Investment Commentary

Pre-tax NTA increased by 0.34 cents in March to \$1.2780 after the payment of the interim 4 cent fully franked dividend resulting in a positive monthly return of +3.44%.

Positive performance this month was led by strong returns from core Portfolio positions Macmahon Holdings, Austin Engineering, Aurelia Metals, Service Stream and SRG Global following on from solid underlying 1H FY24 results and positive full year earnings guidance in February. Negative contributions came from BCI Minerals, Fleetwood Corp, Count and Janison Education.

Portfolio activity included opportunistically adding to our positions in BCI Minerals and Count on share price weakness. We initiated three new positions that we plan to build on over time, while in parallel selectively trimming exposure to our holdings in Service Stream, SRG Global and Cash Converters. The Company received and accrued dividends of \$1.2m while realising a net \$1.5m from share sales and purchases across the Portfolio. The buyback continued during the month purchasing 96,633 shares at an average price of \$1.05 per share, and a 4 cent per share fully franked interim dividend was paid to shareholders.

Portfolio cash decreased slightly from \$5.74m (5.42%) to \$5.04m (4.73%), noting this was after the payment of \$3m in dividends and net of the DRP. The shareholder letter for the March quarter will be released shortly with additional detail and commentary regarding Portfolio holdings and performance.
