Care and Maintenance (Dalgaranga)

 During the Quarter, a number of maintenance activities were completed including inspection and monitoring of key plant and other site infrastructure to ensure the Dalgaranga site remained in a state for a rapid restart.

Corporate

- Ms Deanna Carpenter appointed as an independent Non-Executive Director, with Mr John Hodder stepping down from the Board.
- Highly experienced mining executive Craig Jones appointed as Chief Operating Officer.
- Post Quarter-end, the Company launched a fully underwritten \$80 million placement and accelerated entitlement offer.
- Unmarketable Parcel Share Sale Facility completed, reducing the Company's ongoing administration costs.
- Total cash and listed company investments at 31 March 2024 of \$30.5 million.

Spartan Managing Director and CEO, Mr Simon Lawson, commented:

"Spartan has continued to deliver on all fronts during the March Quarter, with more outstanding highgrade results from across the Dalgaranga Gold Project supporting our objective of delineating more high-grade ounces in front of the Project's existing high-quality infrastructure and laying the foundations for a sustainable long-life gold business.

"Drilling at the high-grade Never Never gold deposit has continued to deliver broad intersections at very impressive grades, such as an uncut intercept of 15.85m grading 136.80g/t gold including 2.50m grading 697.00g/t gold, reinforcing the deposit's exceptional endowment.

"Underpinned by the success of our drilling programs to date, we have recently reported an updated JORC Exploration Target for the Never Never deposit of 8.1 to 9.9 million tonnes grading between 5.8 and 6.7g/t gold for 1.6 to 1.9 million ounces of contained gold.

"We're also continuing to see very exciting results from other deposits surrounding the Dalgaranga processing plant, with high-grade results reported from West Winds, Four Pillars and Sly Fox during the reporting period. These results will all contribute towards Our next Resource update for the Dalgaranga Project, which is scheduled for delivery by mid-year.

"With the Company now approaching a critical mass of high-grade gold ounces at Dalgaranga, we have continued to progress mining study work throughout the Quarter to consider the optimal pathway for a return to production.

"As we continue to map this pathway, we were absolutely delighted to appoint Craig Jones as our Chief Operating Officer earlier this month. Craig has an outstanding operational track record – with previous senior roles at Poseidon Nickel, Bellevue Gold and Northern Star Resources – and will be an invaluable asset to Spartan as we work to convert our exploration success into profitable production.

"We were also very pleased to welcome Deanna Carpenter to the Board during the Quarter as a Non-Executive Director. Deanna has extensive experience across equity capital markets, mergers & acquisitions, governance, risk management and corporate compliance and will be a valuable addition to our Board moving forward. We would also like to sincerely thank outgoing Director, John Hodder, who stepped down during the Quarter, for his significant contribution to the Company's growth and development.

"Looking to the coming months, we have an incredibly busy period ahead, with four drill rigs currently on site, our next Resource update underway and feasibility studies advancing on multiple fronts."

'Post the end of the Quarter, we announced an \$80 million Placement and Accelerated Entitlement Offer. This raising puts Spartan in an exceptional position to deliver on the huge potential of the Never Never discovery and our other recent exploration successes at Dalgaranga, with a very strong balance sheet to unlock the full value of what we have already discovered and take this company to the next level as a mid-tier gold developer and ultimately producer."

Environmental, Social & Governance

Safety

The Total Recordable Injury Frequency Rate ("TRIFR" 12-month rolling) for Dalgaranga at the end of the March Quarter was 8.1, a decrease from 21.4 at the end of the December Quarter, primarily due to an increase in worked hours on site compared to 12 months ago. No lost time injuries occurred during the Quarter. The Company continued work on the development of its Mine Safety Management System to support all future activities.

Environmental

The Company continued to maintain its environmental and regulatory compliance requirements.

During the Quarter, the Company received an amended Site Operating License, providing approval to discharge Gilbey's Pit water.

There were no environmental incidents reported in the Quarter.

Sustainability

During the Quarter, the Company continued to develop an action plan to ensure its sustainability aims are achieved and accurately represented to stakeholders. The plan includes:

- Highlighting the Company's efforts to integrate leading sustainability practices into our business plan and demonstrating the extent of alignment with our chosen sustainability reporting framework.
- Highlighting our sustainability credentials as a company with a large scale exploration program (putting procedures in place to protect environmental and cultural values from being impacted).
- Highlighting efforts, if attainable, to reduce our carbon footprint through energy efficiency measures.

Dalgaranga Gold Project

Summary of Drilling Activity and Expenditure

During the Quarter, the Company spent \$6.3 million on exploration and evaluation activities.

Approximately \$6.0 million was incurred on exploration and resource definition and extension activity at Dalgaranga, predominantly on the Never Never, West Winds and Four Pillars deposits. The remaining \$0.3 million was spent on regional exploration and evaluation activity at the Yalgoo, Glenburgh and Mt Egerton Projects.

At Dalgaranga, a total of 32,054 metres of diamond, diamond tail and Reverse Circulation ("RC") drilling was completed during the Quarter.

Activity at the Yalgoo Gold Project continued to centre on the progression of negotiations with cultural groups in support of permit applications for future development and the license to mine.

Never Never Exploration Target

During the Quarter, Spartan calculated a new JORC-compliant Exploration Target for the high-grade Never Never Deposit, comprising:

)	Grade (g/t Au)	Grade (g/t Au)	Tonnes (Mt)	Tonnes (Mt)	Contained Gold (oz)	Contained Gold (oz)
	Low	High	Low	High	Low	High
)	5.8	6.7	8.1	9.9	1,600,000	1,900,000

The potential quantity and grade of the Exploration Target is conceptual in nature and, as such, there has been insufficient exploration drilling conducted to estimate a Mineral Resource. At this stage it is uncertain if further exploration drilling will result in the estimation of a Mineral Resource. The Exploration Target has been prepared in accordance with the JORC Code (2012).

Note: The Exploration target is **inclusive** of the December 2023 Mineral Resource Estimate released for the Never Never Gold Deposit of 5.16Mt at 5.74g/t Au for 0.95Moz gold¹

Full details of the Never Never JORC Exploration Target were provided in the Company's ASX Announcement dated 12 March 2024.

BACKGROUND ON SPARTAN RESOURCES

Spartan Resources Limited (ASX: SPR) is an ASX-listed gold company that has repositioned itself as an advanced exploration company with a rapid pathway back into production at its Dalgaranga Gold Project, located 65km north-west of Mt Magnet in the Murchison District of Western Australia.

Dalgaranga produced over 70,000oz of gold in FY2022 before being placed on care and maintenance in November 2022 to implement an operational reset designed to preserve the value of its extensive infrastructure and Resource base while developing a new, sustainable operating plan.

This approach is underpinned by the exceptional high-grade Never Never gold discovery, which was made in 2022 just 1km from the existing 2.5Mtpa carbon-in-leach processing facility and the main open pit at Dalgaranga.

The Company has moved to rapidly unlock the potential of this significant discovery, which comprises a current JORC Mineral Resource of 952,000oz at an average grade of 5.74g/t (<u>read the announcement here</u>).

In February 2023, the Company announced an 18-month exploration and strategic plan (**the "365" strategy**) targeting:

- A +300koz Reserve at a grade exceeding 4.0g/t Au at Never Never;
- A +600koz Resource at a grade exceeding 5.0g/t Au at Never Never;
- The development of a 5-year mine plan aimed at delivering gold production of 130-150koz per annum.

This updated strategy is centred around an aggressive exploration program at Never Never designed to target Resource expansion, Reserve definition and near-mine exploration drilling targeting Never Never "lookalikes" including Four Pillars, West Winds and Sly Fox.

In addition to its near-mine exploration at Dalgaranga, Spartan is actively exploring more than 500km² of surrounding exploration tenements and also owns the advanced 244koz Yalgoo Gold Project, where permitting activities are well advanced to establish a potential satellite mining operation at the Melville deposit.

In addition to Dalgaranga and Yalgoo, the Company's 527koz advanced exploration and development project at Glenburgh–Mt Egerton, located ~300km north of Dalgaranga, has the potential to be a second production hub.

Spartan is committed to safe and respectful operation as a professional and considerate organisation within a diverse and varied community. Our people represent our culture and our culture is always to show respect to each other and to our community, to respect the unique environment we operate within and to show respect to all of our various stakeholders.
