OPERATING AND FINANCIAL REVIEW

The interim period ended 31 December 2023 (hereafter the "period") saw the Company continue its exploration activities at its Duketon Gold and Mon Ami projects in Western Australia and Edinburgh Park Project in Queensland.

An overview of the activities for the period is below:

Southern Star

In August 2023, the Company conducted a geochemical soil sampling program to the west of the main mineralised zone of the Southern Star prospect. The program comprised ~750 samples and delineated a 7-kilometre-long geochemical gold anomaly

In November 2023, a 3,155 metre (21 hole) Reverse Circulation (RC) drilling program was completed to test depth extensions to the main zone of mineralisation at Southern Star, and to test new targets identified from geochemical anomalies and geophysical interpretation.

Within the main zone of mineralisation at Southern Star, hole 23SSRC002 successfully pulled down the known mineralisation envelope by 65 metres, with the mineralised shear still visible in step-back hole 23SSRC003, a further 35 metres down plunge. Hole 23SSRC004 extended the mineralisation 40 metres down plunge and remains open at depth.

Intercepts from holes 23SSRC002 and 23SSRC004 included:

- 2m at 2.74g/t Au from 126m and **13m at 2.52 g/t Au from 144m, including 4m at 6.91 g/t Au** in hole 23SSRC004 (refer Figure 1), and
- 3m at 1.93 g/t Au from 76m and **9m at 3.66 g/t Au from 159m, including 6m at 4.63 g/t Au** in hole 23SSRC002 (refer Figure 2).

Broad spaced drilling to the north returned two promising high-grade gold intercepts located 1.2 kilometres and 0.8 kilometres (Figure 3) respectively from the Southern Star main zone. Best results included:

- 13m at 2.16 g/t Au from 57m, including 3m at 4.39 g/t Au in hole 23SSRC010, and
- 3m at 4.33g/t Au from 127m, including 1m at 9.94 g/t Au in hole 23SSRC008

Holes 23SSRC008 and 23SSRC010 are located some 440 metres apart with only one line of shallow (<63 metres depth) aircore drilling in-between. Hole 23SSRC008 targeted an interpreted northern offset of Southern Star, where surface geochemical anomalism coincided with an interpreted litho-structural repeat of Southern Star. There is limited historical drilling along this magnetic high trend from hole 23SSRC008 to the Southern Star main zone, with only one hole drilled below 100 metres depth. This provides an exciting follow-up target zone for future drill programs (Figure 4).

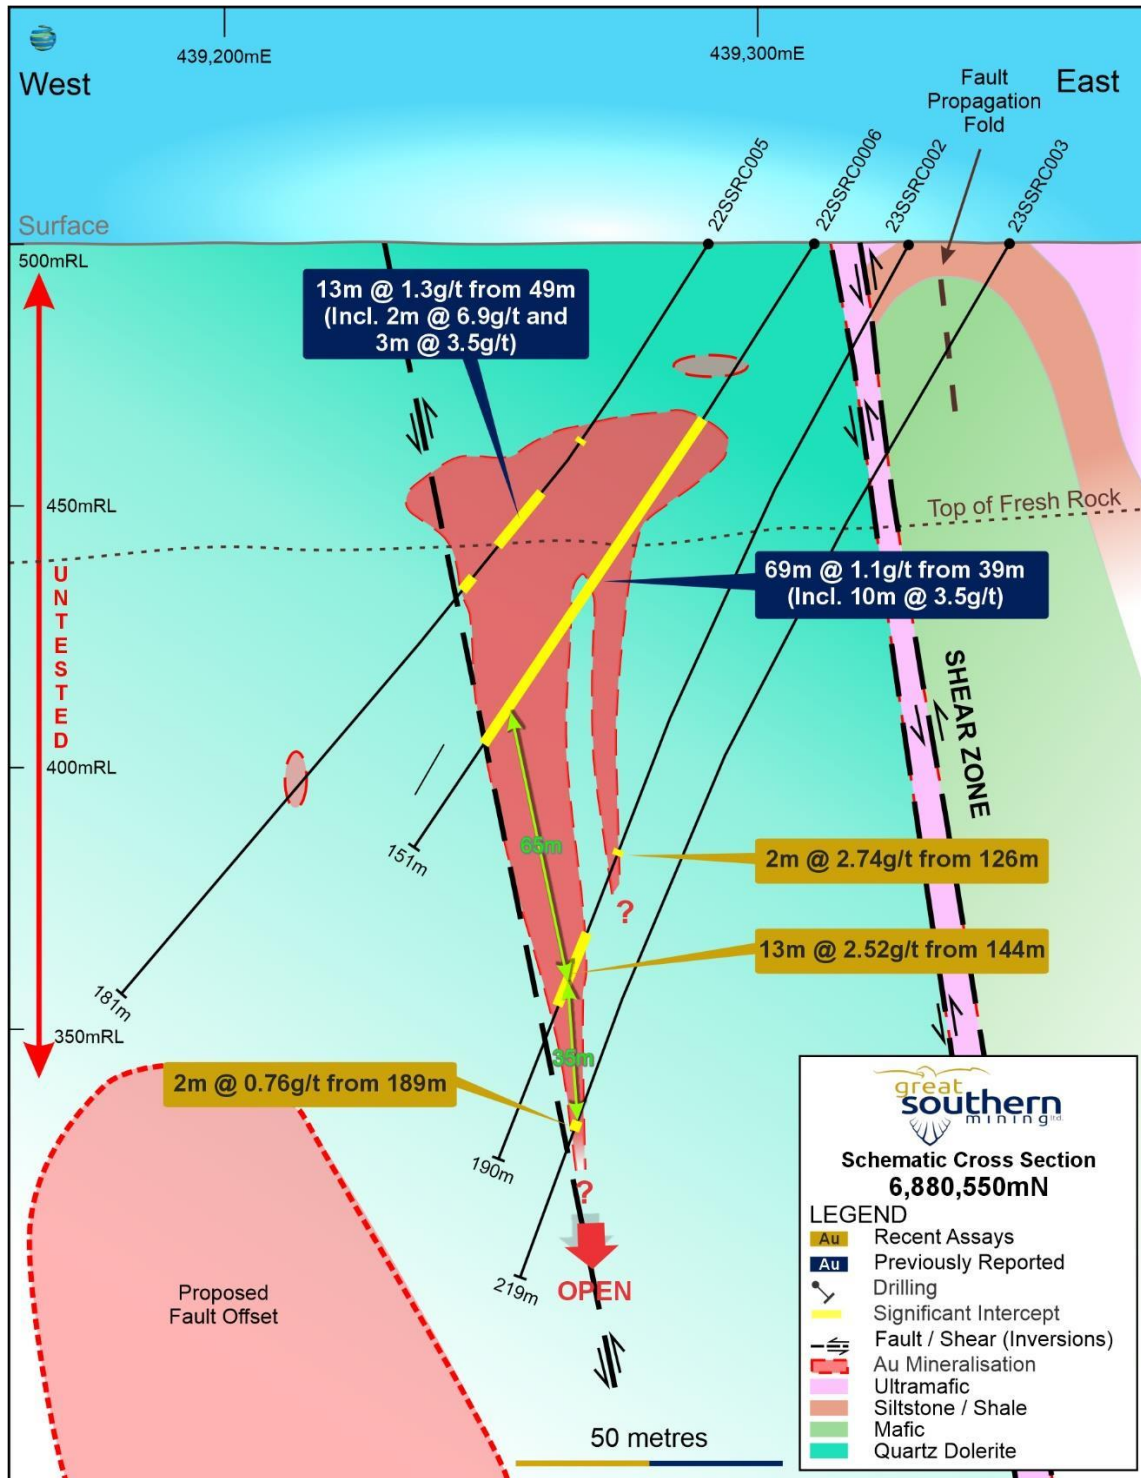

Figure 2 – Cross section across of the main zone of mineralisation at Southern star on Northing 6,880,550 showing recent drillholes 23SSRC002 and 23SSRC003.

Further commentary on the drilling results can be found in the ASX announcement of 31 January 2024.

Edinburgh Park Project, North Queensland (100% GSN, Gold Fields option to earn 75%)

In October 2023, the Company entered into a binding Option and Joint Venture Agreement with G Ex Australia Pty Ltd, a wholly owned subsidiary of Gold Fields Ltd (Gold Fields), on the Edinburgh Park Project. Under the agreement, Gold Fields can sole fund up to A\$15 million exploration expenditure over a six-year period to earn a 75% interest in the project¹.

In conjunction with the earn-in agreement, Gold Fields, through its wholly owned subsidiary G Ex Australia Pty Ltd, subscribed for 38.5 million Ordinary Shares in GSN, valued at A\$1 million. The subscription price was \$0.026 per share, representing an 11.5% premium to the previous 10-day value weight average price (VWAP). Subsequently, Gold Fields shareholding in GSN currently represent ~5% of issued capital.

In November 2023, GSN received notification that EPM 28571 (Mt Abbott) had been granted to the Company (Figure 5). This license covers an area of 282 km² and is prospective for copper-gold porphyry systems, both high and low epithermal gold systems and intrusive related gold systems. This license is included in the Gold Fields' joint venture agreement.

¹ Refer to GSN ASX announcement dated 9 October 2023

Geophysical surveys commenced

During the Period, Gold Fields commenced geophysical surveys, incorporating 144,050 line metres of induced polarisation (IP) over the Leichhardt Creek prospect area and 1,540 gravity stations over the greater project area.

Mon Ami Gold Project, Western Australia (100% GSN)

In December 2023, a small soil program was conducted at the Mon Ami Project to test for a potential eastern offset to the main Mon Ami deposit. No significant anomalies were detected from this program.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE HALF-YEAR ENDED 31 DECEMBER 2023

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

(a) Nature of operations

Great Southern Mining Limited's (the Company) principal activities include the exploration and evaluation of projects held in the Laverton region of Western Australia and the Mt Carlton region of north Queensland.

(b) Basis of preparation

These interim financial statements are general purpose financial statements prepared in accordance with the requirements of the Corporations Act 2001, applicable accounting standards including AASB 134 'Interim Financial Reporting', Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board ('AASB'). Compliance with AASB 134 ensures compliance with IAS 34 'Interim Financial Reporting'.

The interim financial statements were authorised for issue on 13 March 2024.

The interim financial statements do not include all of the information required in annual financial statements in accordance with Australian Accounting Standards and should be read in conjunction with the financial statements of the Company for the year ended 30 June 2023 and any public announcements made by the Company during the half-year in accordance with continuous disclosure requirements arising under the Australian Securities Exchange Listing Rules and Corporations Act 2001.

The accounting policies and methods of computations adopted are consistent with those of the previous financial year and corresponding interim reporting period. The accounting policies are also consistent with Australian Accounting Standards and with International Financial Reporting Standards.

The interim financial statements have been prepared on a historical cost basis, unless otherwise noted. The company is domiciled in Australia and all amounts are presented in Australian dollars, unless otherwise noted.

(c) Significant accounting judgements and key estimates

The preparation of interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

In preparing this interim report, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Company's financial report for the year ended 30 June 2023 unless otherwise stated.

(e) Going Concern

During the half-year the Company incurred a net loss of \$807,724 (31 December 2022: loss of \$664,470). Net cash outflows from operating and investing activities during the period were \$1,431,961 (31 December 2022: cash outflows of \$1,751,981).

Given the potential funding options and cash management initiatives noted below, the Directors believe the going concern basis is appropriate:

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- The Company will continue to exercise appropriate cash management and monitoring of operating cashflows according to exploration success. Future exploration expenditure is generally discretionary in nature and exploration activities may be slowed or suspended as part of the Company's cash management strategy.
- The Company has demonstrated its ability to raise capital via equity placements to shareholders during the period. Given the strong support of substantial shareholders and the prospectivity of the Company's current projects the Directors are confident that any future capital raisings will be successful.

Should the Company be unable to obtain sufficient future funding, there is a material uncertainty which may cast significant doubt as to whether the Company will be able to continue as a going concern and whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial statements.

The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts nor to the amounts and classification of liabilities that might be necessary should the Company not continue as a going concern.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the Members of Great Southern Mining Limited

Report on the Condensed Half-Year Financial Report*Conclusion*

We have reviewed the half-year financial report of Great Southern Mining Limited ("the Company"), which comprises the condensed statement of financial position as at 31 December 2023, the condensed statement of profit or loss and other comprehensive income, the condensed statement of changes in equity and the condensed statement of cash flows for the half-year ended on that date, selected explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Great Southern Mining Limited does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Company's financial position as at 31 December 2023 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Material Uncertainty Related to Going Concern

We draw attention to Note 1(e) in the financial report, which indicates that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Responsibility of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2023 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
