

ASX Announcement

ROCKETDNA MARCH Q1 FY2024 QUARTERLY REPORT

XBot solution rolling out; Key financial metrics show continued growth

HIGHLIGHTS

- **Revenue from continuing operations** \$1.732m in the March quarter, Q1 FY2024, was up 6% on Q4 FY2023 and up 18% on Q1 FY2023 (note: unaudited, December financial year end)
- **Cash receipts from customers** \$1.964m in Q1 FY2024, up 18% on Q4 FY2023 and up 16% on Q1 FY2023
- **Net cash used in operating activities;** was \$104k in Q1 FY2024 compared to \$335k in Q4 FY2023
- **Annual Recurring Revenue (ARR)** was \$3.022m at the end of the March quarter, up 6% on Q4 FY2023 and up 9% on Q1 FY2023 (includes recent Calidus contract win in late March)
- **Board changes (announced post quarter end):** David Morton, Non-Executive Director, was appointed as Chairman of RKT; CEO Chris Clark transitioned from the role of Chair to focus on his role as Managing Director and CEO
- **Contract signed with Calidus Resources for xBot® autonomous drone solution:** 3-year contract with Total Contract Value (TCV) of AU\$376k and Annual Recurring Revenue (ARR) of AU\$115k
- **Key pipeline activities (announced post quarter end):** the Company provided a business update around the new autonomous drone solution (xBot®) and key market developments around the xBot® drone solution successfully rolling out
- **Cash balance** of \$2.015m at 31 March 2024
- **Investor call** will take place on Wednesday 1st of May at 11 am Sydney time; registration details will be made available shortly via an ASX announcement

24 April 2024, RocketDNA Ltd (ASX: RKT), a global drones-as-a-service provider, is pleased to provide an activities update for the quarter ending 31 March 2024 (Q1 FY2024) along with its Appendix 4C quarterly cash flow report.

RocketDNA CEO Christopher Clark said: "I am pleased with our continued financial progress as we focus on our aspirational goal of achieving positive EBITDA. We are also very excited as a management team at the growing opportunities and pipeline and having achieved initial sales of our xBot® solution.

David Morton's very recent appointment to the Chairman role is a valued addition and will help me focus on my role as CEO in achieving operational wins. We are hitting our internal milestones for FY2024 and

maintain a positive outlook for the quarters ahead.”

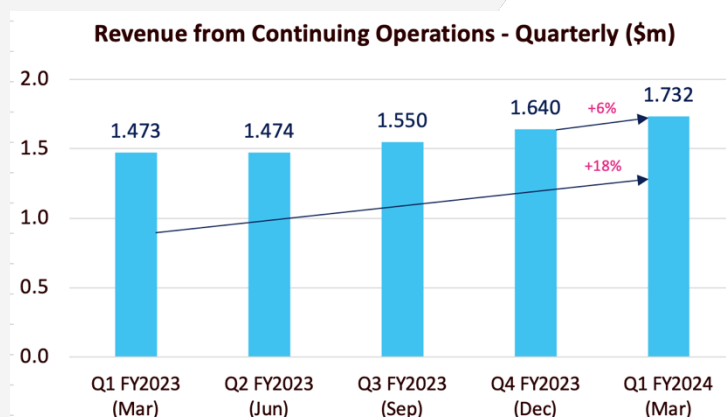

RocketDNA Chairman David Morton said: “As incoming Chairman, I see this set of results for the first quarter of 2024 as evidence of the energy and focus applied by the team toward what is a very large opportunity, as well as strong management of our existing business streams in Australia and Africa. I am keen to support Chris and the team to build out this business from the strong base which is in place, and I will continue to keep our existing and potential shareholders well informed of progress.”

1. FINANCIAL OVERVIEW

Revenue from continuing operations (unaudited) for the March quarter Q1 FY2024 was \$1.732m, up 6% on Q4 FY2023 and up 18% on Q1 FY2023. This was driven by existing ‘**Revenue likely to re-occur**’.

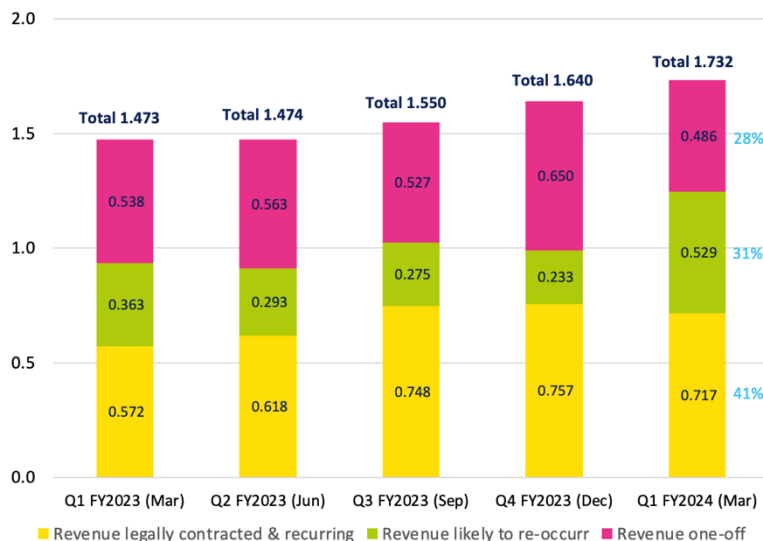

Looking at revenue by type; ‘**Revenue legally contracted and recurring**’ achieved in the March quarter was \$0.717m, which accounted for 41% of total revenue and dropped slightly compared to the prior quarter due to exchange rate movements. ‘**Revenue likely to re-occur**’ grew substantially due to an existing client previously classified as ‘**Revenue one-off**’ now being reclassified into the ‘**Revenue likely to re-occur**’ category as a result of these revenues now being expected by management to reoccur (see revenue definition below).

Growing the ARR component of overall revenue is a focus of the Company when tendering its services. Non-ARR revenue is an important (indicative) metric to the Company’s prospective revenue pipeline, leading to potential new contract wins, as customers generally conduct ad-hoc projects or proof-of-concept trials before signing on for long-term agreements, noting this revenue can be quite variable from quarter to quarter.

For personal use only

Revenue from Continuing Operations by Type (\$m)

Revenue definitions by type:

(A) Revenue legally contracted and recurring: revenue from legal contracts with minimum original terms of 12 months, subject to normal termination provisions per each contract. The TCV and ARR measures set out in the section below contain only this type of contract.

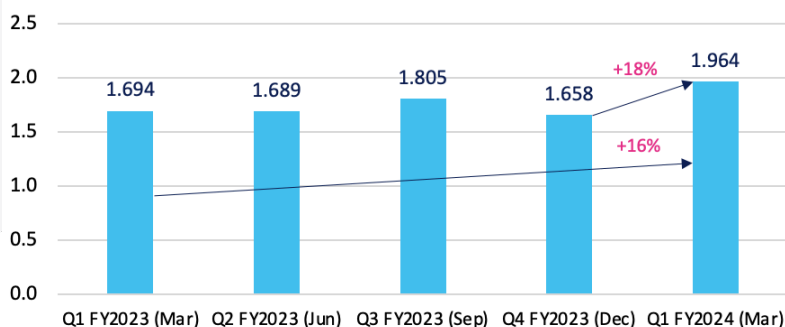

(B) Revenue likely to re-occur: revenue which management have a reasonable expectation will reoccur in the future either because it has been historically demonstrated to re-occur or because we hold rolling short term purchase orders or legal contracts which are less than 12 months in original length.

(C) Revenue one-off: revenue which does not meet the above definitions (these are typically one-off short projects)

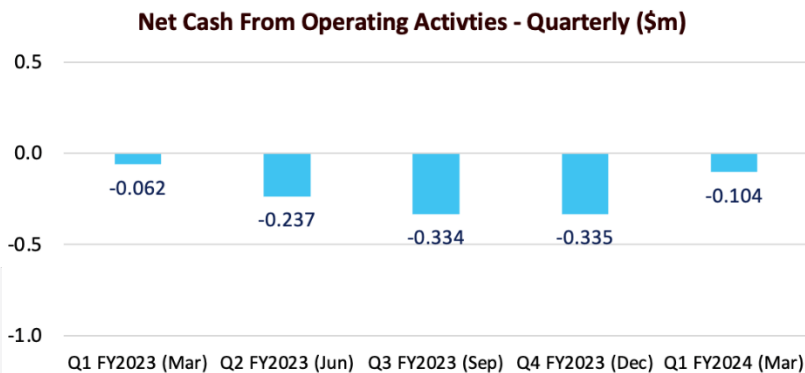

Cash receipts from customers for the March quarter totalled \$1.964m, 18% on Q4 FY2023 and up 16% on Q1 FY2023.

Note: differences between quarterly cash receipts and revenue may occur due to the 1) cash collection cycle and 2) revenue recognition on contracts and projects including anniversary dates of when contracts started.

Cash Receipts from Customers (\$m)

Net cash used in operating activities was \$104k in Q1 FY2024 compared to \$335k in Q4 FY2023 and \$62k in Q1 FY2023.

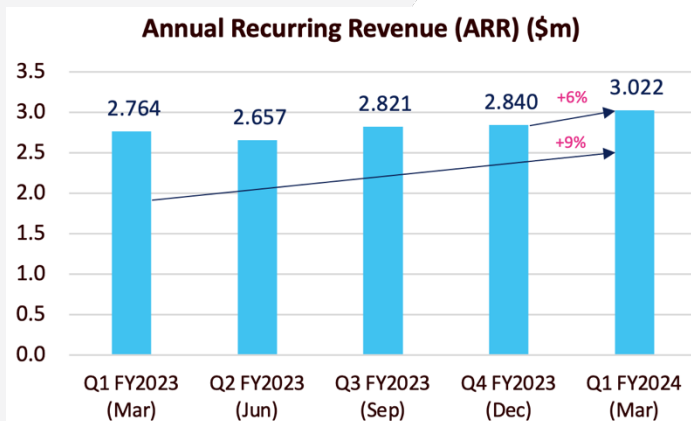

TCV and ARR

Annual Recurring Revenue (ARR) is \$3.022m at the end of the Q1 FY2024, up 6% on Q4 FY2023 and up 9% on Q1 FY2023. The annualised value of contracts signed (includes recent Calidus win) in the quarter exceeded the value of contracts coming to an end, which was partially offset by adverse exchange rate movements.

Total contract value (TCV) is \$4.782m at the end of the March quarter. TCV is the total value of all remaining contracts (only contracts that had a minimum of 12 months original duration are included) and is net of monthly contract depletion (i.e. the revenue remaining to be collected until end of contract life). Key contracts can be found in recent investor presentations.

ARR and TCV may be impacted by exchange rate fluctuations.

2. COMMERCIAL UPDATE

Contracts signed (material)

Calidus Resources: a contract was signed for the xBot® autonomous drone solution - 3-year contract with Total Contract Value (TCV) of AU\$376k and Annual Recurring Revenue (ARR) of AU\$115k. See ASX announcement 26 March 2024.

Projects update (individually not material, one-off)

- **Mining Experimental** – RKT carried out a paid trial at the request of a West African Gold miner using a drone mounted magnetometer to locate magnetic anomalies in stockpiles, in particular to identify buried metals which would otherwise damage the crushers processing the stockpiles.
- **Mining Safety/Maintenance** – RKT carried out a drone based conveyor scan for another West African Gold mine using multiple drone mounted sensors. The report provided high resolution imagery for zooming in on potential issues, LiDAR (accurate laser-based positioning) for monitoring long-term structural stability, and thermal mapping to identify stress areas from inconsistent heat emissions. The hope is to repeat this quarterly, including change detection.
- **Mining Construction** – RKT carried out drone-based enclosed space inspections for a mining client to make an assessment of existing Tailings Storage Facilities (TSFs) infrastructure, prior to the construction of new TSFs, including condition, structure, waterflow and silt identification in the TSF chambers and pipelines.
- **Agriculture** – RKT provided drone capture and data analysis for a client to provide tree count, canopy area and biomass for productivity for a Eucalyptus plantation.

As set out in the revenue definitions, purchase orders for project work are not included in ARR or TCV measures unless a more detailed legal contract is also signed.

Key pipeline activities (announced post quarter end)

The Company provided a business update around the new autonomous drone solution (xBot®) and key market developments around the xBot® drone solution successfully rolling out, noting that:

- First batch of 6 xBots® launched and deployed across multiple customer sites in Australia and Africa
- Second batch of 5 xBots® in production with deployment starting in May
- The convenience of RocketDNA's automated drone-in-a-box solution is exponentially growing the Company's target market beyond mining, with discussions currently underway with Government Authorities, Ports, Insurance, Asset Managers, Agribusinesses and Security Companies

- Integration of Artificial Intelligence (AI) tools, in conjunction with RKT's xBot® platform, enhances the Company's ability to provide real-time data capture, reporting and analysis at a greater frequency than traditional manual methods, which is unique product differentiator in the market

3. CORPORATE

Market engagement: CEO Chris Clark presented at the Coffee Microcaps investor conference in Sydney and Melbourne in March 2024. The investor presentation can be viewed [here](#).

Annual Report: The Company released its FY2023 Annual Report which can be viewed [here](#).

Board changes (post quarter end): David Morton, Non-Executive Director, was appointed to the Chairman role of RKT. Chris Clark transitioned from the role of Chair to focus on his role as Managing Director and CEO. See ASX announcement [10 April 2024](#).

Annual General Meeting (AGM): The Company will be holding its AGM on Friday 24 May 2024 at 9:00 am WST. The Notice of Meeting will be lodged shortly.

4. APPENDIX 4C

The cash balance at 31 March 2024 was \$2.015m. The total operating payments per section 1.2 of the attached 4C were \$2.076m.

As per item 6.1 of the attached Appendix 4C, payments to related parties and their associates of \$153k comprised of \$63k to Chris Clark for director fees, with \$19k to a related party, \$57k to Paul Williamson for CFO services, and \$14k to David Morton for director fees.

This announcement has been authorised for release by the Board of RocketDNA Ltd.

About RocketDNA

RocketDNA Ltd (ASX: RKT), is an ASX listed multi-national drone-based data service and technology solutions provider for the mining, agricultural and engineering industries.

Services are aerial surveying and mapping, security and surveillance, and blast monitoring and fragment analysis through a fully-outsourced service with AI and fast data turnaround that allows enterprise customers to focus on operations on the ground while RocketDNA takes care of everything in the air.

Revenues are generated through multi-year recurring revenue contracts and short projects which also have the potential to be recurring. Key customer contracts include with tier 1 and tier 2 miners, South32, Newmont Mining, Red 5 and Seriti Coal.

RocketDNA's operations are focused on Australia and Africa with regional offices in Perth, Johannesburg & Accra.

7.5 Unused financing facilities available at quarter end		23					
7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.							
Item	Description	Lender	Interest Rate	Maturity Date	Security	Facility \$A'000	Drawn \$A'000
7.1	Shareholder loan	Entech Pty Ltd	0%	none	Unsecured	200	200
7.2	Credit cards	Sasfin/Nedbank/	11% to 22%	none	Unsecured	29	6
		Commonwealth					
7.3	Vehicle Leases	Toyota Finance	2.9% to 6.2%	9/11/25, 5/5/26, 22/5/28	Secured	139	139
7.3	Vehicle Lease	Toyota Financial Services	12.25%	1/08/2028	Secured	53	53
7.3	Insurance Premium Funding	QPR	4.15%	30/11/2024	Unsecured	67	67
7.3	Equipment Lease	GC Leasing	10.15%	1/04/2026	Secured	16	16
7.3	Sale and Leaseback	GC Leasing	12.30%	36mths from inception	Secured	108	108
7.3	Sale and Leaseback	Sunlyn	prime+3.5%	36mths from inception	Secured	90	90

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(104)
8.2 Cash and cash equivalents at quarter end (item 4.6)	2,015
8.3 Unused finance facilities available at quarter end (item 7.5)	23
8.4 Total available funding (item 8.2 + item 8.3)	2,038
8.5 Estimated quarters of funding available (item 8.4 divided by item 8.1)	19.60
<i>Note: if the entity has reported positive net operating cash flows in item 1.9, answer item 8.5 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.5.</i>	
8.6 If item 8.5 is less than 2 quarters, please provide answers to the following questions:	
8.6.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
N/A	

8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

N/A

8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

N/A

Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 24 April 2024

Authorised by: .By the board
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
