FOR IMMEDIATE RELEASE

NTL FY 2024 Preliminary Results (non-audited) [ASX, NZX: NTL]

New Talisman has today reported its preliminary FY 2024 results. Our focus for the year has continued to be readying Talisman mine for production. We are pleased that this has been achieved. Now we await final Department of Conservation approvals at Talisman and, with shareholder support, we will be able to commence production.

Summary of key Results and Events

- Completion of a successful Capital Raise and placement of shortfall, to support recommencement of our operations at Talisman Mine
- Appointed Terra Firma Mining to operate the mine and commitment by them to take a 300k shareholding in NTL.
- Progressed the Talisman mine to a state of readiness to begin production, including appointing key statutory roles, completing digitised survey plans and mine development plan, inspection, maintenance and rehabilitation of the site.
- Extensive due diligence on processing options.
- Engagement with key community, iwi and other stakeholders
- Continuous engagement on access arrangements with the Department of Conservation, including a site visit.
- Positive underground inspection at Talisman by Worksafe senior inspectors.
- Partial conversion of the Convertible Debt Security to shares (to the ceiling permitted under NZ takeover law)
- Obtained a 2 year extension of time for the Vanuatu Prospecting License and continues to seek exploration partners.
- No dividend attributed to this period.

In summary, the Company's financial year to March 31, 2024 has been somewhat frustrating.

New Talisman has been able to progress the Talisman mine to a state of readiness to begin production in the Quarter to December 2023.

However, despite our best efforts at proactive engagement, the Department of Conservation has been extremely slow and unfocussed in progressing our long-term Access Arrangement and associated Authority to Enter and Operate. We now expect a decision in June 2024.

The inevitable result of these delays, and the impact on our original production and revenue timetable, is that we will now have to raise further funds before we are able to remobilise our team, finalise a processing agreement, buy a processing plant and commence production. NTL continues to seek interest from potential partners to explore our Vanuatu permit. Given that we have not been able to finalise any arrangements during the year, the Board has taken the prudent approach to book an impairment provision against these Assets.

These annual financial statements are subject to completion of the audit.

No dividends or distributions were paid or are planned.

All statements are prepared in accordance with New Zealand equivalents to International Financial Reporting Standards.

There are no accounting policies which the directors believe are critical to the portrayal of New Talisman's financial condition and results which require the directors to make judgements and estimates about matters that are inherently uncertain.

All accounting policies have been applied on bases consistent with those used in previous years.

About New Talisman Gold Mines Ltd

New Talisman Gold is a dual listed (NZSX & ASX: NTL) with over 3,000 shareholders who are mainly from Australia and New Zealand and has been listed since 1986. It is a leading New Zealand minerals development and exploration company with a mining permit encompassing the Talisman mine, one of New Zealand's historically most productive gold mines. The company has commenced prospecting and upgrading activities at the mine and advance the exploration project to increase its considerable global exploration target into JORC 2012 resources.

Its gold properties near Paeroa in the Hauraki District of New Zealand are a granted mining permit, including one of New Zealand's highest-grade underground gold mines.
