## Operating and Financial Review

### Key Highlights

- HY24 revenue: \$3.90 million, ~40% higher than the corresponding period in HY23.
- Strong cash receipts from customers for HY24 with significantly improved operating cash flow.
- Forming alliance and signing ACCU Forward Payment Agreement with Commonwealth Bank of Australia.
- Pioneering soil carbon generation methods, aiming to deliver the fastest ACCU.

### Overview

RLF specialises in plant science and crop nutrition technology that delivers yield increases combined with improved plant health and soil biology. Over the years, RLF has developed technology to increase soil carbon, aiming to unlock the potential to generate carbon credits on a large scale. The Group has two main business divisions, being (i) Crop Nutrition and (ii) Carbon.

For the Crop Nutrition Division, the Group has a well-established manufacturing plant and sales network in China and a R&D facility in Australia. The Group has been hiring and training its sales and marketing team to boost market share in China, generating increased revenue and expanding its presence in other regions as part of the Group's revenue diversification strategy.

For the Carbon Division, with its soil carbon technology, RLF has positioned itself as the project developer, acting as a conduit between the farmer, the emitter and the project financier, forming an integral part of the carbon supply chain with an ambition to be globally recognised as a major force for change in the transformation of agriculture and food production and an integral part of the journey to net zero.

## Review of Operations

RLF continued to execute its strategies and delivered improved results for the first six months of FY24.

In the Crop Nutrition Division, the Group achieved a 40% growth in its revenue for HY24 compared to the corresponding period in HY23. The significant growth revenue is a direct result of RLF's long-term effort in expanding its sales team and distribution network across the regions in Asia. During HY24, the Group also invested in trial programs on popular and high value crops across Asia.

In the Carbon Division, the Group commenced an ambitious soil carbon project in the Hillston region of New South Wales, Australia. As part of RLF's R&D programs, the project aims to generate the fastest Australian Carbon Credit Unit (**ACCU**) using its soil carbon methodology.

In July 2023, RLF and Commonwealth Bank of Australia (**CBA**) formed a strategic carbon alliance (**Alliance**) and entered into the ACCU Forward Payment Agreement (**ACCU FPA**), which CBA will, subject to satisfying conditions precedent, prepay RLF AU\$1m in exchange for the first 50,000 ACCUs generated from the pilot program under the Alliance and ACCU FPA.

## Review of Financial Conditions

For HY24, the Group's revenue was \$3.90 million, which represents a growth of 40% compared to HY23 corresponding period, with the China region delivering a 44% increase and the SE Asia region delivering a 13% increase in revenue. The HY24 revenue is in line with the Market Guidance that was announced to the market on 11 October 2023.

While the Group's gross profit increased by 15% to \$1.81 million (HY23: \$1.57 million), the gross profit margin fell from 56% to 46% due to two main reasons, which are: (1) for HY24, the products sold in China had a higher proportion of lower-margin products in the mix and (2) RLF's customers in the SE Asia region requested the products to be manufactured in Australia in order to have a better marketing effect, which has a higher manufacturing cost, resulting in a smaller gross profit margin compared to products manufactured in RLF's manufacturing plant in China.

One of the key features of RLF's business in China is that most of the customers prepay in full for their orders, which is a key indicator of RLF's short term demand for its products. During HY24, the Group received a total of \$6.38 million from its customers, which is 5% higher than the same corresponding period in FY23 (HY23: \$6.05 million). The 5% growth was against a backdrop of an economy that has been facing deflationary pressure, where customers would normally hold cash and defer payment as product prices are more likely to reduce in the future.

For HY24, the Group's net cash outflow from operating activities was \$0.84 million, representing a significant improvement of 61% comparing to the same corresponding period in HY23. The net cash decrease reduced by 53% from \$2.92 million in HY23 to \$1.36 million in HY24.

## Auditor's Independence Declaration

The Auditor's Independence Declaration is included on page 6 of the Half-Year Financial Report.

## Rounding off of amounts

The Group is of a kind referred to in *ASIC Corporations (Rounding in Financials/Directors' Reports) Instrument 2016/191*, dated 24 March 2016, and in accordance with that Corporations Instrument, amounts in the Directors' Report are rounded off to the nearest thousand dollars, unless otherwise indicated.

## INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF RLF AGTECH LTD

### Conclusion

We have reviewed the accompanying half-year financial report of RLF AgTech Ltd (the Company) and its controlled entities (the Group), which comprises the condensed consolidated statement of financial position as at 31 December 2023, the condensed consolidated statement of profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of material accounting policy information and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group is not in accordance with the *Corporations Act 2001*, including:

- i. giving a true and fair view of the Group's financial position as at 31 December 2023 and of its performance for the half-year ended on that date; and
- ii. complying with Accounting Standard AASB 134: *Interim Financial Reporting* and the *Corporations Regulations 2001*.

### Basis for Conclusion

We conducted our review in accordance with Auditing Standards on Review Engagements ASRE 2410: *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110: *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

### Responsibility of the Directors for the Half-Year Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards (including Australian Accounting Interpretations) and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

## INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF RLF AGTECH LTD (CONTINUED)

### Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether anything has come to our attention that causes us to believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including:

- i. giving a true and fair view of the Group's financial position as at 31 December 2023 and its performance for the half-year ended on that date; and
- ii. complying with Accounting Standard AASB 134: *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
