EXPLANATORY STATEMENT

ASX takes no responsibility for the contents of this Notice.

1. BACKGROUND TO THE PROPOSED ACQUISITION

1.1 General Background

The Company is an Australian public company, which was incorporated on 15 August 2005 and listed on the ASX on 11 December 2007 under the former name Syndicated Metals Limited. The Company received Shareholder approval to change its name from Syndicated Metals Limited on 17 March 2020. The principal activity of the Company is mineral exploration and evaluation of gold and base metals mineral resources in Western Australia and Queensland.

As outlined in Section 1.2 below, the Company has obtained advice from the ASX on a new acquisition opportunity which if completed would, in ASX's opinion, result in a material change in the nature and scale of the Company's business operations. The Company has chosen to pursue the opportunity and since 11 March 2024, has had its Securities suspended from trading. During the period of suspension, the Company has continued to maintain its interest in its projects, including the Sylvania Project, Edjudina Project and the Greater Duchess Copper Gold Joint Venture (**Projects**), with appropriate exploration and evaluation works completed. In addition, the Company has continued to pursue all options and opportunities to advance other business development opportunities in line with the creation of Shareholder value.

As at the date of this Notice, the Company's Securities remain suspended.

1.2 Proposed Acquisition

(a) Background

On 4 April 2024, the Company announced that it had entered into a bid implementation agreement (**BIA**) with Latitude 66 Cobalt Limited (**Latitude**) which sets out the terms on which the Company will offer to acquire 100% of the issued capital in Latitude by way of an off-market takeover offer to the Latitude shareholders (**Latitude Shareholders**) (**Takeover Offer**).

As set out in the BIA, the Company will offer Latitude Shareholders who accept the Takeover Offer 0.8813161 Shares (on a post-Consolidation basis), for every one fully paid ordinary share held in Latitude (**Latitude Share**).

The Takeover Offer will be subject to a number of defeating conditions, including (amongst others):

- (a) Shareholders approving the Essential Resolutions (details of which are set out in Section 1.4);

- (b) the Company obtaining minimum subscriptions for at least \$2,000,000 (before costs) under the Public Offer (details of which are set out in Section 1.8);
- (c) the Company having a relevant interest in at least 90% of the Latitude Shares on issue at the end of the Takeover Offer Period; and
- (d) the Company receiving written confirmation that ASX will re-admit the Company to the Official List and terminate the suspension from Official Quotation of the Company Securities, subject to the satisfaction of such terms and conditions (if any) as are prescribed by ASX or the Listing Rules and such conditions being capable of being satisfied.

If the conditions to the Takeover Offer are not satisfied or waived before the end of the offer period under the Takeover Offer (**Takeover Offer Period**), including if any of the Essential Resolutions are not passed, the proposed acquisition of 100% of the issued capital of Latitude (**Proposed Acquisition**) will not proceed.

A summary of the BIA, which includes the conditions to the Takeover Offer is set out in Schedule 1.

(b) **Latitude Projects**

On completion of the Proposed Acquisition, the Company will acquire an indirect interest in Latitude 66 Cobalt Oy (Business ID: 2656776-9) (an entity incorporated in Finland), a wholly owned subsidiary of Latitude (**Latitude Subsidiary**) which is the entity that owns 100% of a portfolio of polymetallic exploration projects in Finland (**Finnish Portfolio**).

The Finnish Portfolio comprises of the following projects:

- (i) The KSB Project which comprises:
 - (A) one granted Mining Concession;
 - (B) six granted Exploration Permits; and
 - (C) twenty-seven Exploration Permit Applications,
 covering a total of 162.1km² of prospective ground in the KSB (**KSB Licences**).
- (ii) The Perapohja Schist Belt (**PSB**) Project, which comprises thirteen Exploration Permit Applications, covering a total of 399km² of prospective ground in the PSB (**PSB Licences**).
- (iii) The Kainuu Schist Belt (**KaSB**) Project which comprises seven Exploration Permit Applications covering a total of 122km² of prospective ground in the KaSB (**KaSB Licences**).
- (iv) The Central Lapland Greenstone Belt (**CLGB**) Project which comprises:
 - (A) eleven Exploration Permit Applications; and

(B) one Exploration Reservation,

covering a total of 407.6km² of prospective ground in the CLGB (CLGB Licenses),

(together, the **Latitude Projects**).

The KSB Project is the primary asset for Latitude and consists of the K North and K South Camps. Refer to Figure 1 below.

K North (K1, K2 and K3) contains a JORC compliant resource of 650,000oz Au (7.3Mt @ 2.7g/t) and 5,840t Co (@ 0.08%).

Extensive exploration work has been undertaken across the K South targets, with Latitude completing geophysical and geochemistry work programmes in 2020 and 2021 with follow up drilling in the autumn of 2021 resulting in the discovery of K9 (refer to Figure 1).

The 2022 programme resulted in a discovery of a previously untested area of mineralisation (K10) and further mineralisation discoveries in K8 and K9.

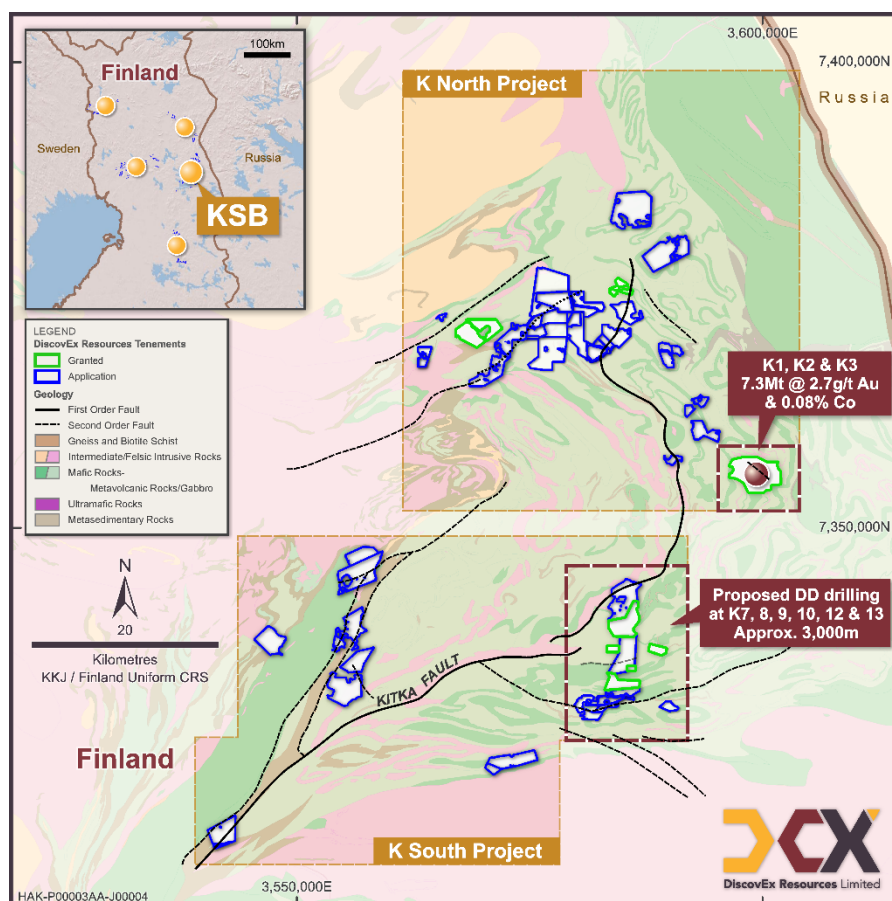

Figure 1: KSB Project

Latitude holds a 100% interest in early-stage exploration assets located across three mineral belts in Northern Finland. The mineral belts are Paleoproterozoic in age and are similar to many such geological belts recognised globally, many of which contain abundant mineral deposits.

For further information with respect to the Latitude Projects, please refer to the Company's ASX Announcement dated 4 April 2024. The Company confirms that it is not aware of any new information or data that materially

affects the information included in its previous announcement with respect to the Latitude Projects and that all material assumptions and technical parameters underpinning the estimates continue to apply and have not materially changed.

1.3 Re-compliance with Chapters 1 and 2 of the Listing Rules

ASX has advised the Company that as the Proposed Acquisition will amount to a significant change in the nature and scale of the Company's activities, the Company is required to obtain Shareholder approval for the Proposed Acquisition and must re-comply with Chapters 1 and 2 of the Listing Rules before it can be reinstated to trading on the ASX (including any ASX requirement to treat the Company's Securities as restricted Securities).

Trading in the Company's Shares is currently suspended and will remain suspended until the Company re-complies with Chapters 1 and 2 of the Listing Rules following completion of the Proposed Acquisition. The Proposed Acquisition is conditional on the Company obtaining all necessary regulatory and Shareholder approvals to effect the Proposed Acquisition and satisfying all other requirements of ASX for the reinstatement to Official Quotation of the Company's Shares on the ASX (among other things).

If any of the Essential Resolutions are not approved at the Meeting, the Proposed Acquisition will not be able to proceed, and the Company's Securities will likely remain suspended from trading.

- (b) **Resolution 2:** the issue of 125,000,000 Shares (on a post-Consolidation basis) to the Latitude Shareholders in consideration for the Proposed Acquisition;
- (c) the Company will need to re-comply with Chapters 1 and 2 of the Listing Rules and to achieve this must:
 - (i) **Resolution 3:** successfully undertake a capital raising by issuing up to 20,000,000 Shares, at an issue price of \$0.20 per Share, to raise up to \$4,000,000 (at the Maximum Subscription);

- (d) **Resolutions 9 to 11:** the appointment of Grant Coyle, Thomas Hoyer and Steffen Hagemann as incoming Directors on and from completion of the Proposed Acquisition; and
- (e) **Resolution 13:** repeal its existing Constitution and to adopt a new constitution in its place in the form as signed by the chairman of the Meeting.

Resolutions 4 to 7, 12 and 15 to 24 are subject to the passing of the Essential Resolutions, though they are not Essential Resolutions.

In addition, the Company is seeking Shareholder approval for Resolution 14, a non-Essential Resolution.

1.5 Strategy post-completion of the Public Offer and Proposed Acquisition

The proposed activities and strategy of the Company on completion of the Public Offer and Proposed Acquisition are to undertake a diversified growth strategy setting the following objectives:

- (a) **Advanced Exploration and Development:** Primarily grow the resource at K Camp and continue to advance the study work on the pathway to development of the strategic gold and cobalt project;
- (b) **Strategic Management of Joint Venture:** Valuation growth through activity management of the strategic "free carry" joint venture interest in the Greater Duchess Copper Gold Joint Venture; and
- (c) **Exploration Projects:** Continue to advance the strategic exploration assets in both Western Australia and Finland. Projects provide opportunities for valuation growth through low impact exploration work and joint venture opportunities.

1.6 Key Dependencies of the Company's Strategy

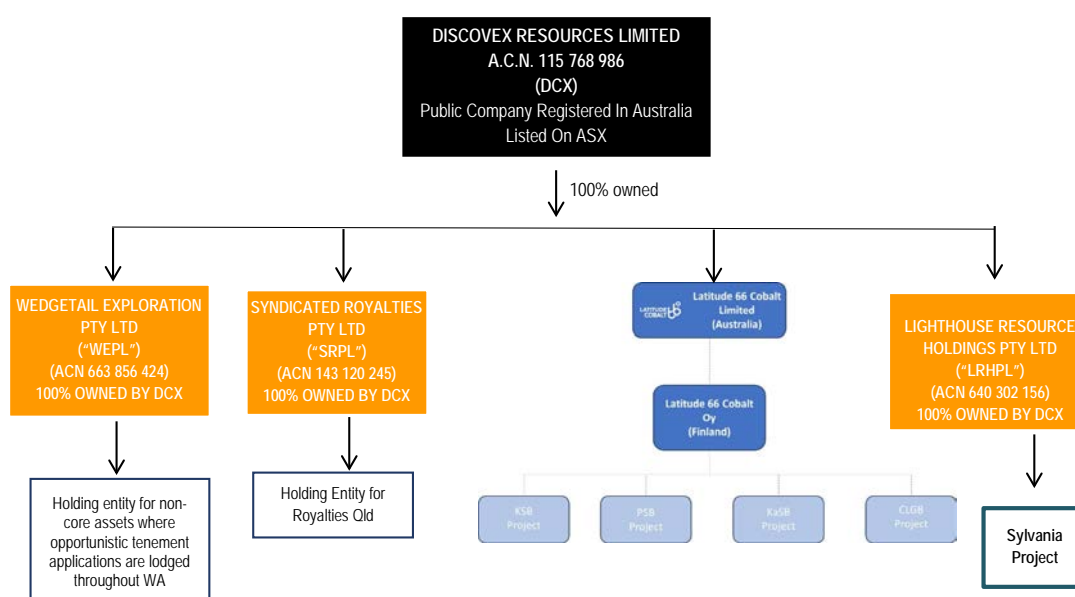

The key dependencies influencing the viability of the Proposed Acquisition are:

- (a) the Company's capacity to re-comply with Chapters 1 and 2 of the Listing Rules to enable re-admission to quotation of the Company's Securities;
- (b) the successful completion of the Public Offer;
- (c) completion of the Proposed Acquisition;
- (d) exploration success on the Projects, resulting in increased confidence in the commercial viability of the Projects;
- (e) retaining and recruiting key personnel skilled in the mining and resources sector; and
- (f) minimising environmental impacts and complying with environmental and health and safety requirements.

1.7 Group Structure

If the Company has a relevant interest in at least 90% of the issued capital of Latitude following completion of the Proposed Acquisition, the Company will be entitled to compulsorily acquire the outstanding Latitude Shares in accordance with Part 6A.1 of the Corporations Act. If this occurs, the Company intends to proceed with the compulsory acquisition of any Latitude Shares not acquired under the Takeover Offer, to achieve 100% ownership of Latitude.

Below is a diagram of the corporate structure of the Company assuming completion of the Proposed Acquisition and the compulsory acquisition process (if necessary):

1.8 Public Offer

To assist the Company to re-comply with Chapters 1 and 2 of the Listing Rules and to support its strategy post-completion of the Proposed Acquisition, the Company intends, subject to Shareholder approval, to issue a minimum of 10,000,000 Shares (on a post-Consolidation basis) at an issue price of \$0.20 per Share to raise a minimum of \$2,000,000 before costs (**Minimum Subscription**) and a maximum of 20,000,000 Shares at an issue price of \$0.20 per Share to raise a maximum of \$4,000,000 (**Maximum Subscription**) (**Public Offer**).

Shareholder approval for the Public Offer is the subject of Resolution 3.

The Company intends to apply funds raised from the Public Offer, together with existing cash reserves, over the first two years following re-admission of the Company to the Official List of ASX as follows:

As with any budget, intervening events (including exploration success or failure) and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way funds are applied on this basis.

The Directors and Proposed Directors consider that following completion of the Public Offer, the Company will have sufficient working capital to carry out its stated objectives. It should however be noted that an investment in the Company is speculative, and investors are encouraged to read the risk factors outlined in Section 1.21.

1.18 Advantages of the Proposed Acquisition

The Directors are of the view that the following non-exhaustive list of advantages may be relevant to a Shareholder's decision on how to vote on the Essential Resolutions:

- (a) upon completion of the Public Offer, together with the Company's existing cash reserves, the Company will have sufficient funds to advance exploration on its existing Projects and the Latitude Projects;
- (b) the Company will hold a portfolio of quality assets located in Western Australia, Queensland and Finland considered by the Board to be highly prospective for gold, copper and cobalt; and
- (c) the Company will have a highly credible and experienced team to progress exploration and accelerate potential development of the existing Projects and the Latitude Projects.

1.19 Disadvantages of the Proposed Acquisition

The Directors are of the view that the following non-exhaustive list of disadvantages may be relevant to a Shareholder's decision on how to vote on the Essential Resolutions:

- (a) the Company will be changing the scale of its activities which may not be consistent with the objectives of all Shareholders;
- (b) the Proposed Acquisition, Public Offer and associated transactions the subject of this Notice will result in the issue of a significant number of Securities and new investors which will have a dilutionary effect on the holdings of Shareholders;
- (c) there are inherent risks associated with the change in nature of the Company's activities. Some of these risks are summarised in Section 1.21 below; and
- (d) future outlays of funds from the Company may be required for its proposed strategy and exploration operations.

1.20 Restricted Securities and free float

Subject to the Company re-complying with Chapters 1 and 2 of the Listing Rules and completing the Public Offer, certain Securities on issue (including the Shares issued in consideration for the Proposed Acquisition (**Consideration Shares**)) may be classified by ASX as restricted securities and will be required to be held in escrow for up to 24 months from the date of Official Quotation.

The Shares issued pursuant to the Public Offer, however, will not be classified as restricted securities and will not be required to be held in escrow.

The Consideration Shares are likely to be restricted from trading for a period of 12 to 24 months after the date of re-admission of the Company to the Official List.

The Company expects to announce to the ASX full details (quantity and duration) of the Securities required to be held in escrow prior to the Company's listed securities being reinstated to trading on ASX (which reinstatement is subject to ASX's discretion and approval).

Assuming minimum subscription under the Public Offer, the Company's 'free float' (being the percentage of Shares not subject to escrow and held by Shareholders that are not related parties of the Company (or their associates) at the time of admission to the Official List) will be approximately 78.19%, comprising all Shares issued pursuant to the Public Offer and Takeover Offer (other than Shares to be applied for by the Directors) and all Shares currently on issue (other than those held by related parties of the Company).

1.21 Risk Factors

The key risks of the Proposed Acquisition are:

(a) Risks relating to Change in Nature and Scale of Activities

(i) Completion Risk

Pursuant to the BIA, the Company has a conditional right to acquire 100% of the issued capital in Latitude.

The Proposed Acquisition constitutes a significant change in the nature and scale of the Company's activities and the Company needs to re-comply with Chapters 1 and 2 of the Listing Rules as if it were seeking admission to the Official List of ASX. Trading in the Company's Shares is currently suspended and will remain suspended until the Company re-complies with Chapters 1 and 2 of the Listing Rules following completion of the Proposed Acquisition.

There is a risk that the conditions for settlement of the Proposed Acquisition cannot be fulfilled, including where the Company is unable to meet the requirements of the ASX for re-quotation of its Securities on the ASX or receives from the Ministry for Economic Affairs and Employment of Finland (**FDI Screening Authority**) approval to acquire Latitude Shares. If the Proposed Acquisition is not completed, the Company will incur costs relating to advisors and other costs without any material benefit being achieved. Should this occur, Shares will not be able to be traded on the ASX until such time as the Company has recompiled with Chapters 1 and 2 of the Listing Rules and Shareholders may be prevented from trading their Shares until such time as a successful re-compliance is completed.

(ii) Dilution Risk

The Company currently has 3,302,568,098 Shares on issue. Subject to the passing of Resolution 8, upon consolidation of capital the

Company will have 33,025,681 Shares on issue. Pursuant to the Proposed Acquisition, the Company proposes to issue:

- (A) up to 20,000,000 Shares (on a post-Consolidation basis) under the Public Offer; and
- (B) 125,000,000 Shares (on a post-Consolidation basis) to the Latitude Shareholders.

Following the issue of the abovementioned Shares (and assuming the Maximum Subscription under the Public Offer):

- (A) existing Shareholders will retain approximately 18.55% of the Company's issued share capital (assuming existing Shareholders do not acquire Shares under the Public Offer);
- (B) Latitude Shareholders will collectively hold 70.21% of the Company's issued Share capital;
- (C) investors under the Public Offer will hold approximately 11.24% of the Company's issued Share Capital.

(b) **Risks relating to the Company**

(i) **Suspension**

As the Company's Shares have been suspended from trading since 11 March 2024, there is currently no public market for Shares. There is no guarantee that an active trading market in the Company's Shares will develop or that that prices at which Shares trade will increase following completion of the Proposed Acquisition and the Public Offer. The prices at which Shares trade may be above or below the price of the Public Offer and may fluctuate in response to several factors.

(ii) **Potential expiry of the mining concession/permit in the Juomasuo area**

Latitude's Juomasuo mining concession/right mining register number 3965 (including both the Juomasuo minng concesion, original mining register number 3965/1a and the Pohjasvaara mining concession, original mining register number 3965/2a, by which the original Juomasuo mining concession was later enlarged) is in force until further notice subject to commencement of mining activity as regulated in the Finnish Mining Act.

Under Finnish law, a mining permit will expire if the permit holder has not, within the applicable time limit, initiated mining activity or such preparatory work as indicates that the permit holder is seriously aiming at actual mining activity; if mining activities have been interrupted because of a factor dependent on the mining permit holder continuously for a minimum of five years; or if mining activities can be considered to have actually ended. The permit holder can apply for postponement of expiry of the mining activity or preparatory work has not been commenced within the set time. The permit authority may postpone the expiry

of the mining permit (twice at the most and for a maximum of ten years in all) and specify a new deadline for commencing mining activity, or for continuing operations. Latitude has applied for such an extension and on 28 April 2022 a decision was issued by the Finnish mining authority that mining activity must be commenced in five years after the decision has gained legal force. This decision has not gained legal force since it has been appealed to the competent Finnish Administrative Court where the matter is pending.

If the appeals are rejected and the abovementioned decision is upheld, according to the decision of the mining authority, Latitude 66 shall commence mining activity in five years after the decision has gained legal force. Latitude 66's plan is to obtain the necessary permits required for commencement of mining activity during Q2/2024-Q2/2027, carry out the necessary construction works during Q1/2027-Q1/2028 and commence mining activity in 2028. Possible appeals against the permits may cause a delay to the planned timetable. The expiry of the Juomasuo mining right (the original Juomasuo mining concession and Pohjasvaara mining concession) has already been postponed once earlier. Thus, in accordance with the Finnish Mining Act, it would not be possible to postpone the expiry of the Juomasuo mining right further unless the conditions for deviating from the maximum postponement limitation can be fulfilled.

If the Administrative Court considers that the prerequisites for postponing expiry of the Juomasuo mining right are not fulfilled and, respectively, the prerequisites for ordering the mining permit to expire are considered met, according to the Finnish Mining Act the mining authority shall decide that the mining permit expires. When a mining permit expires, the permit holder will lose the right to carry out mining activities and exploration in the area as well as the privilege for exploiting the minerals. The right and privilege to the deposit could be acquired again by being the first party to submit a new mining permit application or an exploration permit application in accordance with the Finnish Mining Act after the Juomasuo mining right has expired. A new mining permit or an exploration permit application can be submitted only after a qualifying period unless the conditions for deviating from this requirement can be fulfilled. By submitting a reservation notification, that party may reserve an area for himself for the purpose of preparing an application for an exploration permit. With respect to a reservation notification, the qualifying period applies only if the reservation is applied for an area that has previously been a reservation area.

(iii) **Environmental impacts of activities carried out in the Juomasuo area**

An administrative constraint procedure is ongoing in relation to Latitude's Juomasuo mining concession area and the waste rock areas located therein. The local authority considers ordering the permit holder to conduct investigation on the environmental impacts of the activities carried out in the mining concession area in the Hangaspuro Stream. If the authority were to issue the contemplated order, Latitude would be obligated to conduct

the required investigations imposing some additional costs. Latitude is of the opinion that the contemplated administrative constraint order is not necessary since the company has already ordered investigation of the potential environmental impacts in the Hangaspuro stream.

If pollution would be discovered in the Hangaspuro stream, Latitude shall in addition to the results of the investigation, provide a report on the need for restoration and a proposal for possible restoration measures to the supervision authority. In that case, the authority might issue new orders obligating Latitude to conduct the necessary measures to restore the environment to a previous state or to reduce or eliminate the harm that has arisen, and possibly to avoid further harm or damage which actions would impose further costs. If the pollution detected in the Hangaspuro stream would be found to result from the Juomasuo mining concession area (such as the waste rock areas) further investigation concerning possible contamination of soil as well as measures to treat the possible contamination and to avoid further pollution could be required. In addition to the above investigation and restoration obligations, a third party could claim compensation for environmental damage.

Test mining has been conducted at the Juomasuo mining concession area as evidenced by an old quarry, settling basins and waste rock areas that are currently located in the area. However, Latitude has stated that activities conducted by the company only include fencing, landscaping, drilling, sampling and other similar actions and therefore, no activities imposing potential harmful environmental impacts and/or pollution. Thus, it seems that the activities which could cause potential pollution, have not originally been conducted by Latitude but a former operator in the Juomasuo area.

The Finnish legislation provides mechanisms for presenting claims against a former operator in a certain area. However, the authority may primarily try to issue the restoration order(s) to Latitude as the current operator and holder of the Juomasuo mining concession area. In addition, limitations and/or division of liability including the contracts and/or transaction documents concerning or involving the Juomasuo mining concession area may impact the possibility to address the environmental liabilities to the former operators.

(iv) **Exploration and operates**

The mineral exploration licences comprising the Latitude Projects are at various stages of exploration, and potential investors should understand that mineral exploration and development are high-risk undertakings.

There can be no assurance that future exploration of these licences, or any other mineral licences that may be acquired in the future, will result in the discovery of an economic resource. Even if an apparently viable resource is identified, there is no guarantee that it can be economically exploited.

The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns or adverse weather conditions, unanticipated operational and technical difficulties, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, industrial and environmental accidents, industrial disputes, unexpected shortages and increases in the costs of consumables, spare parts, plant, equipment and staff, native title process, changing government regulations and many other factors beyond the control of the Company.

The success of the Company will also depend upon the Company being able to maintain title to the mineral exploration licences comprising the Latitude Projects and obtaining all required approvals for their contemplated activities. In the event that exploration programmes prove to be unsuccessful this could lead to a diminution in the value of the Latitude Projects, a reduction in the cash reserves of the Company and possible relinquishment of one or more of the mineral exploration licences comprising the Latitude Projects.

(v) **Sovereign risk**

The Latitude Projects are located in Northern Finland and the Company will be subject to risks of operating in this jurisdiction. There is no assurance that future political and economic conditions in that country will not result in Finland's Government adopting policies precluding foreign investment and / or control in, development and ownership of mineral resources in Finland (directly or indirectly).

Any changes in policy by Finland's Government may result in changes in the laws relating to, without limitation, ownership and control of assets and shares in Finland companies, taxation, rates of exchange, environmental protection, labour relations, repatriation of income and return of capital, which may affect the Company's ability to carry out its state objectives.

It is possible that a future government in Finland may adopt substantially different policies, which might extend to limitation of foreign control of shares or assets, or expropriation of assets.

There can be no assurance that the Finland Government from time to time will not impose measures that could have a material adverse effect on the Company's future operations.

(vi) **Enforcing judgements in foreign jurisdictions**

The Latitude Projects are located in Finland. As a result, it may be difficult to enforce judgments obtained in Australian courts against those assets. In addition, there is uncertainty as to whether the courts of Finland or any other jurisdictions in which the Company operates would recognise or enforce judgments of Australian courts obtained against the Company based on provisions of the laws of Australia. As a result of all of the above, Shareholders may have more difficulty in protecting their interests

in the face of actions taken by management, the Board or controlling Shareholders than they would as shareholders of a company with assets in Australia.

(vii) **Natura 2000 and Nature Conservation Areas**

Finland is host to a network of core breeding and resting sites for rare and threatened species, known as the 'Natura 2000'. Areas of land classified as Natura 2000 or Nature Conservation Areas may impose restrictions on mining and exploration activity.

The mineral exploration licences comprising the Latitude Projects are not located in any Natura 2000 or Nature Conservation Areas and the Company has a policy that prohibits it from acquiring any tenure located within Natura 2000 areas.

If in the future, the Company's exploration or mining activities were to result in a geological discovery that extended onto land the subject of a Natura 2000 or Nature Conservation Area, there is a risk that the Company may be limited in its ability to access, explore or mine these areas, which in any case lie outside its current tenement boundaries.

(viii) **Contractual Risk**

The Company's ability to acquire an interest in the Latitude Projects is subject to the terms of the BIA.

The ability of the Company to achieve its stated objectives will depend on the performance by the parties of their obligations under these agreements.

If the Company is unable to satisfy its undertakings under these agreements the Company's interest in the Latitude Projects may be jeopardised.

If any party defaults in the performance of their obligations, it may be necessary for the Company to approach a court to seek a legal remedy, which can be costly.

(ix) **Mine development**

Possible future development of mining operations at the Latitude Projects is dependent on a number of factors including, but not limited to, the acquisition and/or delineation of economically recoverable mineralisation, favourable geological conditions, receiving the necessary approvals from all relevant authorities and parties, seasonal weather patterns, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, access to the required level of funding and contracting risk from third parties providing essential services.

If the Company commences production on one of the Latitude Projects, its operations may be disrupted by a variety of risks and hazards which are beyond the control of the Company. No

assurance can be given that the Company will achieve commercial viability through the development of the Latitude Projects.

The risks associated with the development of a mine will be considered in full should the Latitude Projects reach that stage and will be managed with ongoing consideration of stakeholder interests.

(x) **Additional requirements for capital**

The funds to be raised under the Public Offer are considered sufficient to meet the immediate objectives of the Company. Additional funding may be required in the event costs exceed the Company's estimates and to effectively implement its business and operational plans in the future to take advantage of opportunities for acquisitions, joint ventures or other business opportunities, and to meet any unanticipated liabilities or expenses which the Company may incur. If such events occur, additional funding will be required.

In addition, should the Company consider that its exploration results justify commencement of production on any of its Projects, additional funding will be required to implement the Company's development plans, the quantum of which remain unknown at the date of this Notice.

Following completion of the Public Offer, the Company may seek to raise further funds through equity or debt financing, joint ventures, licensing arrangements, or other means. Failure to obtain sufficient financing for the Company's activities may result in delay and indefinite postponement of their activities and the Company's proposed expansion strategy. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing may not be favourable to the Company and might involve substantial dilution to Shareholders.

(xi) **New projects and acquisitions**

The Company will actively pursue and assess other new business opportunities in the resources sector. These new business opportunities may take the form of direct project acquisitions, joint ventures, farm-ins, acquisition of tenements/permits, and/or direct equity participation. The acquisition of projects (whether completed or not) may require the payment of monies (as a deposit and/or exclusivity fee) after only limited due diligence or prior to the completion of comprehensive due diligence. There can be no guarantee that any proposed acquisition will be completed or be successful. If the proposed acquisition is not completed, monies advanced may not be recoverable, which may have a material adverse effect on the Company. If an acquisition is completed, the Directors will need to reassess at that time, the funding allocated to current projects and new projects, which may result in the Company reallocating funds from other projects and/or raising additional capital (if available). Furthermore, notwithstanding that an acquisition may

proceed upon the completion of due diligence, the usual risks associated with the new project/business activities will remain.

(xii) **Climate**

There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include:

- (A) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and
- (B) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.

(xiii) **Reliance on key personnel**

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.

The Company's future depends, in part, on its ability to attract and retain key personnel. It may not be able to hire and retain such personnel at compensation levels consistent with its existing compensation and salary structure. Its future also depends on the continued contributions of its executive management team and other key management and technical personnel, the loss of whose services would be difficult to replace. In addition, the inability to continue to attract appropriately qualified personnel could have a material adverse effect on the Company's business.

(xiv) **Remote locations**

The Latitude Projects are located in remote locations. This may involve logistical difficulties for plant, equipment and materials,

as well as skilled personnel and general labour. Further, some locations may involve an inherent risk to personnel.

(c) **Industry Specific Risks**

(i) **Tenure and renewal**

Mining and exploration licences are subject to periodic renewal. There is no guarantee that current or future licences or future applications for production licences will be approved.

The mineral licences comprising the Latitude Projects are subject to the applicable mining acts and regulations in Finland. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of the licences comprising the Company's Projects. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Company.

(ii) **Exploration Costs**

The exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability.

(iii) **Exploration Success**

The mineral assets in which the Company will acquire an interest are at various stages of exploration, and potential investors should understand that mineral exploration and development are high-risk undertakings.

There can be no assurance that exploration of these assets, or any other assets that may be acquired in the future, will result in the discovery of an economic ore deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

(iv) **Resource, Reserves and Exploration Targets**

Reserve and Resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when initially calculated may alter significantly when new information or techniques become available. In addition, by their very nature Resource and Reserve estimates are imprecise and depend to some extent on interpretations which may prove to be inaccurate.

(v) **Operations**

The operations of the Company may be affected by various factors, including failure to locate or identify mineral deposits, failure to achieve predicted grades in exploration and mining, operational and technical difficulties encountered in mining, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, adverse weather conditions, industrial and environmental accidents, industrial disputes and unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment.

No assurances can be given that the Company will achieve commercial viability through the successful exploration and/or mining of its Projects. Until the Company is able to realise value from its Projects, it is likely to incur ongoing operating losses.

(vi) **Environmental**

The operations and proposed activities of the Company are subject to Australian and Finnish regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. The occurrence of any such safety or environmental incident could delay production or increase production costs. Events, such as unpredictable rainfall or fires may impact on the Company's ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed on the Company for damages, clean-up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or non-compliance with environmental laws or regulations.

The disposal of mining and process waste and mine water discharge are under constant legislative scrutiny and regulation. There is a risk that environmental laws and regulations become more onerous making the Company's operations more expensive.

Approvals are required for land clearing and for ground disturbing activities. Delays in obtaining such approvals can result in the delay to anticipated exploration programmes or mining activities.

(d) **General Risks**

(i) **Economic**

General economic conditions, introduction of tax reform, new legislation, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company, as well as on its ability to fund its operations.

(ii) **Commodity price volatility and exchange rate risk**

The Company's operating results, economic and financial prospects and other factors will affect the trading price of the Shares. In addition, the price of Shares is subject to varied and often unpredictable influences on the market for equities, including, but not limited to, general economic conditions including the performance of the Australian dollar on world markets, inflation rates, foreign exchange rates and interest rates, variations in the general market for listed stocks in general, changes to government policy, legislation or regulation, industrial disputes, general operational and business risks and hedging or arbitrage trading activity that may develop involving the Shares.

In particular, the share prices for many companies have been and may in the future be highly volatile, which in many cases may reflect a diverse range of non-company specific influences such as global hostilities and tensions relating to certain unstable regions of the world, acts of terrorism and the general state of the global economy. No assurances can be made that the Company's market performance will not be adversely affected by any such market fluctuations or factors.

As the Company's Shares have been suspended from trading for approximately 1 month, there is currently no public market for Shares. There is no guarantee that an active trading market in the Company's Shares will develop or that the prices at which Shares trade will increase following settlement of the Proposed Acquisition and Public Offer. The prices at which Shares trade may be above or below the price of the Public Offer and may fluctuate in response to a number of factors.

(iii) **Competition risk**

The industry in which the Company will be involved is subject to domestic and global competition. Although the Company will undertake reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company.

(iv) **Market conditions**

Share market conditions may affect the value of the Company's quoted Securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (A) general economic outlook;
- (B) introduction of tax reform or other new legislation;
- (C) currency fluctuations
- (D) interest rates and inflation rates;
- (E) changes in investor sentiment toward particular market sectors;
- (F) the demand for, and supply of, capital; and
- (G) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general. Neither the Company, the Directors, or the Proposed Directors warrant the future performance of the Company or any return on an investment in the Company.

Securities listed on the stock market experience extreme price and volume fluctuations that have often been unrelated to the operating performance of such companies. These factors may materially affect the market price of the Shares regardless of the Company's performance.

(v) **Agents and contractors**

The Directors are unable to predict the risk of the insolvency or managerial failure by any of the contractors used (or to be used in the future) by the Company in any of its activities or the insolvency or other managerial failure by any of the other service providers used (or to be used in the future) by the Company for any activity.

(vi) **Force majeure**

The Company's projects now or in the future may be adversely affected by risks outside the control of the Company including labour unrest, civil disorder, war, subversive activities or sabotage, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.

(vii) **Litigation risks**

The Company is exposed to possible litigation risks including native title claims, tenure disputes, environmental claims, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is not currently engaged in any litigation.

1.22 Plans for the Company if completion of the Proposed Acquisition does not occur

If any of the Essential Resolutions are not passed and the Proposed Acquisition is therefore not able to be complete, the Company will continue to look for alternative potential business acquisitions to take the Company forward.

Trading in the Company's Shares is currently suspended and will remain suspended until the Company re-complies with Chapters 1 and 2 of the Listing Rules following completion of the Proposed Acquisition or can otherwise satisfy ASX that its level of its operations are sufficient for the purposes of Listing Rule 12.1.

1.23 Directors' interests in the Proposed Acquisition

None of the Directors or the Proposed Directors have any interest in the Proposed Acquisition, other than as disclosed in this Notice.

1.24 Latitude Shareholders' Interests in the Company

None of the Latitude Shareholders (or their associates) are related parties of the Company (other than Mr Grant Coyle, Mr Thomas Hoyer and Mr Steffan Hagemann (and their respective related parties), who will become related parties by virtue of becoming Directors upon completion of the Proposed Acquisition).

1.25 Related Parties

Pursuant to Resolutions 5 to 7, the Company is seeking Shareholder approval to enable Directors, Toby Wellman, Heath Hellewell and David Morgan, the opportunity to participate in the Public Offer.

1.26 Previous Security Issues

In the six months prior to the date of this Notice, the Company has not issued any Securities.

In the last six months prior to the date of this Notice, Latitude has completed the following security issues:

- (a) 33,333,334 Latitude Shares issued at \$0.15 to raise \$5,000,000 on 21 December 2023 in seed capital raising; and
- (b) 500,000 Latitude Shares issued at \$0.53 on 7 January 2024 as consideration for corporate advisory services provided.

1.27 Appropriate enquiries

The Company has made a number of enquiries and investigations into Latitude, including the Latitude Subsidiary and Latitude Projects. The Company engaged Finnish legal counsel to complete legal due diligence on the good standing and ownership of the Latitude Projects and has engaged a geologist to undertake technical due diligence on the Latitude Projects, which remains ongoing. The due diligence completed by the Finnish legal counsel has confirmed the good standing and ownership of the Latitude Projects via the Latitude Subsidiary. The technical due diligence completed by geologists has confirmed the prospectivity of the Latitude Projects to host significant cobalt mineralisation.

Based on information derived from these reports and the Company's own due diligence investigations to date, the Directors are of the opinion that the Proposed Acquisition is in the best interests of the Company and Shareholders, and presents a significant opportunity to enhance Shareholder value.

1.28 Forward looking statements

The forward-looking statements in this Explanatory Statement are based on the Company's current expectations about future events. However, they are subject to known and unknown risks, uncertainties and assumptions, many of which are outside the control of the Company and the Directors, which could cause actual results, performance or achievements to differ materially from future results, performance or achievements expressed or implied by the forward-looking statements in this Explanatory Statement. These risks include but are not limited to, the risks detailed in Section 1.21. Forward looking statements include those containing words such as 'anticipate', 'estimates', 'should', 'will', 'expects', 'plans' or similar expressions.

2. RESOLUTION 1 – CHANGE TO NATURE AND SCALE OF ACTIVITIES

2.1 General

Resolution 1 seeks the approval of Shareholders for a change in the nature and scale of the Company's activities via the Proposed Acquisition.

A description of the Proposed Acquisition is outlined in Section 1 above. The key terms and conditions of the BIA are set out in Schedule 1.

2.2 Listing Rule 11.1.2

The Company is proposing to undertake the Proposed Acquisition and to re-comply with Chapters 1 and 2 of the Listing Rules.

Listing Rule 11.1.2 empowers ASX to require a listed company to obtain the approval of its shareholders to a significant change to the nature or scale of its activities. The Proposed Acquisition will involve a significant change to the nature or scale of the Company's activities for these purposes and, as its usual practice, ASX has imposed a requirement under Listing Rule 11.1.2 that the Company obtain shareholder approval to the Proposed Acquisition.

Resolution 1 seeks the required Shareholder approval to the Proposed Acquisition and for the purposes of Listing Rule 11.1.2.

2.3 Technical information required by Listing Rule 14.1A

If Resolution 1 is passed, subject to and conditional on the passing of the other Essential Resolutions, the Company will be able to proceed with the Proposed Acquisition, which will allow the Company to change the nature and scale of its activities.

Resolution 1 is an Essential Resolution. As such, if Resolution 1 is not passed, the Company will not be able to proceed with the Proposed Acquisition and will be required to repay any application monies that have been received under the Public Offer. As a result, the Company will be unable to undertake the change of nature and scale of its activities and will likely remain in suspension.

2.4 Suspension until re-compliance with Chapters 1 and 2 of the Listing Rules

ASX has also indicated to the Company that the change in the nature and scale of the Company's activities is a back-door listing which consequently requires the Company to (in accordance with Listing Rule 11.1.3) re-comply with the admission requirements set out in Chapters 1 and 2 of the Listing Rules (including any ASX requirement to treat the Company's Securities as restricted Securities).

The Company's Securities have been suspended from quotation since 11 March 2024 and, subject to Shareholder approval being obtained, will remain suspended from quotation until the Company has completed the Proposed Acquisition and re-complied with Chapters 1 and 2 of the Listing Rules, including by satisfaction of ASX's conditions precedent to reinstatement.

If Shareholders do not approve the Proposed Acquisition, the Company's Securities will not be reinstated to trading until such time as the Company has demonstrated to ASX that it satisfies Chapter 12 of the Listing Rules.

Furthermore, it is ASX's policy to remove an entity from the official list:

- (a) that has failed to lodge a document referred to in Listing Rule 17.5 for a continuous period of one (1) year after the lodgement deadline; and
- (b) whose securities have been suspended from quotation for a continuous period of two (2) years,

whichever occurs first. The removal will usually take effect from the open of trading on the first trading day after the expiration of the one (1) or two (2) year period.

However, ASX may agree to a short extension to the above deadline for automatic removal if the entity can demonstrate to ASX's satisfaction that it is in the final stages of implementing a transaction that will lead to the resumption of trading in its securities. The extension if granted will usually be for no more than three (3) months (it may be shorter if ASX considers that the transaction out to be reasonably capable of being consummated in a lesser period).

3. RESOLUTION 2 – ISSUE OF SHARES TO LATITUDE SHAREHOLDERS IN CONSIDERATION FOR PROPOSED ACQUISITION

3.1 General

As stated in Section 1.2 the Company will offer Latitude Shareholders who accept the Takeover Offer 0.8813161 Shares (on a post-Consolidation basis) for every one Latitude Share, being an aggregate of 125,000,000 Shares (on a post-Consolidation basis) assuming all Latitude Shareholders accept the Takeover Offer.

Resolution 2 seeks Shareholder approval for the issue of 125,000,000 Shares to the Latitude Shareholders in consideration for the acquisition of 100% of the issued capital in Latitude, in accordance with the BIA.

Broadly speaking, and subject to a number of exceptions (**Exceptions**), Listing Rule 7.1 limits the amount of equity securities that a listed company can issue without the approval of its shareholders over any 12 month period to 15% of the fully paid ordinary shares it had on issue at the start of that period.

The proposed issue of the Shares under Resolution 2 does not fall within any of these Exceptions and exceeds the 15% limit in Listing Rule 7.1. It therefore requires the approval of Shareholders under Listing Rule 7.1.

Resolution 2 seeks the required Shareholder approval to the issue of the 125,000,000 Shares under and for the purposes of Listing Rule 7.1.

3.2 Technical Information required by Listing Rule 14.1A

If Resolution 2 is passed, subject to the passing of all Essential Resolutions, the Company will be able to proceed with the issue of the 125,000,000 Shares (on a post-Consolidation basis). In addition, the issue will be excluded from the calculation of the number of equity securities that the Company can issue without Shareholder approval under Listing Rule 7.1.

Resolution 2 is an Essential Resolution. As such, if Resolution 2 is not passed, the Company will not be able to proceed with the Proposed Acquisition. As a result, the Company will be unable to undertake the change of nature and scale of its activities and may remain in suspension.

3.3 Technical information required by Listing Rule 7.3

Pursuant to and in accordance with Listing Rule 7.3, the following information is provided in relation to this Resolution:

- (a) the maximum number of Shares to be issued is 125,000,000 (on a post-Consolidation basis);
- (b) the Shares will be issued no later than 3 months after the date of the Meeting (or such later date to the extent permitted by any ASX waiver or modification of the Listing Rules) and it is intended that issue of the Shares will occur on the same date;
- (c) the Shares will be issued at a nil issue price, in consideration for the acceptance of the Takeover Offer by the Latitude Shareholders;
- (d) the Shares will be issued to the Latitude Shareholders;

- For personal use only
- (e) in accordance with paragraph 7.2 of ASX Guidance Note 21, the Company confirms that none of the recipients will be:
 - (i) related parties of the Company, members of the Company's Key Management Personnel, substantial holders of the Company, advisers of the Company or an associate of any of these parties; and
 - (ii) issued more than 1% of the issued capital of the Company;;
 - (f) the Shares issued will be fully paid ordinary shares in the capital of the Company issued on the same terms and conditions as the Company's existing Shares;
 - (g) no funds will be raised from the issue of the 125,000,000 Shares as these Shares are being issued in consideration for the Proposed Acquisition in accordance with the terms of the BIA for the purpose of a reverse takeover described in Section 1. A summary of the material terms of the BIA is set out in Schedule 1; and
 - (h) a voting exclusion statement is included for Resolution 2.

4. RESOLUTION 3 – APPROVAL TO ISSUE SHARES UNDER THE PUBLIC OFFER

4.1 General

Resolution 3 seeks Shareholder approval for the issue of up to 20,000,000 Shares (on a post-Consolidation basis) at an issue price of \$0.20 per Share, to raise up to \$4,000,000 under the Public Offer. Further details of the Public Offer are set out in Section 1.8.

The Public Offer will be undertaken via the Prospectus to assist the Company in re-complying with Chapters 1 and 2 of the Listing Rules (which is required to obtain re-instatement of the Shares to trading on the Official List on completion of the Proposed Acquisition).

As part of the Public Offer, the Company intends to include a priority offer which will give existing Shareholders priority to subscribe for Shares under the Public Offer (**Priority Offer**). It is proposed that under the Priority Offer, the Company will be able to accept applications from existing eligible Shareholders in priority to the allocation of Shares under the Public Offer to other applicants, up to an expected amount of \$1,000,000. Further details of the Priority Offer will be included in the Prospectus.

The minimum subscription under the Public Offer will be \$2,000,000 (**Minimum Subscription**). It is noted that the Shares the subject of the Public Offer will only be issued if:

- (a) the Minimum Subscription is raised;
- (b) the Company has received conditional approval from ASX for the Company to be reinstated to Official Quotation on ASX following the Company's compliance with Listing Rule 11.1.3 and Chapters 1 and 2 of the Listing Rules; and
- (c) the issue occurs contemporaneously with completion of the Proposed Acquisition, which requires, amongst other things, the passing of all Essential Resolutions.

Further details of the Public Offer will be set out in the Prospectus.

A summary of Listing Rule 7.1 is set out in Section 3.1 above.

The proposed issue of Shares does not fall within any of the Exceptions and exceeds the 15% limit in Listing Rule 7.1. It therefore requires the approval of Shareholders under Listing Rule 7.1.

Resolution 3 seeks the required Shareholder approval to the issue of up to 20,000,000 Shares (on a post-Consolidation basis) under and for the purposes of Listing Rule 7.1.

4.2 Technical information required by Listing Rule 14.1A

If Resolution 3 is passed, subject to completion of the Proposed Acquisition and the passing of all other Essential Resolutions, the Company will be able to proceed with the issue of up to 20,000,000 Shares (on a post-Consolidation basis) under the Public Offer. In addition, the issue will be excluded from the calculation of the number of equity securities that the Company can issue without Shareholder approval under Listing Rule 7.1.

Resolution 3 is an Essential Resolution. As such, if Resolution 3 is not passed, the Company will not be able to proceed with the Proposed Acquisition. As a result, the Company will be unable to undertake the change of nature and scale of its activities and may remain in suspension.

4.3 Technical information required by Listing Rule 7.3

Pursuant to and in accordance with Listing Rule 7.3, the following information is provided in relation to this Resolution:

- (a) the Shares will be issued to subscribers under the Public Offer. The Directors, in conjunction with the Lead Manager, will determine to whom the Shares will be issued, on a basis to ensure the Company's re-compliance requirements are met. These persons will not be related parties of the Company. Other than as set out in this Notice, the Company does not presently intend to issue Shares under the Public Offer to members of the Company's Key Management Personnel, substantial holders of the Company, advisers of the Company or an associate of any of these parties;
- (b) the maximum number of Shares to be issued is 20,000,000 (on a post-Consolidation basis);
- (c) the Shares will be issued no later than 3 months after the date of the Meeting (or such later date to the extent permitted by any ASX waiver or modification of the Listing Rules) and it is intended that issue of the Shares will occur on the same date;
- (d) the issue price will be \$0.20 per Share. The Company will not receive any other consideration for the issue of the Shares;
- (e) the Shares issued will be fully paid ordinary shares in the capital of the Company issued on the same terms and conditions as the Company's existing Shares;
- (f) the Company intends to use the funds raised from the Public Offer as set out in Section 1.9 for the purpose of a reverse takeover. Further information regarding the reverse takeover is set out in Section 1;
- (g) the Shares are not being issued under an agreement;
- (h) a voting exclusion statement is included for Resolution 3.

5. RESOLUTION 4 – APPROVAL TO ISSUE OPTIONS – BELL POTTER SECURITIES LIMITED

5.1 General

As noted in Section 1.11, the Company has agreed to issue the Lead Manager up to 2,000,000 Options as part consideration for lead manager services relating to the Public Offer.

As summarised in Section 3.1 above, Listing Rule 7.1 limits the amount of equity securities that a listed company can issue without the approval of its shareholders over any 12 month period to 15% of the fully paid ordinary shares it had on issue at the start of that period.

The proposed issue of up to 2,000,000 Options falls within exception 17 of Listing Rule 7.2. It therefore requires the approval of Shareholders under Listing Rule 7.1.

5.2 Technical information required by Listing Rule 14.1A

If Resolution 4 is passed, the Company will be able to proceed with the issue of the 2,000,000 Options to the Lead Manager. In addition, the issue of the 2,000,000 Options will be excluded from the calculation of the number of equity securities that the Company can issue without Shareholder approval under Listing Rule 7.1.

Resolution 4 is not an Essential Resolution. If Resolution 4 is not passed, the Company will not be able to proceed with the issue of the Options. The Company may be required to renegotiate the consideration payable to the Lead Manager and be required to pay an amount in cash.

Resolution 4 seeks Shareholder approval for the purposes of Listing Rule 7.1 for the issue of up to 2,000,000 Options to the Lead Manager.

5.3 Technical information required by Listing Rule 7.3

Pursuant to and in accordance with Listing Rule 7.3, the following information is provided in relation to Resolution 4:

- (a) the 2,000,000 Options will be issued to the Lead Manager;
- (b) the maximum number of Options to be issued is 2,000,000. The terms and conditions of the Options are set out in Schedule 3;
- (c) the Options will be issued no later than 3 months after the date of the Meeting (or such later date to the extent permitted by any ASX waiver or modification of the Listing Rules) and it is intended that issue of the Options will occur on the same date;
- (d) the Options will be issued at a nil issue price, in consideration for lead manager services for the Public Offer provided by Bell Potter Securities Limited;
- (e) the purpose of the issue of the Options is to satisfy the Company's obligations under the Lead Manager Mandate;
- (f) the Options are being issued to the Lead Manager under the Lead Manager Mandate. A summary of the material terms of the Lead Manager Mandate is set out in Section 1.11; and
- (g) a voting exclusion statement is included for Resolution 4.

6. RESOLUTIONS 5 TO 7 – DIRECTOR PARTICIPATION IN THE PUBLIC OFFER

6.1 General

As set out above in Section 4.1, the Company is seeking Shareholder approval under Resolution 3 to issue up to 20,000,000 Shares at an issue price of \$0.20 per Share to raise up to \$4,000,000 under the Public Offer.

Each of Messrs Wellman, Hellewell and Morgan (**Participating Directors**) wish to participate in the Public Offer.

Resolutions 5 to 7 seek Shareholder approval for the issue of:

- (a) up to 175,000 Shares to Toby Wellman (or their nominee);
- (b) up to 875,000 Shares to Heath Hellewell (or their nominee); and
- (c) up to 50,000 Shares to David Morgan (or their nominee),

arising from their respective participation in the Offer (**Director Participation**).

6.2 Director Recommendation

Each of the Participating Directors have a material personal interest in the outcome of Resolutions 5 to 7 on the basis that the Participating Directors (or their nominees) are to be issued Shares should Resolutions 5 to 7 be passed. For this reason, the Directors do not believe that it is appropriate to make a recommendation on Resolutions 5 to 7 of this Notice.

6.3 Chapter 2E of the Corporations Act

For a public company, or an entity that the public company controls, to give a financial benefit to a related party of the public company, the public company or entity must:

- (a) obtain the approval of the public company's members in the manner set out in Sections 217 to 227 of the Corporations Act; and
- (b) give the benefit within 15 months following such approval,

unless the giving of the financial benefit falls within an exception set out in Sections 210 to 216 of the Corporations Act.

The Director Participation will result in the issue of Shares which constitutes giving a financial benefit and the Participating Directors are each a related party of the Company by virtue of each being a current Director.

As the Shares are proposed to be issued to all of the Directors, the Directors are unable to form a quorum to consider whether one of the exceptions set out in sections 210 to 216 of the Corporations Act applies to issue of the Shares. Accordingly, Shareholder approval for the issue of the Shares to the Participating Directors is sought in accordance with Chapter 2E of the Corporations Act.

6.4 Listing Rule 10.11

Listing Rule 10.11 provides that unless one of the exceptions in Listing Rule 10.12 applies, a listed company must not issue or agree to issue equity securities to:

- 10.11.1 a related party;
- 10.11.2 a person who is, or was at any time in the 6 months before the issue or agreement, a substantial (30%+) holder in the company;
- 10.11.3 a person who is, or was at any time in the 6 months before the issue or agreement, a substantial (10%+) holder in the company and who has nominated a director to the board of the company pursuant to a relevant agreement which gives them a right or expectation to do so;
- 10.11.4 an associate of a person referred to in Listing Rules 10.11.1 to 10.11.3; or
- 10.11.5 a person whose relationship with the company or a person referred to in Listing Rules 10.11.1 to 10.11.4 is such that, in ASX's opinion, the issue or agreement should be approved by its shareholders,

unless it obtains the approval of its shareholders.

The issue of the Shares to the Participating Directors falls within Listing Rule 10.11.1 and does not fall within any of the exceptions in Listing Rule 10.12. It therefore requires the approval of Shareholders under Listing Rule 10.11.

Resolutions 5 to 7 seek the required Shareholder approval for the issue of the Shares to the Participating Directors under and for the purposes of Chapter 2E of the Corporations Act and Listing Rule 10.11.

6.5 Technical Information required by Listing Rule 14.1A

If Resolutions 5 to 7 are passed, the Company will be able to proceed with the issue of the Shares to the Participating Directors, within one month after the date of the Meeting (or such later date as permitted by any ASX waiver or modification of the Listing Rules). As approval pursuant to Listing Rule 7.1 is not required for the issue of the Shares to the Participating Directors (because approval is being obtained under Listing Rule 10.11), the Director Participation will not use up any of the Company's 15% annual placement capacity.

If Resolutions 5 to 7 are not passed, the Company will not be able to proceed with the issue of the Shares to the Participating Directors and such Shares would form part of the Public Offer.

6.6 Technical Information required by Listing Rule 10.13 and section 219 of the Corporations Act

Pursuant to and in accordance with Listing Rule 10.13 and section 219 of the Corporations Act, the following information is provided in relation to the Director Participation:

- (a) the Shares will be issued to the Participating Directors (or their respective nominee/s);
- (b) the maximum number of Shares to be issued is:

7. RESOLUTION 8 – CONSOLIDATION OF CAPITAL

7.1 Background

The Directors are seeking Shareholder approval to consolidate the number of Shares and Options on issue on a 1 for 100 basis (**Consolidation**). Resolution 8 seeks Shareholder approval to consolidate the Company's issued capital on the basis that:

- (a) every 100 Shares be consolidated into one (1) Share (subject to rounding); and
- (b) every 100 Options be consolidated into one (1) Option (subject to rounding).

Resolution 8 is an Essential Resolution. As such, if Resolution 8 is not passed, the Company will not be able to proceed with the Proposed Acquisition. As a result, the Company will be unable to undertake the change of nature and scale of its activities and may remain in suspension.

7.2 Legal requirements

Section 254H of the Corporations Act provides that a company may, by resolution passed in a general meeting, convert all or any of its shares into a larger or smaller number.

7.3 Fractional entitlements

Not all security holders will hold that number of Securities which can be evenly divided by 100. Fractional entitlements will be rounded up to the nearest whole number.

7.4 Taxation

It is not considered that any taxation implications will exist for Security holders arising from the Consolidation. However, Security holders are advised to seek their own tax advice on the effect of the Consolidation and neither the Company, nor its advisers, accept any responsibility for the individual taxation implications arising from the Consolidation.

7.5 Holding statements

From the date that is two Business Days after the Effective Date (as set out in the timetable in Section 0 below, all holding statements for Securities will cease to have any effect, except as evidence of entitlement to a certain number of Securities on a post-Consolidation basis.

After the Consolidation becomes effective, the Company will arrange for new holding statements for Securities to be issued to holders of those Securities.

It is the responsibility of each Security holder to check the number of Securities held prior to disposal or exercise (as the case may be).

7.6 Effect on capital structure

The effect which the Consolidation will have on the Company's capital structure is set out in the table below.

10.4 Board recommendation

The Board supports the election of Steffen Hagemann and recommends that Shareholders vote in favour of Resolution 11.

11. RESOLUTION 12 – CHANGE OF COMPANY NAME

Section 157(1)(a) of the Corporations Act provides that a company may change its name if the company passes a special resolution adopting a new name.

Resolution 12 seeks the approval of Shareholders for the Company to change its name to 'Latitude 66 Limited'.

The proposed name has been reserved by the Company and if Resolution 12 is passed, the Company will lodge a copy of the special resolution with ASIC on completion of the Proposed Acquisition in order to effect when ASIC alters the details of the Company's registration.

12. RESOLUTION 13 – REPLACEMENT OF CONSTITUTION

12.1 General

A company may modify or repeal its constitution or a provision of its constitution by special resolution of shareholders.

Resolution 13 is a special resolution which will enable the Company to repeal its existing Constitution and adopt a new constitution (**Proposed Constitution**) which is of the type required for a listed public company limited by shares updated to ensure it reflects the current provisions of the Corporations Act and Listing Rules.

This will incorporate amendments to the Corporations Act and Listing Rules since the current Constitution was adopted on 7 January 2011.

The Directors believe that it is preferable in the circumstances to replace the existing Constitution with the Proposed Constitution rather than to amend a multitude of specific provisions.

The Proposed Constitution is broadly consistent with the provisions of the existing Constitution. Many of the proposed changes are administrative or minor in nature including but not limited to:

- updating the name of the Company to Latitude 66 Limited (subject to Resolution 12);
- updating references to bodies or legislation which have been renamed (e.g. references to the Australian Settlement and Transfer Corporation Pty Ltd, ASTC Settlement Rules and ASTC Transfer); and
- expressly providing for statutory rights by mirroring these rights in provisions of the Proposed Constitution.

The Directors believe these amendments are not material nor will they have any significant impact on Shareholders. It is not practicable to list all of the changes to the Constitution in detail in this Explanatory Statement, however, a summary of the proposed material changes is set out below.

A copy of the Proposed Constitution is available for review by Shareholders at the Company's website www.discoverresources.com.au and at the office of the Company. A copy of the Proposed Constitution can also be sent to Shareholders upon request to the Company Secretary (+61 (0)8 9380 9440). Shareholders are invited to contact the Company if they have any queries or concerns.

12.2 Summary of material proposed changes

Employee Incentive Securities Plan (clause 2.4)

Under the new Division 1A of Part 7.12 of the Corporations Act, which came into effect on 1 October 2022, offers under an employee incentive plan that do not require a monetary payment (e.g., zero exercise price options or performance rights) can be issued without an issue cap. However, offers requiring a monetary payment (whether upon grant or upon exercise/vesting of the awards and issue of the underlying shares) must be accompanied by an 'ESS offer document' and must comply with an issue cap. The cap is set at 5% under the Corporations Act unless raised by a company's constitution. A company may include a higher issue cap in its constitution to allow for more than 5% of securities to be issued under the plan.

The Proposed Constitution has set the issue cap at 10%.

Restricted Securities (clause 2.12)

The Proposed Constitution complies with the changes to Listing Rule 15.12 which took effect from 1 December 2019. As a result of these changes, ASX will require certain more significant holders of restricted securities and their controllers (such as related parties, promoters, substantial holders, service providers and their associates) to execute a formal escrow agreement in the form Appendix 9A, as is currently the case. However, for less significant holdings (such as non-related parties and non-promoters), ASX will permit the Company to issue restriction notices to holders of restricted securities in the form of the new Appendix 9C advising them of the restriction rather than requiring signed restriction agreements.

Minimum Securityholding (clause 3)

Clause 3 of the Constitution outlines how the Company can manage securityholdings which represent an “unmarketable parcel” of securities, being a securityholding that is less than \$500 based on the closing price of the Company’s securities on ASX as at the relevant time.

The Proposed Constitution is in line with the requirements for dealing with “unmarketable parcels” outlined in the Corporations Act such that where the Company elects to undertake a sale of unmarketable parcels, the Company is only required to give one notice to holders of an unmarketable parcel to elect to retain their securityholding before the unmarketable parcel can be dealt with by the Company, saving time and administrative costs incurred by otherwise having to send out additional notices.

Clause 3 of the Proposed Constitution continues to outline in detail the process that the Company must follow for dealing with unmarketable parcels.

Joint Holders (clause 9.8)

The ASX is considering replacement options for its Clearing House Electronic Subregister System (**CHES**). Due to complexities with the solution design, there is no current go-live date. To ensure compliance with any replacement CHES system, clause 9.8 of the Proposed Constitution provides that the number of registered joint holders of securities shall be as permitted under the Listing Rules and the ASX Settlement Operating Rules.

Capital Reductions (clause 10.2)

The Proposed Constitution now permits sales of unmarketable parcels to a sale nominee as part of a capital reduction.

Direct Voting (clause 13, specifically clauses 13.35 – 13.40)

The Proposed Constitution includes a new provision which allows Shareholders to exercise their voting rights through direct voting (in addition to exercising their existing rights to appoint a proxy). Direct voting is a mechanism by which Shareholders can vote directly on resolutions which are to be determined by poll. Votes cast by direct vote by a Shareholder are taken to have been cast on the poll as if the Shareholder had cast the votes on the poll at the meeting. In order for direct voting to be available, Directors must elect that votes can be cast via direct vote for all or any Resolutions and determine the manner appropriate for the casting of direct votes. If such a determination is made by the Directors, the notice of meeting will include information on the application of direct voting.

Use of technology (clause 14)

The Proposed Constitution includes a new provision to permit the use of technology at general meetings (including wholly virtual meetings) to the extent permitted under the Corporations Act, Listing Rules and applicable law.

Dividends (clause 23)

Section 254T of the Corporations Act was amended effective 28 June 2010.

There is now a three-tiered test that a company will need to satisfy before paying a dividend replacing the previous test that dividends may only be paid out of profits.

The amended requirements provide that a company must not pay a dividend unless:

- the company's assets exceed its liabilities immediately before the dividend is declared and the excess is sufficient for the payment of the dividend;
- the payment of the dividend is fair and reasonable to the company's shareholders as a whole; and
- the payment of the dividend does not materially prejudice the company's ability to pay its creditors.

The existing Constitution reflects the former profits test and restricts the dividends to be paid only out of the profits of the Company. The Proposed Constitution is updated to reflect the new requirements of the Corporations Act. The Directors consider it appropriate to update the Constitution for this amendment to allow more flexibility in the payment of dividends in the future should the Company be in a position to pay dividends.

Partial (proportional) takeover provisions (new clause 37)

A proportional takeover bid is a takeover bid where the offer made to each shareholder is only for a proportion of that shareholder's shares.

Pursuant to section 648G of the Corporations Act, the Company has included in the Proposed Constitution a provision whereby a proportional takeover bid for Shares may only proceed after the bid has been approved by a meeting of Shareholders held in accordance with the terms set out in the Corporations Act.

This clause of the Proposed Constitution will cease to have effect on the third anniversary of the date of the adoption of last renewal of the clause.

Information required by section 648G of the Corporations Act

Effect of proposed proportional takeover provisions

Where offers have been made under a proportional off-market bid in respect of a class of securities in a company, the registration of a transfer giving effect to a contract resulting from the acceptance of an offer made under such a proportional off-market bid is prohibited unless and until a resolution to approve the proportional off-market bid is passed.

Reasons for proportional takeover provisions

A proportional takeover bid may result in control of the Company changing without Shareholders having the opportunity to dispose of all their Shares. By making a partial bid, a bidder can obtain practical control of the Company by acquiring less than a majority interest. Shareholders are exposed to the risk of being left as a minority in the Company and the risk of the bidder being able to acquire control of the Company without payment of an adequate control premium. These amended provisions allow Shareholders to decide whether a proportional takeover bid is acceptable in principle, and assist in ensuring that any partial bid is appropriately priced.

Knowledge of any acquisition proposals

As at the date of this Notice, no Director is aware of any proposal by any person to acquire, or to increase the extent of, a substantial interest in the Company, other than what is set out in this Notice.

Potential advantages and disadvantages of proportional takeover provisions

The Directors consider that the proportional takeover provisions have no potential advantages or disadvantages for them and that they remain free to make a recommendation on whether an offer under a proportional takeover bid should be accepted.

The potential advantages of the proportional takeover provisions for Shareholders include:

- the right to decide by majority vote whether an offer under a proportional takeover bid should proceed;
- assisting in preventing Shareholders from being locked in as a minority;
- increasing the bargaining power of Shareholders which may assist in ensuring that any proportional takeover bid is adequately priced; and
- each individual Shareholder may better assess the likely outcome of the proportional takeover bid by knowing the view of the majority of Shareholders which may assist in deciding whether to accept or reject an offer under the takeover bid.

The potential disadvantages of the proportional takeover provisions for Shareholders include:

- proportional takeover bids may be discouraged;
- lost opportunity to sell a portion of their Shares at a premium; and
- the likelihood of a proportional takeover bid succeeding may be reduced.

Recommendation of the Board

The Directors do not believe the potential disadvantages outweigh the potential advantages of adopting the proportional takeover provisions and as a result consider that the proportional takeover provision in the Proposed Constitution is in the interest of Shareholders and unanimously recommend that Shareholders vote in favour of Resolution 13.

13. RESOLUTION 14 – ADOPTION OF EMPLOYEE SECURITIES INCENTIVE PLAN

13.1 General

Resolution 14 seeks Shareholder approval for the adoption of the employee incentive scheme titled “Employee Securities Incentive Plan” (**Plan**) and for the issue of up to a maximum of 3,302,568 Securities (on a post-Consolidation basis), excluding issues approved by Shareholders under Listing Rule 10.14 or Listing Rule 10.11, under the Incentive Plan in accordance with Listing Rule 7.2 (Exception 13(b)).

The objective of the Plan is to attract, motivate and retain key employees, contractors and other persons who provide services to the Company, and the Company considers that the adoption of the Plan and the future issue of securities under the Plan will provide these parties with the opportunity to participate in the future growth of the Company.

13.2 Listing Rule 7.1 and Listing Rule 7.2 Exception 13(b)

Broadly speaking, and subject to a number of exceptions set out in Listing Rule 7.2, Listing Rule 7.1 limits the amount of equity securities that a listed company can issue without the approval of its shareholders over any 12 month period to 15% of the fully paid ordinary shares it had on issue at the start of that period.

Listing Rule 7.2 (Exception 13(b)) provides that Listing Rule 7.1 does not apply to an issue of securities under an employee incentive scheme if, within three years before the date of issue of the securities, the holders of the entity’s ordinary securities have approved the issue of equity securities under the scheme as exception to Listing Rule 7.1.

Exception 13(b) is only available if and to the extent that the number of equity securities issued under the scheme does not exceed the maximum number set out in the entity’s notice of meeting dispatched to shareholders in respect of the meeting at which shareholder approval was obtained pursuant to Listing Rule 7.2 (Exception 13(b)). Exception 13(b) also ceases to be available if there is a material change to the terms of the scheme from those set out in the notice of meeting.

If Resolution 14 is passed, the Company will be able to issue securities under the Plan to eligible participants over a period of 3 years from the date of the Meeting. The issue of any securities to eligible participants under the Plan (up to the maximum number of securities stated in Section 13.3(b) below) will be excluded from the calculation of the number of equity securities that the Company can issue without Shareholder approval under Listing Rule 7.1.

For the avoidance of doubt, the Company must seek Shareholder approval under Listing Rule 10.14 in respect of any future issues of securities under the Plan to a related party or a person whose relationship with the Company or the related party is, in ASX’s opinion, such that approval should be obtained.

If Resolution 14 is not passed, the Company will be able to proceed with the issue of securities under the Plan to eligible participants, but any issues of securities will reduce, to that extent, the Company’s capacity to issue equity securities without Shareholder approval under Listing Rule 7.1 for the 12 month period following the issue of those securities.

13.3 Technical information required by Listing Rule 7.2 (Exception 13)

Pursuant to and in accordance with Listing Rule 7.2 (Exception 13), the following information is provided in relation to Resolution 14:

- (a) a summary of the key terms and conditions of the Plan is set out in Schedule 4;
- (b) the Company has not issued any Securities under the Plan as this is the first time that Shareholder approval is being sought for the adoption of the Plan. However, the Company has issued 53,500,000 securities (on a pre-Consolidation basis) under its previous plan titled "DiscovEx Resources Employee Equity Incentive Plan 2020" which was approved by Shareholders on 13 November 2020;
- (c) the maximum number of securities proposed to be issued under the Plan in reliance on Listing Rule 7.2 (Exception 13(b)), is 3,302,568 Securities (on a post-Consolidation basis). It is not envisaged that the maximum number of securities for which approval is sought will be issued immediately.

14. BACKGROUND TO RESOLUTIONS 15 TO 24 – ISSUE OF PERFORMANCE RIGHTS

Subject to the passing of the Essential Resolutions, the Company is seeking to issue an aggregate of 16,350,000 Performance Rights (on a post-Consolidation basis) to the Recipients (or their respective nominees) in order to link part of the remuneration payable to the Recipients to specific performance milestones, as follows:

If the milestones attaching to the Performance are met and the Performance Rights are converted, a total of 16,550,000 Shares would be issued. Subject to Shareholder approval of the Essential Resolutions and based on the Minimum Subscription of the Public Offer, this will increase the total number of Shares on issue from 168,025,681 (on a post-Consolidation basis) to 184,575,681 (assuming that no Shares are issued and no convertible securities vest or are exercised) with the effect that the shareholding of existing Shareholders would be diluted by an aggregate of 8.98%, comprising:

The purpose of the proposed issue of the Performance Rights is to:

- (a) link part of the remuneration and fees paid to specific performance criteria, namely the achievement of specific milestones;
- (b) include a market-linked incentive component in the Recipients' proposed remuneration package or fees payable (as applicable);
- (c) motivate and reward the successful performance of the Recipients in their respective roles in managing the operations and strategic direction of the Company; and
- (d) further align the goals of the Recipients with creating value for shareholders.

The full terms and conditions of the Performance Rights are set out in Schedule 5.

15. RESOLUTIONS 15 – 19 – ISSUE OF PERFORMANCE RIGHTS TO DIRECTORS

15.1 General

The Company has agreed, subject to obtaining Shareholder approval, to issue up to an aggregate of 13,750,000 performance rights (**Performance Rights**) to Toby Wellman, Heath Hellewell, Thomas Hoyer, Grant Coyle and Steffen Hagemann (or their nominee/s) (**Performance Rights Directors**) as set out in Section 14 above.

Resolutions 15 to 19 seek Shareholder approval for the issue of the Performance Rights to the Performance Rights Directors.

15.2 Director Recommendation

Each Director (other than David Morgan) has a material personal interest in the outcome of Resolutions 15 to 19 on the basis that the Directors (other than David Morgan) (or their nominees) are to be issued Performance Rights on the same terms and conditions should Resolutions 15 to 19 be passed. For this reason, the Directors (other than David Morgan) do not believe that it is appropriate to make a recommendation on Resolutions 15 to 19 of this Notice.

15.3 Chapter 2E of the Corporations Act

For a public company, or an entity that the public company controls, to give a financial benefit to a related party of the public company, the public company or entity must:

- (a) obtain the approval of the public company's members in the manner set out in sections 217 to 227 of the Corporations Act; and
- (b) give the benefit within 15 months following such approval,

unless the giving of the financial benefit falls within an exception set out in sections 210 to 216 of the Corporations Act.

The issue of Performance Rights to the Performance Rights Directors constitutes giving a financial benefit and each of the Performance Rights Directors is a related party of the Company by virtue of being a Director (subject to the passing of Resolutions 9 to 11).

As the Performance Rights are proposed to be issued to all of the Directors other than David Morgan, the Directors are unable to form a quorum to consider whether one of the exceptions set out in sections 210 to 216 of the Corporations Act applies to the issue of the Performance Rights. Accordingly, Shareholder approval for the issue of Performance Rights to the Performance Rights Directors is sought in accordance with Chapter 2E of the Corporations Act.

15.4 Listing Rule 10.11

Listing Rule 10.11 provides that unless one of the exceptions in Listing Rule 10.12 applies, a listed company must not issue or agree to issue equity securities to:

- 10.11.1 a related party;
- 10.11.2 a person who is, or was at any time in the 6 months before the issue or agreement, a substantial (30%+) holder in the company;
- 10.11.3 a person who is, or was at any time in the 6 months before the issue or agreement, a substantial (10%+) holder in the company and who has nominated a director to the board of the company pursuant to a relevant agreement which gives them a right or expectation to do so;
- 10.11.4 an associate of a person referred to in Listing Rules 10.11.1 to 10.11.3;
or
- 10.11.5 a person whose relationship with the company or a person referred to in Listing Rules 10.11.1 to 10.11.4 is such that, in ASX's opinion, the issue or agreement should be approved by its shareholders,

unless it obtains the approval of its shareholders.

The issue of Performance Rights falls within Listing Rule 10.11.1 and does not fall within any of the exceptions in Listing Rule 10.12. It therefore requires the approval of Shareholders under Listing Rule 10.11.

Resolutions 15 to 19 seek the required Shareholder approval for the issue of the Performance Rights under and for the purposes of Chapter 2E of the Corporations Act and Listing Rule 10.11.

15.5 Technical information required by Listing Rule 14.1A

If Resolutions 15 to 19 are passed, subject to and conditional on the passing of the Essential Resolutions, the Company will be able to proceed with the issue of the Performance Rights to the Performance Rights Directors within one month after the date of the Meeting (or such later date as permitted by any ASX waiver or modification of the Listing Rules). As approval pursuant to Listing Rule 7.1 is not required for the issue of the Performance Rights (because approval is being obtained under Listing Rule 10.11), the issue of the Performance Rights will not use up any of the Company's 15% annual placement capacity.

Resolutions 15 to 19 are not Essential Resolutions. If Resolutions 15 to 19 are not passed, the Company will not be able to proceed with the issue of the Performance Rights. The Company may be required to find alternative means of incentivising its related party Directors including but not limited to cash payments.

15.6 Technical Information required by Listing Rule 10.13 and section 219 of the Corporations Act

Pursuant to and in accordance with Listing Rule 10.13 and section 219 of the Corporations Act, the following information is provided in relation to Resolutions 15 to 19:

 - (iii) incentives to attract and ensure continuity of service of the Performance Rights Directors who have appropriate knowledge and expertise, while maintaining the Company's cash reserves.

16. RESOLUTIONS 20 TO 24 – APPROVAL TO ISSUE PERFORMANCE RIGHTS

16.1 General

The Company is proposing to issue an aggregate of 2,800,000 Performance Rights to Jussi Lähde, Minna Lymi, Otso Markkanen, Nerida Schmidt and Paul Bridson (**Performance Rights Employees & Consultants**).

As summarised in Section 3.1 above, Listing Rule 7.1 limits the amount of equity securities that a listed company can issue without the approval of its shareholders over any 12 month period to 15% of the fully paid ordinary shares it had on issue at the start of that period.

The proposed issue of the Performance Rights to the Performance Rights Employees & Consultants does not fit within any of the exceptions set out in Listing Rule 7.2. While the issue does not exceed the 15% limit in Listing Rule 7.1 and can

therefore be made without breaching that rule, the Company wishes to retain as much flexibility as possible to issue additional equity securities in the future without having to obtain Shareholder approval under Listing Rule 7.1. Accordingly, the Company is seeking Shareholder approval pursuant to Listing Rule 7.1 so that it does not use up any of its 15% placement capacity under Listing Rule 7.1.

16.2 Technical information required by Listing Rule 14.1A

If Resolutions 20 to 24 are passed, subject to the passing of the Essential Resolutions, the Company will be able to proceed with the issue of the Performance Rights to the Performance Rights Employees & Consultants. In addition, the issue of the Performance Rights will be excluded from the calculation of the number of equity securities that the Company can issue without Shareholder approval under Listing Rule 7.1.

Resolutions 20 to 24 are not Essential Resolutions. If Resolutions 20 to 24 are not passed, the issue of the Performance Rights can still proceed but it will reduce, to that extent, the Company's capacity to issue equity securities without Shareholder approval under Listing Rule 7.1 for 12 months following the issue.

Resolutions 20 to 24 seek Shareholder approval for the purposes of Listing Rule 7.1 for the issue of the Performance Rights to Performance Rights Employees & Consultants.

16.3 Technical information required by Listing Rule 7.3

Pursuant to and in accordance with Listing Rule 7.3, the following information is provided in relation to Resolutions 20 to 24:

- (a) the Performance Rights will be issued to the Performance Rights Employees & Consultants in the allocation set out in Section 14;
- (b) the maximum number of Performance Rights to the Performance Rights Employees & Consultants to be issued is 2,800,000. The terms and conditions of the Performance Rights are set out in Schedule 5;
- (c) the Performance Rights will be issued no later than 3 months after the date of the Meeting (or such later date to the extent permitted by any ASX waiver or modification of the Listing Rules) and it is intended that issue of the Performance Rights will occur progressively;
- (d) the issue price will be nil per Performance Right. The Company will not receive any other consideration for the issue of the Performance Rights;
- (e) the purpose of the issue of the Performance Rights is to incentivise and retain its employees and consultants;
- (f) the Performance Rights are being issued pursuant to customary offer letters between the Company and proposed recipient; and
- (g) voting exclusion statements are included for Resolutions 20 to 24 of the Notice.

The Board's discretion in determining the treatment of any unvested Convertible Securities on a change of control event is limited to vesting or varying any vesting conditions in respect to the Convertible Securities and does not include a discretion to lapse or forfeit unvested Convertible Securities for less than fair value.
Participation in entitlements and bonus issues	Subject always to the rights under the following two paragraphs, Participants will not be entitled to participate in new issues of capital offered to holders of Shares such as bonus issues and entitlement issues.

Reorganisation	If there is a reorganisation of the issued share capital of the Company (including any subdivision, consolidation, reduction, return or cancellation of such issued capital of the Company), the rights of each Participant holding Convertible Securities will be changed to the extent necessary to comply with the Listing Rules applicable to a reorganisation of capital at the time of the reorganisation.
Buy-Back	Subject to applicable law, the Company may at any time buy-back Securities in accordance with the terms of the Plan.

Employee Share Trust	The Board may in its sole and absolute discretion use an employee share trust or other mechanism for the purposes of holding Convertible Securities for holders under the Plan and delivering Shares on behalf of holders upon exercise of Convertible Securities.
Amendment of Plan	<p>Subject to the following paragraph, the Board may at any time amend any provisions of the Plan rules, including (without limitation) the terms and conditions upon which any Securities have been granted under the Plan and determine that any amendments to the Plan rules be given retrospective effect, immediate effect or future effect.</p> <p>No amendment to any provision of the Plan rules may be made if the amendment materially reduces the rights of any Participant as they existed before the date of the amendment, other than an amendment introduced primarily for the purpose of complying with legislation or to correct manifest error or mistake, amongst other things, or is agreed to in writing by all Participants.</p>
Plan duration	<p>The Plan continues in operation until the Board decides to end it. The Board may from time to time suspend the operation of the Plan for a fixed period or indefinitely and may end any suspension. If the Plan is terminated or suspended for any reason, that termination or suspension must not prejudice the accrued rights of the Participants.</p> <p>If a Participant and the Company (acting by the Board) agree in writing that some or all of the Securities granted to that Participant are to be cancelled on a specified date or on the occurrence of a particular event, then those Securities may be cancelled in the manner agreed between the Company and the Participant.</p>
Income Tax Assessment Act	The Plan is a plan to which Subdivision 83A-C of the <i>Income Tax Assessment Act 1997</i> (Cth) applies (subject to the conditions in that Act) except to the extent an invitation provides otherwise.
Withholding	Notwithstanding any other provision of the rules of the Plan, and without limiting the amounts which may be deducted or withheld under Applicable Laws, if a member of the Company, a trustee or the Plan administrator is obliged, or reasonably believes that it may have an obligation to account for any Tax, or any superannuation amounts (or equivalent social security contributions, if applicable) in respect of a Participant (Withholding Amount), then that subsidiary of the Company, trustee or Plan administrator (as applicable) is entitled to withhold or be reimbursed by the Participant for the Withholding Amount payable or paid.

(h) **Timing of issue of Shares on conversion**

Within 5 business days after the date that the Performance Rights are converted, the Company will:

- (i) issue the number of Shares required under these terms and conditions in respect of the number of Performance Rights converted;
- (ii) if required, give ASX a notice that complies with section 708A(5)(e) of the *Corporations Act 2001* (**Corporations Act**), or, if the Company is unable to issue such a notice, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors; and
- (iii) if admitted to the Official List of ASX at the time, apply for Official Quotation on ASX of Shares issued pursuant to the conversion of the Performance Rights.

If a notice delivered under paragraph (h)(ii) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 20 business days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

(i) **Transfer of Performance Rights**

The Performance Rights are not transferable.

(j) **Participation in new issues**

(k) **Reorganisation of capital**

If at any time the issued capital of the Company is reorganised (including consolidation, subdivision, reduction or return), all rights of a holder will be

(l) **Adjustment for bonus issues of Shares**

The Performance Rights do not confer on the holder an entitlement to vote (except as otherwise required by law) or receive dividends.

(n) **Change in control**

Subject to paragraph (o), upon:

then, to the extent Performance Rights have not converted into Shares due to satisfaction of the relevant Milestones, Performance Rights will accelerate vesting conditions and will automatically convert into Shares on a one-for-one basis.

(o) **Deferral of conversion if resulting in a prohibited acquisition of Shares**

If the conversion of a Performance Right under paragraphs (c) or (n) would result in any person being in contravention of section 606(1) of the *Corporations Act 2001 (Cth)* (**General Prohibition**) then the conversion of that Performance Right shall be deferred until such later time or times that the conversion would not result in a contravention of the General Prohibition. In assessing whether a conversion of a Performance Right would result in a contravention of the General Prohibition:

- (i) holders may give written notification to the Company if they consider that the conversion of a Performance Right may result in the contravention of the General Prohibition. The absence of such written notification from the holder will entitle the Company to assume the conversion of a

Performance Right will not result in any person being in contravention of the General Prohibition; and

- (ii) the Company may (but is not obliged to) by written notice to a holder request a holder to provide the written notice referred to in paragraph (o)(i) within 7 days if the Company considers that the conversion of a Performance Right may result in a contravention of the General Prohibition. The absence of such written notification from the holder will entitle the Company to assume the conversion of a Performance Right will not result in any person being in contravention of the General Prohibition.
