#### **Important information on price risk to consider**

Before deciding whether to apply for New Securities, you should refer to the current market price of the Shares, which can be obtained from your stockbroker, your financial adviser or via the ASX website.

Subscription for New Securities is a highly speculative investment and the market price of Shares may change between the date you apply for New Securities and the issue of New Securities to you (if the Company elects to issue New Securities to you). Accordingly, the value of New Securities applied for is likely to rise or fall. Importantly, there is a risk that during the period between the time of the Offers and when any New Securities are issued to you (if any), the price at which Shares are traded on ASX may decrease (and

it may continue to be less than the issue price of \$0.095 per SPP Share). You must rely on your own knowledge of the Company and previous disclosures made by the Company to ASX (including disclosure regarding risks of making an investment in the Company). In determining whether you wish to apply to participate in an Offer (if eligible) and the extent to which you apply to participate, you should seek your own personal financial and/or taxation advice referable to your personal circumstances.

### **Speculative investment**

An investment in any of the New Securities should be considered highly speculative. Refer to Section 4 for a non-exhaustive list of key risks applicable to an investment in the Company.

These risks, together with other general risks applicable to all investments in listed securities not specifically referred to, may affect the value of the New Securities in the future. Accordingly, an investment in the Company should be considered highly speculative. Persons wishing to apply for New Securities should read this Prospectus in its entirety and the Company's ASX announcements.

This Prospectus does not take into account the investment objectives, financial or taxation or particular needs of any Applicant. Before making any investment in the Company, each Applicant should consider whether such an investment is appropriate to their particular needs, and considering their individual risk profile for highly speculative investments, investment objectives and individual financial circumstances. If persons considering applying for New Securities have any questions, they should consult their stockbroker, solicitor, accountant or other professional adviser.

No representation, forecast or guarantee is given of whether the New Securities will make a return on the capital invested, whether dividends will be paid on Shares or whether there will be an increase in the value of the New Securities in the future.

### **Forward-looking statements**

This Prospectus contains forward-looking statements which may be identified by words such as 'believes', 'estimates', 'expects', 'intends', 'may', 'will', 'would', 'could', or 'should' and other similar words that involve risks and uncertainties. These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the Directors and management of the Company. Past performance is not a guide to future performance. Key risks associated with an investment in the Company are detailed (non-exhaustively) in Section 4. These and other factors could cause actual results to differ materially from those expressed in any forward-looking statements.

The Company has no intention to update or revise forward-looking statements, regardless of whether new information, future events or any other factors affect the information detailed in this Prospectus, except where required by law.

The Company cannot and does not give assurances that the results, performance or achievements expressed or implied in the forward-looking statements detailed in this Prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

### **No advice**

The information contained in this Prospectus is not financial product advice and does not take into account the investment objectives, financial situation or particular needs (including financial and tax issues) of any prospective investor. This Prospectus should not be construed as financial, taxation, legal or other advice. The Company is not licensed to provide financial product advice in respect of its securities or any other financial products.

### **No cooling off rights**

Cooling off rights do not apply to an investment in New Securities offered under this Prospectus. This means that, unless required by applicable law, you cannot withdraw your Application. The Directors may at any time decide to withdraw this Prospectus and/or any one or more of the Offers.

**No incorporation by reference**

Any references to documents included on the Company's website or the ASX website are for convenience only, and none of the documents or other information available on those websites is incorporated in this Prospectus by reference.

**Risk factors**

There a number of risks associated with investing in the Company and in the share market generally. The business, assets and operations of the Company are subject to certain risk factors that have the potential to influence the operating and financial performance of the Company in the future. These risks can affect the value of an investment in the Company.

An investment in the Company is highly speculative in nature and investors should be aware that they may lose some or all of their investment. Prospective investors should read this Prospectus in its entirety, and in particular, consider the risk factors detailed in Section 4, and also read announcements released by the Company to the ASX.

All financial amounts detailed in this Prospectus are expressed as Australian dollars unless otherwise stated.

## CHAIR'S LETTER TO SHAREHOLDERS

24 April 2024

Dear Shareholder,

On behalf of the Board, I am pleased to offer you the opportunity to subscribe for up to \$30,000 in fully paid ordinary shares (**SPP Shares**) in Micro-X Limited (**Company**) under a Share Purchase Plan (**SPP Offer**).

As announced on 17 April 2024, the Company received firm commitments of \$4.0 million under an institutional placement (**Placement**) including \$0.1 million from a Director which is subject to shareholder approval. At the same time, the Company announced its intention to undertake the SPP Offer to raise an additional \$1.0 million, with the ability to accept oversubscriptions. The Placement has now been completed and strengthens the Company's balance sheet, adding approximately \$3.7 million net of expected transaction costs and payment of fees. These funds will allow the Company to commence a number of key commercial activities, including accelerating our Argus commercial launch and strategic partnering initiatives.

The SPP Offer is being offered under this Prospectus, enabling you to apply for up to a \$30,000 limit per Eligible Shareholder, and the key terms of the SPP Offer are summarised below.

### Rationale for the Capital Raising

Micro-X is focused on commercialising and developing innovative applications within global health and security markets, based on its proprietary cold cathode, carbon nanotube (**CNT**) emitter technology. The Micro-X Rover and Rover plus range of units are being sold for human medical imaging use in a number of global markets, with unaudited revenues of approximately \$5.3 million in this financial year to 31 March 2024, an increase of 120% on the corresponding period in FY2023.

We have recently launched our second commercial product, the Argus X-ray camera for security and defence applications, with the first order received in March 2024. The Company plans to further build its pipeline of customers and drive additional Argus sales, by hiring additional sales specialists and investing in additional Argus demonstration units for customer trials. These activities require additional funding which will be provided by the proceeds of this capital raising.

We also continue to advance development of the Baggage Scanner and Checkpoints applications in accordance with the two contracts (as extended) with the US Department of Homeland Security (**DHS**). This year, a prototype Baggage Scanner was completed, for delivery to the DHS to commence their testing. The Checkpoint work is also progressing in accordance with the contract milestones. On the basis those milestones continue to be met and the DHS exercises its options within the contract, a fully integrated self-screening station is scheduled to be delivered to the DHS by the end of 2026, for live testing in US airport environments with travelling passengers.

The development work on our Head CT product is also advancing, with the first three prototypes scheduled to be delivered this year, in accordance with the contract with the Australian Stroke Alliance. The Company believes this Head CT product, once fully developed and approved by regulators, will enable the diagnoses of strokes in road or air ambulances, around the world.

We believe these product developments are all significant commercial opportunities and will require partners to provide services such as market access, scale up support and funding. Our objective is to engage partners for each of these development products in the near term, so that we can prepare for their commercial launch once the products are ready for sale. These partnering activities have commenced, and will now be accelerated with the funds from this capital raising.

We have now launched the SPP Offer to raise an additional \$1.0 million (with the ability to accept oversubscriptions) to provide all of our Eligible Shareholders with the opportunity to invest on the same terms as the investors in the Placement. These funds will greatly strengthen our balance sheet with a pro forma cash position following the Placement and a successful completion of the SPP Offer, of \$6.85 million at 31 March 2024 (excluding any oversubscriptions under the SPP Offer). We also have an additional \$14.2 million in contracted project payments due up until 30 June 2025 to support our activities, subject to meeting the relevant milestones.

### Key terms of the SPP

The key terms of the SPP Offer include the offer by the Company to all Eligible Shareholders to apply for up to \$30,000 worth of fully paid ordinary shares in the Company at an issue price of \$0.095 for each SPP Share, without incurring brokerage or other transaction costs. The SPP Shares are being offered to all Eligible Shareholders at the same price at which Placement Shares were issued and also include free attaching options (see New Options paragraph below) which will be unquoted and subject to Shareholder approval, as outlined below. The Offer Price for the SPP Shares represents a:

- 17% discount to the last traded price on 12 April 2024, being the last trading day immediately prior to the announcement of the Placement and SPP Offer on ASX; and
- 21% discount to the volume weighted average market price of Shares over the last five days on which sales of Shares were recorded on ASX, immediately prior to the announcement of the Placement and SPP Offer on ASX.

The SPP opens on 24 April 2024 and closes at 5:00 pm (AEST) on 23 May 2024, although the Board reserves the right to vary the Closing Date.

### New Options

Subject to Shareholder approval, Shareholders who participate in either the SPP Offer or the Placement (whose applications are successful) are also entitled to one free attaching option (**New Option**) for every two new Shares subscribed for under the SPP Offer or the Placement, respectively. The New Options will be exercisable at \$0.135 (13.5 cents), will expire on 30 May 2026, and will not be quoted on ASX.

In addition to the SPP Offer, the Placement Options Offer (as defined in Section 2.3) is also being conducted pursuant to this Prospectus.

### Shareholder approval

The Company is planning to call a general meeting of Shareholders on or about 29 May 2024. The New Options will be issued with the approval of Shareholders to all investors in the Placement and the SPP Offer at the same time, being on or about 30 May 2024. If Shareholder approval is not obtained, the Company will only be able to proceed with the issue of the Placement Options and SPP Options where it has sufficient placement capacity under Listing Rule 7.1.

### How to make an Application

Applications under the SPP Offer and Placement Options Offer (as applicable) are to be made in accordance with the directions in the Application Form that accompanies this Prospectus.

## 2 Details of the Offers

### 2.1 Background to the Offers

On 17 April 2024 the Company announced that it:

- (a) had received firm commitments from Institutional Investors for a placement of new Shares to raise approximately \$4 million (before costs) at an issue price of \$0.095 per Share to be issued by the Company (**Placement Shares**) together with one free attaching New Option (on the terms and conditions in Section 5.2) for every two Placement Shares issued, exercisable at \$0.135 per New Option and expiring on 30 May 2026 (**Placement Options**) (**Placement**). The Placement is comprised of 42,105,263 Shares and the proposed issue of 21,052,632 Placement Options to sophisticated and professional investors; and
- (b) will offer Eligible Shareholders the opportunity to apply, pursuant to a share purchase plan, for (with the ability to accept oversubscriptions):
  - (i) up to \$30,000 worth of Shares each, at an issue price of \$0.095 per Share (the same price as the Placement Shares) to raise approximately \$1 million (before costs) via the issue of 10,526,316 Shares (**SPP Shares**); and
  - (ii) one free attaching New Option (on the terms and conditions in Section 5.2) for every two SPP Shares issued under the SPP Offer (approximately 5,263,158 New Options) (**SPP Options**),

(the offer in this Section 2.1(b) comprises the **SPP Offer**).

A cash fee of 6% on the funds raised under the Placement and the SPP will be paid to the Joint Lead Managers.

The issues of the SPP Options and the Placement Options are subject to Shareholder approval at the extraordinary general meeting of the Company, scheduled to be held on 29 May 2024 (**Extraordinary General Meeting**). If Shareholder approval is not obtained, the New Options will only be issued where the Company has available capacity under Listing Rule 7.1.

None of the Offers are conditional upon the completion of any other Offer.

Refer to the Company's ASX announcements on, and after, 17 April 2024 for further details of the Placement and SPP Offer.

### 2.2 The SPP Offer

The Company is making the SPP Offer pursuant to this Prospectus, pursuant to which the Company may issue 10,526,316 SPP Shares to Eligible Shareholders at an issue price of \$0.095 per SPP Share (to raise approximately \$1 million (before costs)), with the ability to take oversubscriptions of up to \$1.5 million, together with one free attaching SPP Option for every two SPP Shares issued. If the maximum oversubscription of \$1.5 million under the SPP Offer is raised, 26,315,789 Shares and 13,157,893 SPP Options will be issued under the SPP Offer.

The issue price for a SPP Share is \$0.095 (**Issue Price**). The method used to calculate the Issue Price was to match it to the issue price per Share offered pursuant to the Placement.

Eligible Shareholders may apply for SPP Securities under the SPP Offer but are not required to do so.

SPP Shares issued under the SPP Offer will, from their time of issue, rank equally in all respects with the Company's existing Shares. Refer to Section 5.1 for a description of the rights and liabilities attaching to the SPP Shares.

The SPP Options offered under the SPP Offer will be issued on the terms and conditions detailed in Section 5.2. If the SPP Options are exercised, the Shares to be issued upon such exercise will be of the same class and will, from their time of issue, rank equally in all respects with the Company's

existing Shares on issue. No funds will be raised as a result of the issue of SPP Options under the SPP Offer as they are offered on a free attaching basis to the SPP Shares.

The offer of SPP Options is being made subject to Shareholders approving the issue of SPP Options pursuant to the SPP Offer for the purposes of Listing Rule 7.1, which approval will be sought at the upcoming Extraordinary General Meeting.

If Shareholder approval is not obtained for the issue of SPP Options under the SPP Offer, then the Company will seek to issue the SPP Options under its available placement capacity under Listing Rule 7.1.

The Company is also seeking Shareholder approval at the Extraordinary General Meeting to permit the following related parties of the Company to participate in the SPP Offer:

- (a) Mr David Knox (and/or his nominee(s)), up to 210,526 SPP Shares and up to 105,263 SPP Options;
- (b) Dr Alexander Gosling (and/or his nominee(s)), up to 263,157 SPP Shares and up to 131,578 SPP Options;
- (c) Mr James McDowell (and/or his nominee(s)), up to 157,894 SPP Shares and up to 78,947 SPP Options; and
- (d) Ms Ilona Meyer (and/or her nominee(s)), up to 105,263 SPP Shares and up to 52,631 SPP Options.

The SPP Offer is not conditional upon separate Shareholder approval being received for the above directors to participate in the SPP Offer.

It is not proposed for any other related party of the Company to participate in the SPP Offer (noting that Listing Rule 10.12, exception 4 (that would otherwise permit the SPP Shares to be issued to related parties under a share purchase plan without Shareholder approval) is not satisfied in this instance, as the issue price of the SPP Securities does not satisfy the requirement of being at least 80% of the volume weighted average market price for securities in that class, calculated over the relevant period set out in Listing Rule 10.12, exception 4).

## 2.3

### Placement Options Offer

The Company is offering pursuant to this Prospectus, 21,052,632 Placement Options to Institutional Investors who have been issued Placement Shares, on the basis of one free attaching Placement Option for every two Placement Shares issued (**Placement Options Offer**).

Only Institutional Investors that have been issued Placement Shares may apply for Placement Options under the Placement Options Offer.

The Placement Options offered under the Placement Options Offer will be issued on the terms and conditions detailed in Section 5.2. If the Placement Options are exercised, the Shares to be issued upon such exercise will be of the same class and will, from their time of issue, rank equally in all respects with the Company's existing Shares on issue.

The offer of Placement Options is being made subject to Shareholders approving the issue of Placement Options for the purposes of Listing Rule 7.1, which approval will be sought at the upcoming Extraordinary General Meeting.

The Company is also seeking Shareholder approval at the Extraordinary General Meeting to permit director Mr Patrick O'Brien (and/or his nominee(s)) to participate in the Placement and the Placement Options Offer, up to 1,052,632 Placement Shares and 526,316 Placement Options.

If Shareholder approval is not obtained for the issue of the relevant Placement Options to the participants under the Placement, then the Company will seek to issue the Placement Options under its available placement capacity under Listing Rule 7.1.

A Placement Options Application Form in relation to the Placement Options Offer will be sent to any person eligible to apply for Placement Options under the Placement Options Offer (and/or their respective nominee(s)) together with a copy of this Prospectus. See Section 2.10 for further details.

No funds will be raised as a result of the issue of Placement Options under the Placement Options Offer as they are offered on a free attaching basis to the Placement Shares.

## 2.4 Purpose of this Prospectus

The purpose of this Prospectus is to:

- (a) make the Offers;
- (b) facilitate any potential secondary trading of the Placement Shares and the New Securities; and
- (c) facilitate any potential secondary trading of the Shares to be issued upon exercise of the New Options. Issuing the New Options under this Prospectus will enable persons who are issued the New Options to on-sell the Shares issued upon exercise of the New Options, pursuant to *ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2016/80*.

However, the Company is not proposing to issue the New Securities for the purpose of the persons to whom they are issued selling or transferring their New Securities, or granting, issuing or transferring interests in, or options or warrants over, their New Securities.

## 2.5 Minimum subscription

There is no minimum subscription in relation to the Offers.

## 2.6 Oversubscriptions and scale back

If demand from Eligible Shareholders is greater than \$1 million under the SPP Offer, the Company may accept oversubscriptions of up to \$1.5 million or undertake a scale back of Applications to the extent and in the manner it sees fit. Please refer to section 2.11 for further details.

## 2.7 Not underwritten

The Offers are not underwritten.

## 2.8 Shareholders eligible to apply to participate in the SPP Offer

Eligible Shareholders will be those Shareholders that satisfy all of the below:

- (a) who were registered as a holder of Shares as at 7:00pm (AEST) on 16 April 2024 (**Record Date**);
- (b) who were recorded on the Register with an Australian or New Zealand address;
- (c) who are not resident or located in the United States, and not acting for the account or benefit of persons in the United States; and
- (d) who are not resident or located in any other jurisdiction in which an offer of SPP Securities would be unlawful,

(**Eligible Shareholder**).

The SPP Offer to each Eligible Shareholder is made on the same terms and conditions.

Your rights under the SPP Offer are personal to you and the SPP Offer is non-renounceable (i.e., you may not transfer your right to apply for SPP Securities to anyone else).

To apply to participate in the SPP Offer, follow the instructions in this Prospectus (including in Sections 2.10 and 2.12) and the SPP Application Form.

If you are the only registered Eligible Shareholder of a holding of Shares, but you receive more than one SPP Offer (for example, because you hold Shares in more than one capacity), you may only apply for one parcel of SPP Shares with a value of up to \$30,000 (which may be subject to scale back in accordance with Section 2.11).

If two or more persons were registered on the Register at 7:00pm (AEST) on the Record Date as jointly holding Shares, then they are taken to be a single registered holder of Shares and a certification given by any of them is taken to be a certification given by all of them. If a joint holder receives more than one SPP Offer due to multiple holdings, then the joint holder may only apply in aggregate for up to the maximum amount of \$30,000 in total (however, please refer to Section 2.14 for information on Custodians).

The Company reserves the right to reject any Application for SPP Securities under this Prospectus for any reason, such as to the extent it considers that the Application (whether alone or in conjunction with other Applications) does not comply with these requirements.

## 2.9 Opening Date and Closing Date of the Offers

The opening date for the Offers is 24 April 2024 (**Opening Date**).

The closing date for the Offers is 5:00pm (AEST) on 23 May 2024 (**Closing Date**).

Late Applications will not be accepted. However, the Directors reserve their right, subject to the Corporations Act and the Listing Rules, to vary the Closing Date without prior notice including closing any one or more of the Offers early or late. If the Closing Date is varied, subsequent dates may also be varied accordingly.

## 2.10 Application Forms

The Company will send this Prospectus, together with the Application Form, to selected persons whom the Directors determine are eligible to participate in an Offer.

Applications must comply with this Prospectus and the instructions on the relevant Application Form. An Application is an offer by the Applicant to the Company to apply for the amount of New Securities specified in the Application Form (or, in the case of the SPP Offer, the number of SPP Securities the subject of the relevant Application Monies paid to the Company by BPAY® or EFT payment without lodging the Application Form), or any lesser number of New Securities determined by the Company, on the terms set out in this Prospectus.

The Company's decision on the number of New Securities to be issued to an Applicant under any of the Offers (or whether to refuse to issue New Securities) will be final.

### (a) SPP Offer

If you wish to subscribe for SPP Securities under the SPP Offer, please pay your Application Monies in accordance with the instructions in the SPP Application Form and Section 2.12.

Pursuant to the SPP Offer, Eligible Shareholders may apply for a maximum of \$30,000 worth of SPP Shares (being 315,789 Shares and the corresponding 157,894 SPP Options). Eligible Shareholders may participate by selecting one of the following options to make an application for SPP Securities under the SPP Offer:

Parcel	Application Monies A\$	Number of SPP Shares	Number of attaching SPP Options
<b>A</b>	2,500	26,315	13,157
<b>B</b>	5,000	52,631	26,315
<b>C</b>	7,500	78,947	39,473
<b>D</b>	10,000	105,263	52,631
<b>E</b>	15,000	157,894	78,947
<b>F</b>	20,000	210,526	105,263
<b>G</b>	25,000	263,157	131,578
<b>H</b>	30,000	315,789	157,894

The above table details the number of SPP Securities that would be issued for different amounts of Application Monies (assuming there is no scale back of Applications) and assuming the Company accepts the Application and elects to issue those SPP Securities (which election is in the Company's sole discretion). Where the amount applied for results in a fraction of a SPP Security, the number of SPP Securities issued will be rounded down to the nearest whole number.

If you do not provide the exact amount of Application Monies, the Company reserves its right to return your Application Monies or round your Application Monies down to the next valid parcel. If the amount of your Application Monies is less than the lowest valid parcel, the Company reserves its right to deem that Application valid notwithstanding it does not meet the amount of the lowest valid parcel. If the Company returns all your Application Monies, no SPP Securities will be issued to you.

If an Eligible Shareholder applies for an amount which is not exactly divisible by the Issue Price, in calculating the number of SPP Shares to be issued, all fractional entitlements will be rounded down to the nearest whole number of Shares. The Company will not refund any resulting small excess in subscription monies (i.e., \$1 or less) which will be deemed to form part of the aggregate issue price for the SPP Shares.

The SPP Offer is non-renounceable, which means that Eligible Shareholders may not transfer their rights to apply for any SPP Securities offered under the SPP Offer.

SPP Application Forms and payments under the SPP Offer are irrevocable and may not be withdrawn once the Company receives it. Applications may be scaled back or rejected, at the absolute discretion of the Company.

If the SPP Application Form is not completed correctly it may still be treated as valid. The Directors' decision as to whether to treat the SPP Application Form as valid and how to construe, amend or complete it is final.

Payment by the Applicant (who is an Eligible Shareholder) to the Company of Application Monies (whether with or without lodgement of an Application Form) and subsequent allocation of SPP Securities by the Company to that Applicant (which decision is in the sole discretion of the Company) together create a legally binding contract between the Applicant and the Company for the number of SPP Securities accepted, and allocated by, the Company.

A SPP Application Form does not need to be lodged, as payment of the Application Monies in accordance with the procedures set out in the Application Form and Section 2.12 constitute an Application for SPP Securities. Any SPP Application Form which is lodged with the

Company or the Company's share registry does not need to be signed to be a binding application for SPP Securities.

(b) **Placement Options Offer**

Applications for Placement Options under the Placement Options Offer may only be submitted by Institutional Investors who will be issued with Placement Shares and must be made using the Placement Options Application Form that accompanies this Prospectus and is provided directly to those persons. The Placement Options Application Form must be completed in accordance with instructions provided in the Placement Options Application Form.

No monies are payable for the Placement Options offered pursuant to this Prospectus as the Placement Options are being issued on the basis of one free attaching Placement Option for every two Placement Shares issued.

Where the amount applied for results in a fraction of a Placement Option, the number of Placement Options issued will be rounded down to the nearest whole Placement Option.

Acceptance of a completed Placement Options Application Form by the Company and subsequent allocation of Placement Options by the Company (which decision is in the sole discretion of the Company) together create a legally binding contract between the Applicant and the Company for the number of Placement Options accepted, and allocated by, the Company. The Placement Options Application Form does not need to be signed to be a binding application for Placement Options.

If the Placement Options Application Form is not completed correctly it may still be treated as valid. The Directors' decision as to whether to treat the Placement Options Application Form as valid and how to construe, amend or complete it is final.

2.11 **Scale back, oversubscriptions or refusal of application pursuant to the SPP Offer**

The Company is targeting a raise of approximately \$1 million (before costs) pursuant to the SPP Offer.

If demand from Eligible Shareholders is greater than \$1 million, the Company may accept oversubscriptions of up to \$1.5 million or undertake a scale back of Applications to the extent and in the manner it sees fit.

The amount raised under the SPP Offer and the number of New Securities to be issued under the SPP Offer will depend on the aggregate value of valid Applications received from Eligible Shareholders and, if the SPP Offer is oversubscribed, whether the Company elects to undertake a scale back or accept oversubscriptions of up to \$1.5 million.

The Company reserves the right to scale back Applications (in whole or in part) pursuant to the SPP Offer (or withdraw the SPP Offer). Consequently, the Directors reserve the right to reject any Application or to allocate any Applicant fewer SPP Shares (and fewer corresponding SPP Options) under the SPP Offer than the number applied for.

Factors which the Directors may take into account in determining any scale back include, but are not limited to:

- (a) the size of an Eligible Shareholder's shareholding at the Record Date including whether it is a marketable parcel of Shares;
- (b) the extent to which the Eligible Shareholder has sold or purchased shares since the Record Date;
- (c) whether the Eligible Shareholder may have multiple registered holdings;
- (d) the amount applied for by each Eligible Shareholder;
- (e) the total applications received from Eligible Shareholders; and

- (f) any other such criteria as determined by the Directors in their absolute discretion. ]

If there is a scale back, you may not receive all the SPP Securities for which you have applied. If a scale back produces a fractional number when applied to the number of SPP Securities for which you have applied, the number of SPP Securities issued to you will be rounded down to the nearest whole number of SPP Securities.

If there is a scale back, the difference between the Application Monies received from you, and the number of SPP Shares issued to you multiplied by the Issue Price, will be refunded to you in full (in \$ and without interest and at your sole risk).

The Directors reserve their right (in their absolute discretion) to refuse an Application (in whole or in part), such as if they consider that:

- (a) it is reasonable and prudent to do so;
- (b) the Applicant is not an Eligible Shareholder;
- (c) the issue of those SPP Securities may contravene any applicable law, rule or regulation in any jurisdiction (including without limitation the Corporations Act or the Listing Rules) or the requirements of any regulatory or governmental body or may require further action to be taken by the Company including, without limitation, registration of Shares or the preparation of a prospectus in any jurisdiction; or
- (d) the Applicant has not otherwise complied with the terms and conditions in this Prospectus.

If an Application is refused in whole or in part, the relevant Application Monies will be returned to the Applicant (in \$ and without interest and at the Applicant's sole risk). The Company will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

All Directors' decisions in connection with a scale back or refusal of an Application are final.

## 2.12 Payment of Application Monies

The Issue Price of SPP Shares under the SPP Offer is \$0.095 per SPP Share.

For Eligible Shareholders participating in the SPP Offer, Application Monies must be received by the Company by 5:00pm (AEST) on the Closing Date.

### (a) Payment by BPAY®

For payment by BPAY®, please follow the instructions on the personalised SPP Application Form which can be accessed from the Opening Date at [www.computersharecas.com.au/mx1spp](http://www.computersharecas.com.au/mx1spp).

You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (i) you do not need to submit the SPP Application Form, but are taken to have made the declarations in the SPP Application Form; and
- (ii) if you do not pay an amount equal to one of the amounts of Application Monies detailed in the table in Section 2.10, you will be deemed to have applied for the number of SPP Securities which correspond to the amount of Application Monies in that table that is the next lowest compared to your payment. In this event, the additional Application Monies will be refunded promptly.

It is your responsibility to ensure that your BPAY® payment is received by the Company's share registry by no later than 5:00pm (AEST) on the Closing Date. You should be aware that your financial institution may implement earlier cut-off times with respect to electronic payment

and you should therefore take this into consideration when making payment. No interest will be paid on any Application Monies received or refunded.

**(b) Payment by EFT**

For Eligible Shareholders in New Zealand unable to pay via BPAY®, you may elect to make payment by EFT. EFT payments can be paid to the bank account specified on the EFT instructions accompanying the SPP Application Form available at [www.investorcentre.com](http://www.investorcentre.com). Please follow the instructions on the SPP Application Form for details on how to pay via EFT. Please note that should you choose to pay by EFT:

- (i) you do not need to submit the SPP Application Form but are taken to have made the declarations on that SPP Application Form;
- (ii) if you do not pay an amount equal to one of the amounts of Application Monies detailed in the table in Section 2.10, you will be deemed to have applied for the number of SPP Securities which correspond to the amount of Application Monies in that table that is the next lowest compared to your payment. In this event, the additional Application Monies will be refunded promptly; and
- (iii) if you have multiple holdings, you will have multiple EFT unique reference numbers. You must use the unique reference number shown on a particular personalised SPP Application Form when paying for any SPP Shares that you wish to apply for in respect of that holding. Payments in excess of the amount payable for one holding will not be treated as payment for another holding, and the excess will be refunded to the Applicant without interest. If you receive more than one SPP Offer (for example, because you hold Shares in more than one capacity), you may only apply for one parcel of SPP Shares with a value of up to \$30,000 (which may be subject to scale back in accordance with Section 2.11).

If you make a BPAY® or EFT payment to apply for SPP Shares, you do not need to return the SPP Application Form. However, you must quote your reference number provided on your personalised SPP Application Form which will process your payment to your Application. Please ensure you make a payment for the exact amount of the SPP Share parcel for which you wish to subscribe. You will be deemed to have applied for such parcel of SPP Shares for which you have paid.

Section 2.14 (as you provide via a Custodian Certificate) and the information detailed in the SPP Application Form is true and correct as at the date of the Application.

Custodians should request a Custodian Certificate when making an Application on behalf of Participating Beneficiaries. To request a Custodian Certificate and if you would like further information on how to apply, you should contact the Company's Share Registry at [custodians@computershare.com.au](mailto:custodians@computershare.com.au) before the Closing Date.

The Company reserves the right to reject any Application for SPP Securities under this Prospectus, such as to the extent that it considers that the Application (whether alone or in conjunction with other applications) does not comply with these requirements.

## 2.15 Powers of the Company in relation to Applications

There is no assurance that any Applicant will be allocated any New Securities, or the number of New Securities for which the Applicant has applied. The Board may (without limitation) in its absolute discretion, without notice to any Applicant and without giving any reason:

- (a) withdraw any one or more of the Offers at any time before the issue of New Securities to successful Applicants;
- (b) decline an Application;
- (c) accept an Application for its full amount or any lower amount;
- (d) determine a person to be eligible or ineligible to participate in one or more of the Offers;

- (g) aggregate any Applications that they believe may be multiple Applications from the same person.

The Company may settle any dispute in connection with the Offers in any manner it thinks fit, whether generally or in relation to any Applicant, Application or New Securities. The Company's decision will be final and binding.

The Company reserves its right to waive strict compliance with any terms and conditions of any one or more of the Offers.

## 2.16 ASX Quotation

Application will be made to ASX no later than seven days after the date of this Prospectus for Official Quotation of the SPP Shares offered under this Prospectus.

The SPP Offer is conditional on the relevant SPP Shares which are issued pursuant to the SPP Offer being admitted to Official Quotation by ASX before the expiration of three months after the date of issue of this Prospectus (or within such longer period as may be permitted by law). If the SPP Shares are not admitted to Official Quotation by ASX before the expiration of three months after the date of issue of this Prospectus (or within such longer period as may be permitted by law) any issue of SPP Securities will be void and the Company will repay all Application Monies for the SPP Shares within the time prescribed under the Corporations Act, without interest.

ASX takes no responsibility for the contents of this Prospectus. The fact that ASX may grant Official Quotation of the SPP Shares is not to be taken in any way as an indication of the merits of the Company, the SPP Shares and the New Options to be issued.

## 2.17 Refunds

Refunds pursuant to the SPP Offer may be paid under various circumstances detailed in this Prospectus. If a refund is made, payment will be by direct credit deposit to your nominated bank

account or cheque in Australian dollars mailed to your address as shown on the Register. You will not receive interest on any funds refunded to you.

## 2.18 **Costs of participation**

No brokerage, commissions or other transaction costs will be payable by Eligible Shareholders in respect of the Application for, and allotment of SPP Securities under the SPP Offer.

## 2.19 **CHESS**

The Company participates in the Clearing House Electronic Sub-Register System, known as CHESS, operated by ASX Settlement Pty Limited (a wholly owned subsidiary of ASX), in accordance with the Listing Rules and ASX Settlement Operating Rules.

The Company will not issue certificates to holders of SPP Shares. Rather, holding statements (similar to bank statements) would be dispatched to holders of SPP Shares as soon as practicable after issue. Holding statements will be sent either by CHESS (for holders of SPP Shares who elect to hold SPP Shares on the CHESS sub-register) or by the Company's share registry (for holders of SPP Shares who elect to hold their SPP Shares on the issuer sponsored sub-register). The statements would set out the number of SPP Shares issued under this Prospectus and the Holder Identification Number (for holders of SPP Shares who elect to hold SPP Shares on the CHESS sub register) or Shareholder Reference Number (for holders of SPP Shares who elect to hold their SPP Shares on the issuer sponsored sub-register). Updated holding statements will also be sent to each holder of SPP Shares following the month in which the balance of their SPP Shares holding changes, and also as required by the Listing Rules and the Corporations Act.

The Company will issue holding statements to the New Option holders.

## 2.20 **Applicants outside Australia**

Applicable laws may restrict the distribution of this Prospectus outside of Australia. The Offers under this Prospectus do not, and the Company does not intend them to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of all overseas jurisdictions in which Shareholders resided as at 7:00 pm (AEST) on the Record Date, having regard to the number of such overseas Shareholders, the number and value of those SPP Securities that those overseas Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the SPP Offer is not being extended, and no SPP Securities will be issued to Shareholders with a registered address that is outside of Australia or New Zealand or any other jurisdiction where the Company is not satisfied that it is lawfully able to make such an offer or issue this Prospectus without being required to take any further action in the relevant jurisdiction concerned.

### **New Zealand**

The SPP Shares are not being offered or sold to the public within New Zealand other than to existing shareholders of the Company with registered addresses in New Zealand to whom the offer of the SPP Shares is being made in reliance on the Financial Markets Conduct (Incidental Offers) Exemption Notice 2021. In addition, for shareholders who subscribe for SPP Shares, the Company will issue SPP Options for no consideration on the terms detailed in this Prospectus.

This document has not been registered, filed with or approved by any New Zealand regulatory authority under the Financial Markets Conduct Act 2013. This document is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

## 2.21 **Withdrawal**

The Directors may at any time decide to withdraw this Prospectus or any Offer at any time prior to the issue of New Securities pursuant to that Offer.

If the Directors withdraw the SPP Offer, the Company will return all Application Monies (without interest) in accordance with the Corporations Act.

## 2.22 Risk factors

An investment in New Securities under this Prospectus should be regarded as highly speculative. In addition to the general risks applicable to all investments in listed securities, there are specific risks associated with an investment in the Company, which are detailed (non-exhaustively) in Section 4.

## 2.23 Taxation implications

The Directors do not consider it appropriate to give Applicants advice regarding the taxation consequences of subscribing for New Securities under this Prospectus (nor of exercising any New Options into Shares). The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Applicants. As a result, Applicants should consult their professional tax adviser in connection with subscribing for New Securities under this Prospectus.

## 2.24 Privacy

The Company collects information about each Applicant provided on an Application Form for the purposes of processing that Application and, if the Application is successful, to administer the Applicant's security holding in the Company. Such information may be used to assess your Application, service your needs as a holder of Securities, provide facilities and services that you request and carry out appropriate administration.

By submitting an Application Form, each Applicant agrees that the Company may use the information provided by an Applicant on the Application Form for the purposes set out in this privacy disclosure statement and may disclose it for those purposes to the Company's share registry, the Company's or its subsidiaries' agents, contractors and third party service providers, including mailing houses and professional advisers, and to ASX and regulatory authorities, or as otherwise permitted under the *Privacy Act 1988* (Cth).

The information may also be used from time to time by, and disclosed to, persons inspecting the register, bidders for securities in the context of takeovers, regulatory bodies, including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the Company's share registry.

If you do not provide the information required on the Application Form (or otherwise requested by the Company), the Company may not be able to accept or process your Application.

Shareholders can access, correct and update the personal information the Company holds about them by contacting the Company or its share registry at the relevant contact numbers detailed in this Prospectus. A fee may be charged for access. Collection, maintenance and disclosure of certain personal information is governed by legislation including the Privacy Act 1988 (Cth) (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules.

## 2.25 Enquiries concerning Prospectus

Enquiries relating to this Prospectus or the Offers should be directed to Tom Jobling, Financial Controller on +61 8 7099 3966 between 8:30 am and 5:00 pm (AEST), Monday to Friday during the offer period for the Offers or via email to [admin@micro-x.com](mailto:admin@micro-x.com).

### 3 Purpose and Effect of the Offers

#### 3.1 Effect of the Offers on the Company and Use of Funds

The Placement and SPP Offer are being undertaken for the Company to raise approximately \$5 million (before costs).

This amount excludes any funds which may be raised in the future from any exercise of the New Options issued pursuant to this Prospectus.

Funds raised from issue of the Placement Shares and from the issue of SPP Shares are indicatively proposed to be as set out below.

Placement and SPP Offer	\$000
Argus commercial activities in global security and defence markets	2,250
Execution of strategic partnerships	900
Advancing the prototype Head CT under current MOUs	500
Working capital	975
Costs of the Offers	375
<b>Total</b>	<b>5,000</b>

As with any budget, intervening events and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way funds are applied.

The Company intends to use any proceeds from oversubscriptions under the SPP Offer (up to \$1.5 million) towards its product commercialisation activities and working capital.

To the extent the SPP Offer is not fully subscribed, the Company will seek to appropriately scale back and or delay its discretionary spending. The Company may seek alternative sources of funding as required.

No funds will be raised from the issue of the SPP Options or the Placement Options (other than funds which will be received if those Options are subsequently exercised) as the SPP Options and the Placement Options are free-attaching to Shares issued under the SPP Offer and the Placement (respectively) on a one for two basis.

The expenses of the Offers will be met from the funds raised in the Placement. Refer to Section 5.16 for details on the estimated expenses of the Offers.

The Company will receive \$0.135 (before costs) for each New Option which is exercised (if any) during the exercise period for the New Options. If the maximum number of 26,315,789 New Options are issued pursuant to the Offers and are subsequently exercised into Shares, the Company would receive approximately \$3,552,632 (before costs) (assuming there are no oversubscriptions under the SPP Offer). There is no certainty that, and no forecast is made as to whether, any of the New Options will be exercised.

#### 3.2 Effect on the Capital Structure

The effect of the Offers on the capital structure of the Company, assuming the maximum numbers of New Securities are issued pursuant to the Offers are issued, is as follows (actual figures may vary, for example due to rounding):

	Shares	Options	Performance Rights	Convertible Notes
Securities on issue as at the date of this Prospectus <sup>1</sup>	559,873,003	0	37,888,005	650
Securities to be issued subject to Shareholder approval at the Extraordinary General Meeting (other than the securities listed below) <sup>2</sup>	1,052,632	526,316	0	0
SPP Securities to be issued under the SPP Offer (assuming fully subscribed) <sup>3</sup>	10,526,316	5,263,158	0	0
Placement Options to be issued under the Placement Options Offer <sup>4</sup>	0	20,526,316	0	0
<b>TOTAL</b>	<b>571,451,951</b>	<b>26,315,790</b>	<b>37,888,005</b>	<b>650</b>

**Notes:**

1. This includes 41,052,631 Shares issued under the Placement on 22 April 2024.
2. This represents the 1,052,632 Placement Shares and 526,316 Placement Options to be issued to Mr Patrick O'Brien (and/or his nominee(s)) subject to Shareholder approval at the Extraordinary General Meeting.
3. This assumes \$1 million is raised pursuant to the SPP Offer (and does not include any oversubscriptions). If the maximum oversubscription of \$1.5 million is raised, 26,315,789 Shares and 13,157,893 SPP Options will be issued under the SPP Offer, resulting in a total of 587,241,424 Shares and 34,210,525 Options on issue on completion of the Offers. The SPP Options under the SPP Offer are subject to Shareholder approval at the Extraordinary General Meeting, along with the SPP Shares and SPP Options to be issued to Directors, as detailed in Section 2.2. The terms and conditions of the SPP Options are detailed in Section 5.2.
4. The Placement Options to be issued under this Prospectus are subject to Shareholder approval at the Extraordinary General Meeting. This number does not include the 1,052,632 Placement Shares and 526,316 Placement Options to be issued to Mr Patrick O'Brien. The terms and conditions of the Placement Options are detailed in Section 5.2.
5. On a fully diluted basis, assuming all of the Options, Performance Rights and Convertible Notes detailed above convert into Shares, the Company's issued capital detailed above would equate to 635,818,246 Shares. No forecast is made as to whether any Options, Performance Rights or Convertible Notes will be exercised or converted into Shares (nor whether any of the Performance Rights vesting conditions will be satisfied).

### 3.3 Effect on financial position

#### (a) Use of proceeds raised from the exercise of New Options

Based on the Placement of \$4.0 million and the SPP Offer of \$1.0 million (assuming there are no oversubscriptions under the SPP Offer), then the issue and exercise of all of the New Options would involve the Company raising a total of approximately \$3.552 million by the issue of approximately 26,315,790 Shares on exercise of all of the New Options.

The Company intends to use any proceeds of the exercise of the New Options towards its product commercialisation activities and working capital.

#### (b) Pro-forma adjustments to consolidated balance sheet

The unaudited pro forma balance sheet at Section 3.3(c) reflects the reported results of the Company and its controlled entities as shown in the financial statements for the half year to 31 December 2023, adjusted on the basis that the Placement and the SPP Offer occurred as at 31 December 2023 and assumes a number of scenarios being:

- \$4,625,000 net of fees is raised under the Placement and the SPP Offer;
- \$1,400,000 net of fees in oversubscriptions is received and accepted under the SPP Offer;
- a maximum of 34,210,525 New Options are exercised at a price of \$0.135 per New Option.

The pro-forma balance sheet does not take into account a receivable for the R&D tax rebate estimated to be \$4 million to be received by 31 December 2024, or contracted project payments.

5. Assumes that the maximum of 34,210,525 New Options are issued and exercised at \$0.135 each prior to their expiry date, based on the gross aggregate funds of \$6.5 million (\$4.0 million Placement and \$2.5 million SPP Offer including oversubscriptions).

**3.4 Effect of the Offers on control of the Company**

The Company is of the view that the Offers will not affect the control (as defined by section 50AA of the Corporations Act) of the Company. No new investor or existing Shareholder will have a Voting Power greater than 20% as a result of the completion of the Offers (refer to Section 5.10).

## 4 Risk Factors

The Securities offered under this Prospectus should be considered highly speculative because of the nature of the business activities of the Company and no assurances can be made that the Company's stated objectives, particular interests or projects will be successful or that any forward-looking statements or forecasts contained in this Prospectus will be realised or otherwise eventuate. Potential investors should consider whether the Securities offered are a suitable investment having regard to their own personal investment objectives and financial circumstances and the risk factors detailed below.

Potential investors should be aware of the risks specific to an investment in the Company, which may include, but are not limited to those risks detailed below. This list is not exhaustive and additional risks and uncertainties that Micro-X is unaware of, or that it currently considers to be immaterial, may also become important factors that adversely affect Micro-X's strategy, operating and financial performance. The occurrence or consequences of some of the risks described in this Section 4 are partially or completely outside the control of Micro-X, its directors and senior management. Potential investors should read this Prospectus in its entirety and the Company's ASX announcements and if in any doubt consult their professional adviser before deciding whether to participate in the Offers.

### 4.1 Specific Risks Associated with the Company

#### (a) Early commercialisation of new technology

There are a number of risks associated with the early commercialisation of new technology, including an inherent risk of failure, and the possibility that the products developed by the Company may fail to demonstrate material customer benefit or advancement, be difficult or impossible to manufacture on the necessary scale, be uneconomical to market or otherwise not commercially exploitable, fail to be developed prior to the successful marketing of alternative products by competitors, or fail to achieve the support of the targeted industry. The Company's target markets can often have high regulatory barriers, particularly for medical devices, and some markets are conservative, which may delay or prohibit sales into those markets. Accordingly, the Company gives no guarantee that the development and commercialisation of its intellectual property will be successful, that development and commercialisation milestones will be achieved, or that product commercialisations will be successful. Projects can be delayed or fail to demonstrate any performance advantage over existing solutions or may cease to be viable for a range of scientific and commercial reasons. Product development expenditures may be much higher than forecast, and the manufacturing cost of products may preclude successful sales exploitation.

The occurrence of any of these events may have a material adverse effect on the Company's ability to:

- (i) implement and execute its business strategy as planned;
- (ii) increase awareness of its brand and market acceptance of its products;
- (iii) obtain and maintain regulatory registrations and market clearances; and
- (iv) manage expanding operations in multiple markets,

which in turn will have a material adverse impact on the Company's operations and financial performance.

#### (b) Competition risk

There can be no assurance that other parties will not develop and commercialise technology or intellectual property that compete with, or substitute, the Company's cold cathode carbon nanotube (CNT) based X-ray technology in either the security or the healthcare markets.

The mobile diagnostic X-ray market contains a number of mobile X-ray devices (with others likely to be in development) which compete directly with the Mobile DR range. These

competing products are manufactured and/or sold by well established, large and well-resourced competitors including Canon, FujiFilm, Sedecal, Siemens, Konica-Minolta, Shimadzu, GE, Philips, Samsung and AGFA (**Competitors**). These Competitors may react to the Company's Mobile DR product through aggressive pricing or other strategies that may diminish the competitiveness of the Mobile DR range, the Company's ability to sell its Mobile DR units and/or the Company's ability to achieve the sales price for its Mobile DR range, resulting in a material adverse impact on the Company's financial prospects and performance.

The portable security X-ray and EOD X-ray market contains no direct competitors to Argus to the Company's knowledge at the date of this Prospectus, however there can be no assurance that a new competitor will not emerge. This market is dominated by transmission X-ray solutions from established organisations such as Novo, Vidisco and Scanna. There are also handheld backscatter X-ray devices available by AS&E, Viken and Videray. Whilst the Company believes that none of these solutions effectively fulfils Argus' core value proposition: to remove the operator from the threat by enabling robot deployment - they are mature products with an established customer base and these companies may see Argus as a threat and may choose to react through aggressive pricing or other strategies designed to diminish the effectiveness of the Company's sales activities. Argus is a new and novel technology, and as such it drives a change to established industry operating procedures; there is a risk that the industry will be resistant to change and this may delay or prohibit introduction and sales of Argus, diminishing the ability to achieve target sales volumes.

While the Company has engaged experienced external contractors and partner experts to assist with the regulatory approval process and has hired internal industry experts into its sales team for Argus with deep knowledge of industry practises and procedures to position Argus effectively, there is no guarantee that the Company will achieve sufficient sales volumes.

(c) **Checkpoints – and related funding risk**

The Company has been selected by the US Government's Department of Homeland Security (**DHS**) for several contracts totalling up to AUD\$28 million, which commenced in 2021 and are due to finish at the end of 2026, associated with a new concept for a Self-Service Airport Passenger Security Checkpoint.

While the Company believes it provides a superior solution, there are existing technologies in use for Self Service Checkpoints in airports and therefore there is a risk that established competitors will develop competing technology that may diminish the commercial success of the Company's Self-Service Airport Passenger Security Checkpoint solution. The Company has internal processes to monitor and measure expenditure, however there is the risk of higher than budgeted non-recurring engineering costs being incurred during the course of product development. There is also a risk of a delay to revenue as a result of delays related to security clearances, cyber security compliance and contracting processes with government departments in the USA. The project poses development and design risk, in particular with its core technology (X-ray tubes, Generators and High-Voltage Switching), as well as third party and subcontracting risk required to create a fully integrated system. In order to recognise the full value of the contracts, Micro-X is obliged to meet certain performance and delivery requirements or milestones; there is a risk that Micro-X is unable to achieve these requirements as a result of technical or other challenges, or that the solution delivered to the DHS does not meet performance expectations, and that the DHS chooses not to exercise its optional funding. If project overruns did occur, these may diminish the goodwill and reputation of the Company and decrease the likelihood that the DHS exercises the optional funding required to recognise the full value of the contract. There is a risk that if the Company fails to achieve the required milestones, that the funding could be withdrawn or delayed, resulting in the Company needing to obtain additional funding to complete the project. There is a risk that the DHS may choose not to exercise its optional funding as a result of changing priorities or political landscape, factors which are outside of Micro-X's control. If these risks come to fruition, it may result in the Company needing to obtain additional funding to complete the project, and/or in delays or cancellation of the project.

The DHS contract funds the delivery of the Checkpoint solution through to the provision of prototypes. Commercialisation of the Checkpoint requires the Company to obtain funding in

order to develop these prototypes into a production solution, as well as to fund the commercial go-to-market strategy. The Company intends to seek this funding via strategic partnerships. There is a risk the Company is unable to raise the required funding in order to commercialise the product. The occurrence of one of more of these events could have a material adverse impact on the Company's prospects and financial performance.

(d) **Head CT – and related funding risk**

The Head CT for stroke diagnosis project involves developing a miniaturised head imaging CT scanner which is able to fit into land or air ambulances. The project is funded via the Federal Government's Medical Research Future Fund (MRFF) as an imaging technology provider in the Australian Stroke Alliance (ASA) research consortium.

Whilst there has been recent progress on the core technology, development and design risk remains, in particular with the core technology (X-ray tubes, Generators and High-Voltage Switching) which may cause delays, cost overruns or cancellation of the project.

Tests conducted by the Company's internal team have demonstrated promising progress in image quality during non-clinical studies using imaging phantoms and simulations. There are risks associated with meeting diagnostic image quality, which is required to be demonstrated on humans in clinical trials for customer acceptance and to meet or surpass the current standard of care provided by existing CT systems.

The ASA contract funds the delivery of the Head CT solution through to the provision of prototypes. There is a risk that if the Company fails to achieve the required milestones, that the funding could be withdrawn or delayed, resulting in the Company needing to obtain additional funding to complete the project. Commercialisation of the Head CT requires the Company to obtain additional funding in order to develop these prototypes into a production solution, as well as to fund the commercial go-to-market strategy. The Company intends to seek this funding via strategic partnerships. There is a risk the Company is unable to raise the required funding in order to commercialise the product. The occurrence of one of more of these events could have a material adverse impact on the Company's prospects and financial performance.

(e) **Sales, marketing and distribution risk**

The Company currently sells its Rover and Argus products directly to customers, and via distribution channels. The Company has secured one direct sales purchase order for the Argus in March 2024, and is still at an early stage with Argus direct sales efforts. There is a risk that the Company may be unable to continue to develop sufficient sales and marketing capabilities despite its planned expansion and investment to effectively commercialise its products. The Company is reliant on establishing, growing and maintaining effective distribution channels in many regions in order to achieve global sales for both Rover and Argus. There is a risk that the Company may be unable to establish, grow and/or maintain these distribution channels within an appropriate timeframe, which may have a material adverse impact on the Company's financial position and performance.

(f) **Single site for manufacturing activities and research**

The Company performs its manufacturing activities and the majority of its research and development (R&D) at its facility in Tonsley, Adelaide. Should operations at the facility be disrupted or production halted for any reason (for example, due to labour strikes, extreme weather or other events outside the Company's control), the Company may not have enough products available to satisfy customer demand in a timely manner. While alternative arrangements could be made to transfer the manufacturing process to a different facility, this would take some time and may involve other risks such as establishing sufficient, controlled and clean facilities and equipment critical for the manufacture of the Company's x-ray tubes, and the time taken to establish such facilities and equipment. If such disruption were to occur, it would adversely affect the Company's ability to sell its products and customers may choose to purchase products from competitors. There may also be an ongoing sales impact in the form of a reduction of goodwill as a result of the Company ceasing sales for a period of time. While the Company has strong internal capabilities in manufacturing operations and supply

chain management including scaling of production to meet higher volume, there is a risk of delays or issues in the manufacturing processes, which may have an adverse effect on the Company's financial performance and operations.

(g) **Reliance on key personnel**

The Company's future depends significantly on its ability to attract and retain key personnel, particularly those with highly specialised skillsets in areas of technology central to the Company's future products. The Company may not be able to hire and retain such personnel at compensation levels consistent with its existing compensation and salary structure. The Company's future also depends on the continued contributions of its executive management team and other key management and technical personnel, the loss of whose services would be difficult to replace. In addition, the inability to continue to attract appropriately qualified personnel could have a material adverse effect on the Company's business.

(h) **Additional requirements for capital**

The Company is at an early revenue stage for its Argus product and there is no guarantee that the Company will achieve cashflow breakeven or profitability. As at 31 March 2024, the Company's bank balance was approximately \$2.2 million.

The Company also has an additional \$14.2 million in contracted project payments due up until 30 June 2025 to support its activities, subject to meeting the relevant milestones and contract options being exercised. If the milestones are not met or the contracted payments are deferred or discontinued for any reason, the Company may need to obtain funding to bridge a short-term gap.

The Company's capital requirements depend on numerous factors. The Company is currently loss making and may require further financing in addition to amounts raised under the Placement and the SPP Offer. In the absence of such additional financing, there is a risk that (i) the Company may not be able to continue to operate beyond the next 12 months; and (ii) there may be a delay and indefinite postponement of the Company's activities and potential development programs.

Any additional equity financing may dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations, its production levels, or scale back its research and development and/or clinical trials as the case may be. There is no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company. If funding is not secured, it may have a material impact on the Company's ability to operate. The occurrence of any of these events could have a material adverse effect on the Company's financial performance and financial position.

There is a risk the Company is unable to achieve, in part or in full, the target of \$1 million for this SPP Offer, or that the funding is delayed. This may result in the Company being required to seek alternate funding or reduce the scope of its planned projects and/or commercial activities.

(i) **Partnering risk**

The Company's strategy is to secure partners for one or more of its Checkpoints and Head CT products. The Company is seeking to engage partners to provide market access, scale up and implementation services and additional funding, in order to be able to commercialise these products in development. There is no guarantee that the Company will be able to secure partners on a satisfactory basis. In the event that partners are not secured, there may be a material impact on the Company's ability to commercialise these products in development.

(j) **Regulatory approvals to be received and maintained**

Medical devices and products which emit ionising radiation exist in a highly regulated environment. The Company's operations are reliant on maintaining regulatory certifications,

including ISO13485 and ISO9001. Whilst the Company has processes in place and a culture of quality, there is a risk that operations may be impacted if incidents of non-compliance are identified in audit findings by regulatory bodies. Commercialising the Company's medical products requires achieving and maintaining regulatory approvals for medical devices, including a CE Mark for the European market, TGA for the Australian market and 510(k) for the US market, amongst others. There is also a risk of regulatory approvals being withdrawn due to an issue of non-compliance. Future products may not be able to rely on a predicate device to accelerate regulatory approvals and may involve lengthy and costly clinical trials, which may not succeed. The regulatory environment globally is not homogeneous and is subject to change which is outside the Company's control. Changes to the regulatory environment may drive significant changes, including delays or cancellation, to the Company's project schedules. The occurrence of any of these events could have a material adverse effect on the operations of the business, and in turn the financial position of the Company.

Whilst commercialising the Argus involves fewer regulatory hurdles than medical devices or Checkpoints, as an ionising radiation device it is still required to meet certain radiation safety regulations and in-country registrations. As with medical devices, there is a risk that changes to the regulatory environment outside the Company's control may drive significant changes to the product, which may cause delays or cancellation to the product.

Commercialising the Checkpoint program similarly requires high levels of trials such as European ECAC and US TSA Operational Test and Evaluation (OTE) testing which may be lengthy and costly, and may not succeed.

As an X-ray device manufacturer, the Company must retain certification by the South Australian Environmental Protection Authority to operate and manufacture ionizing radiation emitting devices. While the Company has strong radiation control processes in place, any change to those certifications, or the imposition of conditions that are difficult or costly to satisfy, could impact the Company's ability to manufacture devices and commercialise, and have an adverse effect on the Company's financial performance and operations.

(k) **Product liability risk**

In medical markets, the Company's Mobile DR products are used for diagnostic imaging. While the Company has in place processes for regulatory compliance and manufacturing and quality standards to ensure that the product meets required global standards, there is risk that injury may occur to a patient or operator from misdiagnosis or through a quality defect in manufacturing, or possibly a failure introduced by misuse. As with all medical devices, these could be reportable issues resulting in a product recall.

The Company's Argus product is designed for rapid threat detection and diagnosis of suspect devices in military and security markets. There is a risk that injury or death may occur to an operator or others as a result of an operator incorrectly deeming a suspect device safe, or as a result of an electrical or radiation safety hazard.

In security markets and medical markets, Company products pose a radiation and high voltage hazard. While all products meet the applicable test standards prior to sales commencing, there is a risk of failure of protections in place to prevent radiation exposure or electroshock. Failure to meet compliance or safety for radiation and/or high voltage poses a significant risk to patient or operator safety. The likelihood of occurrence is low, however an incident could represent a serious risk in the safety of the Company's products and thus their viability. The occurrence of any of these events could have a material adverse effect on the operations of the business, and in turn the financial performance and financial position of the Company.

(l) **Reliance on third party technology vendors and partners**

The Company's products include components that are manufactured and supplied by third parties. The Company currently relies, and may in the future rely, on partners to supply key technology or manufacturing services. There are inherent risks in relying on third party suppliers for these product components, since any change to the manufacturing process of an approved medical device requires extensive documentation and, in many cases, supplemental

testing. Such partners may not supply to the required price, quality or volume, may change their strategy and discontinue supply, may become insolvent or otherwise cease to trade and the effect of any of these on the Company would be for the Company to incur significant costs and delays in securing replacement services which would interrupt the Company's revenue. The Company does not have a second source suppliers for many of these components. A disruption at a key supplier could therefore cause a substantial delay in the availability of the Company's products, leading to a potential loss of sales and reputation in the market. Where partner companies have access to the Company's confidential information, intellectual property or know-how, there is a risk of a whole or partial loss of the confidential information, intellectual property or know-how to competing organisations. The performance of the Company's partners may also be impacted by either related or unrelated regulatory changes or breaches and other actions of other sovereign governments. The occurrence of any of these events could have a material adverse effect on the operations of the business, and in turn the financial performance and financial position of the Company.

(m) **Intellectual property risk**

The Company strategy for protecting intellectual property is to obtain legal coverage through patents and registrations using the international patent cooperation treaty (PCT) and completing national filings in Australia, USA, Europe, Japan and China. Company owned patents are held on innovative elements of the Company's products as a barrier to duplication. The Company holds two core patents for high current density field emitters and RF modulation of field emitters. The Company also has a patent for its imaging architecture used in the Argus X-ray camera. These patents are intended to provide the Company with a barrier to competition, however a published patent can enable an expert in the field to replicate or reverse engineer the technology. Notwithstanding the patents, there is a risk that competitors will replicate this intellectual property and produce competing small X-ray tubes. This risk may also be higher in countries where intellectual property laws may not adequately protect the Company. There is a risk that (i) third parties may circumvent intellectual property, particularly from the leaking of trade secrets from current or ex-employees, or by carrying out intellectual property theft including cyber security attacks; (ii) patents may be challenged for validity; or (iii) there may be an inadvertent breach of third-party patents of which the Company has not researched in its freedom to operate. The occurrence of any of these events could have a material adverse effect on the operations of the business, and in turn the financial performance and financial position of the Company.

(n) **Cyber security risk**

As with most companies, and particularly high-technology companies, the Company stores much of its data electronically. There is a risk that the Company's electronic storage systems may suffer a data breach or attack through hacking, trojans, viruses or other cyber-attacks. Such a breach or attack could cause loss, damage or theft of information relating to intellectual property, trade secrets, product development, company employee data, contract information, strategic and financial information, and regulatory information, causing a disruption to business operations and/or eroding competitive advantage. The occurrence of any of these events could have a material adverse effect on the operations of the business, and in turn the financial performance and financial position of the Company.

(o) **International trade and foreign exchange risk**

The Company operates in a global market and its business operations are subject to trade agreements. Changes to international trade agreements, including free trade agreements, may have an impact on the commercial viability and supply of components for the manufacture of the Company's products and the sale of those products to its customers. A material portion of the Company's business is with companies operating in the United States. Global markets have seen volatility in United States trade recently and there is a risk the Company's business including commercialisation of product or supply of components could be adversely affected. The Company buys components and sells products in multiple foreign currencies. Changes in foreign exchange, particularly AUD to USD, may adversely impact the commercial viability of the Company's products.

Micro-X's US footprint through its subsidiary, Micro-X Inc., presents additional risk for the Company. The Company is subject to additional employment, tax, regulatory and compliance requirements for its US subsidiary on top of those it is subject to in Australia. The Company is subject to managing foreign currency risk through overhead cost carried out in USD. The Company is exposed to policy change, political risk and any trading restrictions with the USA.

(p) **Business interruption risk**

The Company operates using a global supply and customer base. This global supply and customer base may be exposed to hazards outside of the Company's control including changing political climates, war, pandemics and natural disasters which could interrupt the business. In the event of such an interruption, the Company cannot guarantee that it will be able to source appropriate replacement components or find alternate customer pathways with a commercially viable arrangement or within a required timeframe to prevent interruption to its operations. Such an interruption may have a material adverse effect on the financial position and financial performance of the Company.

## 4.2 General Risks

(a) **Securities investments**

Applicants should be aware that there are risks associated with any Securities investment.

There is no guarantee that an active trading market in the SPP Shares will develop or that the price of SPP Shares will increase. The prices at which the SPP Shares trade (if they trade at all) may fluctuate in response to a number of factors.

Further, the stock market is prone to price and volume fluctuations. There can be no guarantee that trading prices will be sustained. These factors may materially affect the market price of the SPP Shares, regardless of Company's operational performance.

Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

Applicants must make their own assessment of the likely risks and determine whether an investment in the Company is appropriate to their own circumstances.

(b) **Share Market Risk**

The price of the SPP Shares when quoted on ASX will be influenced by international and domestic factors affecting market conditions in equity and financial markets. These factors and others may affect the share price for all listed companies, and the price of the Company's Shares may fall or rise, and the price of the SPP Shares may trade below or above the issue price of the SPP Shares. The price of the SPP Shares may trade below or above their prevailing market price as at the date of this Prospectus. The price of Shares may be subject to varied and unpredictable influences on the market for equities.

Share market conditions may be affected by many factors including, but not limited to, the following:

- i) general economic outlook;
- ii) interest rates and inflation rates;
- iii) currency fluctuations;
- iv) changes in investor sentiment toward particular market sectors;
- v) the demand for, and supply of, capital; and
- vi) terrorism, warfare or other hostilities in Australia or internationally.

Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

If the prevailing trading price of the Company's Shares during the option exercise period for the New Options is lower than the option exercise price, of \$0.135, then it is unlikely that the New Options will be exercised. In this scenario, the unexercised New Options will not have any value and will lapse at the end of the option exercise period, which is 30 May 2026.

(c) **Economic risk**

The Company's operating performance, financial position, prospects and/or the price at which its Shares trade may be affected by changes in Australian or international economic conditions. For example, the following may affect the financial performance of the Company's investments, the ability for the Company to acquire new investments or realise existing investments and the terms and availability of funding that the Company may require:

- (i) general economic conditions;
- (ii) changes in Government policies, taxation and other laws;
- (iii) the strength of the equity and share markets in Australia and throughout the world;
- (iv) movement in, or outlook on, exchange rates, interest rates and inflation rates;
- (v) industrial disputes in Australia and overseas;
- (vi) changes in investor sentiment toward particular market sectors;
- (vii) financial failure or default by an entity with which the Company may become involved in a contractual relationship; and
- (viii) natural disasters, social upheaval or war.

(d) **Dilution**

In certain circumstances, the Directors may issue equity securities without any vote or action by Shareholders. If the Company were to issue any equity securities, the percentage ownership of holders of Securities may be reduced and diluted.

(e) **Force Majeure**

The Company's projects now or in the future may be adversely affected by risks outside the control of the Company such as labour unrest, civil disorder, war, subversive activities or sabotage, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.

(f) **Changes in regulations and regulatory risk**

Any material adverse changes in government policies, legislation or shifts in political attitude in Australia that may affect the viability of the Company. No assurance can be given that amendments to current laws and regulations or new rules and regulations will not be enacted, or that existing rules and regulations will not be applied in a manner which could substantially limit or affect the Company's business.

Future changes in tax laws, including changes in interpretation or application of those laws by a court or tax authority may affect the tax treatment of an investment in Micro-X shares, or the holdings and disposal of those shares. Tax considerations may differ between Micro-X shareholders. Therefore, prospective investors are encouraged to seek professional tax advice in connection with any investment in Micro-X shares.

Tax rules or their interpretation for both Micro-X and its Shareholders may change. There is a risk that both the level and basis of taxation may change both in Australia and in foreign jurisdictions where Micro-X currently transacts, as well as new markets it may enter in the future. The tax considerations of investing in the Shares may differ for each Shareholder. Each

prospective investor is encouraged to seek professional tax advice in connection with any investment in Micro-X.

(g) **Expected future events may not occur**

Certain statements in this Prospectus (and in the Company's ASX announcements) constitute forward looking statements. Such forward looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance and achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward looking statements. Given these uncertainties, prospective Shareholders should not place undue reliance on such forward-looking statements. In addition, under no circumstances should forward looking statements be regarded as a representation or warranty by the Company, or any other person referred to in this document, that a particular outcome or future event is guaranteed.

(h) **Trading in Securities may not be liquid**

There is no guarantee that there will be an ongoing liquid market for New Securities. Accordingly, there is a risk that, should the market for New Securities be or become illiquid, holders of New Securities will be unable to realise their investment in the Company.

(i) **Accounting standards**

Australian Accounting Standards (**AAS**) are adopted by the Australian Accounting Standards Board (**AASB**) and are not within the control of the Company and the Directors. The AASB may, from time to time, introduce new or refined AAS, which may affect the future measurement and recognition of key statement of profit or loss and statement of financial position items. There is also a risk that interpretation of existing AAS, including those relating to the measurement and recognition of key statement of profit or loss or statement of financial position items may differ. Any changes to the AAS or to the interpretation of those standards may have an adverse effect on the reported financial performance and position of the Company.

(j) **Reputational risk**

Issues of a varying nature may arise that would give rise to reputational risk and cause harm to Micro-X's business dealings and prospects. These issues include appropriately dealing with potential conflicts of interest, legal and regulatory requirements, issues of ethics, money laundering laws, trade sanctions legislation, privacy, information security policies, sales and trading practices and conduct by companies in which Micro-X holds strategic interests. Failure to address these issues appropriately could give rise to additional legal risk, subject entities within the Company to regulatory actions, fines and penalties, or harm the reputation of Micro-X or the Company among its shareholders, customers and investors.

(k) **Litigation risk**

The Company is exposed to the risk of actual or threatened litigation or legal disputes in the form of claims by shareholders, regulatory authorities, employees, competitors or joint venture partners, personal injury and property damage claims, environmental and indemnity claims, employee claims and other litigation and disputes. The Company may also need to institute proceedings from time to time, such as to defend a proprietary right. There is a risk that such litigation, claims and disputes could materially and adversely affect the Company's operating and financial performance due to the cost of defending and/or settling such claims and could affect the Company's reputation.

(l) **Unforeseen risk**

There may be other risks of which the Directors are unaware at the time of issuing this Prospectus which may impact the Company, its operations and/or the valuation and performance of the Shares.

(m) **Climate change risk**

The Company is exposed to the short, medium and long-term climate change and environment related risks. Specific risks include physical climate-related event risks such as extreme weather events or increased volatility and change in weather patterns which lead to increased costs or restricted availability and use of water and electricity in manufacturing activities, and force majeure events. These risks could adversely affect the Company's operations, business practices, financial performance and reputation if not adequately managed.

(n) **Inability to pay dividends or make other distributions or potential for dividends paid not to be franked**

The Company's dividend policy will be at the discretion of the Board and may change over time. Decisions relating to the dividend policy post the Offers will depend on the Company's market situation and strategy for its business.

There is no guarantee that dividends will be paid on Shares in the future, as this is a matter to be determined by the Board in its discretion and the Board's decision will have regard to, among other things, free cash flow generation, profit generation and availability of franking credits.

To the extent to which a dividend can be franked will depend on the Company's franking account balance and its level of distributable profits. The Company's franking account balance is contingent on the Company making Australian taxable profits and will depend on the amount of Australian income tax paid by Micro-X on these Australian taxable profits. Micro-X's Australian taxable profits may be volatile, making the payment of franked dividends unpredictable.

#### 4.3 **Investment Highly Speculative**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors and others not specifically referred to above, may, in the future, materially affect the financial performance of the Company and the value of the New Securities offered under this Prospectus. Therefore, no assurances or guarantees of future profitability, distributions, payment of dividends, return of capital or performance of the Company or its Securities can be, or is, provided by the Company.

Before deciding to invest in the Company, potential investors should read this Prospectus in its entirety and the Company's ASX announcements and, in particular, should consider the risk factors that could affect the financial performance of the Company. Applicants should carefully consider these factors in light of their personal circumstances and should consult their professional advisers (for example, their accountant, stockbroker, lawyer or other professional adviser) before deciding whether to invest.

Neither the Company nor its officers, employees, agents and advisers guarantee that any specific objectives of the Company will be achieved or that any particular performance of the Shares and Options, including the SPP Shares and New Options offered under this Prospectus, will be achieved.

The New Options offered under this Prospectus carry no entitlement to dividends or returns of capital and no guarantee with respect to the value of, nor availability of a market to transfer, those New Options.

Shares carry no guarantee with respect to the payment of dividends, returns of capital or the value of, nor availability of a market to transfer, Shares.

Potential investors should consider that the investment in the Company is highly speculative and should consult their professional advisers before deciding whether to apply for New Securities. The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company.

## **5 Additional Information**

### **5.1 Rights and Liabilities Attaching to Shares**

A summary of the rights attaching to Shares is detailed below (noting that the SPP Shares would, from their time of issue, be subject to the same terms and conditions as other Shares). This summary is qualified by the full terms of the Constitution (a full copy of the Constitution is available from the Company on request free of charge and on the Company's website: <https://micro-x.com/investors/corporate-governance/>) and does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities of Shareholders. These rights and liabilities can involve complex questions of law arising from an interaction of the Constitution with statutory and common law requirements. For a Shareholder to obtain a definitive assessment of the rights and liabilities that attach to Shares in any specific circumstances, the Shareholder should seek legal advice.

#### **(a) General meeting and notices**

Notice of a general meeting must be given in accordance with the Corporations Act to each eligible shareholder. - (iii) on a poll every member has:
  - (A) for each fully paid share held by the member, one vote; and
  - (B) for each partly paid share held by the member, a fraction of a vote equivalent to the proportion which the amount paid (not credited) is of the total amounts paid and payable, whether or not called (excluding amounts credited), on the share. An amount paid on a share in advance of a call is not to be taken as paid for this purpose; and
  - (C) during a breach of the Listing Rules relating to shares which are Restricted Securities (as defined in the Listing Rules), or a breach of a restriction agreement, the holder of the relevant Restricted Securities is not entitled to any voting rights in respect of those Restricted Securities.

#### **(c) Issue of further securities**

The Directors, may, on behalf of the Company, issue shares and grant options over unissued shares to any person on the terms, with the rights, and at the times that the Directors decide. However, the Directors must act in accordance with the restrictions imposed by the Constitution, Listing Rules, the Corporations Act and any rights and restrictions attached to a class of shares.

#### **(d) Variation of rights**

The rights attached to Shares or any other class of shares in the Company may be varied in accordance with the Corporations Act.

The rights conferred on the holders of any class of shares in the Company are taken as not having been varied by the creation or issue of further shares in the Company ranking equally with them.

**(e) Transfer of Shares**

Generally, Shares are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the Listing Rules.

**(f) Partly paid shares**

The Directors may, subject to compliance with the Constitution, the Corporations Act and Listing Rules, issue partly paid shares upon which there are outstanding amounts payable. These shares will have limited voting rights.

**(g) Dividend rights**

- (ii) determine a dividend or interim dividend is payable and fix the amount and the time for and method of payment.

**(h) Winding up**

If the Company is wound up, the liquidator may, with the sanction of a special resolution of the Company:

- (i) divide among the members in kind all or any of the Company's assets; and
- (ii) for that purpose, determine how he or she will carry out the division between the different classes of members,

but may not require a member to accept any Shares or other securities in respect of which there is any liability.

The liquidator may, with the sanction of a special resolution of the Company, vest all or any of the Company's assets in a trustee on trusts determined by the liquidator for the benefit of the contributories.

**5.2 Rights and Liabilities Attaching to the New Options**

The terms and conditions of (including the rights and liabilities attaching to) the proposed New Options being offered under the Offers are as follows:

**(a) Entitlement**

Each Option entitles the holder of the Option (**Holder**) to subscribe for one (1) fully paid ordinary share in the capital of the Company (**Share**) upon exercise of the Option.

**(b) Exercise Price and Expiry Date**

Exercise Price per Option	Expiry Date
\$0.135	30 May 2026

**(c) Exercise Period**

Each Option is exercisable at any time prior to the Expiry Date. After this time, any unexercised Options will automatically lapse.

**(d) Notice of Exercise**

The Options may be exercised by notice in writing to the Company (in a form acceptable to the Company), (**Option Exercise Form**) and payment to the Company of the applicable Exercise Price for each Option being exercised. Any Option Exercise Form for an Option received by the Company will be deemed to be a notice of the exercise of that Option as at the date of receipt.

**(e) Minimum Exercise Price**

Options must be exercised in multiples of twenty thousand (20,000) unless fewer than twenty thousand (20,000) Options are held by a Holder, in which case the Holder must exercise their Options in full.

### 5.3 **Joint Lead Managers Mandate**

### 5.4 **Company is a Disclosing Entity**

The Company is a 'disclosing entity' (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act, and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's Securities. The New Options are options over the Company's Shares. Shares have been quoted on the official list of the ASX during the three months prior to the issue of this Prospectus (and SPP Shares will, upon their issue, be in the same class as existing Shares).

This Prospectus is a 'transaction specific prospectus' to which the special content rules under section 713 of the Corporations Act apply. That provision allows the issue of a more concise prospectus in relation to an offer of securities, or options to acquire securities, in a class which has been continuously quoted by ASX in the three months prior to the date of the prospectus. In general terms 'transaction specific prospectuses' are only required to contain information in relation to the effect of the Offers on the Company and the rights attaching to the New Securities (and the rights attaching to underlying Shares upon exercise of the New Options). It is not necessary to include general information in relation to all of the assets and liabilities, the financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX, and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should, therefore, have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three (3) months before the issue of this Prospectus, which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations; and
- (b) copies of documents lodged with ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC.
