DIRECTORS' REPORT

Your directors submit the Interim Report of the Group comprising Lodestar Minerals Limited ("the Company", "LSR" or "Lodestar") and its controlled entities ("the Group") for the half-year ended 31 December 2023. To comply with the provisions of the *Corporations Act 2001*, the Directors report as follows:

DIRECTORS

The names of the directors who held office during the whole of the interim period and until the date of this report are noted below. Directors were in office for the entire period unless otherwise stated.

Ross Taylor	Non-executive Chairman
Edward Turner	Managing Director
David McArthur	Non-executive Director

REVIEW OF OPERATIONS

HIGHLIGHTS

EARAHEEDY (LSR – 100%) – Base Metals, Gold

- **Three diamond core holes and one RC hole comprising 1,093.4m were completed to follow up the significant RC drilling gold and base metal intersections in the maiden RC drilling programme which comprised 22 holes for 3,900m**
- **Single metre assays from the RC drilling included:**
 - **2m @ 2.00 g/t Au** from 45m in LERC012
 - **1m @ 1.58 g/t Au** from 37m in LERC002
 - **1m @ 1.35 g/t Au** from 34m in LERC022
 - **2m @ 0.15 % Cu** from 76m in LERC012
 - **2m @ 0.14% Zn** from 198m in LERC002
- **Significant copper and gold intersections in multiple targets spread over an area at least 5km x 3km in size tested in the maiden Earacheedy Aircore drilling programme, which was completed in the June Quarter**
- **Best intersections included:**
 - **7m @ 1.03 g/t Au** from 36m (EOH) in LEA0008 and
 - **8m @ 0.95 g/t Au** from 56m in LEA0021
 - inc. 4m @ 1.69 g/t Au** from 52m
- **Assays for 4,650 soil samples received and in the process of being reviewed and interpreted**

DIVESTMENT OF 20% INTEREST IN KANGAROO HILLS LITHIUM JV

- Sale of interest for \$3.5M in cash and shares plus \$3M in performance rights to Future Battery Minerals Limited (ASX:FBM)
- Exposure to 100% of FBM's lithium and nickel projects portfolio
- Lodestar becomes a significant shareholder in FBM

NED'S CREEK PROJECT

- LSR agreed to terminate the JV with Vango Mining Limited and the parties have retained their respective tenements as contained in the JV Agreement

COMPANY PROJECTS

There have been numerous changes in the Company's portfolio since 30 June 2023. The current projects include Earraheedy, Ned's Creek and Coolgardie West (application). Locations are shown in Figure 1.

Figure 1: Projects location

EARAHEEDY PROJECT (Lodestar – 100%, Base Metals, Gold)

The Earraheedy Project (the “**Project**”) is located approximately 200km north-east of Wiluna on the opposite side of the Earraheedy Basin to Rumble Resources Chinook base metal discovery (Figure 2).

During the reporting period Lodestar completed a maiden RC drilling programme as well as a maiden diamond core drilling programme to follow up the successful Aircore drilling programme which was completed in the June 2023 Quarter.

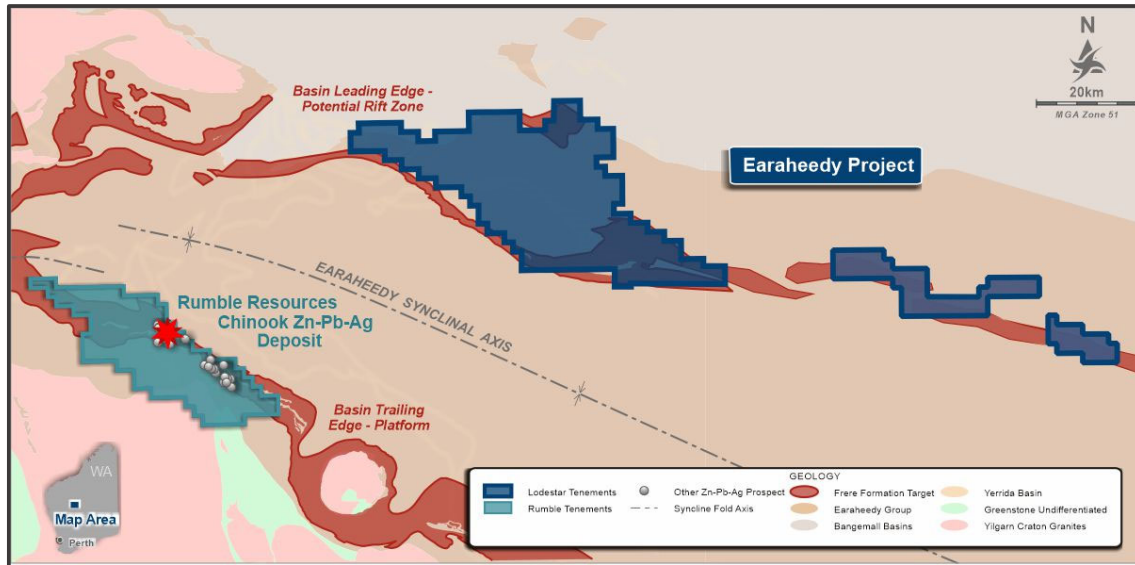

Figure 2: Lodestar's Earraheedy Project tenements

Aircore Drilling

Significant copper and gold intersections were returned at five targets on the seven tested in the Company's maiden aircore drilling programme at the Project (which was completed in June 2023) (Figure 3).

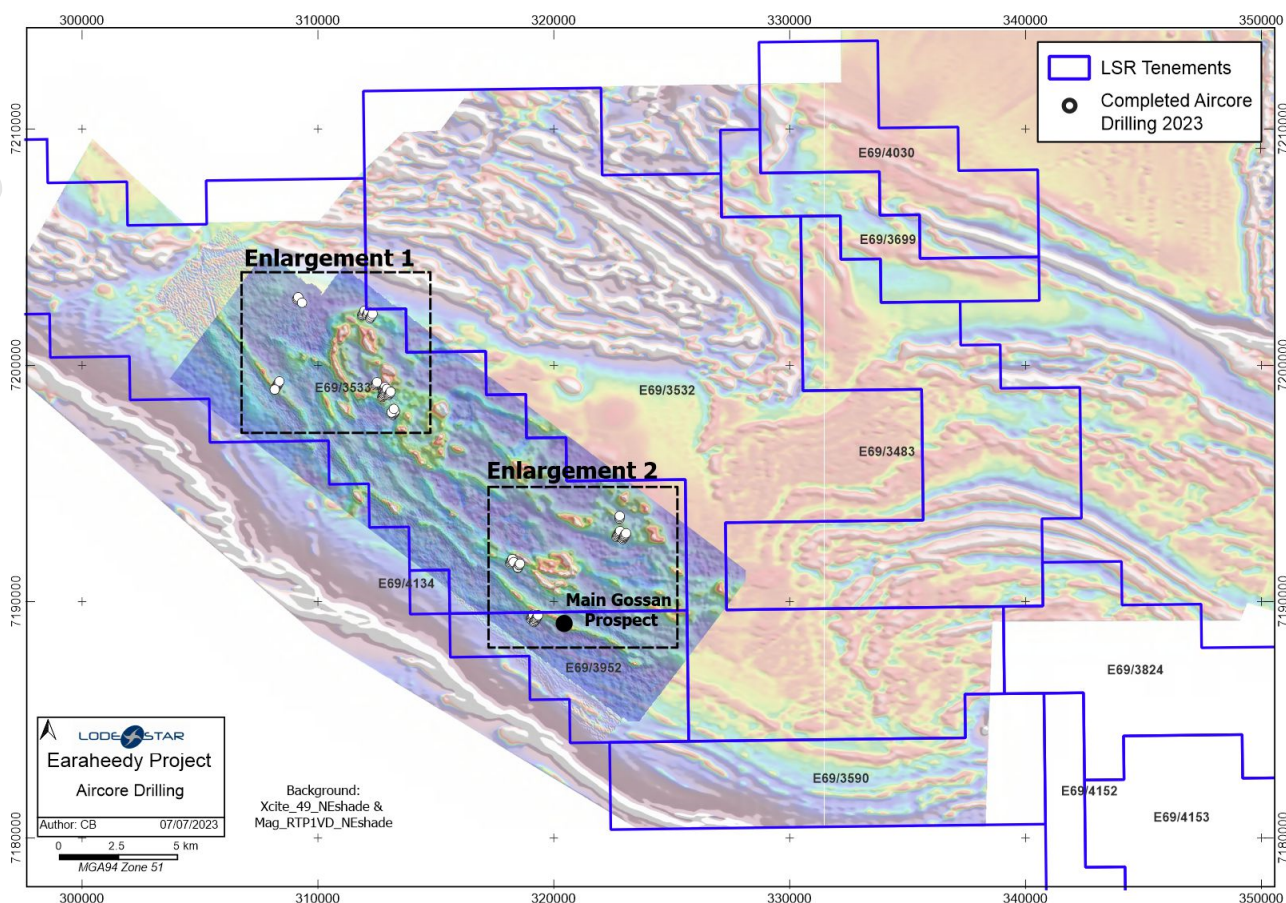

Figure 3: Lodestar Aircore drilling program

DISCUSSION OF RESULTS

99 Aircore holes were drilled for a total of 5,386m. Significant Cu intersections, based upon a threshold of 500ppm Cu (0.05% Cu) are included in Table 1, Figure 4 & 5, and significant Au results (above 0.2 g/t Au) in Table 2. Samples are 4m composites unless the hole finished at an uneven interval less than 4m. Some representative cross sections showing significant Cu and Au intersections are included as Figures 6 - 7.

The cross sections below (Figures 3 - 5) are across the three main copper-gold target areas showing the spread of the significant results in the aircore holes. The spread of the intersections is highly significant and show the excellent potential for economic copper-gold mineralisation within the Project.

RC Drilling

A total of 22 RC holes comprising 3,900m were completed to follow up significant gold and copper intersections in first pass Aircore drilling as reported on 17 July 2023 and 2 August 2023.

Assays from single metre re-splits in the RC drilling confirmed numerous significant gold, copper and zinc mineralisation in numerous intervals in 15 of the 22 holes drilled (Table 3).

Diamond Core Drilling

Three diamond core holes were also completed for 793.40m (including a 102m RC pre-collar in LEDD003) and one RC hole was completed for 300m (Table 4). This RC hole replaced one of the planned diamond core holes because of a lack of water within the vicinity which is required to drill diamond core. See Figure 9 for drill hole location plan.

All assays have been received with the best Au intersection was 1m @ 0.34 g/t Au from 249.6m in LEDD002. Significant Cu intersections are included in Table 4. See Figure 10 for cross section.

This program has helped the team understand the geological structural controls, ground conditions and logistics requirements for larger diamond drilling program in the future.

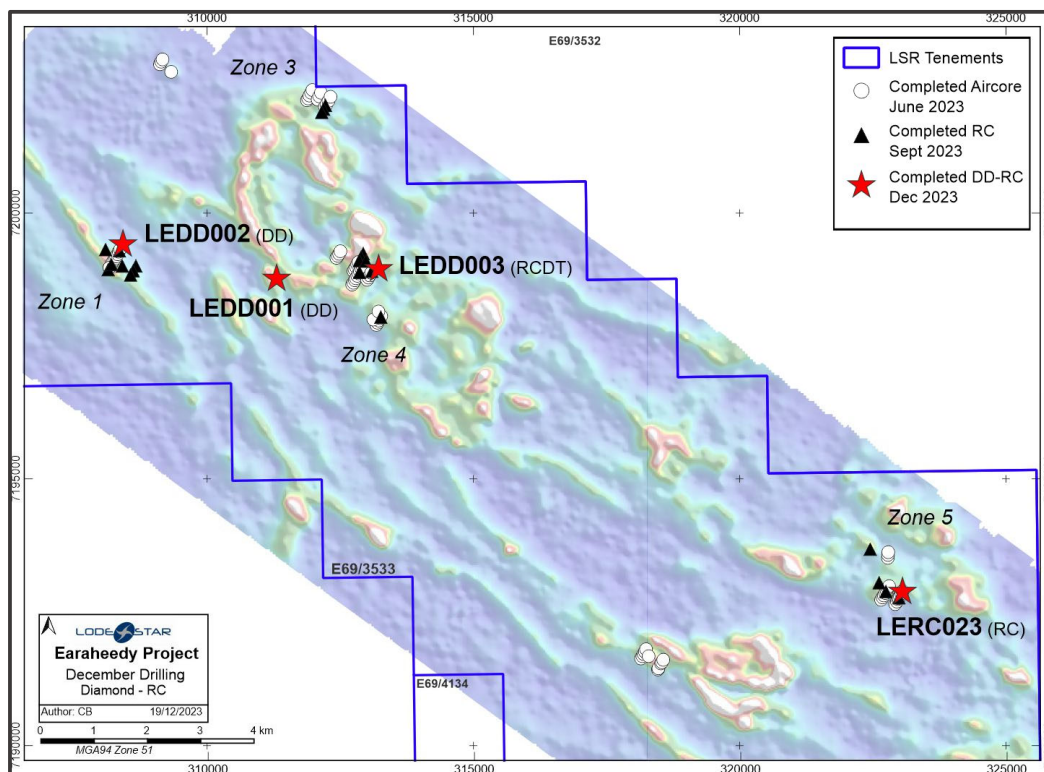

Figure 9: Drill hole location plan in relation to LSR Tenure on electro-magnetic background

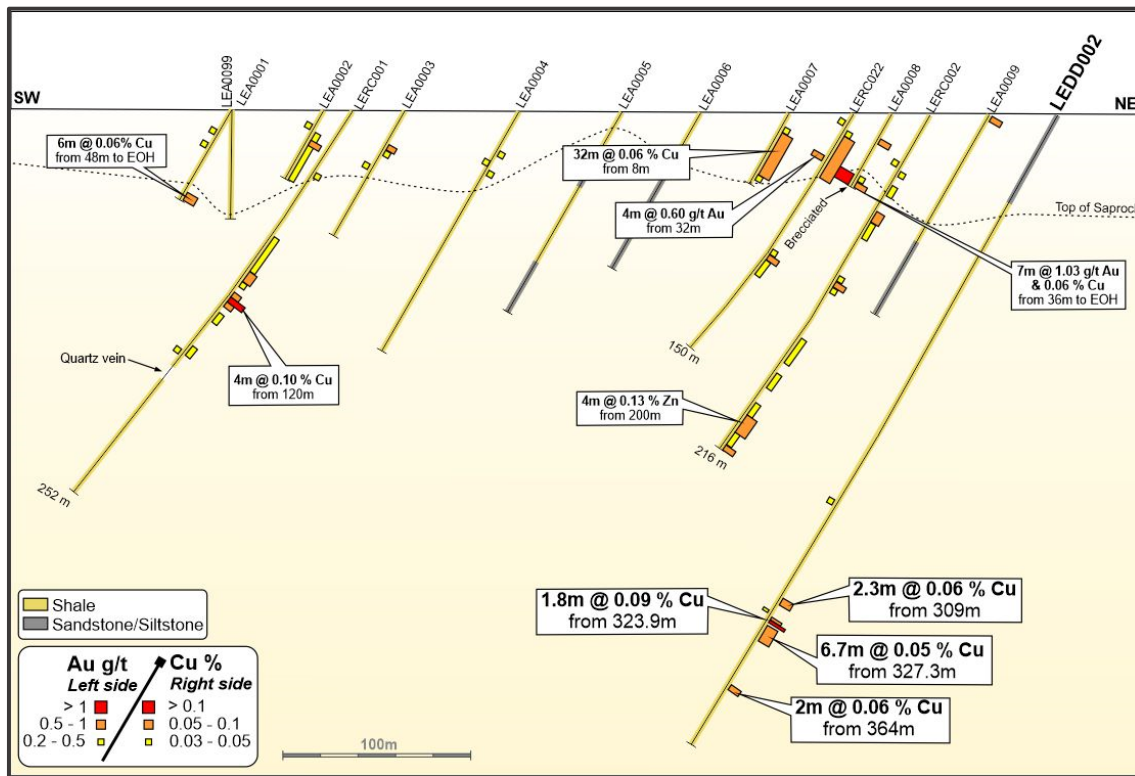

Figure 10: Drill cross section showing LEDD002 results and earlier aircore and RC drill intersections

LEDD001 and LEDD002 presented strong deformation and folding of the sedimentary package, mainly constituted of black shales and fine to medium grained sandstone. Multiple generations of pyrite and veining were observed (Figure 11). LEDD003 presented a less deformed sedimentary package, with little veining and hydrothermal origin pyrite.

Figure 11: Core tray of LEDD002 showing the strong deformation of the stratigraphy.

As presented on the core tray above, the pyrite and the veins are highly deformed and brecciated indicating the high level of deformation throughout the area. These deformation as well as the relationship between the mineralisation and the sedimentary package could not have been observed with RC or Aircore drilling, due to the size of the chips. Pyrite is often associated with black shale, but we have been able to observe multiple generations of pyrite of which some are linked to the sedimentary deposition and some of hydrothermal origin which could be linked to copper and gold mineralisation.

A petrography study will be completed to determine the different generations of pyrite, allowing us to have a better understanding of the mineralising events.

Geochemical Soil Sampling

All assays have been received from multiple soil sampling programmes completed in late 2023. In total 4,650 samples were collected over numerous areas that were previously untested (Figure 12). These programmes cover a large percentage of the 1,400 square km Project area however large areas still remain to be sampled.

A thorough review of the results is underway and follow up programmes will be planned following the interpretation of the results.

NED'S CREEK PROJECT

On 27 October 2023, LSR reached an agreement with Vango Mining Limited ("Vango") in respect of balances owed to Lodestar under its JV Agreement with Vango.

The JV Parties agreed to terminate the JV Agreement with each party retaining its respective tenements as contained in the JV Agreement.

As a result, LSR has retained 100% ownership of E52/2456, E52/2734, E52/3473 and E52/3476 and Vango has retained 100% ownership of M52/779-782.

There was no field exploration completed at Ned's Creek during the reporting period.

COMPETENT PERSONS' STATEMENT

The information in this report that relates to Exploration Results is based on information compiled by Mr Ed Turner who is a full-time employee for Lodestar and a Member of the Australasian Institute of Geoscientists. Mr Turner has sufficient experience of relevance to the styles of mineralisation and the types of deposits under consideration, and to the activities undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Turner consents to the inclusion in this report of the matters based on the information in the form and context in which it appears.

The information in this announcement that relates to previously released exploration results was disclosed under JORC 2012 in the ASX announcements dated:

- 10th July 2023 "Earaheedy Project Exploration Update".
- 17th July 2023 "Multiple Gold Hits in Maiden Earraheedy Drill Programme".
- 2nd August 2023 "Significant Copper Intersected in Earraheedy Drilling".

These announcements are available to view on the Lodestar website. The company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement. The company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

TRADITIONAL OWNERS

Lodestar Minerals would not be able to operate successfully without the support of the Traditional Owners and the local communities in which we operate. We continue to build trust and respect between Lodestar Minerals and our key stakeholders through transparency, listening, acting on concerns, and looking for innovative and sustainable ways of ensuring that the Traditional Owners are participating in the journey to explore and develop, responsibly and sensitively. We are working closely with our Native Title holders to identify mutually supportive initiatives which will see a growing range of business and employment opportunities being developed and importantly ensuring that the local community has the capability and opportunity to grow with the Company.

CORPORATE

Lodestar Minerals Limited is listed on the Australian Securities Exchange (ASX: LSR), classified as a Western Australian junior gold and base metal explorer.

At the date of this report, the Company has approximately 2,023 million shares on issue.

Annual General Meeting

On 27 September 2023, the Company provided its 2023 Annual Report to Shareholders. The Annual General Meeting was held on the 6 November 2023 and all Resolutions presented were passed by a poll.

REVIEW OF RESULTS AND FINANCIAL POSITION

The net loss after income tax for the half-year was \$2,913,584 (31 December 2022: \$1,164,179), which included exploration expenditure of \$1,815,676 (31 December 2022: \$797,625).

At the end of the reporting period the Group had cash on hand of \$605,608 (30 June 2023: \$637,350).

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

Other than as reported above in the Review of Operations, there were no matters that significantly affected the affairs of the Group during the reporting period.

MATTERS SUBSEQUENT TO THE BALANCE DATE

Other than as disclosed in note 12 to the financial statements, there have been no other matters or circumstances that have arisen since the end of the financial period that have significantly affected, or may significantly affect, the operations of the Group, the results of these operations, or the state of affairs of the Group in future financial years.

AUDITOR INDEPENDENCE

A copy of the auditor's independence declaration as required under Section 307C of the *Corporations Act 2001* is set out on page 17.

This report is made in accordance with a resolution of the directors, pursuant to section 298(2)(a) of the *Corporations Act 2001*.

CONSOLIDATED NOTES TO THE FINANCIAL REPORT

Half-year ended 31 December 2023

1. CORPORATE INFORMATION

The financial statements cover Lodestar Minerals Limited ("the Company") as a Group consisting of Lodestar Minerals Limited and the entities it controlled ("the Group") at the end of, or during the half-year. The financial statements are presented in Australian dollars, which is Lodestar Minerals Limited's functional and presentation currency.

Lodestar Minerals Limited is a listed public company limited by shares incorporated and domiciled in Australia. The address of its registered and principal office is Level 1, 31 Cliff Street, Fremantle, WA, 6160.

A description of the nature of the Group's operations and its principal activities are included in the directors' report, which is not part of the financial statements.

The financial statements were authorised for issue in accordance with a resolution of the directors on 5 March 2023.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

These general-purpose financial statements for the interim half-year reporting period ended 31 December 2023 have been prepared in accordance with Australian Accounting Standard AASB 134 *'Interim Financial Reporting'* and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 *'Interim Financial Reporting'*.

These general-purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2023 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

2.2 Accounting policies

The Group has adopted all the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ("AASB") that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

There were no new Accounting Standards and Interpretations relevant to the Group during the reporting period.

2.3 Going concern

The consolidated financial statements have been prepared on a going concern basis which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the normal course of business. For the period ended 31 December 2023, the Group recorded a loss of \$2,913,584 and had net cash outflows from operating activities of \$1,523,356 (including \$1,218,022 of exploration payments). On 31 December 2023, the Group had net assets of \$1,533,899, with total cash on hand of \$605,608.

The directors are aware that additional funds may need to be sourced from one or more of the following alternatives for the Group to carry on its business, meet its working capital requirements and its planned exploration commitments for tenements held:

- Capital raising such as:
 - Private placement
 - Entitlement issue
 - Share purchase plan
- Borrowings from related or third parties
- Farming out assets to reduce exploration expenditures

On 12 April 2023, the Company signed an At-the-Market Subscription Agreement (ATM) with Acuity Capital. The ATM provides Lodestar with up to \$2,000,000 of standby equity capital up until 31 July 2026.

On 6 September 2023, the Company issued 137,500,001 fully paid ordinary shares at 0.6 cents each to raise \$825,000 (before costs) in working capital. One (1) free attaching unlisted option exercisable at 2 cents on or before 31 August 2024 will be issued for every two (2) shares subject to shareholder approval.

On 6 September 2023, the Company issued 25,000,000 fully paid ordinary shares on the conversion of unlisted options exercisable at 0.7 cents each on or before 14 April 2024.

On 8 September 2023, the Company 2,500,000 fully paid ordinary shares on the conversion of unlisted options exercisable at 0.7 cents each on or before 14 April 2024.

If further equity/ loan funds are not achieved, it may give rise to a material uncertainty which may cast significant doubt as to whether or not the Group will be able to continue as a going concern, given the current cash position and the Group's ability to raise cash when required, the directors are of the opinion the Group can carry on operations for the foreseeable future, and that it will be able to realise its debts and discharge its liabilities in the normal course of business. If necessary, the Group has the capacity to delay or cancel expenses that are discretionary in nature, including administrative costs and exploration expenditure that are not contractually binding. The timing of raising additional capital will depend on the investment markets, current and future planned exploration activities.

2.4 Segment information

For management purposes, the Group is organised into one main operating segment, which involves exploration for gold and base metals. All the Group's activities are interrelated, and discrete financial information is reported to the Board (Chief Operating Decision Maker) as a single segment. Accordingly, all significant operating decisions are based upon analysis of the Group as one segment. The financial results from the segment are equivalent to the financial statements of the Group as a whole. The accounting policies used by the Group in reporting segments internally are the same as those contained in note 2.2 to the accounts.

10. FINANCIAL INSTRUMENTS

Fair value measurement

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy.

The three levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1, that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table shows the levels within hierarchy of financial assets and financial liabilities measured at fair value on a recurring basis:

	December 2023		
	Fair value	Fair value hierarchy	Valuation technique
	\$		
Equity investments designated at fair value through profit or loss	1,407,836	Level 1	Quoted market prices in an active market

Transfers

During the period ending 31 December 2023, the Group's investment in ECG (Level 2) was sold. As disclosed in note 5, part of the consideration received was 27,505,429 FBM shares (Level 1).

Not measured at fair value

The Group has various financial instruments which are not measured at fair value on a recurring basis in the statement of financial position.

The Directors consider that the carrying amounts of current receivables, current payables and current borrowings are a reasonable approximation to their fair values.

The methods and valuation techniques used for the purposes of measuring fair values are unchanged compared to the previous reporting period.

11. SHARE-BASED PAYMENTS

On 31 December 2023, a summary of the Group options issued and not exercised under the share-based payment programme are as follows:

Grant date	Vesting date	Expiry date	Exercise Price (cents)	Balance at the start of the period	Granted during the period	Exercised during the period	Expired / forfeited during the period	Balance at the end of the period	Vested and exercisable at the end of the period

12. MATTERS SUBSEQUENT TO THE BALANCE DATE

On 21 February 2023, Susan McArthur a related party to David McArthur, provided a \$260,000 cash loan to the Company, accruing interest at 10% per annum, pro rata, repayable within six months. The loan is secured against shares held by the Company in FBM.

Other than as disclosed above, no matters or circumstance has arisen since 31 December 2023 that has significantly affected, or may significantly affect, the operations of the Group, the results of these operations, or the state of affairs of the Group in future financial years.

DIRECTORS' DECLARATION

For the half-year ended 31 December 2023

In the opinion of the Directors of Lodestar Minerals Limited (the 'Group'):

- (a) the consolidated financial statements and notes are in accordance with the *Corporations Act 2001* including:
 - (i) giving a true and fair view of the Group's financial position as of 31 December 2023 and of its performance for the six months ended on that date; and
 - (ii) complying with Australian Accounting standards, AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 200*, and mandatory professional reporting requirements, and.
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the Directors.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the Members of Lodestar Minerals Limited

Report on the Condensed Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Lodestar Minerals Limited ("the Company") and its controlled entities ("the Group"), which comprises the consolidated statement of financial position as at 31 December 2023, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, selected explanatory notes, and the directors' declaration, for the Group comprising the Company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Lodestar Minerals Limited does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2023 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's responsibilities for the review of the financial report* section of our report. We are independent of the company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Material Uncertainty Related to Going Concern

We draw attention to Note 2.3 in the financial report, which indicates that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Responsibility of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2023 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
