^{1.} Business Edition (BE) price changes effective September 2023 in the UK, October 2023 in North America and November 2023 in Rest of World. Partner Edition (PE) price changes were effective March 2024

FY24 investment in product to support future growth

Step change in product velocity delivered in FY24, with development tightly aligned to the 3x3, while modernising

Accounting

Boosted US direct bank feed quality and coverage, increasing from ~20 to over 600 direct feeds¹

increased the number of banks available to use with **Hubdoc bank statement extraction** in the US

Enhanced UK Xero Tax & launched tax manager

Payroll

Streamlined setup and onboarding processes globally

Significant improvements in UK to support migration, non-traditional work hours and pensions

Modernised Payroll monolith, removing ~50% of code which was unused

Payments

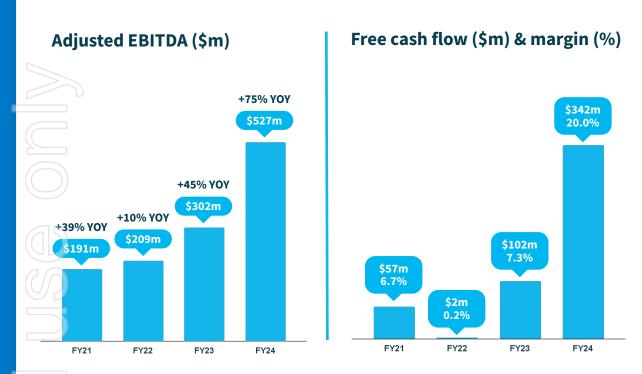

Announced partnership with Bill for embedded bill pay capabilities for US customers

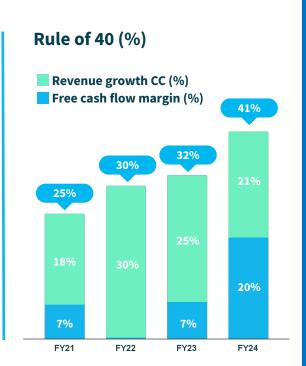

Removed friction and streamlined processes for onboarding into Xero payments

Launched Bill pay and elnvoicing in the UK

Delivered a Rule of 40 outcome; in line with commitment to balance growth with profitability

^{1.} Rule of 40 is defined as the sum of annual Revenue growth percentage in constant currency and annual Free cash flow margin percentage (Free cash flow as a percentage of revenue)

We have continued to deliver on our commitments in FY24

Our goals

Targeting more balanced, profitable growth

More focused allocation of capital

Starting on journey to using multiple growth levers

Our achievements

- Continued strong revenue growth while right-sizing Xero's size and shape
- **Better balance** between subscriber and ARPU growth
- **Delivered Rule of 40 outcome**

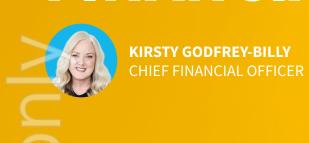

- **Sharpened focus in US**, defined areas of focused investment
- Capital allocation aligned with product strategy
- **Discontinued non-core businesses** e.g. Waddle, WorkFlow Max

- **Product mix focus**, starting with;
 - Onboarding enhancements
 - o Dynamic CAC allocation
- Plan to address 125-175k long idle subscribers to support GTM focus on mix

Invested in new capabilities adding new talent across the business

Evolving towards a more performance and purpose-based culture

FINANCIAL RESULTS

FY24: \$395k²

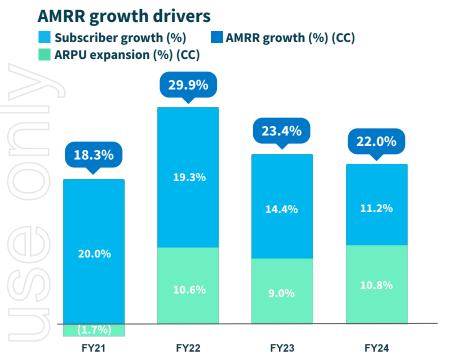

+39%

Ensuring a higherperforming culture flows through to top-line metrics efficiently

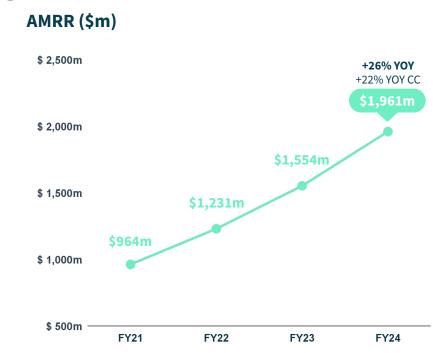

Broad based revenue growth across our portfolio

Continued strong top-line momentum with more balance between ARPU and subscriber growth

AMRR growth in FY24 was balanced between subscriber additions and ARPU expansion

Growth in AMRR of \$407.6m or 26% YOY (22% in constant currency) reflects subscriber growth of 11%, and ARPU expansion of 14% YOY

Strong ARPU expansion, churn remains low

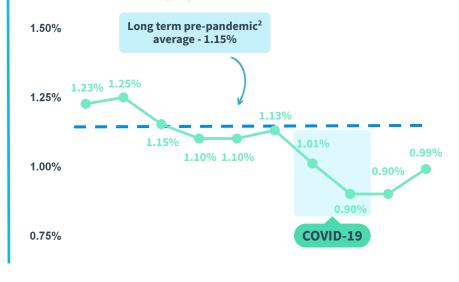

ARPU movement contributors

ARPU has increased \$4.68 since 31 March 2023

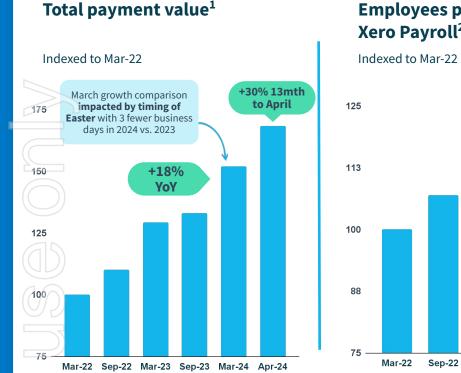

MRR churn (%)

Churn is reported on a percentage of monthly recurring revenue basis. It has remained below pre pandemic levels

0.50% FY15 FY16 FY17 FY18 FY19 FY20 FY21 FY22 FY23 FY24

ARPU drivers: Deep dive on platform revenue drivers

Mar-23

Sep-23

Mar-24

^{1.} Total invoice payment value across our connected online payment service providers who process the payment of invoices on the Xero platform

3. Average employee users of Planday

^{2.} Total employees paid through Xero Payroll in Australia, New Zealand and the UK (markets with a Xero Payroll solution)

ARPU drivers: Mix in FY25 to be impacted by long idle subscriptions

Removal of long idle subscribers

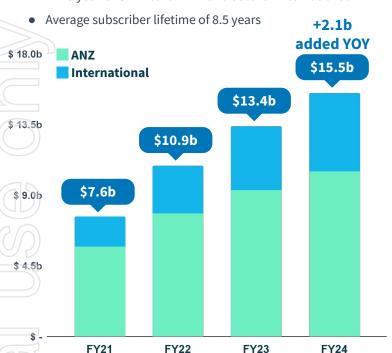

- Identified pool of long idle subscribers¹ now estimated at **between 125k 175k**. The majority are located in the international segment with:
 - o 55k 75k located in North America
 - 40k 60k located in the UK
 - The remainder located in Australia and the Rest of World segments (none are located in New Zealand)
 - Xero plans to **remove these subscriptions** in H1 FY25. We expect their removal to have minimal impact on FY25 revenue
 - Based on the midpoint of this range as at 31 March 2024 if these subscribers were removed **group ARPU would increase approximately 2-4%**

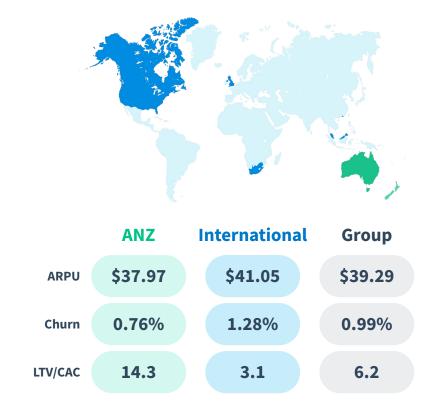

LTV expansion & LTV/CAC demonstrate consistent macro resilient value creation

Total LTV over time

LTV 3 year CAGR 22% for ANZ and 38% for International

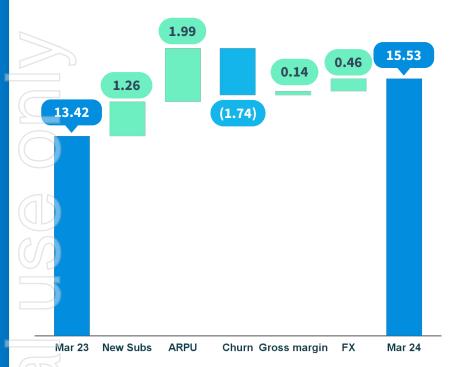

Continued uplift in lifetime value of subscribers

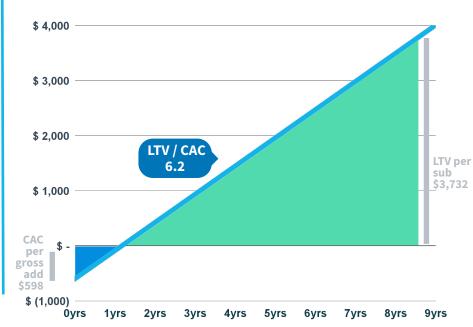

LTV movements by driver (\$b)

From 31 March 2023 to 31 March 2024

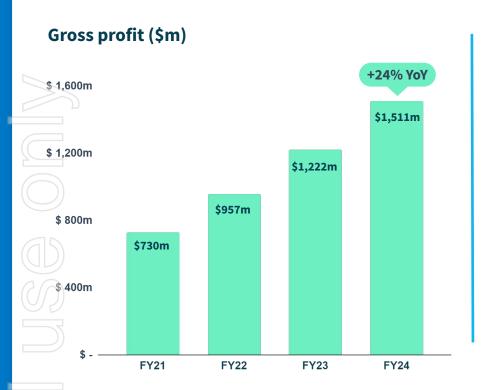

Value of a Xero subscriber

At 31 March 2024

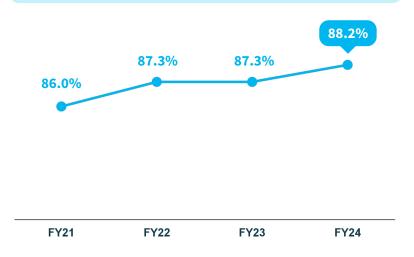

Cost to serve well managed, margins improved

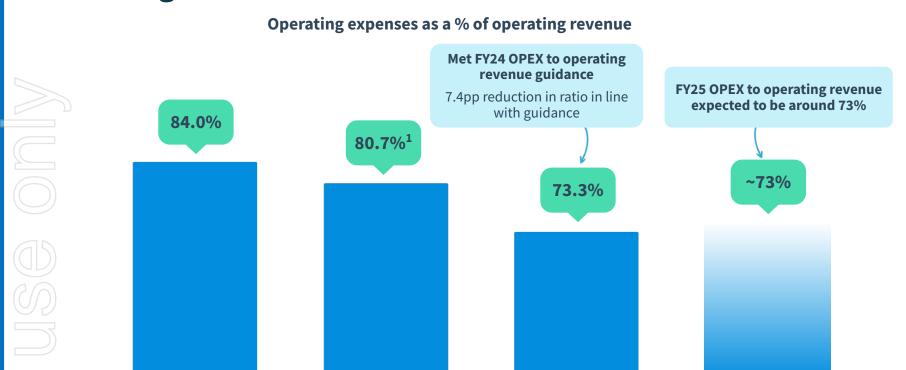

Gross margin (%)

Gross profit increased by \$289m or 24% YOY, more than the 22% growth in revenue. This resulted in a 0.9pp increase in gross profit margin reflecting **the use of advanced technology and hosting optimisation**

Reinvesting in line with our FY25-27 strategy to support revenue growth

FY24

FY23

FY22

1. Excluding \$34.7m of restructuring costs

FY25

Restructure improved efficiency across all functions

Sales & marketing as a % of revenue

Sales and marketing costs increased by 15% YOY which was lower than the growth in operating revenue. This resulted in a 2.1pp improvement in CAC as a percentage of revenue. Excluding Xerocon, this ratio falls to 31.2% of revenue

Product design & development as a % of revenue

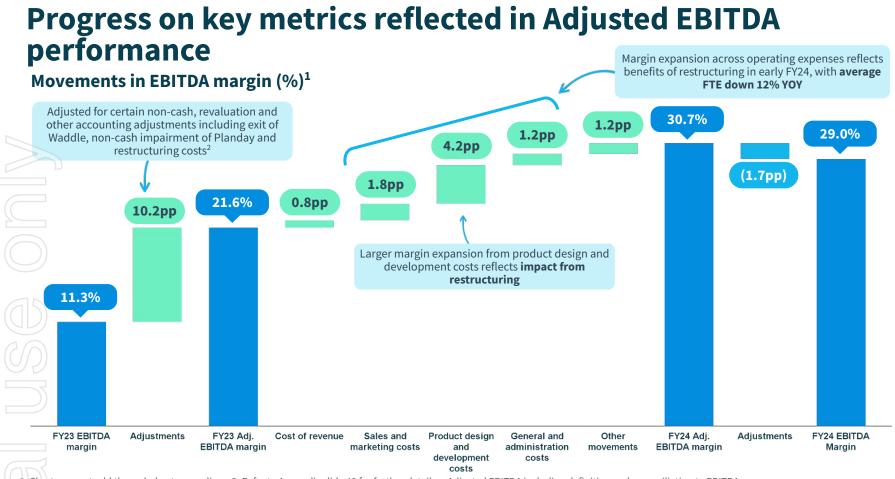

Product design and development costs increased 7% YOY, lower than the growth in operating revenue in FY24. This resulted in a 4.3pp improvement in these costs as a percentage of revenue YOY. This was largely due to our restructure and reshaping of our organisation in FY24

General & administration as a % of revenue

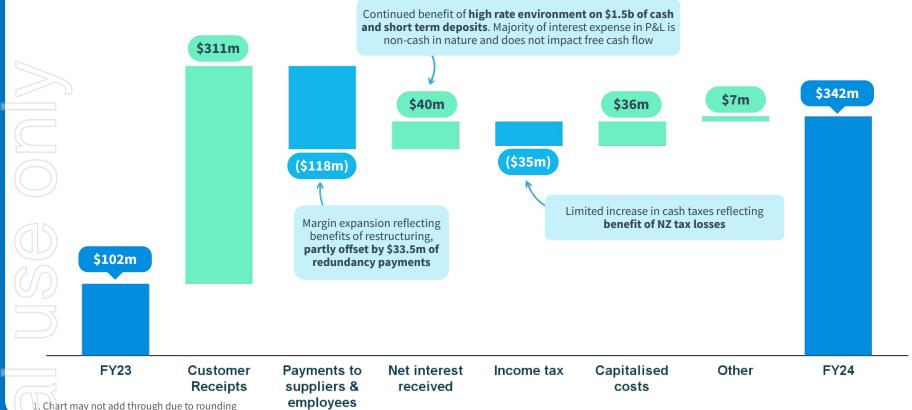

General and administration costs increased by 10% YOY which was lower than the growth in operating revenue in FY24. This resulted in 1.2pp improvement in G&A as a percentage of revenue YOY

Strong free cash flow, supporting Rule of 40 outcomes

Movements in free cash flow (\$m)¹

Strong balance sheet with total liquid resources of \$1.5 billion

- Net cash position grew \$324 million YOY reaching \$422 million at 31 March 2024, reflecting strong free cash generation
- Total available liquid resources at 31 March 2024 of \$1.5 billion
- Improved positive FCF supports balance sheet strength and provides flexibility

Movement in net cash position

| | FY23 (\$000s) | FY24 (\$000s) | Δ YOY (\$000s) |

FY25 Outlook

Total operating expenses as a percentage of revenue is expected to be around 73% in FY25, and compared to FY24, product design and development costs as a % of revenue is expected to be higher

Our aspiration¹

We aspire to be a world class SaaS business

We believe we have the opportunity to both double the size of our business² and deliver Rule of 40 or greater performance^{3,4}

As we grow, we will also seek to be more balanced between subscriber growth and ARPU expansion

- 1. Xero's aspirational revenue and Rule of 40 performance opportunity statement is not guidance nor a prediction of future performance. No timeframe has been set. It is provided as an indication of outcomes management is currently focused on as part of its strategic ambitions. There are risks and uncertainties in connection with this aspiration, including from events beyond Xero's control
- 2. Xero FY23 revenue was \$1,400m, and H1 FY24 revenue (annualised on a straight line basis) is \$1,599m
- 3. Rule of 40 is defined as the sum of annual Revenue growth percentage in constant currency and annual Free cash flow margin percentage (Free cash flow as a percentage of revenue)
- 4. Rule of 40 outcomes, and the component parts may vary from period to period as we identify opportunities for disciplined customer focused growth and experience changes in our cash tax payment profile. Xero is likely to exhaust its accumulated NZ tax losses during the FY25-27 strategic period. Xero's remaining NZ losses balance was ~\$193m at 31 March 2024

Wrap up of FY24 Key Themes

FY24 results demonstrated our ability to execute towards our future aspirations

We are delivering on our commitments

We continue to progress our strategic priorities and purposefully allocate capital

Focused strategy to "Win on Purpose" positions us well for FY25-27

Jobs to be Done

Jobs reflect the common tasks that a customer can perform on the Xero platform to run their business. A job does not directly represent a specific product or solution. Some examples are below.

Glossary

Adjusted EBITDA

Adjusted EBITDA (a non-GAAP financial measure) is provided as Xero believes it provides useful information for users to understand and analyse the underlying business performance. Adjusted EBITDA is calculated by adding back net finance expense, depreciation and amortisation, and income tax expense, as well as certain non-cash, revaluation and other accounting adjustments and charges to net profit/(loss)

AMRR

Annualised monthly recurring revenue (AMRR) represents monthly recurring revenue at 31 March, multiplied by 12. It provides a 12 month forward view of revenue, assuming any promotions have ended and other factors such as subscriber numbers, transaction volumes, pricing and foreign exchange remain unchanged during the year

ARPU

Average revenue per user (ARPU) is calculated as AMRR at 31 March divided by subscribers at that time (and divided by 12 to get a monthly view)

CAC months

Customer Acquisition Cost (CAC) months are the months of ARPU to recover the cost of acquiring each new subscriber. The calculation represents the sales and marketing costs for the year, excluding the capitalisation and amortisation of contract acquisition costs, less Xerocon revenue, divided by gross new subscribers added during the same period, divided by ARPU

CAGR

Compound annual growth rate

Churn

Churn is the value of monthly recurring revenue (MRR) from subscribers who leave Xero in a month as a percentage of the total MRR at the start of that month. The percentage provided is the average of the monthly churn for the previous 12 months. Average subscriber lifetime is calculated as one divided by churn

Constant currency (cc)

Constant currency comparisons for revenue are based on average exchange rates for the 12 months ended 31 March 2024.

Comparisons for ARPU, AMRR and LTV are based on exchange rates at 31 March 2024

Core accounting revenue

Core accounting revenue comprises subscription based revenue to Xero's cloud-based platform, including any revenue for products that are bundled into subscription plans (such as Hubdoc and Payroll in some regions)

Free cash flow

Free cash flow is defined as cash flows from operating activities less cash flows used for investing activities excluding cash used for acquisitions of, and investments into, businesses and strategic assets

GAAP

Generally accepted accounting principles

Lifetime value (LTV)

LTV is the gross margin expected from a subscriber over the lifetime of that subscriber. This is calculated by taking the average subscriber lifetime (1 divided by churn) multiplied by ARPU, multiplied by the gross margin percentage. Group LTV is calculated as the sum of the individual segment LTVs, multiplied by their respective segment subscribers, divided by total Group subscribers

Liquid resources

Liquid resources comprises cash and cash equivalents, short-term deposits including proceeds from convertible notes, and undrawn committed debt facilities

Operating income

Operating income is a non-GAAP financial measure that has been included to demonstrate the operating performance of the business. Xero defines operating income as total operating revenue less cost of revenue less total operating expenses

Other revenue

Other revenues comprises non-recurring revenues and WorkflowMax. Non-recurring revenues include revenue from events (such as Xerocons and roadshows), and other non-subscription or platform services. WorkflowMax is online workflow and job management software

Platform revenue

Platform revenues include revenue derived from related services, including adjacent products (such as Hubdoc subscriptions on other accounting platforms) and add-ons with incremental revenue (such as Payroll, Projects and Expenses modules), and payments and revenue share agreements with partners

Rule of 40

Rule of 40 is defined as the sum of annual Revenue growth percentage in constant currency and annual Free cash flow margin percentage (Free cash flow as a percentage of revenue)

Subscribers

Subscriber means each unique subscription to a Xero-offered product that is purchased by a user (eg a small business or accounting partner) and which is, or is available to be, deployed. Subscribers that have multiple subscriptions to integrated products on the Xero platform are counted as a single subscriber
