Gross return is before fees and taxes.

Net return is net of investment management fees, before Company administration costs and taxes.

Between 18 April 2023 and 30 June 2023, the Company's buy back program bought back 1,072,538 shares and between 1 July 2023 and 18 October 2023, the company bought back an additional 3,988,688 shares. At the Company's AGM on 18 October 2023, Shareholders approved for the Company to extend the buy back program to purchase up to 10,174,837 shares. Since the AGM and up to 31 December 2023, the Company bought back a total of 1,951,999 shares at an average price of \$0.99. Between 1 January 2024 and 19 February 2024, the Company has bought back a further 5,248,857 shares at an average price of \$1.06.

The Company's Net Tangible Asset Value (NTA) per share at the end of the period was \$1.0688 before tax and \$1.0940 after tax.

Dividends Paid or Recommended

On 18 August 2023, the Directors declared a fully franked quarterly dividend of 3.5 cents per share which amounted to \$1,787,711 and was paid on 14 September 2023.

On 18 October 2023, the Directors declared a fully franked quarterly dividend of 3.5 cents per share which amounted to \$1,711,885 and was paid on 15 November 2023.

Since the end of the half-year, on 19 February 2024 the Directors declared a fully franked quarterly dividend of 3.5 cents per share to be paid on 18 March 2024.

This dividend is consistent with the Company's policy of paying fully franked dividends to shareholders and raising the dividend over time, provided the Company has distributable profits, franking credits and it is within prudent business practices.

1. General information and summary of significant accounting policies

Morphic Ethical Equities Fund Limited ("the Company") is a publicly listed company, incorporated and domiciled in Australia. The Company was incorporated with the Australian Securities and Investments Commission ("ASIC") on 13 February 2017. The registered office and principal place of business of the Company is Level 11, 179 Elizabeth Street, Sydney NSW 2000.

These condensed interim financial statements are for the half-year ended 31 December 2023, and were authorised for issue by the Directors on 19 February 2024.

The Company's principal objectives are to:

- · deliver investors an ethically screened portfolio;
- · deliver investors superior risk adjusted returns; and
- provide capital growth and consistent income.

The Manager achieves this through a long and short equity strategy focusing on global securities.

The Company primarily invests in global listed securities. It may also invest in cash, unlisted global securities, fixed interest instruments, commodities, credit instruments and currencies through assets, exchange traded funds or other derivatives, including futures, options, forwards and swaps.

A summary of the material accounting policies adopted by the Company in the preparation of the interim financial statements is set out below:

(a) Basis of preparation

These condensed interim financial statements for the half-year ended 31 December 2023 have been prepared in accordance with accounting standard AASB 134 Interim Financial Reporting and the *Corporations Act 2001* in Australia. The Company is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

These condensed interim financial statements do not include all the notes of the type normally included in annual financial statements and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the Company as the full financial statements. Accordingly, these half-year financial statements are to be read in conjunction with the 30 June 2023 annual financial report and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The condensed interim financial statements, except for cash flow information, have been prepared on an accruals basis and are based on historical costs, modified where applicable, by the measurement of fair value of investment assets and liabilities.

The accounting policies adopted are consistent with those applied to the Company's financial statement for the year ended 30 June 2023.

(b) New and revised accounting requirements applicable to the current reporting period

There are no new standards, interpretations or amendments to existing standards that are effective for the first time for the financial period beginning 1 July 2023 that have a material impact on the Company.

(c) New accounting standards and interpretations not yet adopted

Certain new accounting standards and interpretations have been published by the Australian Accounting Standards Board that are not mandatory for the interim period beginning 1 July 2023, and have not been early adopted by the Company. The directors have considered these standards and interpretations and have concluded that they will not have a material impact on the financial report of the Company.

(d) Rounding amounts

In accordance with ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, the amounts in the directors' report and in the financial report have been rounded to the nearest dollar, unless otherwise indicated.

(e) Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, management of the Company is required to make judgements, estimates and assumptions about the carrying amounts of some assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and various other factors that are considered to be relevant, and reasonable under the circumstance. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. The methods used in the valuation of investments are set out in Note 2 to these financial statements. Judgement was also exercised in determining the recoverability of deferred tax assets for the accounting period, with reference to expected market performance.

2. Fair value measurement

The Company measures and recognises financial assets and liabilities at fair value through profit or loss on a recurring basis.

The Company has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

Fair value hierarchy

AASB 13: Fair value measurement requires disclosure of fair value measurements by level of the fair value hierarchy:

- Level 1 measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 measurements based on inputs other than quoted prices included in level 1 that are observable for the asset or liability; and
- Level 3 measurements based on unobservable inputs from the asset or liability.
- (i) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

The Company values its investments and derivatives in accordance with the accounting policies set out in Note 1 to the annual financial statements. For the majority of investments, information provided by independent pricing services is relied upon for valuation of investments.

The quoted market price used to fair value financial assets and financial liabilities held by the Company is the last-traded prices.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

(ii) Valuation techniques used to derive level 2 and level 3 fair value

The fair value of financial assets and liabilities that are not exchange-traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Company would receive or pay to terminate the contract at the end of the reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Company holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Company for similar financial instruments.

The determination of what constitutes 'observable' requires significant judgment by management. Management consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

2. Fair value measurement (continued)

Recognised fair value measurements

The following table presents the Company's financial assets and liabilities measured and recognised at fair value as at 31 December 2023 and 30 June 2023.

As at 31 December 2023	Level 1 \$	Level 2 \$	Level 3 \$	Total \$

Total financial liabilities at fair value		.0,000		.0,000
through profit or loss	-	19,595		- 19,595

(iii) Transfer between levels

Management's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between levels in the fair value hierarchy at the end of the reporting period.

(iv) Fair value measurements using significant unobservable inputs (level 3)

The Company did not hold any financial instruments with fair value measurements using significant unobservable inputs as at 31 December 2023 or at 30 June 2023.

(v) Fair value of financial instruments not carried at fair value

The carrying value of cash and cash equivalents, due to/from brokers, trade receivables and trade payables approximate their fair value because of the short-term nature of the instruments and low credit risk.

The weighted average number of shares used as a denominator in calculating basic and diluted earnings per share is based on the weighted average number of shares during the period.

Basic and diluted earning per share is the same as there are no potentially dilutive securities outstanding as at balance date.

5. Issued Capital

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares held.

Capital risk management

The Company's policy is to maintain a strong capital base so as to maintain investor and market confidence. The overall strategy remains unchanged. To achieve this, the Board of Directors regularly monitor NTA results, investment performance and share price movements. The Board is focused on maximising returns to shareholders with capital management a key objective of the Company. The Company is not subject to any externally imposed capital requirements.

9. Segment information

The Company has only one reportable segment and one industry. It operates predominantly in Australia and in the securities industry. It earns revenue from dividend income, interest income and other returns from the investment portfolio. The Company invests in different types of securities, as detailed at Note 2 Fair Value Measurement.

10. Events subsequent to reporting date

Since the end of the half-year, the Directors declared a fully franked quarterly dividend of 3.5 cents per share to be paid on 18 March 2024.

No other matters or circumstances have arisen since the end of the half-year which significantly affected, or may significantly affect, the operations of the Company, the results of those operations or the state of affairs of the Company in future financial years.

Directors' Declaration

The Directors declare that:

- (a) the financial statements and notes set out on pages 5 to 13 are in accordance with the Corporations Act 2001, and:
 - i) complying with Australian Accounting Standard AASB134 Interim Financial Reporting and the Corporations Regulations 2001; and
 - giving a true and fair view of the financial position of the Company as at 31 December 2023 and of its performance for the financial half-year ended on that date.
- (b) In the directors' opinion there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the directors of the Company.

Independent auditor's review report to the members of Morphic Ethical Equities Fund Limited

Conclusion

We have reviewed the accompanying half-year financial report of Morphic Ethical Equities Fund Limited (the Company), which comprises the statement of financial position as at 31 December 2023, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Company does not comply with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the Company's financial position as at 31 December 2023 and of its financial performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity (ASRE 2410). Our responsibilities are further described in the Auditor's responsibilities for the review of the half-year financial report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Directors' responsibilities for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2023 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
