Operating & Financial Review

HY24 was a challenging time for CPT, with earnings falling short of our expectations. Acknowledging the issues at hand, we are proactively implementing strategies to address this downturn. Despite the obstacles, we are confident in our ability to overcome them and emerge stronger as an organisation

During HY24, CPT focused on key actions to drive progress and achieve success:

- **Enhanced Client Engagement & Service Offering:** Revising engagement strategies and elevating service standards to ensure satisfaction, retention, and the fostering of long-standing client relationships. Evolving our service offering to address market trends and client needs, particularly in the areas of modernisation, transformation, and cost optimisation.
- **Market Diversification:** Exploring new opportunities in markets of Europe and Asia to diversify revenue streams and capitalise on our service offerings, with a European campaign targeted for March.
- **Regional Business Adaptation:** Addressing specific market needs in Australia, capitalising on transformational trends, and leveraging our global technical expertise to advance our global business agenda.
- **Investment in Talent:** Continuing to invest in our mainframe and graduate mentoring programs to build a robust pipeline of future leaders and experts within the company, with an emphasis on hands-on development and strategic career pathway planning.
- **Mainframe Test Coverage Software:** Securing clients for our Mainframe Test Coverage software, notwithstanding some delays due to client technical needs and constraints. Continuing to refine our software strategy, exploring methods to encapsulate our business's technical expertise into software solutions across various platforms, setting the stage for a new revenue stream and widening our market scope.

- **Strategic Organisational Restructure:** Making structural organisational changes aimed at optimising operations, improving reporting lines, and prioritising employee development and business success. Additionally, our team is exploring opportunities to implement AI in back office and client-facing projects to accelerate efficiency, reduce costs, and prepare CPT for a more automated and intelligent future.
- **Leadership and Sales Team Changes:** Restructuring leadership teams and making targeted updates to the sales strategy, especially in the Australian market, to boost our performance and business value.
- **Cost Control and Business Performance:** Implementing stringent cost control measures without compromising strategic investment areas, ensuring sustainable growth, profitability, and enhancement of shareholder value.

Approaching FY25, our progress fuels optimism. Strategic changes are positioning us for growth and higher profits in the coming fiscal year. With genuine interest in our services from clients and partners, we have seen a noticeable rise in market optimism and spending. Now, the focus shifts to converting opportunities as we work to strengthen CPT's industry position.

Thank you to our incredible team, Board, clients, and partners for your unwavering support and trust in CPT.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
