Managing Director and CEO, Neil Marston commented,

“In very short time Flynn has advanced its Trafalgar discovery at its Golden Ridge Project in Tasmania from a one-hole intercept to a significant gold system with an open strike length of 400m and open depth of 350m. We are now ready to take the next step ...”

This fundraising is a major step forward in the value creation journey for the Company and we look forward to continued shareholder support as we advance our exciting gold projects in northeast Tasmania. Funds will be applied primarily towards additional drilling at our Golden Ridge Project, with the aim of advancing our recent gold discoveries to the next level and delivering value for shareholders.”

Funds raised under the Rights Issue will be applied to exploration activities at the Company’s projects in Tasmania and Western Australia and to working capital requirements including meeting the costs of the Offers.

All New Shares issued will rank equally with existing shares on issue and the Company will apply for quotation of the New Shares and Options.

A prospectus in relation to the Rights Issue was lodged with ASIC on 4 April 2024 and, together with a personalised entitlement acceptance form, will be sent to eligible shareholders shortly after the Record Date.
