Principal Activities

Stealth Group Holdings Ltd is a wide-range distributor, and a retailer, of Industrial MRO and Automotive products, and value-add solutions to Commercial, Trade and DIY consumers.

Headquartered in Perth, Western Australia, Stealth provides supplies and solutions for every workplace that extends across the whole supply chain to Customers of all types and sizes. Stealth's large distribution network provides multiple channels-to-market through Stealth's five market facing brands Heatleys Safety & Industrial, C&L Tool Centre, Skipper Transport Parts, Industrial Supply Group and United Tools.

Operating and Financial Review

Strategic Performance

During the first half of 2024, Stealth continued to execute on its strategic objectives as it advances its standing as a leading industrial supply company.

Ongoing investment in e-Commerce platforms and digital solutions, continue to enhance Stealth's digital capabilities and customer interaction. Further diversification of product range and the incorporation of additional services, allowed the Group to address the changing needs of customers while maintaining its high levels of customer service. The Group continues to invest in efficiencies to deliver a lower operating cost, remove duplication, increase speed of fulfillment and, expand its operations to better serve a growing portfolio of customers across Australia.

HY 2024 Operational Highlights:

1. **Merger** of Heatleys and Skippers operations onto single ERP system late in 1H FY24, providing one operating platform for product, customer, supplier and inventory functions. This results in simplifying the customer sales process, back-end operations, customer service and operational activities.
2. **New Customer** contracts won in the construction and engineering sectors supported growth in revenue and profit. Success has been achieved through a stronger business offer, deepening relationships with customers and suppliers, and breadth of product range for single-source supply.
3. **Centralised purchasing office** continued to evolve, consolidating key supplier arrangements, single commercial terms across the Group, and delivering stronger inventory management through a central planning team. This supported improved gross margin increase of 0.4% overall.
4. **Ongoing rightsizing** continues to enhance scale advantages, win market share, leverage improved supplier terms, and deliver a more compelling customer proposition demonstrated by increases in both revenue (up 7.8%) and gross profit (up 9.3%) from the first half of FY2023.
5. **Store Closures:**

In August 2023, the Company shut down the Skipper Transport Parts store in Albany, Western Australia and merged its operations into the United Tools Albany location. The decision to operate in one location delivers efficiency, and a lower cost to serve.

In September 2023, the Company shut down its Heatleys Safety & Industrial store in Bassendean, Western Australia and merged its operations with the Canning Vale location. The decision came after determining that the significant renovation needed for the Bassendean store would not yield a sufficient return on investment. Despite this closure, the Company plans to expand by opening new stores.

Financial Performance

The Group delivered a record half-year financial performance across all key metrics of consolidated Revenue, Gross Profit, EBITDA¹, EBIT², Profit before Tax, and Net Profit after Tax attributable to members, resulting in a record Earnings per Share to members.

Section A: Significant Changes in the Current Reporting Period

The vast nature of the wide-ranging products it sells is expected to provide a steady flow of repeat sales activity in future periods, whilst new integrated supply chain service offerings will generate new income and profit streams.

1H FY24 performance saw the Group achieve record half-year consolidated revenue of \$56.5m, up \$4.1m (8%) on 1H FY23 and up \$12.2m (28%) on 1H FY22, as it continues to execute on its growth strategy.

Stealth's strong balance sheet and cash flows were improved, providing stability and growth funding capacity.

Subsequent to the end of the reporting period there are no matters, items, transactions, or events of a material and unusual nature likely, in the opinion of the directors, to significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future reporting periods.

For a detailed discussion about the Group's performance and financial position, please refer to the Operating and Financial Review on pages 5 to 7 of this interim financial report.

Section B: Business Performance

B1 Operating Segments

The Consolidated Entity results are reported as two business areas (FY23: two) based on the nature of operations, which are reviewed regularly by the Board of Directors. The principal results reviewed for each area are revenue and adjusted operating profit.

The Board of Directors' view is that there were two reportable segments during the current reporting period, being the operations of Business Solutions and Retail Solutions. These are the same reportable segments as reported at FY23, notwithstanding they are different to those reported at 1H FY23. The 1H FY23 comparatives have been restated in accordance with the two reportable segments from FY23.

The Group's Business Solutions operations are judged by management to form a single operating segment, due to a combination of factors, including overlapping nature of their customers and their suppliers, of the products they sell and how they are sold, and their competitors, being primarily Australia-wide operations.

The Group's Retail Solutions operations are judged by management to form a single operating segment, due to the overlapping nature of services that they provide, the suppliers they interact with and their competitors, both operating on an Australia-wide basis.

Unless stated otherwise, all amounts reported to the Board of Directors with respect to operating segments are determined in accordance with accounting policies that are consistent to those adopted in the annual financial statements of the Consolidated Entity.

All intersegment transactions are eliminated on consolidation of the Consolidated Entity's financial statements. Where an asset is used across multiple segments, the asset is allocated to that segment that receives majority economic value from that asset. Usually, segment assets are clearly identifiable based on their nature and physical location. Liabilities are allocated to segments where there is a direct nexus between the incurrence of the liability and the operations of the segment. The following items of revenue and expenses are not allocated to operating segments as they are not considered part of the core operations of any segment: Finance expense and Income tax expense.

Capital Risk Management

The Consolidated Entity manages its capital to ensure its ability to continue as a going concern and to achieve returns to the shareholders and benefits for other stakeholders through the optimisation of debt and equity balance. The capital structure of the Consolidated Entity is adjusted to achieve its goals whilst ensuring the cost of capital is optimised.

Management monitors capital based on the gearing ratio (debt / (total debt plus total equity)). The Consolidated Entity's strategy is to optimise its cost of capital, using capital markets and debt facilities, continuously monitoring interest rates with the provider of its operating facility. The gearing ratios are as follows:

	31 Dec 2023 \$	30 June 2023 \$	31 Dec 2022 \$
Total debt	14,647,341	14,967,860	15,186,092
Total equity	16,508,931	16,060,554	15,419,464
Total debt and total equity	31,156,272	31,028,414	30,605,556
Gearing ratio (Total debt / Total debt and total equity)	47.0%	48.2%	49.6%

The Gearing Ratio of the Company has continued to decrease, from 49.6% as of 31 December 2022 to 48.2% as of 30 June 2023 to 47.0% as of 31 December 2023, reflecting the following factors:

- Total debt predominantly relates to CBA working capital facilities and specific acquisition debt facilities, with balances totalling \$13.0m and \$1.4m respectively owing on 31 December 2023. The Group repaid \$0.6m against acquisition debt facilities during 1H FY24. Debt repayment relating to acquisitions continues to support reduction in total debt.
- Total equity has increased \$1.1m between 31 December 22 and 31 December 23, fully attributed to increased profitability / retained earnings.
- Group's cash balance as of 31 December is \$8.8m, \$3.7m increase from 31 December 2022 (\$5.1m). Applying cash balance against Total debt reduces Gearing Ratio from 47.0% to 26.1% (1H FY23: 39.5%).
- Total debt as of 31 December 2023 includes \$1.4m acquisition-specific debt, all related to the acquisition of STP (15 August 2021), (1H FY23: \$2.0m). Acquisition-specific debt relating to C&L Tools (1 December 2020) was fully repaid in December 23 (1H FY23: \$0.8m). Total debt also includes \$4.4m of acquisition support funded through the Group's working capital facility (1H FY23: \$3.8m). Excluding both these acquisition-related debts from Total Debt would reduce the Gearing Ratio (after reduction for net cash increase above) from 26.1% to 0.2% (1H FY23: 18.1%).
- Underlying EBITDA (as defined in the OFR) of the Group for 1H FY24 is \$2.9m (1H FY23: \$2.4m). Total Debt to annualised Underlying EBITDA ratio is 2.5 times as of 31 December 2023 (1H FY23: 3.2 times). Net of cash balances, this decreases to 1.0 times (1H FY23: 2.1 times).

The Consolidated Entity is subject to certain financing covenants and meeting these is given priority in all capital risk management decisions. There have been no events of default during the financial year and the Consolidated Entity is in compliance with its loan covenants as of 31 December 2023.

(c) Use of estimates and judgements

The preparation of these interim financial statements requires management to use judgement, estimates and assumptions that affect the application of accounting policies and hence the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 30 June 2023. Estimates and underlying assumptions are reviewed on an ongoing basis and any required revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

H3 Significant Accounting Policies

The Consolidated Entity has adopted all the new, revised or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (‘AASB’) that are mandatory for the current reporting period. The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the estimation of income tax.

New, revised or amending Accounting Standards and Interpretations adopted

A number of new or amended standards became applicable for the current reporting period. The Consolidated Entity did not have to change its accounting policies or make retrospective adjustments as a result of adopting these standards.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Stealth Group Holdings Ltd

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Stealth Group Holdings Ltd (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2023, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2023 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Responsibility of the directors for the financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2023 and its financial performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
