Hydration solutions company **The Hydration Pharmaceuticals Company Limited (ASX: HPC)** (“Hydralyte North America” or “the Company”) is pleased to provide the following update on its operational and financial performance for the three-month period ended 31 March 2024 (the “quarter”).

Financial overview:

During the quarter, the Company continued to deliver on its stated strategy to maintain sales growth with a material reduction in net operating expenditure. This focus on cash preservation resulted in net cash used in operating activities decreasing to US\$0.83m, highlighting a 43% reduction on the previous corresponding period (PCP) (Q1 FY23: US\$1.45m) and a 27% reduction on the previous quarter (Q4 FY23: US\$1.147m).

Revenue for the quarter increased by 2% on the previous quarter (Q4 FY23: US\$2.13m) to US\$2.17m. Quarterly revenue was impacted by inventory issues during January, which accounted for approximately US\$0.45m in unshipped orders. Adjusted net sales after accounting for these unshipped orders resulted in a 23% increase on the previous quarter.

The Company has rectified these inventory issues and has been back in stock on key products since mid-quarter. The Company expects only a minor impact from out-of-stocks during Q2 FY2024.

Canadian operations continue to show strong growth and underpinned the Company's growth trajectory in the March quarter. Sales in the territory for the quarter increased 7% on PCP (Q1 FY2023: US\$1.33m) to US\$1.43m. Canada ecommerce sales increased to 52% on PCP to US\$0.49m.

With the strategy of prioritising profitability, the Company increased focus on ecommerce and Canadian retail growth. With less focus on US retail, US sales for quarter decreased 38% on PCP (Q1 FY2023: US\$1.20m) to US\$0.74m.

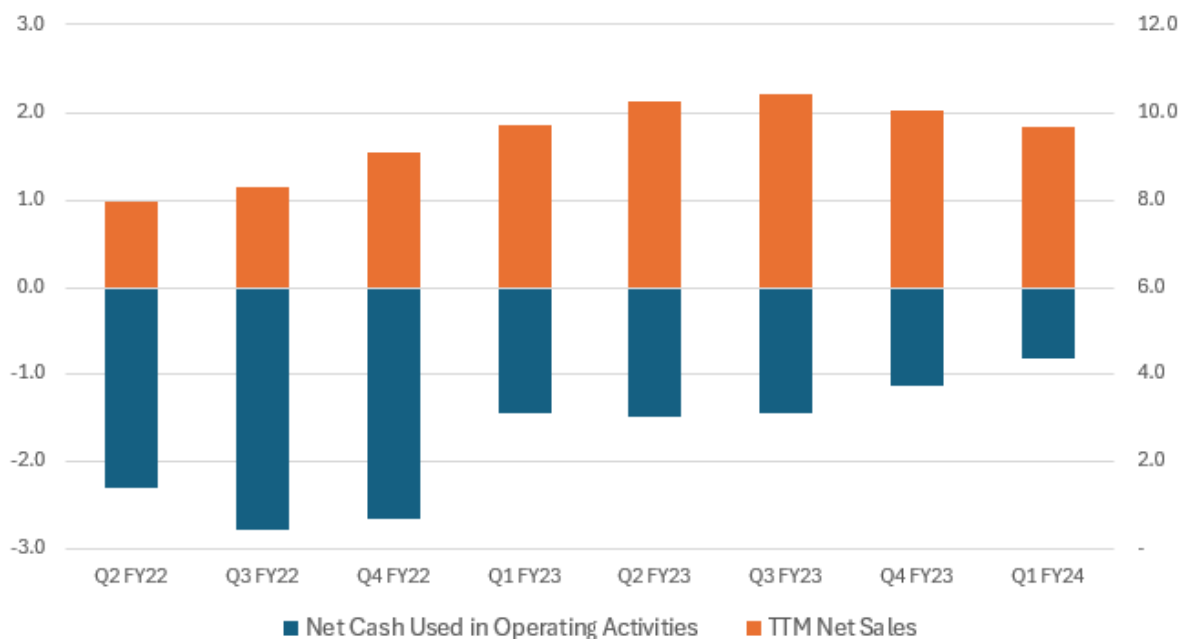

In the shift to profitable Amazon growth, US ecommerce revenue decreased 5% on PCP (Q1 FY2023: US\$0.67m) to US\$0.64m. Subsequent to quarter end, US ecommerce has shifted to profitable year-on-year growth.

US bricks and mortar revenue decreased 82% on PCP (Q1 FY2023: US\$0.54m) to US\$0.10m. This was largely due to large US retailer, Rite Aid decreasing orders due to restructuring following its bankruptcy in late 2023. The reduction in Rite Aid revenue resulted in a US\$0.25m decrease on PCP. Rite Aid bankruptcy plus trailing net sales deductions caused a one-time negative net sales impact of US\$(0.08m).

The following chart displays the quarterly trailing 12 months net sales and quarterly net cash used in operating activities for the period ending Q1 FY2024:

The following table summarises change in revenues and gross margins into Q1 FY2024:

	Q1 FY23	Q4 FY23	Q1 FY24	QoQ change	YoY change
Total net revenue	2,530	2,134	2,171	2%	-14%
<i>E-commerce sales</i>	1,000	996	1,138	14%	14%
<i>Traditional retail sales</i>	1,530	1,138	1,033	-9%	-33%
Gross Margins	1,196	1,302	1,086	-17%	-9%
Gross Margin %	47%	61%	50%	-11 ppt	3 ppt

US\$0.81m was invested in marketing during the quarter, a 11% decrease on the PCP (Q1 FY23: US\$0.91m) and in line with the Company’s cash preservation initiatives.

Marketing costs as a percentage of sales decreased to 37% down from 43% in Q4 FY23 and down from 48% in Q1 FY23.

The following chart reflects the continued success of the company’s initiative to conserve capital and focus on sustainable growth:

Gross margin dollars totalled US\$1.09m, down 9% on the PCP, however gross margin as a percentage of net sales increased 3 percentage points on the PCP to 50% (Q1 FY2023: 47%), and down 11 percentage points on the prior quarter. The decrease is attributed to a one-time US\$0.13m write down of inventory expected to become obsolete.

Commentary on cash flows:

In line with an ongoing focus on cash preservation, net cash used in operating activities decreased 27% on the previous quarter to US\$0.83m (Q4 FY23: US\$1.1m) and decreased 43% on PCP (Q1 FY23: US\$1.5m)-

The Company has maintained a focus on reducing operating expenditure to extend cash life through significant reduction in marketing spend, while leveraging its market footprint to maintain revenue growth. The reduced net cash use in FY2024 is a direct result of this ongoing strategy, which is expected to continue through 2024.

The following chart shows continued reduction in cash used in operating activities consecutively over the last seven quarters:

Available funds and PURE arrangements:

Pure Asset Management (“PURE”) amended agreement:

The Company amended the prior agreement with PURE to make available additional tranches of debt, tranches three, four, and five. The A\$1.7m tranche three was made immediately available to the company subject to an ASX waiver that was granted subsequent to quarter end on 24 April 2024. The Company will issue 85,000,000 warrants in connection with the tranche three funding (**Third Tranche Warrants**). The issue of the Third Tranche Warrants is conditional on shareholder approval as set out in the Notice of AGM released to the market on 23 April 2024. Tranches four and five are subject to the discretion of PURE. For additional details around the amended agreement, please see the Company ASX announcement dated 27 March 2024.

Available funds:

Cash and cash equivalents at the end of the quarter were US\$2.2m. In addition to cash on hand of US\$1.1m, the Company may access the third tranche of PURE’s debt equal to A\$1.7m. This third tranche was subject to an ASX waiver that was granted subsequent to the quarter end on 24 April 2024.

Operational overview:

Progressing Sale of Company or Divestiture of Assets:

As previously advised, the Company is utilising the additional funding available to commence a sale of the Company or divestiture of assets. This process is ongoing and the Company will

provide updates as developments materialise. While advancing the sales process, the Company is continuing to focus on profitable growth through product development and new and existing customer growth.

Management commentary:

Hydralyte North America CEO Oliver Baker said: *“The March quarter’s results again highlighted the company’s strategy to maintain revenue growth on a far reduced cost base. This is now the seventh straight quarterly reduction in cash used. We also turned a strategic corner as Amazon USA for the first time is demonstrating profitable growth in the most recent 6-8 week period.*

“These results highlight the management team’s commitment to establishing a stable growth model to support the Board’s decision to pursue a strategic sale of the business and obtain maximum value for shareholders. We look forward to providing more updates in the June quarter as discussions with counterparties progress.”
