

## BINDING 200KT TOLL MILLING AGREEMENT EXECUTED WITH FMR INVESTMENTS

Horizon Minerals Limited (ASX: HRZ) ("Horizon" or "the Company") is pleased to announce that it has entered into a binding Toll Milling Agreement ("TMA") with FMR Investments Pty Ltd ("FMR") to treat 200kt of Horizon ore from the Cannon underground project, or other deposit, commencing in the December 2024 Quarter.

### HIGHLIGHTS

- Binding TMA has been executed with FMR, which owns the Greenfields Mill located northeast of Coolgardie and 30km southwest of Kalgoorlie-Boulder in WA
- Horizon will arrange contract mining and hauling of ore from Cannon for ore processing at FMR's 1.0Mtpa Greenfields Mill, located ~67km by road from the Cannon Project
- An agreed 200kt of ore will be processed over a period of eight months, commencing in the December 2024 Quarter
- The TMA contains competitive ore treatment rates with the payment structure as follows:
  - Horizon is responsible for delivery of each stockpile to the Greenfields Mill ROM near Coolgardie
  - Payment of processing costs must be made before the value of the processed and refined gold at the Perth Mint is transferred from FMR's metal account to Horizon
  - If the delivery schedule is missed Horizon will forfeit its allocated tonnes for that month and from the overall 200kt allocation
- An Ore Reserve for Cannon has already been established including forecast economics for the ore to be processed via a Toll Milling Agreement <sup>1</sup>
- Cannon is fully environmentally permitted (with last mining in 2017) with pre-production activities already underway, including dewatering of the open pit in preparation for underground mining
- The TMA has flexibility that Horizon can treat Horizon ore other than Cannon, including Horizon's own current resources or those acquired through the proposed merger with Greenstone Resources Limited, provided sufficient notice is provided to FMR

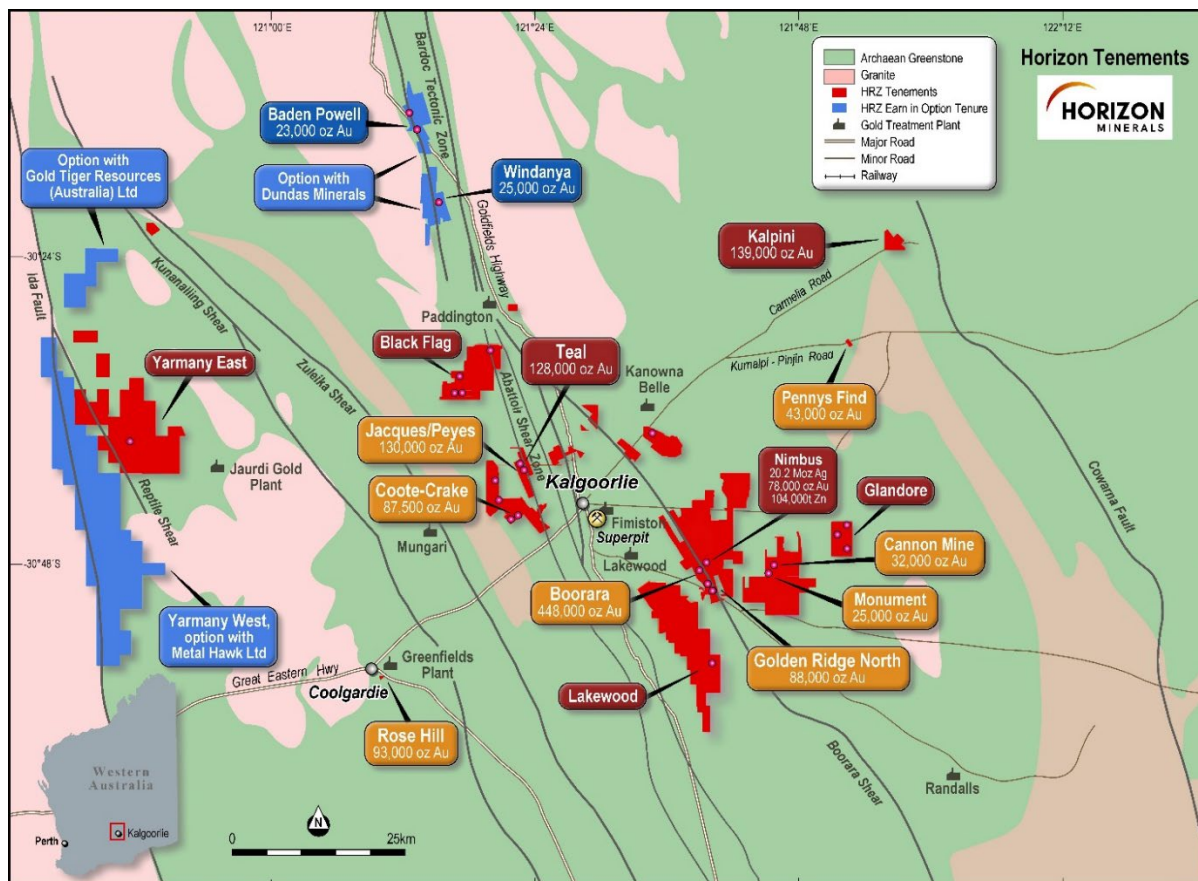

Commenting on the toll milling agreement, Chief Executive Officer Mr Grant Haywood said: <sup>2</sup>

"We are very pleased to have converted our 200,000 tonne allocation with FMR into a formal Toll Milling Agreement, and look forward to working closely with them as ore deliveries will commence later this calendar year. This agreement is in addition to our 1.4Mt ore sale agreement with Paddington announced a week ago. Together this will see us generating cash flow from two fronts in this fantastic gold price environment before the end of 2024."

<sup>1</sup> As announced to the ASX on 29 March 2022. <sup>2</sup> See Forward Looking and Cautionary Statements on Page 5.

### Next Steps <sup>1</sup>

- AMC Consultants has been engaged and undertaken a review of the Cannon Ore Reserve and will progress the revised key financial outcomes for the June 2024 Quarter
- Finalise engagement with underground mining and haulage contractors to finalise tenders for Cannon
- Complete the proposed merger with Greenstone Resources to enhance the long-term production profile with development ready high-grade projects

### Confirmation

The information in this report that relates to Horizon's Mineral Resources estimates on the Nimbus Silver Zinc Project is extracted from and was originally reported in Intermin's and MacPhersons' ASX Announcement "Intermin and MacPhersons Agree to Merge – Creation of a New Gold Company Horizon Minerals Ltd" dated 11 December 2018 and in MacPhersons' ASX announcements "Quarterly Activities Report" dated 25 October 2018, "New High Grade Nimbus Silver Core Averaging 968 g/t Ag" dated 10th May 2016 and "Nimbus Increases Resources" dated 30th April 2015, each of which is available at [www.asx.com.au](http://www.asx.com.au). The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and that all material assumptions and technical parameters underpinning the estimates in those announcements continue to apply and have not materially changed. The Company confirms that the form and context of the Competent Person's findings in relation to those Mineral Resources estimates have not been materially modified from the original market announcements.

## ASX ANNOUNCEMENT

### Forward Looking and Cautionary Statements

Some statements in this report regarding estimates or future events are forward looking statements. They include indications of, and guidance on, future earnings, cash flow, costs and financial performance. Forward looking statements include, but are not limited to, statements preceded by words such as “planned”, “expected”, “projected”, “estimated”, “may”, “scheduled”, “intends”, “anticipates”, “believes”, “potential”, “could”, “nominal”, “conceptual” and similar expressions. Forward looking statements, opinions and estimates included in this announcement are based on assumptions and contingencies which are subject to change without notice, as are statements about market and industry trends, which are based on interpretations of current market conditions. Forward looking statements are provided as a general guide only and should not be relied on as a guarantee of future performance. Forward looking statements may be affected by a range of variables that could cause actual results to differ from estimated results and may cause the Company’s actual performance and financial results in future periods to materially differ from any projections of future performance or results expressed or implied by such forward looking statements. These risks and uncertainties include but are not limited to liabilities inherent in mine development and production, geological, mining and processing technical problems, the inability to obtain any additional mine licenses, permits and other regulatory approvals required in connection with mining and third party processing operations, competition for among other things, capital, acquisition of reserves, undeveloped lands and skilled personnel, incorrect assessments of the value of acquisitions, changes in commodity prices and exchange rate, currency and interest fluctuations, various events which could disrupt operations and/or the transportation of mineral products, including labour stoppages and severe weather conditions, the demand for and availability of transportation services, the ability to secure adequate financing and management’s ability to anticipate and manage the foregoing factors and risks. There can be no assurance that forward looking statements will prove to be correct.

Statements regarding plans with respect to the Company’s mineral properties may contain forward looking statements in relation to future matters that can only be made where the Company has a reasonable basis for making those statements.

This announcement has been prepared in compliance with the JORC Code (2012) where applicable and the current ASX Listing Rules.

The Company believes that it has a reasonable basis for making the forward-looking statements in the announcement, including with respect to any production targets and financial estimates, based on the information contained in this and previous ASX announcements.
