Wayne Arthur (resigned 9 August 2023).....	Chief Executive Officer/ Executive Director
John Rankin (resigned 14 November 2023).....	Executive Officer

Review of Operations

Our Mission

To transform the experiences people have within the places they visit. By turning physical spaces into intelligent places.

Our Vision

Airport passenger numbers are forecast to double in the next 18 years (by 2042). On average, airport infrastructure projects take more than 10 years to complete and there are plans, currently, for only a modest increase in global airport infrastructure meaning that the vast majority of passenger growth will need to be accommodated through improvements in passenger flow. Beonic's IoT solutions bring together IoT sensors, cloud based data sources and AI solutions allowing Airports to dramatically increase the volume of passengers flowing smoothly through airport security and CBP (Customs and Border Protection) into their revenue engine, the retail and QSR precinct.

As well as airports, Beonic provides intelligent queue management, wayfinding and operational insights to retailers, retail malls, QSR and other crowded places.

Our platform unifies 1st and 3rd party data sources with local sensor data on one proprietary platform to provide people flow insights, including via dashboards, historical data, predictive data and alerts.

Currently, Beonic's platform works with over 35 sensor technologies including WiFi, Camera, Infrared, LiDAR, CCTV and other IoT devices. We combine these datasets with contextual data like weather, flight data, retail sales and sociodemographics to improve operational performance for airports, retailers, malls, QSR, stadiums, universities, smart cities and other public and commercial venues.

Automation and Artificial Intelligence

We continue to develop our product foundations to deliver more efficiency and automation in user report configurability, integration of external hardware and systems and advanced customer data management capabilities. Beonic is also expanding its data diversification capabilities to include:

- Airline operational database (AODB) integrations to enable more airport solutions
- Lower cost sensors to more efficiently scale across large portfolios
- Machine Learning algorithms for workforce optimisation using POS and ERP data sets
- Deep learning algorithms for greater support of new or existing camera networks

Beonic has been researching and developing AI solutions for venue operators for over six years. We utilise AI to develop new computer vision software for cameras and will continue to explore the use of AI for target verticals and new use cases. These AI solutions will enable Beonic to drive revenue growth and reduce operating costs while improving health, safety and security. These initiatives will also allow Beonic to accelerate ARR growth through more secure and efficient onboarding of customers via digital and physical data sets.

Security & Compliance

Data security and privacy continues to be at the core of our business and a top business priority. To prove our commitment to continuously evolving our security posture and capabilities, we have advanced our security initiatives to include:

- The design of a new Trust Center for building and maintaining customer trust through transparency
- Conducted an independent assessment for meeting the requirements of BS EN ISO/IEC 27001
- Achieved compliance with the Cloud Security Alliance STAR Level 1
- Expanded our cyber threat intelligence capabilities
- Implementing zero trust policies and a zero trust architecture to reduce the attack surface

We will continue to take all the necessary steps to ensure that security is embedded in our products and invest in people, processes and technologies required to protect our business.

With the growing emergence of cyber threats across the world, we continue to advance our capabilities to protect against emerging security threats and the most advanced threat actors. A persistent people centric security culture program is used to influence positive behaviour across our entire organisation and we are constantly updating training methods to reflect the changing threat landscape.

In addition, we recognise that the obligations on Beonic as a service provider represents more than just a commercial relationship and extends to our ethical commitment pertaining to dealing with people's personal information. Beonic products are centred around consumers and hence, privacy enabling features are embedded into our products.

1H FY24 Interim Financial Report

Operational Performance

During 1H FY24, Beonic continued to grow its customer footprint, securing over \$10.2m in new Total Contract Value via a range of contracts with quality customers.

The Company continues to experience strong demand for our technology (as evidenced by the recent announcement of the \$5m Abu Dhabi airport win) and the Company continues to evolve our solution offering to provide valuable operational efficiencies, improved people data and increase revenue opportunities to our clients.

Key contracts delivered in 1H FY24 include:

Abu Dhabi International Airport Contract (announced 13th November 2023)

During the period, Beonic secured, via a partnership with Next50, for Abu Dhabi International Airport's Terminal A in the United Arab Emirates. Next50, is the leading Abu Dhabi based Industrial AI company that specialises in applying AI to solve complex business challenges in the aviation sector. The contract is for an initial three-year period (with an option for a two-year extension) and has a total contract value in excess of \$5m which includes implementation revenue and ongoing recurring revenue over the term. When implemented, the airport will benefit from Beonic's leading passenger flow and queue management solutions available worldwide. It will manage all major checkpoints for departing and arriving passengers.

Beonic provides its LiDAR based passenger flow and queue management solution in many of the world's largest airports and is experiencing strong demand globally for security checkpoint solutions across airport and mass transit hub verticals.

Notable new contracts in 1H FY24

During the period the company delivered a number of meaningful new contracts wins representing a total contract value of \$10.2m including:

Abu Dhabi Airport (UAE), Portland International Airport (USA), Leroy Merlin (Brazil), Winning Appliances (APAC), Tulsa International Airport (USA), Peraton (North America), Sebrae SP (Brazil), Grupo Paulo Octavio (Brazil), The Muse Media (UAE), Nottingham Uni Sports Centre (UK) and VIS Security (UK).

Notable renewals in 1H FY24

During the period the company successfully renewed a number of customers with a total contract value of \$6.6m including:

Sicredi (Brazil), TJM (EMEA), David Jones (APAC), Nuffield (EMEA), Landsec (EMEA), Charlotte International Airport (USA) and Virgin Hotels (USA), Metropolitan Washington Airports Authority (North America), SITA (North America), Charlotte International Airport (North America), Mirva (APAC), Christchurch Airport (APAC) and Tanger Outlets (North America).

Rebrand as Beonic

The Company completed the rebranding of its registered trading name from Skyfii Limited (ASX:SKF) to Beonic Limited (ASX:BEO) during the period after shareholder approval at the Annual General Meeting held on 14 November 2023. The change reflects the Company's transition from a WiFi analytics provider to a data analytics company powered by enhanced AI and machine learning capabilities. This will better communicate our products and services to our global customer base, which has grown from retail mall customers to operators of the largest and busiest venues and transport hubs across the globe.

Appointment of Billy Tucker as CEO and Executive Director

Beonic announced the appointment of Billy Tucker as Chief Executive Officer and Executive Director of Beonic on 8 November 2023.

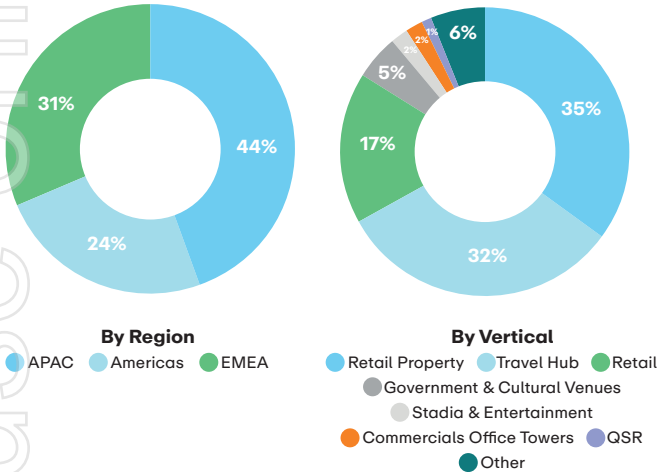

Billy is an experienced leader and transformation specialist with a career spanning over 20 years across the technology, startup, private and listed company sectors. Billy was most recently CEO of marketplace business Oneflare. Oneflare saw a threefold growth in revenues before being sold to Airtasker (ASX:ART) late in 2022. Prior to Oneflare, Billy spent almost a decade as a global executive in product and corporate development roles within Microsoft before leaving to build startup Cudo, which he ran as Founder and CEO. Billy has also served as a long-term advisor to Kmart and other retailers as well as working with QBE and American Express to build and integrate digital ventures.

Billy commenced as CEO on 13 November 2023 replacing interim CEO, Tony Karp.

and adapt to people

1H FY24 Interim Financial Report

\$12.4m in Total Operating Revenue secured during 1H FY24:

Financial Performance

1H FY24 Interim Financial Report

During the half-year ended 31 December 2023 the Group generated total revenues of \$12.4m (1H FY22: \$11.2m).

Recurring Revenues for 1HFY24 of \$8.2m, an increase of 6% vs pcp (1H FY23) and the Company exited 1HFY24 with an ARR of \$16.9m.

Total operating expenses excluding depreciation, amortisation, non-cash share-based payments and finance costs increased by 5% vs pcp to \$13.5m, inline with revenue growth. Our offshoring strategy to unlock access to a larger talent pool including the opening of an engineering and operations centre in Portugal and the Philippines continues to progress. These initiatives will set the company up for long term, sustainable and cost-effective scale moving forward and are expected to generate more than \$1.0m in annualised cost savings effective 1 February 2024.

The Group reported an operating EBITDA loss (Earnings Before Interest, Tax, Depreciation, & Amortisation and adjusted to be inclusive of any R&D tax incentive grants accrued or received, and exclusive of share, option-based payments and acquisition expenses) of \$1.2m (1H FY23: \$1.7m Loss) and net loss after tax (Earnings After Interest, Tax, Depreciation & Amortisation and other Non-Cash transactions) of \$3.9m (1H FY23: \$6.1m).

1H FY24 operating cash outflows were \$0.8m, including one-off costs of \$0.7m associated with restructuring, CEO transition and rebranding (cash inflows for 1H FY23 of \$2.2m). Cashflow performance is anticipated to improve over 2H FY24 driven by the positive impact of cost saving initiatives and improved topline performance.

The Group's cash balance as at 31 December 2023 was \$1.6m (1H FY23: \$6.6m).

Post the end of the period, Beonic secured a loan facility ('the Facility') of USD \$2.1 million (~AUD\$3m) with Blue Venshures SPV 1 LLC ('Blue Venshures'). The term of the loan is two years. Funds from the Facility will be utilised in growth and restructuring initiatives and for general working capital purposes. The Facility replaced the \$1.8 million loan Beonic previously had with Export Finance Australia, which had financial covenants that required a minimum of \$3 million cash at bank during the loan facility at the end of each period. The Facility with Blue Venshures has no financial covenants and as such provides Beonic with improved capital flexibility.

Outlook for the remainder of FY24

With a strong growth pipeline, improved financial position and industry leading technology, Beonic is focused on building meaningful and sustainable cash flow generation.

Financial and operational objectives for the remaining duration of FY24 include:

- Focus on high-growth verticals of airports and retail
- Continued operating cost savings through delivery of transformation and restructuring initiatives
- Focus on marketing efforts to drive improved lead conversion
- Continued investment in new product development including further enhancements to our AI capabilities and forecasting features

Dividends paid or recommended

In respect of the half-year ended 31 December 2023, there have been no dividends paid or provided for (1H FY23: nil).

Auditor's independence declaration

The auditor's independence declaration is included on page 9 of this report and forms part of the Directors' Report for the half-year ended 31 December 2023.

This report is made in accordance with a resolution of the Directors.

AUDITOR'S INDEPENDENCE DECLARATION
UNDER SECTION 307C OF THE CORPORATIONS ACT 2001
TO THE DIRECTORS OF BEONIC LIMITED
AND CONTROLLED ENTITIES

In accordance with section 307C of the Corporations Act 2001, I am pleased to provide the following declaration of independence to the directors of Beonic Limited. As the lead audit partner for the review of the financial report of Beonic Limited for the half-year ended 31 December 2023, I declare that, to the best of my knowledge and belief, there have been no contraventions of:

- i. the auditor independence requirements as set out in the Corporations Act 2001 in relation to the review; and
- ii. any applicable code of professional conduct in relation to the review.

This Interim Financial Report does not include all the notes normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2023 and any public announcements made by Beonic Limited during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

1. Summary of Significant Accounting Policies

(a) Basis of preparation of interim financial report

These general purpose interim financial statements for the half-year reporting period ended 31 December 2023 have been prepared in accordance with requirements of the Corporations Act 2001 and Australian Accounting Standard AASB 134: Interim Financial Reporting. Beonic Limited is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Beonic Limited and its controlled entities (referred to as the “consolidated group” or “group”). As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual

financial statements of the Group for the year ended 30 June 2023, together with any public announcements made during the following half-year. The accounting policies adopted in the preparation of the consolidated interim financial statements are consistent with those adopted in the Group’s annual financial report for the year ended 30 June 2023, with the addition of the following:

New and Amended Accounting Standards Adopted by the Group

The Group has considered the implications of new and amended accounting standards and determined that their application to the financial statements is either not relevant or not material.

(b) Critical accounting estimates

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires

Notes to the financial statements

For the half-year ended 31 December 2023

management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the interim financial report, are disclosed in the 2023 Annual Report.

(c) Accounting standards issued but not yet effective

Certain new accounting standards and interpretations have been published that are not mandatory for the current reporting period. The Group has assessed the impact of these new standards and interpretations and does not expect that initial application will affect any of the amounts recognised in the financial report, but may change the disclosures presently made in relation to the Group.

(d) Going concern

The financial statements of the Group have been prepared on a going concern basis, which contemplates the continuation of normal business operations and the realisation of assets and settlement of liabilities in the normal course of business.

The Group continues to be in the research, development and commercialisation stage of its data analytics technology and services. During the half-year ended 31 December 2023, the Group incurred a loss after tax of \$3,858,612 and as of that date, has current liabilities in excess of current assets by \$7,571,831, this includes borrowings of \$1,800,000 that relate to the Export Finance Australia loan that was refinanced on 25 January 2024 and contract liabilities of \$6,590,201, relating to software licence revenue received in advance. These contract liabilities are amortised over the software licence period. On 31 December 2023, the Group had a surplus in net assets of \$3,038,655.

On 25 January 2024, the Company announced that it had secured a loan facility of USD \$2.1 million (~AUD\$3m) with Blue Venshures SPV 1 LLC. The term of the loan is two years. The funds from the facility will be utilised in growth and restructuring initiatives and for general working capital purposes. The facility replaced the \$1.8 million loan Beonic previously had with Export Finance Australia.

The ability of the Group to pay its trade creditors, continue its planned activities and maintain its going concern status is dependent on the Group continuing to grow revenue, reduce costs and raise additional debt or equity funds, as required. As at the date of this report, the directors are satisfied that there are reasonable grounds to believe that the Group will be able to operate as a going concern by continuing to grow revenue, reduce costs and raising further funds as required. In forming this view, the directors of the Company have considered the ability of the Company to generate sufficient revenues and raise funds as required by way of future capital raisings.

There are inherent uncertainties associated with growing revenue and the successful completion of capital raisings. Should the directors not be able to manage these inherent uncertainties and successfully secure funding as required, there would be significant uncertainty as to whether the Group would be able to meet its debts as and when they fall due and therefore continue as a going concern.

Management have prepared cashflow projections that support the Group's ability to continue as a going concern.

The Directors of the Company consider that the cashflow projections and assumptions are reasonable, and in the longer term, significant revenues will be generated from the further commercialisation of intellectual property, and accordingly, the Group will be able to continue as a going concern.

In the event that the Group is unable to achieve the above, such circumstances would indicate that a material uncertainty exists that may cast significant doubt as to whether the Group will continue as a going concern and therefore may not be able to realise its assets and extinguish its liabilities in the ordinary course of operations and at the amounts stated in the interim financial report.

Notes to the financial statements

For the half-year ended 31 December 2023

2. Operating Segments

The Group operates predominantly in three geographical segments, being the development and commercialisation of data analytics, marketing and advertising services to its customers in APAC, Americas and EMEA. The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

1H FY24	APAC	Americas	EMEA	Total
Revenue	5,474,997	3,007,470	3,861,675	12,344,142
Other income	28,511	2,844	613	31,968

Notes to the financial statements

For the half-year ended 31 December 2023

16. Contingent liabilities

There are no contingent liabilities as at 31 December 2023.

17. Events occurring after the reporting date

On 25 January 2024, the Company announced that it had secured a loan facility with Blue Venshures SPV 1 LLC. The funds from the facility will be utilised in growth and restructuring initiatives and for general working capital purposes. The facility replaced the \$1.8 million loan Beonic previously had with Export Finance Australia, which had financial covenants that required a minimum of \$3 million cash at bank during the loan facility at the end of each quarter. The Facility with Blue Venshures has no financial covenants and as such provides Beonic with improved capital flexibility.

- Loan amount: USD \$2.1 million loan facility (“the Facility”). The Facility is financed through the issue by Blue Venshures of promissory notes to investors on the same terms as the terms of the Facility (other than the Arrangement Fee referred to below). Beonic CEO and Executive Director (Billy Tucker) and Chair (Bob Alexander) have contributed to the Facility alongside other Beonic senior management and a former Director, by subscribing for an aggregate of A\$1 million of the promissory notes on the same commercial terms as the other investors.
- Loan Term: 2 years, no amortisation of principal with US\$2.1m repaid after 2 years
- Interest Rate: 15% p.a. paid quarterly
- Arrangement Fee: 3% of principal
- Fee on Repayment: 5% of principal on maturity or early repayment. There are no other early prepayment fees.
- Security: Blue Venshures SPV 1 LLC has 1st Ranking Security over Beonic Ltd and its subsidiaries

There are no other matters or circumstances that have arisen since 31 December 2023 that have significantly affected, or may significantly affect:

- the consolidated entity’s operations in future financial years, or
- the results of those operations in future financial years, or
- the consolidated entity’s state of affairs in future financial affairs.

18. Earnings per share (EPS)

	31-Dec-23	31-Dec-22
	Cents per share	Cents per share
(a) Basic earnings per share		
Basic EPS attributable to ordinary equity holders of the Company	(0.9)	(1.4)
(b) Diluted earnings per share	(0.8)	(1.3)
(c) Weighted average number of shares used as the denominator	Number	Number
Weighted average number of ordinary shares used in calculating basic EPS	431,760,988	438,735,791
Weighted average number of dilutive options outstanding	49,537,505	57,852,205
Weighted average number of ordinary shares used in calculating diluted EPS	481,298,493	496,587,997
(d) Reconciliation of earnings used in calculating earnings per share	\$	\$
Loss attributable to the ordinary equity holders of the Company used in calculating basic EPS	(4,075,699)	(6,294,481)

Directors' Declaration

In the Directors' opinion:

The financial statements and notes, as set out on pages 10 to 24, are in accordance with the Corporations Act 2001, including:

- Complying with Accounting Standard AASB 134: Interim Financial Reporting; and
- Giving a true and fair view of the consolidated entity's financial position as at 31 December 2023 and of its performance for the half-year ended on that date.
- There are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Directors.

On behalf of the Directors,

Robert Alexander
Chairman

Report on the Half-year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Beonic Limited (the company) and its controlled entities (the Group), which comprises the consolidated statement of financial position as at 31 December 2023, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, notes to the financial statements including a summary of significant accounting policies, other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Beonic Limited does not comply with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of Beonic Limited 's financial position as at 31 December 2023 and of its performance for the half-year ended on that date; and
- (ii) complying with Accounting Standard AASB 134: *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the Auditor's Responsibilities section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* has been given to the directors of the Company.

Material Uncertainty Related to Going Concern

We draw attention to Note 1(d) in the financial report, which indicates that the Group incurred a net loss of \$3,858,612 during the half-year ended 31 December 2023, and as of that date, the Group's current liabilities exceeded its current assets by \$7,571,831. As stated in Note 1(d), these events or conditions, along with other matters as set forth in Note 1(d), indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Directors' Responsibility for the Half-Year Financial Report

The directors of Beonic Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Independent Auditor's review report

HALL CHADWICK  (NSW)

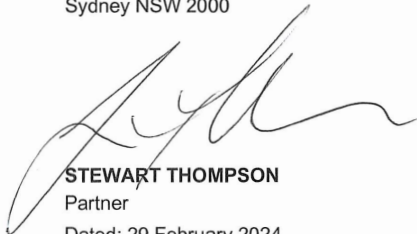

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Company's financial position as at 31 December 2022 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134: *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
