DATE: 27/3/2024

Execution of variation to Facility Agreement with PURE Asset Management, Company to seek a Sale Transaction

KEY HIGHLIGHTS

- Variation provides A\$1.7m in new funding, subject to the requirement of a waiver of ASX Listing Rule 10.1 in order to amend the Original PURE Facility
- Variation includes the potential for two additional tranches valued at A\$1.5m each, which can be accessed at the discretion of PURE Asset Management
- New funding will be used in order to seek to implement a sale of the Company or the Company's business ('Sale Transaction') for the benefit of stakeholders
- HydraLyte to operate in the ordinary course of business as it progresses a Sale Transaction

Hydration solutions company **The Hydration Pharmaceuticals Company Limited (ASX: HPC) (HydraLyte North America or the Company)** advises that today it has signed a variation to its facility agreement with boutique asset manager and existing substantial shareholder **PURE Asset Management Pty Ltd** as trustee for The Income and Growth Fund (**PURE or PURE Asset Management**) as previously announced to the market on 17 October 2022 (**Original PURE Facility**).

Under the terms of the variation (**Amended PURE Facility**), HydraLyte has secured A\$1.7m in new funding. The Amended PURE Facility also includes two additional tranches, valued at A\$1.5m each, which can be accessed at the discretion of PURE Asset Management. The Company notes that a condition precedent to the Amended PURE Facility becoming effective (and thus access to the \$1.7m of funding under the Amended PURE Facility becoming available), is the requirement of a waiver of ASX Listing Rule 10.1 in order to vary the Original PURE Facility. The Company will submit a waiver application to the ASX on or shortly after the date of this announcement in order to apply for the required waiver. The Company cautions that there is no certainty that this requirement will be met, in which case the Amended PURE Facility will not take effect (and the additional funding will not become available).

The Company intends to use the funding available under the Amended PURE Facility to progress a Sale Transaction.

While the Company advances opportunities associated with a Sale Transaction, it will continue to operate in the ordinary course of business. HydraLyte has sufficient inventory on hand to satisfy retail demand and remains actively engaged with existing and potential new stockists. The Board and management are continuing to review additional cost reductions measures, which will allow the Company to prolong its existing cash balance, which at 26 March 2024 is US\$1.2m.

A detailed summary of the terms of the Amended PURE Facility and the 'Second Warrant Deed' entered into between the Company and PURE is provided below.

Company to seek a Sale Transaction

The Company is not expected to be cashflow positive in the near-term and requires significant additional capital to execute on its market opportunity in North America and Canada.

Market conditions are presently very challenging for emerging companies that are yet to become cash flow positive. The Company's leveraged balance sheet adds further complexity and difficulty in raising capital.

The Board engaged New York-based Two Roads Capital in 2H2023 in order to seek to procure a strategic equity investor, change of control transaction or asset divestment for the benefit of shareholders (refer Appendix 4E of 29 February 2024). The Company is currently in progressed discussions with certain potential acquirers, however no binding or non-binding offer has been received in writing and there is no guarantee that any Sale Transaction will eventuate. The Company will update the market as and when required in accordance with the Listing Rules.

The Company has assessed and sought to execute on a range of different funding options in order to capitalise the business. It has been unable to garner sufficient support from shareholders for an equity capital raising and has been unable to procure new equity investors.

The Board is of the view that the Company is unable to access the level of capital required to get the business to breakeven or better in a short period of time, resulting in the Board's decision to seek a Sale Transaction to maximise shareholder returns.

PURE Asset Management, which holds 11.4% of the Company's issued shares, has agreed to vary the Original PURE Facility in order to advance the Company an additional A\$1.7m (for a total of A\$8.2m of senior secured debt which would be owed to PURE), in order to fund the business while it seeks a Sale Transaction for the benefit of all stakeholders. The Amended PURE Facility requires a waiver of ASX Listing Rule 10.1 in order to take effect. If the Amended PURE Facility does not take effect then the Original PURE Facility will not be amended and the additional funding will not be available.

The Amended PURE Facility also includes two new additional tranches, valued at A\$1.5m each, which can be accessed at the discretion of PURE Asset Management. The Amended PURE Facility also provides for a 'Second Loan' of \$5.5m, which can be accessed at the discretion of PURE Asset Management until 31 December 2024. The Second Loan was provided for in the Original PURE Facility and the terms of the Second Loan were amended as announced on 3 August 2023.

Assuming drawdown of the \$1.7m, this amount, plus net cash at bank is expected to be exhausted in July 2024.

In the event that the Company is unable to procure a Sale Transaction by July 2024, additional debt or equity capital would be required in order for the Company to continue operations as a going concern. While the Amended PURE Facility contemplates two additional tranches of a total of A\$3.0m of debt available (in addition to the 'Second Loan' of \$5.5m), the availability of those additional tranches (and the Second Loan) is at PURE's discretion. If additional capital was required, there is no guarantee that the Company would be able to raise it.

The Company has chosen to obtain the debt from PURE (a 'Listing Rule 10.1 party' by virtue of its 11.4% shareholding in the Company) via the Amended PURE Facility because it is unable to raise any meaningful level of equity capital from existing shareholders or new investors in the time period required. After assessing a range of options, the Board considers that the debt being provided by PURE is the only funding available within the current time requirements.

Given the above comments including the lack of success with alternative funding, the Board considers that the terms of the Amended PURE Facility are fair and reasonable for shareholders.

Waiver provided by PURE

PURE Asset Management has granted the Company a waiver of rights that have accrued or which occur up until 30 June 2024 under the following provisions of the Original PURE Facility:

- (a) The requirement for the Company to maintain a cash balance of more than US\$750,000.

- (b) An event of default arising out of non-payment of amounts owing to PURE.
- (c) An event of default arising out of an insolvency event occurring.

Material terms of the Amended PURE Facility

The key terms of the Amended PURE Facility are set out in the table below. As noted above, the amendments to the Original PURE Facility (and therefore the availability of the additional \$1.7m in funding), are conditional on the requirement of a waiver of ASX Listing Rule 10.1. There is no certainty that this requirement will be met (in which case the Original PURE Facility will not be amended).

The Amended PURE Facility continues to be secured by a first-ranking general security over all present and after-acquired property of the Company and each Group entity in all relevant jurisdictions. Certain changes to the General Security Deed between the parties have also been agreed – these are described below.

Amendments to General Security Deed

In conjunction with entering into the Amended PURE Facility, the parties have agreed the following variations to the General Security Deed between PURE and each HydraLyte Group Company dated 15 October 2022 (**GSD**).

- (a) Security limited to amounts owing under Amended PURE Facility: a provision that expressly confirms that the 'Security' granted under the GSD is limited to amounts owing under the Amended PURE Facility (being the **Secured Moneys**) has been inserted.
- (b) Disposal of assets: a provision has been inserted which requires that, in the event that the 'Security' is enforced, the assets can only be disposed to PURE or an associate of PURE if the disposal is first approved by the Company's shareholders under Listing Rule 10.1.
- (c) Appointment of receiver: if PURE appoints a receiver, receiver and manager or analogous person to exercise any power of sale under the GSD, the assets must be sold to an unrelated third party on arm's length commercial terms and the net proceeds of sale distributed to PURE in accordance with its legal entitlements.

The GSD provides that the 'Security' will be discharged once the Secured Moneys have been repaid in full.
