading by ASX. If Strike is unable to satisfy ASX in this regard at this time, Strike will remain suspended until it undertakes an acquisition and re-complies with Chapters 1 and 2 of the Listing Rules (which will involve, amongst other matters, the issue of a prospectus and making a fresh application for admission to ASX). There is a risk that Strike will be suspended from ASX in June 2024 and may not be reinstated to ASX (for a significant duration or if at all) and Shareholders will lose the opportunity to sell their shares on-market on ASX.</p> <p>(f) Shareholder' exposure to Apurimac will be diluted by the 20% (direct or indirect) interest in AF granted to JEL.</p> <p>(g) There is no assurance that Strike will be able to realise a return on its investment in advancing the development of Apurimac.</p> <p>(h) There is no assurance that Strike will avoid the risk of dilution and other risks normally associated with a capital raising that may be required to fund the development of Apurimac if the capital required to develop Apurimac is greater than the available working capital of Strike post completion of the Proposed Transaction.</p> <p>(i) There may not be any upside in retaining Lithium Energy shares or exposure to its lithium project in Argentina and graphite project in Queensland, in that Lithium Energy's shares may decline in value in the future.</p>

## 1.7. Company Intentions Post-Completion

### 1.7.1. Use of Proceeds

Under the terms of the Agreement, Strike is entitled to receive A\$20.5 million cash from Miracle under the Agreement, comprising \$A20 million to be paid at completion of the Proposed Transaction and A\$0.5 million payable as deferred consideration on 30 June 2024.

This deposit is retained by Strike in certain circumstances or will be applied towards the (A\$20 million) purchase price at completion

Strike will apply part of the sale proceeds to fully discharge the US\$7.2 million (approximately A\$11 million) GII Loan on completion.

The remaining sale proceeds (approximately \$9 million) is intended to be applied towards the advancement of Apurimac (refer to section 1.7.2 below) and for working capital purposes.

**1.7.2.Future Activities and Business Model**

If Shareholders approve Resolution 1 and the Proposed Transaction is completed under the Agreement, Strike will continue to advance the development of Apurimac, including:

- (a) continuing to investigate the resumption of iron ore shipments at Apurimac, including:
  - (i) undertaking negotiations with potential purchasers of iron ore, local miners, service providers and potential funding partners; and
  - (ii) engaging with local miners, mining services providers, local community groups and leaders;
- (b) subject to various matters, including those set out in paragraph (a) above, resuming mining operations (and the sale of iron ore to local/other parties) at Apurimac;
- (c) investigating potential value-adding strategies such as procuring approvals to undertake additional resource development drilling, expanding the mineral concession portfolio and updating feasibility studies;
- (d) investigating opportunities to extract other value from Apurimac (as a strategic, large scale, high-grade iron ore deposit) via a sale (partial or whole) or joint venture; and
- (e) investigating opportunities to acquire an interest or interests in complimentary iron ore mineral concessions or assets given the investment identification, exploration and project development skills of the Company.

As set out above, the discharge of the GII Loan and the early termination of GII's offtake rights for iron ore mined from Apurimac, provides Strike with additional flexibility in relation to either the sale of Apurimac or the potential resumption of mining operations (and the sale of iron ore to local/other parties) at Apurimac and the obtaining of project financing for the same

It is likely that any future disposal of (a controlling interest in) Apurimac will require prior shareholder approval under Listing Rule 11.2 as a disposal of Strike's main undertaking.

Strike may also pursue other investment opportunities in the resource sector in Australia and overseas – the Board has considerable experience in the exploitation of resource projects (including spin-outs) and Strike may pursue investments in minerals/commodities the Board feels is appropriate for mineral exploration, evaluation and development In a similar manner to that activity undertaken by the Company to acquire and then spin-out its lithium and graphite assets to Lithium Energy Limited (ASX:LEL) in May 2021. It is likely that any future acquisitions by Strike (external to the development of Apurimac) will require Strike to re-comply with Chapters 1 and 2 of the Listing Rules.

Strike also retains its approximately 30.49% interest in Lithium Energy Limited (ASX:LEL) (Lithium Energy), which was spun-out of Strike under a \$9m IPO in May 2021. Lithium Energy is developing battery minerals related assets – the Solaroz Lithium Brine Project in Argentina and the Burke and Corella Graphite Projects in Queensland. Strike's shareholding in Lithium Energy is currently worth \$11.164 million (at \$0.36 per share as at 1 February 2024).

**1.7.3. Corporate Group Structure**

Strike's current corporate group structure is set out in Annexure A,

Upon completion of the Proposed Transaction/Agreement:

- (a) Strike will simplify its corporate structure with the disposal of SIOH – which will also result in the removal of SIOH's 100% shareholding in PEIOPL and SIOH's 25% shareholding in Ashburton Link from the Strike Group; and

- (b) JEL will have a direct or indirect 20% interest in AF, via either:
- (iii) AF issuing new shares to JEL to give JEL a direct 20% interest in AF;
  - (iv) Strike and or SFPL transferring a portion of their existing AF shareholding to JEL to give JEL a direct 20% interest in AF;
  - (v) SFPL issuing new shares to JEL, to give JEL (post-issue) an approximately 41.22% shareholding interest in SFPL, which translates to an indirect approximately 20% interest in AF; or
  - (vi) Strike transferring a portion of its SFPL shares to JEL, to give JEL (post-transfer) an approximately 41.22% shareholding interest in SFPL, which translates to an indirect approximately 20% interest in AF.

#### 1.7.4. Board and Management

Strike's Managing Director, William Johnson, proposes to transition to an Executive Director after the completion of the Proposed Transaction.

Strike may seek to appoint one or more Senior Executives (including but not limited to a Chief Executive Officer or equivalent) to manage the development of Apurimac (as above) and the corporate affairs of the Company.

### 1.8. Indicative Timetable

## 2. ORDINARY RESOLUTION 1 – APPROVE DISPOSAL OF PAULSENS EAST IRON ORE PROJECT

### 2.1. General

This Meeting Document has been prepared to seek shareholder approval for Strike to complete the Proposed Transaction under the Agreement (which includes the disposal of Paulsens East, for the purposes of Listing Rule 11.2 (as Strike's main undertaking)).

### 2.2. ASX Listing Rule 11.2

As set out above, Strike is proposing to dispose of its interest in Paulsens East by way of the sale of 100% of the shares in wholly-owned subsidiary, SIOPL, in consideration of a cash purchase price of A\$20.5 million in accordance with the terms of the Agreement.

Listing Rule 11.2 requires a listed company to obtain the approval of its shareholders to a disposal of its main undertaking. The ASX has determined that the proposed disposal of Paulsens East involves a disposal of Strike's main undertaking for these purposes.

Resolution 1 seeks the required shareholder approval to the Proposed Transaction under and for the purposes of Listing Rule 11.2.

If Shareholders approve Resolution 1:

- (a) subject to satisfaction of the remaining conditions precedent to the Agreement, Strike will be permitted to proceed to complete the Proposed Transaction and dispose of Paulsens East in accordance with the terms of the Agreement and receive total cash consideration of A\$20.5 million;
- (b) subject to satisfaction of the remaining conditions precedent to the Agreement, the ancillary transactions contemplated by the Agreement will proceed to completion, including:
  - (i) the termination the marketing agency and offtake arrangements granted to GII in respect of Apurimac and Paulsens East;
  - (ii) the repayment of the GII Loan and discharge of the associated security arrangements;
  - (iii) the transfer either a direct or indirect 20% interest in AF, the owner of Apurimac, to JEL (a nominee/associate of GII);
  - (iv) the termination of the Orion Royalty;
  - (v) Miracle appointing JEL, on a non-exclusive basis, throughout the world, to provide iron ore marketing and sale services in relation to the sale/export of iron ore from Paulsens East, to Miracle; and
  - (vi) payments being made to GII and CXM as detailed in Annexure B;
- (c) Strike will apply the cash proceeds of the disposal to discharge the GII Loan, with the balance to be applied towards the advancement of Apurimac and for working capital purposes; and
- (d) Strike will have 6 months (ending on or about 21 June 2024) to demonstrate to the ASX that the level of its operations is sufficient, and its financial condition adequate, to warrant its continued quotation of its securities under Listing Rules 12.1 and 12.2.

If Shareholders do not approve Resolution 1:

- (a) Strike will be not able to proceed with the Proposed Transaction;
- (b) the Agreement will likely be terminated, with Strike to refund the A\$2 million deposit received from Miracle;
- (c) Strike may seek to renegotiate the terms and conditions of the Agreement with Miracle (and the other counterparties) on terms that seeks to address Shareholders' material concerns (leading to Resolution 1 not being passed), which may or may not eventuate, or on terms acceptable to the Strike Board;
- (d) Strike will continue to advance the development of Paulsens East and Apurimac, subject to raising funds from the realisation of shares in Lithium Energy and or share capital raisings; and
- (e) Strike will need to raise funds (as above) to pay the (quarterly) interest on the GII Loan and repay the principal on 31 July 2024 (as to 50% of US\$7.2 million (approximately A\$5.5 million)) and 31 October 2024 (as to the balance of US\$3.6 million (approximately A\$5.5 million) plus accrued interest to the date of discharge), or seek to negotiate an extension of repayment terms with GII, which may or may not eventuate, or on terms acceptable to the Strike Board.

### 2.3. Directors' Interests and Recommendations

None of the Directors have a material interest in the outcome of Resolution 1 other than as a result of their interest, if any, arising solely in the capacity as Shareholders.

The Directors have a relevant interest Strike shares (and no other securities) as set out in the following table:

Director	Registered Shareholder	Strike Shareholding	% of Issued Capital
Farooq Khan	Farooq Khan & Rosanna Decampo	1,813,231	0.639%
William Johnson	William Matthew Johnson & Joanne Doris Johnson	349,273	0.123%
Victor Ho	-	-	-
Matthew Hammond	-	-	-

Based on the information available, the recommendation of the Strike Directors and their voting intentions on Resolution 1 are as follows:

- (a) each of William Johnson, Victor Ho and Matthew Hammond considers that the Proposed Transaction is in the best interests of Shareholders and recommends that Shareholders vote in favour of Resolution 1 and intends to vote or procure the voting of any Strike shares that they control in favour of Resolution 1, in the absence of a superior proposal;
- (b) Farooq Khan has determined not to make a recommendation to Shareholders in relation to voting on Resolution 1 given his position as the Executive Chairman of both Orion Equities Limited (which is a party to the Agreement) and Bentley Capital Limited (being the largest shareholder in Strike holding approximately 19.99% of the issued capital of Strike). Mr Khan reserves his position in relation to voting Strike shares that he controls, on Resolution 1.

The Directors have approved the proposal to put Resolution 1 to Shareholders.

The Chairman of the General Meeting will call a Poll on voting on Resolution 1.

## 2.4. Voting Exclusion

In accordance with Listing Rules 11.2 and 14.11.1, a voting exclusion applies to Resolution 1 in the terms set out in the Notice of Meeting.

Without limiting the voting exclusion statement in the Notice of Meeting, the following matters are noted:

- (a) the parties to the Agreement (and their associates) are excluded from voting on Resolution 1, being Miracle, GII, JEL, CXM, Mr Zhoufeng Zhang, Ms Hong Xu and Orion;
- (b) Miracle, JEL and CXM do not currently hold any shares in Strike;
- (c) GII (and its associates, Mr Zhoufeng Zhang and Ms Hong Xu) currently holds 14,924,339 shares (5.26%) in Strike,<sup>5</sup> and will be excluded from voting on Resolution 1;
- (d) CXM is a wholly owned subsidiary of Orion. Orion currently holds 10,000,000 shares (3.52%) in Strike and will be excluded from voting on Resolution 1;
- (e) Bentley Capital Limited (ASX:BEL) (**Bentley**) currently holds 56,739,857 shares (19.99%) in Strike.<sup>6</sup> Orion is taken under section 608(3)(a) of the Corporations Act to have a relevant interest in securities in which Bentley has a relevant interest by reason of having greater than 20% voting power (ie. shareholding) in Bentley. Accordingly, Orion has a deemed relevant interest in 66,739,857 shares (23.51%)<sup>7</sup> in Strike. Bentley will not be excluded from voting its 56,739,857 Strike shares on Resolution 1.
- (f) The Strike Directors' shareholdings in Strike (as above) are not excluded from voting on Resolution 1.

## Pro-Forma Adjustments

The Pro-Forma Statement of Financial Position adopts Strike's audited Consolidated Statement of Financial Position as at 30 June 2023 with a Pro-Forma position based on the completion of the Proposed Transaction under the terms of the Agreement. The following matters are noted in relation to the Pro-Forma Adjustments:

- There is an assumed disposal of SIOH and deconsolidation of SIOH and PEIOPL, resulting in the elimination of assets (Cash, Receivables, Mine development and Plant and equipment) and liabilities (Payables and Provisions) attributable to SIOH and PEIOPL and a gain on disposal (which is accounted for as part of the adjustment to Accumulated losses), as at 30 June 2023;
- The upfront cash consideration is applied to discharge the GII Loan (Borrowings) with the balance recognised in Cash;
- The deferred consideration is recognised as a current Receivable;
- An agency and introduction fee payable to the agent who introduced Miracle to Strike and facilitated the execution of the Agreement and provision for refunds (on post-completion payments made under the PKKP Agreement) to Miracle has also been recognised;
- There is an assumed transfer by Strike of 41 shares in SIOH to JEL (at \$1.00 per share), to give JEL a 41.22% interest in SFPL, which translates to an indirect 20% shareholding interest in AF (as SFPL owns 48.52% of AF) – under the Agreement, Strike has agreed to issue or transfer a direct or indirect 20% interest in AF to JEL, with the final investment structure to be agreed by Strike and JEL.

## ANNEXURE D

## About Paulsens East Iron Ore Project (Pilbara, Western Australia)

(Strike – 100%)

The Paulsens East Iron Ore Project (**Pulsens East**) is located ~235km by road east of Onslow (and the Port of Ashburton) and ~650km by road south of Port Hedland in the Pilbara, Western Australia (refer Figure 1).

Figure 1: Paulsens East Iron Ore Mine Location – Haulage Route to Port of Ashburton

Strike completed a maiden shipment of 66,618 tonnes of iron ore from Paulsens East in September 2022, which involved the mining of surface detrital material to produce Paulsens East Lump direct shipping iron ore (**DSO**), which was exported to China from the Utah Point Multi-User Bulk Handling Facility (**Utah Point**) at Port Hedland. The specifications of this first shipment of Paulsens East Lump DSO are as follows<sup>12</sup>:

Fe	SiO <sub>2</sub>	Al <sub>2</sub> O <sub>3</sub>	P	S	LOI	Moisture
61.96%	5.66%	2.86%	0.077%	0.008%	2.17%	2.32%

<sup>12</sup> Refer Strike's ASX Announcements dated 30 August 2022: First Export Shipment of Paulsens East Lump Iron Ore and Future Operations, 25 August 2022: Maiden Shipment of Paulsens East Lump Iron Ore and Operational Update and 1 August 2022: Maiden 68,000 Tonne Shipment of Paulsens East Lump Iron Ore

Strike is now undertaking Stage 2 Development of Paulsens East, which will involve conventional open pit mining of the Paulsens East hematite ridge, ramping up to an annualised production rate of up to ~1.8 Mtpa, with road train haulage to and export (via transshipment operations) through the Port of Ashburton near Onslow.

### Consortium for Development of Iron Ore Export Facility at Port of Ashburton

Strike (via subsidiary, Paulsens East Iron Ore Pty Ltd), CZR Resources Ltd (ASX:CZR) and transshipment services provider CSL Australia Pty Ltd have entered into a binding Memorandum of Understanding (**MOU**) for the formation of a Port of Ashburton Consortium (**PAC**) to work with relevant authorities to secure approvals for the development of a 5 Mtpa capacity multi-user bulk loading facility for the export of iron ore from the Port of Ashburton, Onslow (the **Port of Ashburton Export Facility** or **Facility**).<sup>13</sup>

The Facility's close proximity to their current and proposed mining operations has the potential to significantly lower trucking costs compared to exporting through Utah Point in Port Hedland. In the case of Strike and its Paulsens East Iron Ore Mine, this involves a trucking distance of ~235km to the Port of Ashburton versus ~650km to Utah Point in Port Hedland (refer Figure 1), significantly reducing trucking costs from mine to port. Both parties believe that combining their export operations through the Port of Ashburton Export Facility provides considerable economies of scale and cost reductions in shipping and transport costs.

CSL Australia is a division of the CSL Group Inc., which is the world's largest owner and operator of self-unloading vessels. CSL Australia currently provides transshipment services for the export of iron ore from Cape Preston in Western Australia and Whyalla in South Australia. CSL has considerable experience in the loading and transportation of bulk materials including iron ore and has agreed to join the PAC as a part-owner of the Port of Ashburton Export Facility and to provide transshipment services to Strike and CZR.

Strike's participation and ownership interest is 25% (CZR – 50% and CSL – 25%). Strike will have a one-third share of the (proposed (minimum) 5 Mtpa) export capacity from the Port of Ashburton Export Facility. The PAC has incorporated Ashburton Link Pty Ltd (**Ashburton Link**) as the proposed operating company with shareholdings reflecting each member's interest in the PAC (as above).

Ashburton Link has recently (November 2023) submitted a Development Application (**DA**) for the Facility with the Pilbara Ports Authority (**PPA**). The DA includes:

- designs for an integrated iron ore export facility at the Port of Ashburton, including road train unloading, storage shed, transshipment vessel (**TSV**) loader and ancillary fixed and mobile infrastructure; and
- the operating parameters and terms of a TSV to be provided by CSL from its existing shipping fleet capable of discharging a minimum annualised capacity of 5 Mtpa of iron ore into cape-size ocean-going vessels (**OGV**) at an offshore transshipment anchorage point off the Port of Ashburton.

The DA, if approved, will, amongst other things, be subject to compliance with PPA requirements and gaining broader stakeholder support.

The Facility will initially focus on exporting DSO lump and fines from Paulsens East and CZR as PAC 'foundation exporters,' with potential for smaller in-fill third-party offtakes to cover gaps in production or opportunities. The Facility will also be developed to be potentially compatible with a range of bulk mineral products to ensure that access covers a broad range of other operations and benefits multiple miners.

The PAC is also finalising the commercial parameters of proposed landside and offshore transshipment operations. Upon the grant of relevant approvals, the PAC members will negotiate necessary agreements for the construction and operation of the Facility and for CSL to provide transshipment services for the export of iron ore from such facility.

**Feasibility Studies**

Strike completed a Pre-Feasibility Study on the Apurimac Project in 2008<sup>19</sup> (subsequently updated in 2010<sup>20</sup>), which indicated the clear potential for development of a world class iron ore project, with competitive capital costs and very low operating costs:

- The 2008 Pre-Feasibility Study undertaken by Snowden Mining Industry Consultants and SKM utilised a proposed slurry pipeline configuration as the preferred transport solution (under the study). For further details, refer to Strike's ASX Announcement dated 23 July 2008: Prefeasibility Results Confirm World Class Prospects in Peru;
- Further infrastructure studies were undertaken by Ausenco Sandwell and SRK Consulting in 2010 with the purpose to further compare the economics of a slurry pipeline versus railway infrastructure solutions at various production levels. For further details, refer to Strike's ASX Announcement dated 23 November 2010: Apurimac Project Update and Strike's December 2010 Quarterly Report.

In 2021, Ausenco completed a (high level) review of the 2008 and 2010 studies and gap and trade-off analyses to identify opportunities to reduce project capex and increase project execution security, taking into account current cost estimates, technology advancements (since 2010) and current/expected market conditions.

Where more than one proxy is appointed, each proxy must be appointed to represent a specified proportion of the shareholder's voting rights. If the shareholder appoints two proxies and the appointment does not specify this proportion, each proxy may exercise half of the votes.
