Positive free cash flow

In 3Q24 Airtasker generated positive free cash flow of \$2.5m, up \$5.1m on pcp (compared to a net cash outflow of \$2.6m in 3Q23), the second consecutive quarter of positive free cash flow.

The positive free cash flow result in 3Q24 was achieved by growing Airtasker marketplace revenue by 11.5% to \$10.1m and delivering solid Group revenue of \$12.2m whilst at the same time improving operating efficiency and reducing total operating expenditure by 6.4% on pcp.

Cash flow from operating activities for 3Q24 was positive \$3.1m, up \$4.3m on pcp (compared to operating cash outflow of \$1.2m in 3Q23). This is the third consecutive quarter of positive operating cash flow, delivering a total of \$4.5m in positive operating cash flow over the first three quarters of FY24.

Cash flow from operating activities improved \$2.4m against 2Q24. This reflected a 46.4% decrease in payments for operating costs due to the timing of annual software subscription renewals and a 40.3% decrease in marketing payments, with the prior quarter including payments related to the production of the 'Airtasker. Yeahtasker!' creative assets.

Given the strong 3Q24 free cash flow result, and with northern hemisphere seasonality peaking in 4Q24, Airtasker expects to accelerate international growth through investment in a number marketing initiatives during 4Q24. We remain confident of delivering full year FY24 positive free cash flow.

Airtasker finished the quarter in a solid financial position with \$19.7m in cash and term deposits on balance sheet and zero debt.

Airtasker marketplace revenue up 11.5%

Airtasker marketplace revenue grew by 11.5% on pcp to \$10.1m. This strong revenue result was driven by a recovery in consumer demand (posted tasks) from the prior year as well as successful funnel optimisation programs, including a revised cancellation policy designed to improve platform reliability and address task leakage. These programs saw cancellations reduce by 23.9% on pcp resulting in the monetisation rate² improving by 12.8% on pcp to 20.5%.

² Monetisation rate represents Airtasker's revenue in a given financial period, expressed as a percentage of gross marketplace volume (GMV) in the same period.

Media partnership delivers 49% increase in UK posted tasks

A key strategy to build the no. 1³ marketplace for local services in Australia was a media-for-equity partnership between Airtasker and Seven West Media. This partnership enabled Airtasker to build a trusted household brand name and scale network effects rapidly, resulting in 20x revenue growth and a 5x investment return for Seven West Media over 5 years. This model is now being replicated by Airtasker to drive rapid scale in the UK.

In June 2023, Airtasker formed a 5-year media-for-equity partnership with Channel 4 in the UK which provides Airtasker with an initial \$6.7m in advertising media and access to Channel 4’s reach of 47 million UK people (78% of the UK population). Following the successful release of the UK television advertising campaign ‘Airtasker. Yeahtasker!’ in 2Q24, marketplace demand continued to accelerate in 3Q24 with posted tasks up 49.1% on pcp. Seasonally, marketplace activity in the northern hemisphere is strongest in the third and fourth quarters, during spring and summer.

In the UK, Airtasker’s marketplaces demonstrated strong performance with 3Q24 TTM⁴ GMV up 12.3% on pcp to £4.1m⁵ (A\$7.8m) and TTM revenue up 30.6% on pcp to £574k⁵ (A\$1.1m) as a result of strong growth in posted tasks.

In Airtasker’s US marketplaces, 3Q24 TTM GMV increased 23.0% on pcp to US\$533k⁵ (A\$806k) and revenue increased 102.1% on pcp to US\$64k⁵ (A\$96k). In the US, Airtasker is seeing healthy growth in marketplace activity while maintaining a disciplined approach to investment as we explore several media partnership opportunities.

³ Based on 1.9m posted tasks on the Airtasker Australia platform during FY23.

Positive Australian Net EBITDA \$3.9m and positive Group EBITDA \$0.6m

Airtasker's marketplaces fall into two business segments, being the 'Established Marketplaces Segment' and the 'New Marketplaces Segment' plus global head office expenditure which is not directly attributable to a segment. Geographic operations are segmented based on the maturity of the marketplaces as economics differ at each stage of growth. The Airtasker Australia and Oneflare Australia marketplaces are at the 'scaling' stage as they have established user bases and operations and represent the 'Established Marketplaces Segment'. International marketplaces, particularly in the US and the UK, are at the 'zero to one' and one to 100' stages, respectively, as they have less established user bases and operations and represent the 'New Marketplaces Segment'. Airtasker continues to invest in establishing and growing these international marketplaces.

During 3Q24, Airtasker's Established Marketplaces delivered positive Australian net EBITDA of \$3.9m, after contributing to all global head office expenditure. Group EBITDA was \$0.6m, which included a \$3.3m net investment in New Marketplaces. This investment principally comprised marketing and amortisation of media advertising assets.

The performance of the operating segments for 3Q24 is presented in the table below.

Non-statutory operating segment data ⁶	3Q24 \$m	3Q23 \$m	Variance \$m	Variance %
Established Marketplaces (Australia) EBITDA ⁷	8.5	6.8	1.7	23.9%
Less: Global head office operating expenditure ⁸	(3.3)	(5.3)	2.0	40.3%
Less: Global head office innovation investment ⁹	(1.3)	(0.2)	(1.1)	(441.4%)
Australian net EBITDA	3.9	1.3	2.6	217.9%
Less: New Marketplaces (UK and US) EBITDA	(3.3)	(2.2)	(1.1)	(53.5%)
Group EBITDA	0.6	(0.9)	1.5	163.7%

Commenting on the results, Airtasker Founder and CEO Tim Fung said, "I'm super pleased to announce that Airtasker has delivered a second straight quarter of positive free cash flow and we are well ahead of plan to deliver on our promise of positive free cash flow for FY24. With consumer demand recovering and our continued focus on the core product experience, we've seen a dramatic improvement in our sales funnel with reduced leakage, which lays the foundations for re-acceleration of growth in the Australian market.

In the UK, we've been blown away by the results of our 'Airtasker, Yeahtasker!' campaign and partnership with Channel 4 which has already delivered a 49% pop in posted tasks as we enter the UK spring and summer period (our biggest quarter)!"

Related party payments in 3Q24 totalled \$418k. The payments comprised \$47k to non-executive directors for director's fees, superannuation and expense reimbursements, \$121k to Tank Stream Labs Pty Ltd for leases, utilities and cleaning costs related to office facilities and \$250k to Channel Four Television Corporation for VAT related to the media advertising services.

All numbers are unaudited.

⁶ Values in the table are rounded for presentation.

⁷ Excluding global head office operating expenditure and innovation investment.

⁸ The operating expenditure relating to the marketplace platforms (engineering, product support and maintenance), as well as back office support functions (leadership, legal, finance and people operations).

⁹ The innovation investment that is non-capitalisable and associated with the design of, and post-implementation work on new features designed to enhance the customer experience, increase long term GMV and grow long term revenue.
