REVIEW OF OPERATIONS

Yojee Limited (Yojee or the Company) (ASX: YOJ), Yojee is a leading developer and provider of software solutions to the Asian Pacific contracted road transportation industry. Our customers include leading third-party logistics providers and early regional transport management technology adopters.

Yojee's mission is to enable Asian Pacific contract road transportation networks to be the world's most reliable, efficient and sustainable. The Yojee Transport Management System (TMS) enables third-party logistics providers to assign loads, manage shipments, and track contracted road carriers' vehicles and drivers in real-time as they deliver their customers' freight.

The Company achieved the following operation, financial and strategic activities during the period ended 31 December 2023 and subsequent.

Operations and Financial

Revenue from Ordinary Activities for the half year ending 31 December 2023 (1H FY2024) was \$580k, a reduction of 79% from the previous corresponding half year period ending 31 December 2022 (1H FY2023). Revenue from Ordinary Activities includes currency related gains of \$1,507k for the half year ending 31 December 2022 (1H FY2023) with no currency related gains for the half year ending 31 December 2023.

Revenue from contracts with customers was \$569k, a reduction of 51% from the previous corresponding half year period ending 31 December 2022 (1H FY2023). This reduction is mainly a result of the discontinuation of SendSingapore Logistics Business announced on 12 September 2023, which was loss making in FY2023.

In terms of expenditure, Net Cash from Operating Activities outflows for 1H FY2024 were AU\$1.529m, a significant reduction of 56% from the previous corresponding half year period ending 31 December 2022 (1H FY2023). The significant decrease is mainly due to the initiatives the Company implemented to increase runway over the past 18 months.

Yojee ended the half year with a cash position of \$1,692k and has subsequently received additional funds of \$2,479k in January from the entitlement issue and a further \$133k in February from the remaining shortfall allocation.

In the near future, the Company also seeks to raise a further \$1,548k by placing an additional 774,249,500 Shares at an issue price of 0.2 cents per share (~51,616,633 shares at 3 cents per share on a post consolidation basis) (Second Placement).

The net loss before tax for the half year ended 31 December 2023 was \$5,854,829 (2022: \$3,883,660) following the expensing of non-cash asset impairments of \$3,073,118 (2022: Nil). The impairments relate to the carrying values of the internally developed software. Whilst management remain confident of growing revenue in the future, revenue decreased from the prior half year period largely due to the recent exit from the non-core business lines. Without these impairment charges the net loss before tax would have been \$2,781,711 (2022: \$3,883,660) which is in line with management's expectations.

As noted in the annual financial statements, management is required to assess the carrying value of non-financial assets including intangible assets. Management took into consideration various factors including annual growth rates, operating expenses and capital expenditure. Management deemed it prudent to recognise an impairment risk and as a result, moved to write down the carrying values of internally developed software by \$3,073,118 (2022: Nil). The development and commercialisation of Yojee's proprietary internally developed software will continue to remain the core focus of the business.

Management deemed it prudent to recognise an impairment risk and as a result, moved to write down the carrying values of internally-developed software by \$3,073,118 (2022: Nil). The development and commercialisation of Yojee's proprietary internally-developed software will continue to remain the core focus of the business.

13 OPERATING SEGMENTS

All revenues and costs are handled centrally and management reviews financial information on a consolidated basis. 14 GOING CONCERN

The financial report has been prepared on the going concern basis which contemplates continuity of normal business activities and realisation of assets and settlement of liabilities in the ordinary course of business. The going concern of the Group is dependent upon it generating increased cash receipts from sales growth, managing its costs and raising additional funds through future capital raisings.

For the six month period ended 31 December 2023 the Group recorded a loss before income tax expense of \$5,854,829 (2022: \$3,883,660), a net cash outflow of \$1,846,409 (2022: \$5,067,420), cash and cash equivalents of \$1,692,334 (30 June 2023: \$3,580,970), a net assets position of \$1,451,753 (30 June 2023: \$6,881,956) and a market capitalisation of approximately \$5.22 million.

The Directors have noted that, while the Group continues to operate at a loss, there has been meaningful improvement in the total comprehensive loss (excluding the non-cash impairment of intangible assets), a significant improvement in net cashflows, and the Group continues to focus on driving towards profitability. The Directors continue to monitor the ongoing funding requirements of the Group on a monthly basis including the monitoring of costs.

The Directors believe that the Group can meet its financial obligations when they fall due enabling it to continue as a going concern and as such are of the opinion that the financial report has been appropriately prepared on a going concern basis. The Group continues to be engaged with its investors and capital markets advisors.

On 18 January the Group announced the completion of a 1 for 1 non-renounceable entitlement issue of 762,231,465 shares at 0.2 cents per share (50,815,431 shares at 3 cents per share on a post-consolidation basis), raising \$1,524k together with a further 477,326,428 shares (~31,821,762 shares on a post-consolidation basis) from shareholder participation in shortfall raising \$955k received in January 2024, totalling \$2,479k.In addition, 4,428,491 shares at 3 cents per share (on a post-consolidation basis) were issued on 28 February relating to the remaining shortfall, representing gross proceeds of ~\$133k.

In the near future, the Group also seeks to raise a further \$1,548,499 by placing an additional 774,249,500 Shares at an issue price of 0.2 cents per share (~51,616,633 shares at 3 cents per share on a post-consolidation basis) (Second Placement).

Should the Group be unable to raise funds through the Second Placement mentioned above, there is a material uncertainty as to whether the Group will be able to continue as a going concern, and therefore, whether it will be required to realise its assets and extinguish its liabilities other than in the normal course of business and at amounts different from those stated in the financial report. The financial report does not include any adjustment relating to recoverability and classification of recorded asset amounts nor to the amounts and classification of liabilities that may be necessary should the Group be unable to continue as a going concern.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Yojee Limited does not comply with the *Corporations Act 2001* including:

- a giving a true and fair view of the Group's financial position as at 31 December 2023 and of its performance for the half year ended on that date; and
- b complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001.*

Material uncertainty related to going concern

We draw attention to Note 14 in the financial report, which indicates that the Group incurred a net loss before income tax of \$5,854,829 during the half year ended 31 December 2023 and a net cash outflow of \$1,846,409. As stated in Note 14, these events or conditions, along with other matters as set forth in Note 14, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Directors' responsibility for the half-year financial report

The Directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2023 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
