## Operations and Financial Review

### Operations Summary:

- **Consistent retail trading with positive cashflow in the Entertainment Sector**
- **Cash position at end of period \$2.77m**
- **Aggressive Sales and Marketing Activity in the US**
- **Successful delivery of Operator XR systems to Colorado based Sheriff's Department**
- **New sales of systems across the US in Nevada, Illinois and Arizona**
- **Operator XR secures trial with Los Angeles SWAT**
- **Successful and strongly supported Capital Raise completed in November.**

xReality Group Limited are leaders in enterprise software development for mission critical simulations for military and law enforcement. The Company develops and operates physical and digital simulations. Portfolio companies include Indoor Skydiving facilities, Virtual Reality (VR) and Augmented Reality (AR) entertainment, training, and production.

Operator XR provides Military and Law Enforcement agencies with a unique, integrated Mission Planning & Rehearsal System, which is portable, secure, and highly immersive.

During the six-month period ending December 31, 2023, the Company focused on expanding its U.S. operations for its Operator XR division. Initial market engagement involved trade shows and selective customer interactions, leading to the establishment of a permanent Sales team and Operations unit in the U.S. and securing its first law enforcement client in Colorado. Subsequent to the period the Company secured three additional contracts, a new distributor in Mexico, and a trial with the LAPD SWAT team.

The sales pipeline has grown to exceed \$25 million total contract value (TCV) in qualified leads. The Company anticipates converting a portion of these leads into contracts, which in turn is expected to generate an increase in Annual Recurring Revenue (ARR) in future years. This expansion into the U.S. market represents a strategic effort to leverage opportunities within the law enforcement sector, with early successes indicating a positive trajectory for growth and market penetration.

Global Operations outside of the US have also experienced positive traction, with current Australian and New Zealand customers and trials underway including the West Australian Police Force and the Australian Defence Force. The Company has also established a distributor network to include Thailand, Singapore, Malaysia and Japan, and Mexico as our first distributor in Central America.

Driven by customer feedback, the Operator XR products continue to expand through in-house development here in Australia. The core platform, software and hardware remain at the forefront of the Global market with an optional cloud-based subscription offering planned to become available this financial year, giving the product further scalability and offering customers a library of assets to build their own environments as quickly and as often as they require.

XRG's Entertainment sector continues to be affected by the economic environment which is impacting the retail market in general across Australia. The businesses are still operating on a positive cashflow basis and providing the Company with a stable source of income to drive our strategic growth into the Enterprise Sector. With retail spend down, the iFLY businesses saw strong demand from the professional market consisting of military and skydivers, with one of the highest performing half years in recent years.

The Company has taken steps to enhance its operational efficiency and safeguard its entertainment cost structure for the future. This effort is highlighted by the installation of solar panels at its Gold Coast facility to commence this financial year, a move anticipated to reduce future electricity costs. The Company has also completed upgrades to its cooling systems at the wind tunnels, once again, reducing overheads and creating efficiencies.

### 1H24 Financial Performance Summary:

- Total Half Year Income \$5.61M up 1% on PCP
- Closing Cash Position \$2.77m
- Normalised EBITDA \$561.5K\*
- Deferred Revenue \$1.86m
- Enterprise Recognised Revenue \$318k.

*\*Excludes non-cash payments of iFLY Royalties \$94k, Share-based payments \$15k*

### Total Income Stability

The Group achieved a total income, predominantly from the Entertainment Sector for the period of \$5,607,358 representing stability with a 1% increase on the PCP.

### EBITDA and Normalised EBITDA

Reported EBITDA for the period was \$451,649 with a Normalised EBITDA of \$561,432. The additional expenses for 1H24 are attributed to the establishment of the Operator XR US Sales and Operations Teams and the higher tempo of marketing activities and conference attendance in the US.

### Revenue Pipeline

The deferred revenue of \$1.86m represents cash received in advance. The revenue pipeline is made up of pre-purchased iFLY and Freak vouchers within the Entertainment Sector, and unrecognised revenue from Enterprise sales including Law Enforcement and Military sales to date. The Enterprise Revenue is recognised over the term of the contract on a monthly basis.

### Subsequent Events Post 31 December 2023

Events subsequent to the period primarily related to Operator XR include.

As announced 29<sup>th</sup> January 2024, the LAPD SWAT signed a formal trial of the Operator XR system to commence in February. LAPD SWAT is known as one of the foremost police tactical units in the world and will trial the system for 3 months as a supplement to their existing 'real world' training.

New customers of Operator XR Systems throughout January and February include.

- Woodbridge Police Department in Illinois purchased a 4-person Operator XR system in February.
- A private weapons training company in Arizona purchased a 2-person Operator XR system in February.
- A high school in Clark County, Nevada purchased a single Operator XR system on late January, opening a new market for Operator XR in the US.

In mid-February, Operator XR secured a Mexico Distributor, TSA. Founded in 1999, TSA is a trusted provider to State Police and Judicial agencies across Mexico, having successfully designed, built, and implemented the standard judicial recording system used across the majority of Mexican states. Operator XR and TSA have together identified a business development pipeline in 2024, giving rise to the formalisation of this partnership.

**Outlook for 2H2024**

The Company expects stable performance from existing operations in its entertainment sector over the 2<sup>nd</sup> half of the year, with the indoor skydiving centres and Freak Entertainment virtual reality businesses continuing to generate positive cashflows.

**Operator XR** is focused on growth in the North American law enforcement market. With an experienced sales and operations team established in the US, and pipeline developed, material growth in Operator XR's business is anticipated over the second half of the year.

This directors' report is signed in accordance with a resolution of the Board of Directors.

On behalf of the Board of Directors

## Notes to the Financial Statements

### For the Half Year Ended 31 December 2023

#### NOTE 1: MATERIAL ACCOUNTING POLICY INFORMATION

##### a. General information and basis of preparation

The condensed interim consolidated financial statements ('the interim financial statements') of xReality Group are for the six (6) months ended 31 December 2023 and are presented in Australian Dollars (\$AUD), which is the functional currency of the Parent Company. These general purpose interim financial statements have been prepared in accordance with the requirements of the Corporations Act 2001 and AASB 134 Interim Financial Reporting. They do not include all of the information required in annual financial statements in accordance with Australian Accounting Standards, and should be read in conjunction with the consolidated financial statements of xReality Group for the year ended 30 June 2023 and any public announcements made by xReality Group during the half-year in accordance with continuous disclosure requirements arising under the Australian Securities Exchange Listing Rules and the Corporations Act 2001.

The interim financial statements have been approved and authorised for issue by the Board of Directors on 29 February 2024.

##### b. Material accounting policies

The interim financial statements have been prepared in accordance with the same accounting policies adopted in xReality Group's last annual financial statements for the year ended 30 June 2023.

The accounting policies have been applied consistently throughout xReality Group for the purposes of preparation of these interim financial statements.

##### c. Estimates

When preparing the interim financial statements, management undertakes a number of judgements, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgements, estimates and assumptions made by management, and will seldom equal the estimated results.

The judgements, estimates and assumptions applied in the interim financial statements, including the key sources of estimation uncertainty were the same as those applied in xReality Group's last annual financial statements for the year ended 30 June 2023.

##### d. Going Concern

The Group incurred a loss for the half year after tax of \$1,501,438 (2022: loss of \$882,669) and, as at 31 December 2023, had a net current deficiency in assets of \$1,558,434 (June 2023: deficiency \$4,087,618). The Group generated positive cash flows from operations during the half year of \$771,841 (2022: \$1,116,745). Future expected cash flows have not been taken into account in determining the current assets position. Included within current liabilities is deferred revenue of \$1,858,947 that will be realised as revenue once the service has been delivered to the customer.

The following matters have been considered by the directors in determining the appropriateness of the going concern basis of preparation in the financial statements:

- i. Management has prepared detailed cash flow forecasts that are monitored on an ongoing basis.
- ii. Net cash flows from operations continue to be positive.

Given the steady performance of the existing businesses in the Entertainment sector as well as the early success of the Enterprise business, along with continuing positive cash flows from the entertainment operations, the Directors are of the view that the Company will continue as a going concern.

**NOTE 13: EVENTS AFTER THE END OF THE INTERIM PERIOD**

Whilst there are no material events after balance date to report, a number of important subsequent events can be seen in the Directors' report, page 6.

## Directors' Declaration

In accordance with a resolution of the directors of xReality Group Limited, the directors of the Company declare that:

1. The financial statements and notes, as set out on pages 9 to 21 are in accordance with the *Corporations Act 2001*, including:
  - A. complying with Accounting Standard AASB 134: Interim Financial Reporting; and
  - B. giving a true and fair view of the consolidated entity's financial position as at 31 December 2023 and of its performance for the half-year ended on that date.
2. In the directors' opinion, by continuing to pursue the courses of action outlined in Note 1(d), there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

## **Independent Auditor's Review Report To the Members of xReality Group Limited**

### **Report on the Half Year Financial Report**

We have reviewed the accompanying half-year financial report of xReality Group Limited (the "Company") and its subsidiaries (the "Group"), which comprises the consolidated statement of financial position as at 31 December 2023, the consolidated statement of profit and loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of material accounting policies and other explanatory information and the directors' declaration.

### **Conclusion**

Based on our review, which is not an audit, we have not become aware of any matters that makes us believe that the half-year financial report of xReality Group Limited is not in accordance with the *Corporations Act 2001* including:

- + Giving a true and fair of the Group's financial position as at 31 December 2023 and of its performance for the half-year ended on that date; and
- + Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulation 2001*.

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Group in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

### **Emphasis of Matter**

We draw attention to Note 1(d) of the half-yearly financial statements which details the fact that the ability of the Group to continue as a going concern is dependent on the courses of action being considered by Group's Management and forecasted cash flow operations. In addition, the Group's net current deficiency in assets was \$1,558,433. Our opinion is not modified in respect of this matter.

## Directors' Responsibility for the Half-Year Financial Report

The directors of the Group are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Group's financial position as at 31 December 2022 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulation 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
