# 3 Delivering strong results for brands, creators and consumers

## Case Study 1: Hasbro's My Little Pony

Hasbro's My Little Pony hosted a social contest to encourage fans to design their own unique expression of a pony that reflects them. The challenge was to garner sufficient interest and participation from Malaysian parents and kids to join the contest. An influencer activation was put in place to first drive awareness of the social contest and later paired with an online-to-offline (O2O) strategy to maximise impact.

### The Results

**7.0M+**

total audience reached across Meta platforms.

**5.4k**

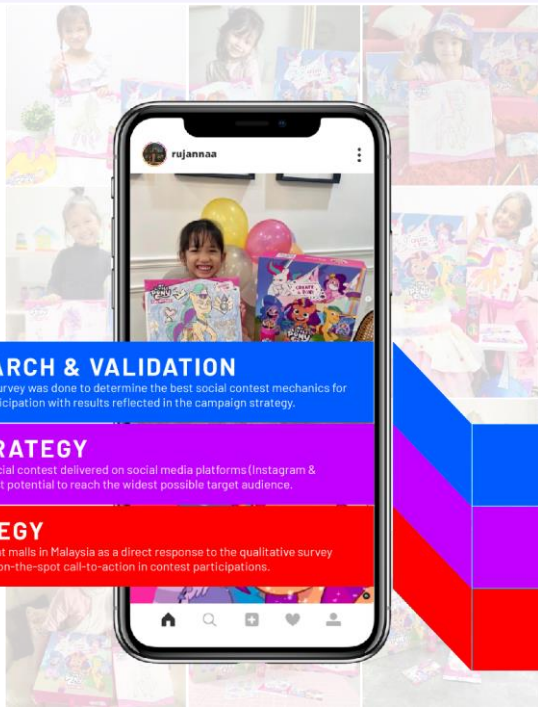

hyper engagement, indicating high intent from audience to participate in social contest (saves, shares, link clicks, etc).

**>9%**

engagement Rate (Benchmark: 3%-6%).

**600+**

submissions to social contest, performing 3x better than initial projections.

#### RESEARCH & VALIDATION

A qualitative survey was done to determine the best social contest mechanics for maximum participation with results reflected in the campaign strategy.

#### ONLINE STRATEGY

The initial launch of the social contest delivered on social media platforms (Instagram & Facebook) as it has the best potential to reach the widest possible target audience.

#### OFFLINE STRATEGY

Subsequent launch of social contest at malls in Malaysia as a direct response to the qualitative survey executed where audiences preferred on-the-spot call-to-action in contest participations.

### The Problem

Kotex partnered with Barbie for collectibles, then heavily invested in influencer marketing for promotion. Upholding Mattel's strict IP rules and visual consistency was crucial to avoid delays in content release and potential sales impact, demanding precise execution.

### The Solution

Xamble ensured Mattel's strict Barbie IP requirements were met by creating a customisable thematic backdrop in their in-house studio. Influencers used pre-approved Barbie-themed setups and vetted props, resulting in timely, aligned yet unique content for both brands.

Leading SEA pharmacy chain

### The Problem

Guardian aimed to solidify its health and wellness brand trust on its Facebook page. It sought to become a point-of-reference for its audience's health, necessitating sustainable strategies for perception growth along with commercial and operational viability.

### The Solution

Xamble curated the #GuardianRecommends video edu-series to enhance brand trust. The series maintained engagement by introducing new hosts and adapting to changing content consumption habits with vertical-shorts formats.
