Commenting on the results of the Placement and the appointment of Mr Gu, SER Managing Director, Dr David DeTata said:

“The strength of investor demand for this Placement is a clear signal to the Company that the Achilles 1 Prospect needs to be drilled tested. The outstanding drill results from Australian Gold & Copper to the north at Achilles 3 shows the potential for the South Cobar region to hold multiple discoveries and with the funds received we are now fast-tracking our exploration plans.

Datt Capital identified SER’s strategy of science driven project generation and exploration in pursuit of Tier-1 discoveries as a point of differentiation and has continued to back us as we execute this strategy. The addition of Tony Gu to the Board further strengthens Datt Capital’s commitment to, and alignment with, SER. The significant investment from Lowell Resources Fund also validates our ability to generate and explore for Australia’s next major discovery”.
