Directors' Report

For the half year ended 31 December 2023

The directors of Titanium Sands Limited ("the Company") and its wholly owned subsidiaries (together referred hereafter as "the Group" or "the Consolidated Entity") submit herewith the interim financial report for the half year ended 31 December 2023. In order to comply with the provisions of the Corporations Act 2001, the directors report as follows:

Directors

The directors of the Company at any time during or since the end of the half year are:

Mr James Searle

Mr Jason Ferris

Mr Lee Christensen

Company Secretary

Mr Alan Armstrong

Principal Activities

The current principal activity and key focus for the Group during the period is mineral exploration.

Operating Results

The net loss of the Company for the half year ended 31 December 2023 was \$1,447,708 (2022: net loss \$643,223).

Review of Operations during the Period

OVERVIEW

The Mannar Island Heavy Mineral Sands Project in Northwest Sri Lanka is 100% controlled by Titanium Sands Ltd (Figure 1). The project is an ilmenite feedstock project with minor credits from other mineral components. The high quality ilmenite product is expected to find a ready market with titanium slag and sulphate route pigment producers in the Middle East, Korea, India, China and elsewhere. Following the completion of a positive scoping study in May 2023 the operational priority (¹ ASX Announcement of the 12th of May 2023) for Titanium Sands Ltd to the 31st of December 2023 has been the processes necessary for securing an Industrial Mining License (IML) and other regulatory approvals for the project.

MINERAL RESOURCES

A mineral resource estimate (MRE) was completed in (Table 1) March 2023 (ASX TSL 15/3/2023²). Based on a 2% THM (Total Heavy Mineral) lower cut-off grade the MRE stands at 318 Mt at 4.17% THM.

A continuous higher grade zone measuring 10km by up to 2km and down to depth of 8-12m (the zone remains largely open at depth) was identified within the above mineral resource (Figure 2). Using the 2% lower cut off the higher grade resource contains 145.6Mt at 4.48% THM (Table 2) or for a 3% lower cut off (Table 3) 82.0Mt at 6.03% THM. This higher grade zone was used as the basis for the scoping study previously reported to the ASX (ASX TSL 12/5/2023¹).

SCOPING STUDY

The scoping study (ASX TSL 12/5/2023¹) scenario was selected on a project format with a modest capital hurdle but of sufficient scale and project life that its products would be attractive to potential offtake partners. Consequently the study was based on a single dredge continuously mining the higher grade zone identified in the resource modelling and measuring 10km by up to 2 km wide zone at rate of 4 million tonnes per annum over a period of 20 years (Figure 3). This zone contains 82million tonnes at 6.03% THM on a lower grade cutoff grade of 3% (Table 4) out of the total current mineral resource estimate of 187 million tonnes at 5.36% THM on a 3% THM lower cut off (Table 2). The mineral resources subject to this scoping study scenario therefore represent 44% of the total mineral resource estimates for the project at lower cut off of 3%.

The scoping study has indicated that this project scenario is economically robust and consequently subsequent more definitive studies could also examine the feasibility of second or even third dredges and expanded processing capacities to potentially exploit capital and operational efficiencies.

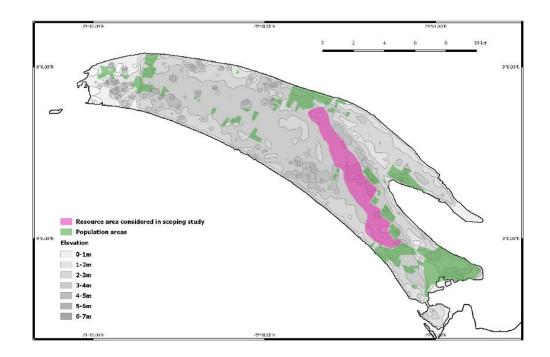

Figure 3 Portion of resource considered in the scoping study base case.

BOARD OF INVESTMENT APPLICATION

The Board of Investment (BOI) of Sri Lanka, is a Government Agency tasked to be the central facilitation point for investors, it is also responsible for permitting imports and exports for projects under section 17 of the BOI law as well as providing other investor related services. Titanium Sands Ltd on behalf of its Sri Lankan subsidiaries has been invited by the BOI to make applications designed to initiate regulatory approvals for use of land for its project treatment plant and local corporate structuring for the inbound investment. These applications are now in progress.

ENVIRONMENTAL IMPACT ASSESSMENT (EIA)

As part of the Environmental Impact Assessment (EIA) and the regulatory process leading to a mining license and other regulatory approvals land access agreement have been secured with affected landowners for priority zone 1 of the Mannar Heavy Mineral Project (ASX:TSL 6/11/2023)³. The Company representatives have been meeting with affected landowners to explain the proposed project (Figures 4) and the plans for the progressive development of sustainable commercial plantation agriculture as an integral part of the operation.

Included within the priority 1 zone are the areas allocated for mining part of the 82mt high-grade zone outlined in the Company's scoping study (ASX:TSL 12/5/23)¹ as well as housing the Company's initial processing plant and operations. (Figure 5 and 6)

The Central Environment Authority ("CEA") has initiated environmental clearance for the project (ASX TSL 27/7/23)⁴ and also recently completed their initial site visit in conjunction with the Environmental Impact Assessment consultants ("EIA") (ASX:TSL 24/10/23)⁵. (Figure 7)

TENURE

The Geological Survey and Mines Bureau (GSMB) has approved the Company's applications for the change of status for a further 4 exploration licenses into retention status pending the completion of the mining lease application process. TSL's five most important exploration licences covering the core resources of the project will now be held as retention licences (Table 5).

OPERATIONAL OUTLOOK

The operational outlook for the next 6 months will remain focussed on the regulatory approval processes for the Mannar Heavy Mineral Project. Completion of the Environmental Impact Assessment is a major step in the application process for an Industrial Mining License.

Previously Reported Information Footnotes

This report includes information that relates to Exploration Results and Mineral Resources prepared and first disclosed under JORC Code 2012 and references to other ASX announcements. The information was extracted from the Company's previous ASX announcements as

COMPLIANCE STATEMENTS

Previously Reported Exploration Results and Mineral Resources

This report includes information (Tables 1, 2,3 and 4) that relates to Mineral Resources prepared and first disclosed under JORC Code 2012. The information was extracted from the Company's previous ASX announcements as follows: Released to the ASX (ASX Announcement 15th March 2023: Updated Resource Estimate-Mannar Heavy Mineral Project). This announcements is available to view on the Company's website www.titaniumsands.com.au. The Company confirms that it is not aware of any new information or data that materially affect the information included in the relevant market announcement and, in the case of estimates of the Company's Mineral Resources that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply with respect to the resource block model and total heavy mineral content and have not materially changed. The Company confirms that the form and context in which the Competent Persons' findings are presented have not been materially modified from the relevant original market announcements.

Forward-Looking Statements

This document may include forward-looking statements. Forward-looking statements include, but are not limited to, statements concerning the Company's planned exploration program and other statements that are not historical facts. When used in this document, the words such as "could," "plan," "expect," "intend," "may", "potential," "should,", "further" and similar expressions are forward-looking statements. Although the Company believes that its expectations reflected in these forward-looking statements are reasonable, such statements involve risks and uncertainties and no assurance can be given that further exploration will result in additional Mineral Resources.

Directors' Report For the half year ended 31 December 2023

Competent Persons

Except where indicated, exploration and technical information above have been reviewed and compiled by James Searle BSc (hons), PhD, a Competent Person who is a Member of the Australian Institute of Mining and Metallurgy, with over 40 years of experience in metallic and energy minerals exploration and development, and as such has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Dr Searle is the Managing Director of Titanium Sands Limited and consents to the inclusion of this technical information in the format and context in which it appears.

Notes to the consolidated financial statements For the half year ended 31 December 2023

1. Reporting Entity

Titanium Sands Limited is a company domiciled in Australia. The interim financial report of the Group is as at and for the half year ended 31 December 2023.

2. Statement of compliance

The interim financial report is a general purpose financial report which has been prepared in accordance with AASB 134 *Interim Financial Reporting* and the Corporations Act 2001. Selected explanatory notes are included to explain events and transactions that are significant to gain an understanding of the changes in the financial position and performance of the Group since the last annual financial report as at and for the year ended 30 June 2023.

The interim financial report does not include all of the information required for a full annual financial report, and should be read in conjunction with the annual financial report of the Company as at and for the year ended 30 June 2023. The interim financial report is approved by the Board of Directors on 1st March 2023.

Estimates

Preparing interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these interim financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual financial statements as at and for the year ended 30 June 2023.

Going Concern

For the period ended 31 December 2023 the Group has incurred a net loss of \$1,447,708 (2022: \$643,223), experienced net cash outflows from operations of \$752,170 (2022: outflow \$472,919) and net cash outflows from investing activities of \$1,218,247 (2022: outflow \$347,794). As at 31 December 2023 the cash balance is \$481,852 (2022: \$559,527).

The Directors have reviewed the cash flow requirements in the next 12 months and recognise that the ability of the Group to continue as a going concern is dependent on securing additional funding through equity to continue to fund its exploration activities.

These conditions indicate a material uncertainty that may cast a significant doubt about the Group's ability to continue as a going concern and, therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

The financial statements have been prepared on the basis that the Group is a going concern, which contemplates the continuity of normal business activity, realisation of assets and settlement of liabilities in the normal course of business for the following

- The Directors are confident the Group will be successful in sourcing further capital from the issue of additional equity securities to fund the ongoing operations of the Group if required, having previously been successful when raising funds through equity issues; and
- The ability of the Group to further scale back certain parts of their activities that are non-essential so as to conserve
 cash.

Should the Group not be able to continue as a going concern, it may be required to realise its assets and discharge its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial statements and that the financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or liabilities that might be necessary should the company not continue as a going concern.

Notes to the consolidated financial statements For the half year ended 31 December 2023

3. Significant accounting policies

The accounting policies applied by the Group in this interim financial report are the same as those applied by the Company in its annual financial report as at and for the year ended 30 June 2023.

New or amended standards adopted by the entity

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Segment reporting

The Group operates in one reportable segment, being mineral exploration in Sri Lanka. The Board of Directors review internal management reports on a regular basis that are consistent with the information provided in the statement of profit or loss and other comprehensive income, statement of financial position and statement of cash flows. As a result no reconciliation is required because the information as presented is what is used by the Board to make strategic decisions.

4. Finance Income / Expense

12. Events Subsequent to the Reporting Date

There are no events subsequent to the end of the period that would have had a material effect on the Group's financial statements as at 31 December 2023.

Directors' Declaration

The Directors of Titanium Sands Limited declare that:

- a) the interim financial statements and notes thereto are in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the financial position of the Group as at 31 December 2023 and of its performance for the six month period ended on that date; and
 - (ii) comply with Accounting Standards AASB 134 Interim Financial Reporting and the Corporations Regulations 2001; and
- b) there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Titanium Sands Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Titanium Sands Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2023, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2023 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Material uncertainty relating to going concern

We draw attention to Note 2 in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern and therefore the Group may be unable to realise its assets and discharge its liabilities in the normal course of business. Our conclusion is not modified in respect of this matter.

Responsibility of the directors for the financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act* 2001 and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the Group's financial position as at 31 December 2023 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
