

8 May 2024

Botanix Webinar – Presentation Copy

Philadelphia PA and Perth Australia, 8 May 2024: Clinical dermatology company, Botanix Pharmaceuticals Limited (ASX: BOT, "Botanix" or "the Company"), announces that it will be hosting a webinar this morning - Wednesday, 8 May commencing at 10:30am AEST (Sydney/Melbourne) / 8:30am AWST (Perth) - to provide a comprehensive update on its commercial launch plans and market insights, as it nears planned approval of *Sofdra*TM.

A copy of the presentation that will be utilised during the call is attached with this release.

The call will be hosted by Executive Chairman, Vince Ippolito and Chief Executive Officer, Dr Howie McKibbon, along with key members of the newly expanded commercial team, including guest Lisa Pieretti, the Executive Director of the International Hyperhidrosis Society.

Interested participants need to register before the webinar using the link below and dial in details will be sent in return.

Webinar Details

Date: 8 May 2024

Time: 10:30am AEST (Sydney/Melbourne), 8:30am AWST (Perth)

To register: https://us02web.zoom.us/webinar/register/WN_mzSgKfFpQzyVLU16fe_SNw

Dial in details: Will be sent to you directly upon registration

Release authorised by

Vince Ippolito

President and Executive Chairman

About Botanix Pharmaceuticals

Botanix Pharmaceuticals Limited (ASX:BOT) is a dermatology company based in Philadelphia and Phoenix (US) which is progressing its lead product *Sofdra* for the treatment of primary axillary hyperhidrosis through FDA approval. FDA accepted the resubmission of the NDA for *Sofdra* in January 2024 as a complete response and confirmed a target approval timing for late June 2024. *Sofdra* is positioned to be a leading first line and second line therapy and potentially represents a safe and effective new option for patients.

The Company also has a pipeline of other products in late-stage clinical development for range of other dermatology conditions. To learn more please visit: http://www.botanixpharma.com/

Cautionary Note on Forward-Looking Statements

Any statements in this press release about future expectations, plans and prospects for the Company, the Company's strategy, future operations, and other statements containing the words "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," "predict," "project," "target," "potential," "will," "would," "could," "should," "continue," and similar expressions, constitute forward-looking statements. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including: the Company's ability to successfully develop its product candidates and timely complete its planned clinical programs and the Company's ability to obtain marketing approvals for is product candidates. In addition, the forward-looking statements included in this press release represent the Company's views as of the date hereof. The Company anticipates that subsequent events and developments will cause the Company's views to change. However, while the Company may elect to update these forward-looking statements at some point in the future, the Company specifically disclaims any obligation to do so. These forward-looking statements should not be relied upon as representing the Company's views as of any date subsequent to the date hereof.

Notice and Disclaimer

1. Summary information

This presentation has been prepared by Botanix Pharmaceuticals Ltd ("Botanix") and contains summary information about Botanix and the business conducted by it which is current as at the date of this presentation ("Presentation") (unless otherwise indicated).

The information in this Presentation is general in nature and does not purport to be accurate nor complete, nor does it contain all of the information that an investor may require in evaluating a possible investment in Botanix, nor does it contain all the information which would be required in a disclosure document or prospectus prepared in accordance with the requirements of the Corporations Act 2001 (Cth). It has been prepared by Botanix with due care but no representation or warranty, express or implied, is provided in relation to the accuracy, reliability, fairness or completeness of the information, opinions or conclusions in this Presentation by Botanix or any other party.

The information in this Presentation remains subject to change without notice. Reliance should not be placed on information or opinions contained in this Presentation, and Botanix does not have any obligation to finalize, correct or update the content of this Presentation. Certain data used in this Presentation has been obtained from research, surveys or studies conducted by third parties, including industry or general publications.

To the maximum extent permitted by law, Botanix is not responsible for updating, nor undertakes to update, this Presentation. It should be read in conjunction with Botanix's other periodic and continuous disclosure announcements lodged with the ASX, which are available at www2.asx.com.au or at https://botanixpharma.com/category/asx-releases/.

2. Not an offer

Neither this Presentation nor any of its contents will form the basis of any understanding, proposal, offer, invitation, contract or commitment.

3. Industry data

Certain market and industry data used in connection with or referenced in this Presentation has been obtained from public filings, research, surveys or studies made or conducted by third parties, including as published in industry-specific or general publications. Neither Botanix nor its advisers, or their respective representatives, have independently verified any such market or industry data.

4. Financial data

All dollar values are in United States dollars (\$ or US\$) unless otherwise stated. Amounts, totals and change percentages are calculated on whole numbers and not the rounded amounts presented.

5. Forward-looking statements and forecasts

This Presentation contains certain "forward-looking statements" and comments about future matters. Forward-looking statements can generally be identified by the use of forward-looking words such as, "expect", "anticipate", "intend", "should", "could", "may", "predict", "plan", "propose", "will", "believe", "forecast", "estimate", "target" "outlook", "guidance" and other similar expressions and include, but are not limited to, plans and prospects for the Company, the Company's strategy, future operations, the expected timing and/or results of regulatory approvals and prospects of commercializing product candidates or research collaborations with its partners, including in Japan, the outcome and effects of Sofpironium Bromide and the market for Sofpironium Bromide. Indications of, and guidance or outlook on, future earnings or financial position or performance are also forward-looking statements. You are cautioned not to place undue reliance on forward-looking statements. Any such statements, opinions and estimates in this Presentation speak only as of the date hereof, are preliminary views and assumptions and contingencies subject to change without notice, as are statements about market and industry trends, projections, guidance and estimates. Forward-looking statements are provided as a general guide only. The forward-looking statements contained in this Presentation are not indications, guarantees or predictions of future performance and involve known and unknown risks and uncertainties and other factors, many of which are beyond the control of Botanix, and may involve significant elements of subjective judgement and assumptions as to future events which may or may not be correct. Any such forward looking statements contained in this Presentation in light of those disclosures and not place undue reliance on such statements (particularly in light of the current economic climate and significant volatility, uncertainty and disruption caused by the COVID-19 pandemic). The forward-looking statements in this Present

Except as required by law or regulation, Botanix undertakes no obligation to finalize, check, supplement, revise or update forward-looking statements or to publish prospective financial information in the future, regardless of whether new information, future events or results or other factors affect the information contained in this Presentation.

6. No liability

The information contained in this document has been prepared in good faith by Botanix. Neither Botanix, nor any of its advisers or any of their respective affiliates, related bodies corporate, directors, officers, partners, advisers, employees and agents have authorised, permitted or caused the issue, lodgment, submission, dispatch or provision of this Presentation in a final form and none of them makes or purports to make any binding statement in this Presentation and there is no statement in this Presentation which is based on any statement by them.

To the maximum extent permitted by law, Botanix and its advisers, affiliates, related bodies corporate, directors, officers, partners, employees and agents: expressly disclaims any and all liability, including, without limitation, any liability arising out of fault or negligence, for any loss arising from the use of or reliance on information contained in this document including representations or warranties or in relation to the accuracy or completeness of the information, statements, opinions, forecasts, reports or other matters, express or implied, contained in, arising out of or derived from, or for omissions from, this document including, without limitation, any estimates or projections and any other financial information derived therefrom, whether by way of negligence or otherwise; and expressly exclude and disclaim all liabilities in respect of, make no representations regarding, any part of this Presentation and make no representation or warranty as to the currency, accuracy, adequacy, reliability or completeness or fairness of any statements, estimates, options, conclusions or other information contained in this Presentation.

Botanix - accelerating towards commercialization of *Sofdra*TM

DERMATOLOGY FOCUS

New treatments for underserved common skin diseases, with a first focus on excessive sweating ("primary axillary hyperhidrosis")

TOPICALLY DRIVEN

Targeting key indications with topical (gel) treatments that are safe, well tolerated and validated with clinical efficacy

WORLD CLASS TEAM

US-based team that have been responsible for successful development and commercial launches of more than 30 dermatology drugs

NEW PRODUCT "SOFDRA"

Sofdra is the first and only new chemical entity for primary axillary hyperhidrosis (5% product already approved in Japan with solid sales)

TARGETING MID-24 FDA APPROVAL

Submitted final component required for approval (the "Instructions for Use") in Q1 CY2024, targeting FDA approval in June 2024

International Hyperhidrosis Society

LISA J PIERETTI, MBA
Executive Director & Founding Member

- Previously Director of Account Management at Medical Broadcasting Company, where she designed, developed, and executed integrated multi-channel strategic marketing programs for billion-dollar pharma brands
- Worked with SCIREX Corporation, a leader in CNS clinical research, as the Senior Director of Marketing and Communications
- At Merck & Co. she was a Market
 Analyst in the vaccine department

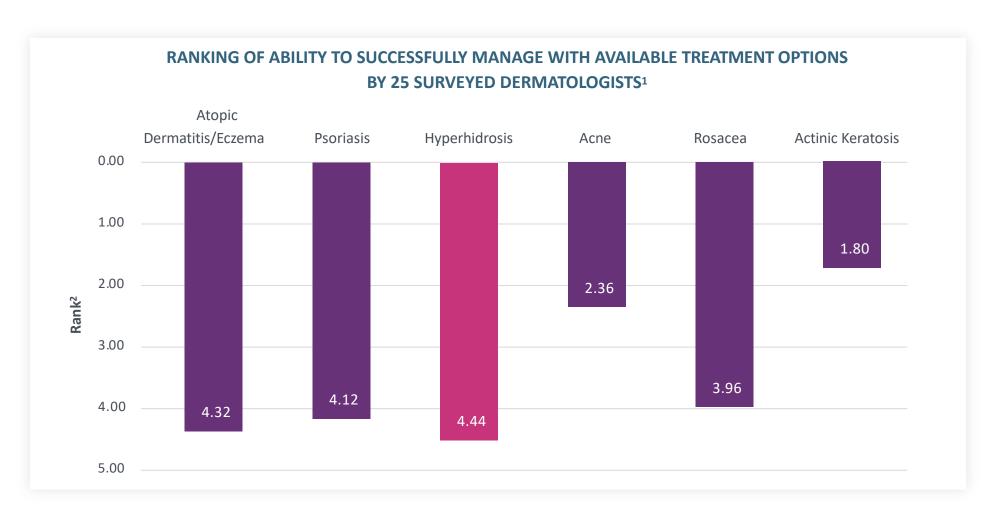

Top priorities include promoting awareness of hyperhidrosis, working to enable treatment access, and increased research into this medical condition

Hyperhidrosis: Significant unmet medical need

Clinicians ranked hyperhidrosis last in their ability to successfully manage with available treatments

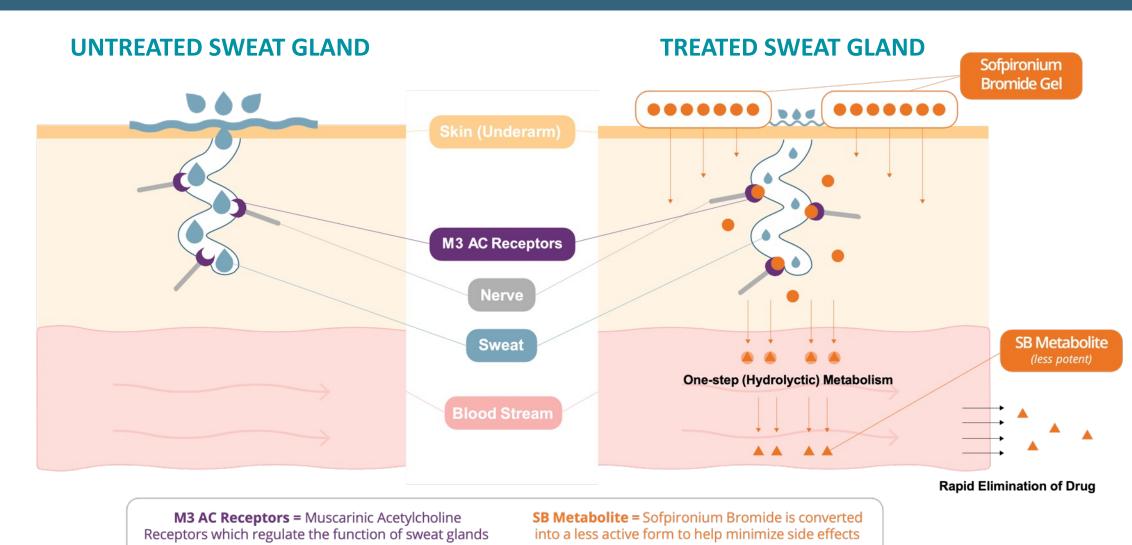

Sofdra[™] has a targeted mechanism of action

Binds selectively to M3 AC receptors, thereby blocking acetylcholine to inhibit sweat production, and then rapidly degrades for excretion

Phase 3 pivotal program co-primary measures

Hyperhidrosis Disease Severity Measure-Axillary patientreported outcome measure (HDSM-Ax)

- HDSM-Ax patient-reported outcome measure was used for a co-primary endpoint and all secondary endpoints
- HDSM-Ax is a validated patient-reported outcome measure of axillary hyperhidrosis severity
 - a 1-point change is clinically meaningful¹
 - HDSM-Ax employs 7 questions on a 5-point scale
 - a similar children's version was used for children under age 12

Gravimetric Sweat Production (GSP) measure

- GSP was used for a co-primary endpoint and in composite secondary endpoints
- Prior to measurements subjects remained in a semirecumbent position for at least 30 minutes in a room with controlled humidity and temperature between 20°C and 25°C
- GSP was performed by standard methods
- A separate 5-minute continuous GSP weight measurement was done for each axilla

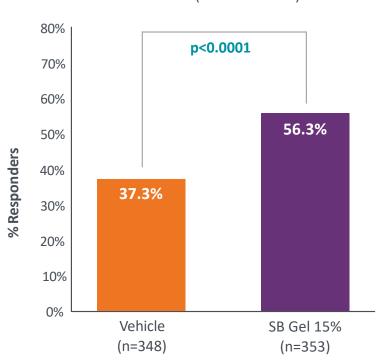

- HDSM-Ax measured improvement from baseline to end of treatment (Week 6)
- GSP measured the change in sweat production from baseline to End of Treament

In both Phase 3 studies, co-primary endpoints were observed to be highly statistically significant

≥2-point improvement in HDSM-Ax from baseline to EOT

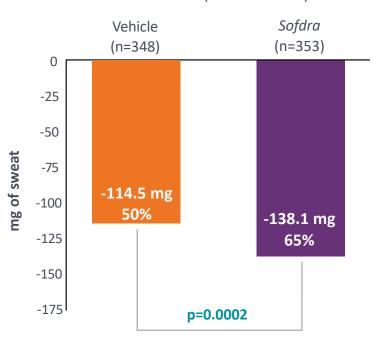

Pooled Data (Studies 1 & 2)

HDSM-Ax scale measures patient reported severity of axillary (underarm) hyperhidrosis

GSP change from baseline to EOT¹

Pooled Data (Studies 1 & 2)

GSP (Gravimetric Sweat Production) is an objective measurement of underarm sweat production (mg/ 5 min)

Baseline GSP: Vehicle 229.83 mg / SB Gel 15% 210.84 mg

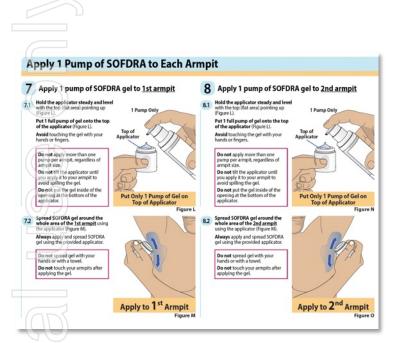

Notes: 1. Data are based on multiple imputations for missing values; 'n' represents number of subjects in the ITT population; EOT = end of treatment **Sources:** BBI-4000-CL-301; BBI-4000-CL-302

Instructions for Use revision - review being finalised with FDA

Instructions For Use

- Revised the Instructions For Use to further simplify the guidance for application
- Updated bottle label and carton to prominently display "wash hands with soap and water immediately after use"
- Conducted a pilot human factors study to demonstrate the revised Instructions For Use are reliably followed
- Filed an end-of-review meeting request with FDA to be held end of November/start of December CY 2023
- Completed human factors validation studies to confirm revised Instructions for Use are reliably followed
- Submitted to FDA and FDA communicated response was complete

A data-centric approach allows us to activate our most valuable patient audiences cross-channel

Al content targeting tells us more about audiences who care and finds more like them

I didn't even realize a Dermatologist could treat this. I guess it makes sense because sweat comes from the skin.

- Chloe

[After Rx] I actually didn't fill it for months. I just was hoping it wasn't real.

- Sophie

After my diagnosis in college, I didn't even tell my family. I don't need them to know.

- Sabina

I guess I just stopped taking anything because it wasn't worth it. But honestly my sweat is still so bad. I'm probably going to have to get another soon – I wish something worked better.

- ❖ Health insurance comes with a "medical benefit" that largely covers medical treatments³ and a "pharmacy benefit" that covers all, or a part of the cost of drugs
- ❖ Sofdra, as a self-administered drug, will be covered under the pharmacy benefit and does not require a "code" for coverage
- HH is a recognized medical condition with existing coverage policies
- Engaged in discussions with payers to provide patients with frictionless access not only for the first fill but every refill

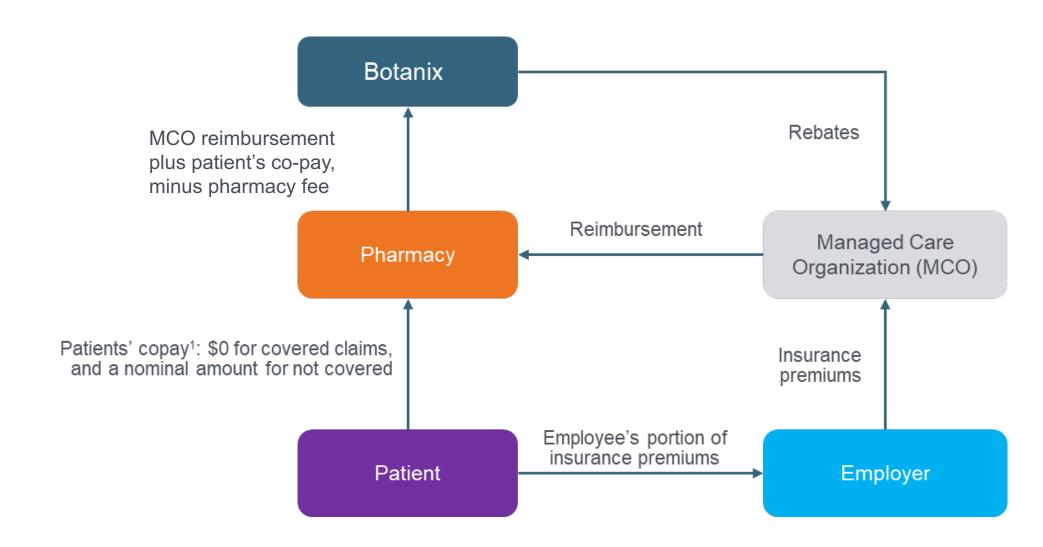

W W W B O T A N L X P H A B B A B C O S

¹ Health Insurance Coverage in the United States: 2022 (census.gov), accessed 2024-05-01

² These statistics are based on having each insurance type at least once in the year, therefore leading to a total over 100% because of patients switching insurance types

³ When a drug is administered in the office, HCPs claim medical reimbursement via J-codes to cover the cost of the drug and CPT codes to cover the cost of their labor

Sofdra reimbursement as a part of the overall process
