

ASX ANNOUNCEMENT

30 APRIL 2024

QUARTERLY ACTIVITIES REPORT

AXP Energy Limited (ASX: AXP, OTC US: AUNXF), ('AXP', 'Company') provides this summary of activities for the quarter ended 31 March 2024 (*all in USD unless stated otherwise*).

HIGHLIGHTS

Note: As announced on 12 March 2024, the Company completed the sale of its non-Colorado assets (the 'discontinued operations'). The revenue & production figures presented herein refer only to the Colorado assets (the 'continuing operations'), whilst operating cashflows to 7 February 2024 apply to both continuing and discontinued operations.

- Customers receipts in the quarter were **\$464,299**, down 84% on the prior quarter (\$2,831,626);
- Net cash decreased by **\$174,699** with cash and cash equivalents at quarter end at \$1,562,190 (previous quarter: \$1,736,889);
- Cash receipts included **\$1,651,142** from proceeds from disposal of non-current assets;
- Gross production from continuing operations was **2,833 BOE**, up 14% on the previous quarter (2,478 BOE);
- Revenue from continuing operations decreased 4% to **\$120,001** (previous quarter: \$125,395), reflecting lower oil prices during the quarter;
- Unsold oil inventory held at quarter end totalled **1,679 barrels of oil** (previous quarter: 1,009 barrels of oil); and
- Gas fired generators being sourced for Colorado targeting increased production

Director Andrew Bald commented: "With the divestiture of the Appalachian and Illinois assets all but complete, the Company has now pivoted to optimising production from our Colorado assets. Over the coming quarter, we will focus on increasing production and cutting costs whilst looking for new avenues for growth."

FINANCIAL & CORPORATE OVERVIEW

Revenue from continuing operations for the quarter was 4% lower than the prior quarter at \$120,001 (prior quarter: \$125,395). The decrease was primarily attributable to lower realised pricing offset against higher sales volumes.

The following table summarises and compares the Company's net sales quantities by hydrocarbon for the past 2 quarters:

NET SALES QUANTITIES (from continuing operations)*	Q2 2024	Q3 2024	% CHANGE
Oil [BBL]	1,768	1,851	+5%

* Post royalties

Net oil sales volumes increased by 5% and realised pricing reduced quarter-on-quarter by 9%.

REVENUE – CONTINUED OPERATIONS (U\$)

The March quarter resulted in an operating cash outflow of \$1,595,830 compared to an operating cash outflow of \$410,097 reported in the previous quarter.

Net cash from investing activities was \$2,054,946, comprising proceeds from other non-current activities of \$1,651,142 and property, plant and equipment of \$447,804 in connection with the sale agreement for the disposal of AXP's oil & gas assets in Illinois and the Appalachian Basin. This was offset by outflows of \$114,000 due to ongoing legacy payment plan disbursements made during the quarter (includes a final settlement of one vendor).

Cash and cash equivalents at quarter end amounted to \$1,562,190, with short-term debt obligations of \$320,165. Payables continue to be managed in the normal course of business.

During the quarter the Company completed the sale of its non-Colorado oil and gas assets, including projects in Tennessee, Eastern Kentucky, Virginia, and the Illinois Basin, to Mountain V Oil & Gas, Inc. Consideration for the sale was \$4,000,000 plus oil in tank inventory as at 30 September 2023. Closing adjustments to be settled by 7 May 2024.

The sale has been accounted for as a discontinued operation from 29 September 2023. Any receipts and costs paid on behalf of Mountain V Oil & Gas, Inc post-closing have been classified as part of financing activities and will be recovered as part of the closing adjustments.

PRODUCTION & OPERATIONS OVERVIEW

Gross production for the March quarter was 2,833 BOE (barrels of oil equivalent), up 14% on the previous quarter (2,478 BOE).

EXPLORATION AND FIELD DEVELOPMENT ACTIVITIES

Exploration & Evaluation expenses of \$114,000 paid during the quarter, related to ongoing legacy payment plan disbursements. Development expenses of \$nil paid during the quarter.

The Company continues to progress the leasing and permitting at least one gas fired generator for its Colorado operation. By combusting gas, we expect that oil production should gradually increase. Revenues from oil sales should increase commensurately and ultimately, we should be able to sell electricity into the grid. The Company is also exploring other potential customers for electricity sales and have identified a number of alternative sales avenues that could lead to additional revenue from these electricity sales.

HEALTH, SAFETY & ENVIRONMENT

No Recordable Injuries or environmental concerns were recorded during the quarter.

A Notice of Alleged Violation was issued by the State of Colorado for a discrepancy in the Bradenhead testing requirement on 7 wells. The Operations team is continuing to work through this discrepancy with the regulators.

TENEMENT SCHEDULE

As a result of the sale to Mountain V, all leases associated with the Illinois and Appalachian Basin assets were divested during this quarter. The following table summarises the Group's tenements as at 31 March 2024.

OPERATING SEGMENT	Quarter ended 31-Dec-23		Quarter ended 31-Mar-24		Percentage change in holding during Quarter
	NRI [%]	NET ACREAGE	NRI [%]	NET ACREAGE

Colorado	76	12,902	76	12,902	-
TOTAL		91,194		12,902	(86%)

PAYMENTS TO RELATED PARTIES

Director's fees of \$38,000 were paid in the quarter.

EXPECTED RECEIPTS AND REDUCED COSTS IN Q4 FY24

Over the June quarter, the Company expects to receive approximately \$900K as a result of Post-Closing net payments made by the Company on behalf of Mountain V (see item 3.9 of the Appendix 5B) and the return of bonds following the transfer of the leases to Mountain V.

Additionally, many of the operating costs (production, staff, administration and corporate) will fall substantially as the majority of these direct costs were associated with the divested assets (see items 1.2 (c), (d) and (e) of the Appendix 5B).

The Company is now critically analysing its cost base with a view to reducing its overheads even further to minimise our cash outflows.

ABOUT AXP ENERGY LIMITED

AXP ENERGY Limited (ASX: AXP) is an oil & gas production and development company with core operations in Colorado. AXP's focus is to aggressively grow daily production by improving current asset performance and opportunistically acquiring onshore USA oil & gas assets with the following characteristics: producing conventional oil & gas wells; production that can be enhanced through low-cost field operations and workovers; leases which are held by production and which do not require ongoing drilling commitments; and economies of scale which can be achieved by acquiring and carrying out similar enhancement strategies on contiguous or nearby fields with similar characteristics.
