## Directors' report

For the half-year ended 31 December 2023

The directors of Canterbury Resources Limited submit the half-year report of the consolidated entity ("the Group") consisting of Canterbury Resources Limited ("the Company") and the entities it controlled at the end of, or during the half-year ended 31 December 2023. The directors' report as follows:

### Directors

The following persons were directors of the Company since the beginning of the financial period and up to the date of this report, unless noted otherwise:

John Ernest Douglas Anderson: Non-Executive Chairman  
Grant Alan Craighead: Managing Director  
Ross Earle Moller: Non-Executive Director and Joint Company Secretary  
Michael Matthew Erceg: Executive Director  
Robyn Watts: Non-Executive Director

### Information about the directors

At the date of this report there are six senior executives comprising four males and two females. The six senior executives include five directors and one joint company secretary. Ross Earle Moller, director, also acts as a joint company secretary.

### Joint company secretary information

Joan Dabon - appointed 8 September 2023

Veronique Morgan Smith - resigned 8 September 2023

### Principal activity

The principal activity of the Group is the participation in mineral exploration projects, with tenements currently held in Queensland and Papua New Guinea (PNG). The Group primarily targets prospects with potential to host large-scale copper and/or gold deposits.

There were no significant changes in the Group's activities during the period.

### Review of operations

During the period, Canterbury continued to generate and explore large-scale porphyry copper-molybdenum-gold opportunities in Papua New Guinea and Queensland.

At the Briggs Copper Project in Queensland, the Company has outlined a Mineral Resource of 415Mt at 0.25% Cu and 31ppm Mo, plus an Exploration Target of 480Mt to 880Mt at 0.2% to 0.3% Cu and 25ppm to 40ppm Mo<sup>1</sup>. Exploration Target is conceptual in nature and there has been insufficient exploration to estimate a mineral resource. It is uncertain if further exploration will result in an increase in the mineral resource estimate<sup>2</sup>. Recent drilling tested potential extensions to the Mineral Resource, as well as higher-grade settings, with encouraging progressive results. Planning for the next phase of drilling has commenced and will focus on delineating shallow, higher-grade zones of mineralisation in more detail as a key input to a planned Scoping Study. Project funding continues to be provided by Alma Metals (ASX: ALM) under an earn-in agreement.

## Directors' report

For the half-year ended 31 December 2023

### Review of operations (continued)

At the Bismarck Project in PNG additional mapping and sampling was completed, with high priority drill targets generated at Willie and Ndokowai. Planning is well advanced for an 8-hole, ~2,000m drilling program in 2024 which is being funded by Rio Tinto Exploration (PNG) Limited under an earn-in agreement.

Elsewhere in PNG, Canterbury holds a series of tenements in Morobe Province, plus an application on New Ireland. These projects are the subject of an agreement with Syndicate Minerals which can earn up to 70% interest via funding of up to US\$20 million of staged exploration and assessment activities. The tenement package includes significant resources at two deposits; Idzan Creek (137.3Mt at 0.53g/t Au and 0.24% Cu) and Wamum Creek<sup>3</sup> (141.5Mt at 0.18g/t Au and 0.31% Cu). Multiple targets have been identified, where significant alteration and mineralisation occurs in areas that have not been drilled. Assessment and prioritisation of drill targets is ongoing.

### Competent persons statements

The Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (the 'JORC Code') sets out minimum standards, recommendations and guidelines for Public Reporting in Australasia of Exploration Results, Mineral Resources and Ore Reserves.

The technical information in this report which relates to Exploration Results and Exploration Targets is based on information compiled by Mr Michael Erceg, MAIG RPGeo. Mr Erceg is an Executive Director and shareholder of Canterbury Resources Limited and has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australian Code of Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Erceg consents to the inclusion in this report of the matters based on that information in the form and context in which it appears.

The information in this report that relates to the Estimation of Mineral Resources, has been prepared by Mr Geoff Reed, who is a Member of the Australasian Institute of Mining and Metallurgy, is a Consulting Geologist of Bluespoint Mining Services (BMS) and is a shareholder of Canterbury Resources Limited. Mr Reed has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Reed consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

### Results of operations

The loss of the Group after providing for income tax amounted to \$437,909 for the half-year ended 31 December 2023 (2022: loss of \$418,684).

### Changes in the state of affairs

There were no significant changes in the state of affairs of the Group during the reporting period.

### Subsequent events

There has not arisen in the interval between the end of the half-year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the directors, to significantly affect the activities, or the state of affairs of the group in future financial years.

## Directors' report

For the half-year ended 31 December 2023

### Environmental regulation

The Manager-Exploration reports to the Board on all significant safety, health and environmental incidents. The Board also has a Risk Committee which has oversight of the safety, health and environmental performance of the Group.

The activities of the Group are subject to environmental regulation under the jurisdiction of the countries in which those activities are conducted, including Australia and Papua New Guinea. Each tenement is subject to environmental regulation as part of its granting. Each site is also required to manage its environmental obligations in accordance with group policies.

The Group has internal reporting systems. Environmental incidents are reported and assessed according to their environmental consequence and environmental authorities are notified where required and remedial action is undertaken.

The Board believes that the Group has adequate systems in place for the management of its environmental requirements and is not aware of any breach of these environmental requirements as they apply to the Group.

### Dividends

In respect of the half-year ended 31 December 2023, no dividend was paid (2022: nil).

### Commitments for expenditure

To maintain the Group's tenements in good standing with the relevant authorities, the Group incurs exploration expenditure under the terms of each licence. The indicative minimum exploration expenditure requirement for the financial year end 2024 is approximately \$2.4 million, of which approximately \$2.36 million is funded by our JV partners. This is a pro rata estimate, based on annualised licence terms, converted to AUD at current exchange rates.

### Climate change

The Group's exploration activities are assessed as having relatively low energy intensity and produce low exposure to climate change risks related to the transition to a lower carbon economy.

Exploration activities may be carried out at sites that are vulnerable to physical climate impacts. Extreme weather events have the potential to damage infrastructure and disrupt or delay field activities. The Group is adapting its site-specific operating plans to ensure that this risk factor is considered.

### Indemnification of officers and auditors

During the period, the Company paid a premium in respect of a contract insuring the directors of the Group, the Group secretary, and all executive officers of the Group and of any related body corporate against a liability incurred as such by a director, secretary or executive officer to the extent permitted by the *Corporations Act 2001*. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

The Group has not otherwise, during or since the end of the financial year, except to the extent permitted by law, indemnified or agreed to indemnify an officer or auditor of the Group or of any related body corporate against a liability incurred as such by an officer or auditor.

## Directors' report

For the half-year ended 31 December 2023

### Auditor's independence declaration

The auditor's independence declaration is included after this report.

This directors' report is signed in accordance with a resolution of directors made pursuant to s.298(2) of the *Corporations Act 2001*.

On behalf of the Directors

Director: ..... 

Grant Craighead

Dated: 14 March 2024

# Auditor's Independence Declaration under Section 307C of the Corporations Act 2001 to the Directors of Canterbury Resources Limited and Controlled Entities

To the directors of Canterbury Resources Limited

I declare that, to the best of my knowledge and belief during the half year ended 31 December 2023 there have been:

- i) no contraventions of the independence requirements of the *Corporations Act 2001* in relation to the audit; and
- ii) no contraventions of any applicable code of professional conduct in relation to the audit.

## Notes to the condensed consolidated financial statements for the half-year ended 31 December 2023

### 1. General information

Canterbury Resources Limited ("the Company") is a public company incorporated in Australia.

The address of its registered office and principal place of business is as follows:

Suite 301  
55 Miller Street  
Pymont NSW 2009

The principal activity of the Group is participation in mineral exploration projects, with tenements currently held in Queensland and Papua New Guinea. The Group primarily targets prospects with potential to host large scale copper and/or gold deposits.

These condensed consolidated financial statements and notes represent the Company and its controlled entities ("the Group").

#### (a) Statement of compliance

The half-year financial report is a general purpose financial report prepared in accordance with the *Corporations Act 2001* and AASB 134 *Interim Financial Reporting* ("AASB 134"). Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*. The half-year report does not include notes of the type normally included in an annual financial report and should be read in conjunction with the most recent annual financial report.

The financial statements were authorised for issue by the directors on 14 March 2024.

#### (b) Basis of preparation

The condensed consolidated half-year financial statements have been prepared on the basis of historical cost, except for certain non-current assets and financial instruments that are measured at revalued amounts or fair values. Historical cost is generally based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

The accounting policies and methods of computation adopted in the preparation of the consolidated half-year financial statements are consistent with those adopted and disclosed in the Group's annual financial report for the financial year ended 30 June 2023. The accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

#### Rounding off of amounts

The Group is of the kind referred to in *ASIC Corporations (Rounding in Financials/Directors' Reports) Instrument 2016/191*, dated 24 March 2016, and in accordance with that Corporations Instrument, amounts in the condensed consolidated financial statements are rounded off to the nearest dollar unless otherwise indicated.

## Notes to the condensed consolidated financial statements for the half-year ended 31 December 2023

### 2. Significant accounting policies

#### (a) Adoption of new and revised Accounting Standards

##### **Amendments to Accounting Standards that are mandatorily effective for the current reporting period**

The Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board that are relevant to its operations and effective for the current reporting period. There has been no material impact of these changes on the Group's accounting policies.

New and revised Standards and amendments thereof and Interpretations effective for the current period that are relevant to the Group include:

*AASB 2021-2 Amendments to Australian Accounting Standards – Disclosure of Accounting Policies and Definition of Accounting Estimates*

*AASB 2021-5 Amendments to Australian Accounting Standards – Deferred Tax related to Assets and Liabilities arising from a Single Transaction*

#### (b) Going concern

The condensed consolidated net loss of the Group, after tax was \$437,909 for the half-year ended 31 December 2023 (31 December 2022: loss of \$418,684), with cash outflows from operating activities of \$293,152 (31 December 2022: cash outflow of \$406,428).

The Group has a cash balance of approximately \$529,910 as at the date of signing the report to meet its expenses over the next twelve months.

The directors believe the Group is a going concern. This financial report has been prepared on the going concern basis, which assumes continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

The directors are aware of the fact that future development and administration activities are constrained by available cash assets and believe future identified cash flows are sufficient to fund the short-term working capital and forecasted exploration requirements of the Group.

During the next twelve months there is substantial exploration activity planned to advance the Company's tenement assets, and the directors note that will be largely funded by project funding partners. Furthermore, The Company expects to generate fee income in relation to the management of some of these planned activities, that will further assist in funding the company's operations.

The directors have a high level of confidence in the Group's ability to successfully complete capital raising initiatives as and when required. This is supported by the Group's strong track record in successfully raising capital.

The directors have reached the conclusion that based on all available facts and information currently available, there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable and is a going concern.

### 17. Operating segments

#### Identification of two reportable operating segments

The Chief Operating Decision Maker (CODM) has restructured the reporting structures into 2 reportable segments representing business operating segments for management, reporting and allocation of resources purposes. Operating segments have been identified based on financial information that is regularly reviewed by the CODM.

The Group aggregates two or more operating segments into a single reportable operating segment when the Group has assessed and determined the aggregated operating segments share similar economic and geographical characteristics.

The Group has the following reportable segments:

- Papua New Guinea
- Australia
- 

The performance of each segment forms the basis of all reporting to the CODM. The steering committee primarily uses Earnings Before Interest and Tax (EBIT) to assess the performance of a segment. It will also review the assets and working capital of each segment on a regular basis. The accounting policies adopted for internal reporting to the CODM are consistent with those adopted in the financial statements.

In reporting the EBIT to the steering committee, results for the normal operations of the segment separately show reporting of non-recurring events.

## Independent Auditor's Review Report

To the members of Canterbury Resources Limited

### Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Canterbury Resources Limited and controlled entities (the consolidated entity), which comprises the consolidated statement of financial position as at 31 December 2023, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a material accounting policy information and other explanatory information, and the directors' declaration.

### Directors' Responsibility for the Half-Year Financial Report

The directors of Canterbury Resources Limited (the company) are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the company's financial position as at 31 December 2023 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001*. As the auditor of the consolidated entity, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all material matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Independence

In conducting our review, we have complied with the independence requirements of the Corporations Act 2001. We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the company, would be in the same terms if given to the directors as at the time of this auditor's report.

## Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Canterbury Resources Limited is not in accordance with the *Corporations Act 2001* including:

- a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2023 and of its performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 *Interim Financial Reporting and Corporations Regulations 2001*.
