Investment Overview

This Section is intended to highlight key information for potential investors. It is an overview only and is not intended to replace the Prospectus. Potential investors should read the Prospectus in full before deciding to invest in Shares.

Key Information	Further Information
<p>Transaction specific prospectus</p> <p>This Prospectus is a transaction specific prospectus for offers of continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus. In making representations in this Prospectus, regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters may reasonably be expected to be known to investors and professional advisers whom potential investors may consult.</p>	Section 5.2
<p>Risk factors</p> <p>Potential investors should be aware that subscribing for Shares in the Company involves a number of risks. The key risk factors of which investors should be aware are set out in Section 4, including (but not limited to) risks in respect of:</p> <p>(a) Exploration and development risk</p> <p>Mineral exploration and development is a speculative and high-risk Mineral exploration and development are high-risk undertakings. There can be no assurance that exploration and development will result in the discovery of further mineral deposits. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited. Mineral exploration and development involve substantial expenses related to locating and establishing mineral reserves, developing metallurgical processes, and operating mining and processing facilities at a particular site. Until a deposit is actually mined and processed, the quantity of mineral resources and grades must be considered as estimates only, and are expressions of judgement based on knowledge, mining experience, analysis of drilling results and industry best practices. The future exploration and development activities of the Company may be affected by a range of factors, including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, native title process, changing government regulations and many other factors beyond the control of the Company.</p> <p>(b) Future capital and funding requirements</p> <p>The Company will require further financing in the future, in addition to amounts raised under the Entitlement Offer, Top-Up Offer, Shortfall Offer, and the Placement.</p> <p>Any additional equity financing may be dilutive to Shareholders, may be undertaken at lower prices than the current market price or may involve restrictive covenants which limit the Company's operations and business strategy. Debt financing, if available, may involve restrictions on financing and operating activities.</p>	Section 4

Key Information**Further Information**

As an exploration entity, the Company is making a loss, meaning it is reliant on raising funds from investors or lenders in order to continue to fund its operations and to scale growth.

Although the Directors believe that additional capital can be obtained, no assurances can be made that appropriate capital or funding, if and when needed, will be available on terms favourable to the Company or at all. If the Company is unable to obtain additional financing as needed, the Company may be required to reduce the scope of its activities, which could have a material adverse effect on the Company's activities and could affect the Company's ability to continue as a going concern.

The Company may undertake additional offerings of Shares and of Securities convertible into Shares in the future. The increase in the number of Shares issued and outstanding and the possibility of sales of such Shares may have a depressive effect on the price of Shares. In addition, as a result of such additional Shares, the voting power of the Company's existing Shareholders will be diluted.

(c) **Acquisition and disposal of projects**

The Company may acquire new projects or divest some or all of its interest in its existing projects in the future. There can be no guarantee that any new project acquisition will eventuate from these pursuits, or that any acquisitions will result in a return for Shareholders.

The Directors will use their expertise and experience in the energy and resources sector to assess the value of potential projects that have characteristics that are likely to provide returns to Shareholders, however, Shareholders should be aware that future acquisitions and the cost of funding exploration on future projects will likely contribute directly or indirectly to the issue of further Shares, which in turn will further dilute Shareholders' interest in the Company and deplete the Company's cash.

(d) **Option Agreement risk**

Pursuant to an option agreement between the Company and York Harbour Metals Inc. as announced on 6 June 2024 (**Option Agreement**), the Company has been granted an option to acquire up to an 80% legal and beneficial interest in six licences comprising the York Harbour Project, located in Newfoundland and Labrador, Canada, by way of a staged earn-in (**Acquisition**).

The Acquisition is conditional on (amongst other things) the prior receipt of Shareholder approval at a general meeting of Shareholders anticipated to be held in August 2024 (**Meeting**) for the issue of up to 175,000,000 Consideration Shares to the Vendor (or its nominees), which will result in the Vendor acquiring a relevant interest in the Company exceeding 20%. This condition cannot be waived by either the Company or the Vendor. Accordingly, there is a risk if Shareholders do not approve the issue of the Consideration Shares to the Vendor (or its nominees), and the Acquisition will not proceed.

Pursuant to the Option Agreement, the Company is also required to satisfy certain exploration commitment targets across each earn-in stage. There is a risk that if the Company fails to meet these requisite exploration commitment targets, the Company may not be able to earn up to the full 80% interest in the York Harbour Project or the Vendor may seek to terminate the Option Agreement. If the Option Agreement is terminated prior to the Company having

Key Information	Further Information
<p>earned a 49% interest in the York Harbour Project, the Company will not have a residual interest in the York Harbour Project, which will adversely affect the financial position of the Company.</p> <p>(e) Joint venture risk</p> <p>The Company will enter into joint venture arrangements with the Vendor upon the earlier of: (i) the termination of the Option Agreement; or (ii) upon the Company exercising the option under the Option Agreement in full as announced on 6 June 2024.</p> <p>As with any joint venture, it is subject to various counterparty risks including failure by the joint venture counterparty, to act in the best interests of the joint venture. Any failure by the counterparty to act in the best interests of the joint venture may or may not give the Company contractual remedies, however, even if such remedies are available, they may be costly and time consuming to pursue. There is also a risk that if the Company is unable to make contributions under the joint venture, its interest in the York Harbour Project will be diluted.</p> <p>(f) Sovereign risk</p> <p>Should the Company acquire an interest in the York Harbour Project, located in Canada, this project will be subject to the risks associated in operating in a foreign country. These risks may include economic, social or political instability or change, hyperinflation, currency non-convertibility or instability and changes of law affecting foreign ownership, government participation, taxation, working conditions, rates of exchange, exchange control, exploration licensing, export duties, repatriation of income or return of capital, environmental protection, labour relations as well as government control over natural resources or government regulations that require the employment of local staff or contractors or require other benefits to be provided to local residents.</p> <p>Any future material adverse changes in government policies or legislation in foreign jurisdictions in which the Company has projects that affect foreign ownership, exploration, development or activities of companies involved in exploration and production, may affect the viability and profitability of the Company.</p> <p>(g) Developing country risk</p> <p>The Company's Picha Project and Charque Project are located in Peru, South America. Peru is considered to be a developing country and is subject to emerging legal and political systems.</p> <p>In addition to any of the sovereign risks set out in Section 4.1(g), possible sovereign risks in respect to Picha Project and Charque Project include, without limitation, changes in the terms of mining legislation, changes to royalty arrangements, changes to taxation rates and concessions and changes in the ability to enforce legal rights. Any of these factors may, in the future, adversely affect the financial performance of the Company and the market price of its Shares.</p> <p>No assurance can be given regarding future stability in Peru. Additionally, if a dispute arises regarding the Company's project interests in Peru, the Company may not be able to rely on western legal standards.</p> <p>(h) Environment risks</p>	

Key Information	Further Information
<p>The operations and proposed activities of the Company are subject to laws and regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.</p> <p>(i) Reliance on Key Personnel</p> <p>The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance that there will be no detrimental impact on the Company if one or more of these employees cease their employment.</p> <p>(j) Commodity and currency price risk</p> <p>As the Company's potential earnings will be largely derived from the sale of mineral commodities, the Company's future revenues and cash flows will be impacted by changes in the prices and available markets of these commodities. Any substantial decline in the price of those commodities or in transport or distribution costs may have a material adverse effect on the Company and the value of its Shares. Commodity prices fluctuate and are affected by numerous factors beyond the control of the Company.</p> <p>These factors include current and expected future supply and demand, forward selling by producers, production cost levels in major mineral producing centres as well as macroeconomic conditions such as inflation and interest rates.</p>	
<p>Entitlement Offer</p> <p>The Entitlement Offer is a non-renounceable entitlement issue of 1 New Share for every 10 existing Shares held by Eligible Shareholders on the Record Date at an issue price of \$0.04 per New Share to raise up to approximately \$654,330 (before costs).</p> <p>Eligible Shareholders may apply for New Shares under the Entitlement Offer subject to such Applications being received by the Closing Date.</p>	Section 1.1
<p>Top-Up Offer</p> <p>Any Shares not validly subscribed for pursuant to the Entitlement Offer will form the Top-Up Offer.</p> <p>The issue price for each New Share to be issued under the Top-Up Offer is \$0.04 being the price at which Shares are being offered under the Entitlement Offer and the Shortfall Offer.</p> <p>Eligible Shareholders who have applied for their full Entitlement, may apply for additional Shares under the Top-Up Offer subject to such Applications being received by the Closing Date.</p> <p>Any Shares to be issued pursuant to the Top-Up Offer will be allocated at the discretion of the Directors, pursuant to the allocation policy outlined in Section 1.3. Accordingly, there is no guarantee that Eligible Shareholders who apply for Shares in excess of the Entitlement, pursuant to the Top-Up Offer will receive such Shares.</p>	Section 1.3
<p>Eligible Shareholders</p>	Section 1.17

anticipated in these statements. Some of these risk factors are summarised in Section 4.	

1. Details of the Offers

1.1 Background to the Offers

On 6 June 2024, the Company announced that it had secured received firm commitments from to raise up to \$973,000 (before costs) via a placement of up to 24,325,000 Shares at an issue price of \$0.04 each (**Placement Shares**) pursuant to a to a two-tranche placement (**Placement**).

The Placement is comprised of the following tranches:

- (a) **Tranche 1:** 22,325,000 Placement Shares to be issued within the Company's existing placement capacity under ASX Listing Rule 7.1 to sophisticated and professional investors; and
- (b) **Tranche 2:** up to 2,000,000 Placement Shares to be issued to Brett Grosvenor subject to Shareholder approval under Listing Rule 10.11 at a general meeting of Shareholders anticipated to be held in August 2024 (**Meeting**).

It is anticipated that the Tranche 1 Placement Shares will be issued on or around 19 June 2024 and that the Tranche 2 Placement Shares will be issued within one month following the Meeting subject to Shareholder approval. The Placement Shares will be issued after the Record Date and accordingly, participants under the Placement will not be eligible to participate in the Entitlement Offer in respect of their Placement Shares.

In order to provide Eligible Shareholders with the ability to participate in the Company's capital raising activities, the Company is offering Eligible Shareholders pursuant to this Prospectus an opportunity to subscribe for Shares on the same terms as the Placement. The Entitlement Offer is non-renounceable and therefore your Entitlements will not be tradeable on the ASX or otherwise transferable.

1.2 Entitlement Offer

The Company is making a non-renounceable pro-rata entitlement offer to all Eligible Shareholders for 1 new Share (**New Shares**) for every 10 Shares held at the Record Date, at an issue price of \$0.04 each (the **Entitlement Offer**).

Assuming no Options are exercised into Shares prior to the Record Date (and subject to Entitlement rounding) the Entitlement Offer is for a maximum of approximately 16,358,256 New Shares to raise up to approximately \$654,330 (before costs).

The purpose of the Entitlement Offer is to:

- (a) provide Eligible Shareholders with the opportunity to take up Shares proportional to their shareholding, and to mitigate the effect of dilution; and
- (b) provide the Company with additional funds to be attributed in accordance with the use of funds set out in Section 1.5.

As at the date of this Prospectus, the Company has 163,582,556 Shares on issue.

Where the determination of the Entitlement of any Eligible Shareholder results in a fraction of a Share, such fraction will be rounded up to the nearest whole Share.

Shares issued under the Entitlement Offer will be issued as fully paid ordinary shares and will rank equally in all respects with existing Shares on issue. A summary of the rights and liabilities attaching to the Shares offered under the Entitlement Offer is in Section 5.1.

1.3 Top-Up Offer

This Prospectus includes a separate offer to Eligible Shareholders who have subscribed for their full Entitlement to apply for additional Shares not subscribed for by other Shareholders pursuant to the Entitlement Offer, at the same issue price as the Entitlement Offer (**Top-Up Offer**).

New Shares will only be issued pursuant to the Top-Up Offer if the Entitlement Offer is undersubscribed and will only be issued to the extent necessary to make up any shortfall in subscriptions.

The Directors reserve the right to issue additional Shares pursuant to the Top-Up Offer at their absolute discretion and as such there is no guarantee that any additional Shares will be issued. In exercising this discretion, the Board will take into consideration a number of factors, including:

- (a) the Company's best interests;
- (b) the Shareholder's existing shareholdings and eligibility;
- (c) the financial needs of the Company; and
- (d) the optimal composition of the Company's Share register following the Offers.

Eligible Shareholders who wish to subscribe for Shares above their Entitlement may apply for additional Shares under the Top-Up Offer by completing the appropriate section on their Application Form or by making payment for such Top-Up Shares using BPAY® or cheque (refer to Section 2.4). The maximum amount of Top-Up Shares that Eligible Shareholders may be issued is equal to 100% of their Entitlement.

Excess Application Monies for the Top-Up Offer will be refunded via direct credit without interest.

It is a term of the Top-Up Offer that, should the Company scale back applications for additional Shares, the Applicant will be bound to accept such lesser number allocated to them.

New Shares issued under the Top-Up Offer will be issued as fully paid ordinary shares and will rank equally in all respects with existing Shares on issue. A summary of the rights and liabilities attaching to the Shares offered under the Entitlement Offer is in Section 5.1.

If any additional Shares available to Eligible Shareholders pursuant to the Top-Up Offer are not applied for by 5:00pm (WST) on the Closing Date, those Shares will form part of the Shortfall Offer.

1.4 Shortfall Offer

This Prospectus includes a separate offer of Shortfall Shares, being the balance of any Shares which are not taken up pursuant to the Entitlement Offer and the Top Up Offer (**Shortfall Offer**).

The issue price of Shares offered under the Shortfall Offer will be \$0.04 each, which is the issue price at which Shares have been offered to Eligible Shareholders under the Entitlement Offer and the Top-Up Offer.

The Company reserves the right, in consultation with the Lead Manager, to allocate Shortfall Shares to selected investors in their discretion, subject to compliance with the Corporations Act and Listing Rules. To the extent commercially practicable and taking into account the Company's requirement for funds, the Directors will endeavour to allot the Shortfall Shares to a spread of investors, in order to mitigate any control effects which may arise from issuing Shares to a single or small number of investors.

It is a term of the Shortfall Offer that, should the Company scale back applications for Shares pursuant to the Shortfall Offer, the Applicant will be bound to accept such lesser number allocated

to them. There is no guarantee that Applicants will receive Shares applied for under the Shortfall Offer. The Directors reserve the right to issue to an Applicant a lesser number of Shortfall Shares than the number for which the Applicant applies, or to reject an Application, or to not proceed with the Shortfall Offer. In that event, Application Monies for Shortfall Shares will be refunded by the Company (without interest) in accordance with the provisions of the Corporations Act.

Pursuant to the Shortfall Offer, any Shortfall Shares will be placed by the Company, in consultation with the Lead Manager, within three months of the Closing Date of the Entitlement Offer.

In exercising their discretion to allocate the Shortfall Shares, the Board will take into consideration a number of factors, including the Company's best interests, the Applicant's existing Securities (if any), the extent to which an Applicant has sold or bought Securities before and after both the announcement of the Offers and the Record Date (if applicable), the financial needs of the Company, and the optimal composition of the Company's register following the Offers.

The Company will not issue Shortfall Shares where the Company is aware that to do so would result in a breach of the Corporations Act (including section 606 of the Corporations Act) or the Listing Rules. Investors wishing to apply for Shortfall Shares must consider whether the issue of the Shortfall Shares applied for would breach the Corporations Act or the Listing Rules having regard to their own circumstances (including the existence of any associates). To the extent permitted by law, the Company expressly disclaims any responsibility for monitoring such Applications or ensuring that individual Shareholders do not breach the Corporations Act or the Listing Rules as a result of participation in the Shortfall Offer.

Shares issued under the Shortfall Offer will be issued as fully paid ordinary shares and will rank equally in all respects with existing Shares on issue. A summary of the rights and liabilities attaching to the Shares offered under the Shortfall Offer is in Section 5.1.

1.5 Use of funds

Following completion the Offers, assuming the Offers are fully subscribed, a maximum of \$654,330 (before costs) will be raised.

The following table shows the intended use of funds following completion of the Offers:

Use of funds	\$	%
York Harbour Project exploration activities including electromagnetic geophysics, channel and geochemical sampling and drilling preparation	\$507,849	77.61%
Costs of the Offers ⁽¹⁾	\$52,675	8.05%
General working capital ⁽²⁾	\$93,806	14.34%
Total Funds allocated⁽³⁾	\$654,330	100.00%

Notes:

1. See Section 5.11 for further details on the expenses of the Offers.
2. Working capital includes the general costs associated with the management and operation of the business including administration expenses, rent and other associated costs. Working capital also includes surplus funds. The Directors will allocate surplus funds at their discretion.

3. In the event that the Offers are not fully subscribed, the Company will adjust the use of funds to reflect the amount actually raised and intends to evenly scale back the funds attributable to ongoing exploration activities and working capital.

The above is a statement of current intentions at the date of this Prospectus. Intervening events and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way the funds are applied on this basis.

The amounts and timing of the actual expenditures and investments may vary significantly and will depend on numerous factors including market conditions, the development of new opportunities and/or any number of other factors (including the risk factors summarised in Section 4), and actual expenditure levels, may differ significantly from the above estimates.

1.6 Opening and Closing Dates

For the Entitlement Offer and the Top-Up Offer, the Company will accept Applications from the date it dispatches the Prospectus until 5.00pm (AWST) on 5 July 2024 or such other date as the Directors in their absolute discretion shall determine, subject to the requirements of the Listing Rules and the Corporations Act (**Closing Date**).

The Shortfall Offer will remain open for a period of up to three months from the Closing Date (or such shorter period as determined by the Directors).

1.7 Minimum subscription

There is no minimum subscription for the Offers.

1.8 Underwriting

The Offers are not underwritten.

1.9 Substantial shareholders

Based on available information as at the date of this Prospectus, those persons which together with their associates have a voting power in 5% or more of the Shares on issue are set out below:

Substantial shareholder	Number of Shares	Voting Power (%) ¹
Hong Kong Jayson Mining Co Ltd	19,611,111	11.99%
Thunderbird Resources Limited	15,000,000	9.17%
Spartan Resources Limited	11,273,889	6.89%
Terra Capital Natural Resources Fund Pty Ltd and Terra Capital Green Metals Pty Ltd	10,000,000	6.11%

Notes:

1. Calculated based on the Shares on issue as at the date of this Prospectus.

1.10 Effect on control of the Company

Section 606(1) of the Corporations Act prohibits a person, unless an exception applies, from increasing their voting power in the Company:

- (a) from 20% or below to above 20%; or
- (b) from a starting point of above 20% and below 90%.

The Company is of the view that the Offers will not affect the control of the Company as no investor or existing Shareholder will increase its voting power from below 20% to over 20% as a result of the Offers.

In accordance with the Option Agreement (refer to Section 4.1(e) for further details), the Company is proposing to issue York Harbour Metals Inc. (or its nominees) (**Vendor**) up to 175,000,000 Shares (**Consideration Shares**) (subject to Shareholder approval at the Meeting) via a four stage earn-in as partial consideration for the Acquisition.

In addition to, and inter-conditional on, the issue of the Consideration Shares to the Vendor, the Company is proposing to issue Private Equity Pty Ltd (or its nominees) (**Advisor**) 25,000,000 Shares (**Advisor Shares**) and 25,000,000 Options exercisable at \$0.10 each and expiring on the date that is 2.5 years from the date of issue (subject to Shareholder approval at the Meeting) as consideration for corporate advisory services and as a finder's fee in connection with the Acquisition.

The Vendor's relevant interest in the Company at completion of each stage of the earn-in is set out in the table below and is based on the assumptions that the Company obtains shareholder approval under item 7, section 611 of the Corporations Act to issue the Consideration Shares to the Vendor, and shareholder approval under Listing Rule 7.1 to issue the Advisor Shares to the Advisor, and that under each stage:

- (a) no other Shares are issued (including Shares issued under the Offers and the Placement); or
- (b) no other Shares are issued (excluding Shares issued under the Offers and the Placement).

Earn-in Stage	Consideration Shares issued to Vendor ⁽¹⁾	Vendor total relevant interest in Shares ⁽²⁾	Voting power of Vendor (prior to completion of Offers and Placement) (%) ⁽³⁾⁽⁴⁾	Voting power of Vendor (on completion of Offers and Placement) (%) ⁽⁵⁾⁽⁶⁾
As at date of Prospectus	Nil	Nil	Nil	Nil
Stage 1	100,000,000	100,000,000	34.65	30.37
Stage 2	25,000,000	125,000,000	39.86	35.28
Stage 3	25,000,000	150,000,000	44.30	39.55
Stage 4	25,000,000	175,000,000	48.13	43.29

Notes:

For personal use only

1. The issue of the Consideration Shares and Advisor Shares are subject to Shareholder approval at the Meeting with such approval being inter-conditional.
2. Assumes no other Shares are issued to the Vendor other than the Consideration Shares.
3. Assumes no other Shares are issued (including Shares offered under the Offers and Placement).
4. Based on 163,582,556 Shares on issue in the Company as at the date of this Prospectus.
5. Assumes no other Shares are issued other than the Shares offered under the Offers (assuming the Offers are fully subscribed) and on completion of the Placement.
6. Assumes 229,265,812 Shares are on issue in the Company following completion of the Placement and Offers (assuming the Offers are fully subscribed).

1.11 Potential dilution

Shareholders should note that if they do not participate in the Offers, their holdings are likely to be diluted (as compared to their holdings and number of Shares on issue as at the date of the Prospectus). Examples of how the dilution may impact Shareholders are set out in the table below (subject to rounding):

Holder	Holding as at Record Date	% at Record Date	Entitlement to Shares	% holding if Entitlement taken up	% holding if Entitlement not taken up
Shareholder 1	10,000,000	6.11%	1,000,000	6.11%	5.56%
Shareholder 2	5,000,000	3.06%	500,000	3.06%	2.78%
Shareholder 3	2,500,000	1.53%	250,000	1.53%	1.39%
Shareholder 4	1,250,000	0.76%	125,000	0.76%	0.69%
Shareholder 5	625,000	0.38%	62,500	0.38%	0.35%

The dilution effect shown in the table above is the maximum percentage on the assumption that those Entitlements not accepted are subscribed for under the Top-Up Offer or Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting shortfall is not subsequently taken up, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

The above table also assumes that no other Shares are issued (including the Placement Shares) or Equity Securities converted into Shares prior to the Record Date.

1.12 No rights trading

The rights to Entitlements under the Entitlement Offer are non-renounceable. Accordingly, there will be no trading of rights on ASX and you may not dispose of your Entitlement to any other party. If you do not take up your Entitlement by the Closing Date, your Entitlement will lapse.

1.13 Issue date and dispatch

All Shares under the Offers are expected to be issued on or before the date specified in the proposed timetable in this Prospectus.

Security holder statements will be dispatched at the end of the calendar month following the issue of the Shares under the Offers.

It is the responsibility of Applicants to determine their allocation prior to trading in the Shares. Applicants who sell Shares before they receive their holding statements do so at their own risk.

1.14 Application Monies held on trust

All Application Monies received for the Shares under the Offers will be held on trust in a bank account maintained solely for the purpose of depositing Application Monies received pursuant to this Prospectus until the Shares are issued under the applicable Offer. All Application Monies will be returned (without interest) if the Shares for the applicable Offer are not issued.

1.15 ASX quotation

Application has been or will be made for the official quotation of the New Shares offered by this Prospectus. If permission is not granted by ASX for the official quotation of the New Shares offered by this Prospectus within three months after the date of this Prospectus (or such period as the ASX allows), the Company will repay, as soon as practicable, without interest, all Application Monies received pursuant to this Prospectus.

ASX takes no responsibility for the contents of this Prospectus. The fact that ASX may grant Official Quotation to the New Shares is not to be taken in any way as an indication of the merits of the Company or the New Shares.

1.16 CHESS

The Company participates in the Clearing House Electronic Sub-register System, known as CHESS. ASX Settlement Pty Limited, a wholly owned subsidiary of ASX, operates CHESS in accordance with the Listing Rules and the ASX Settlement Operating Rules.

Under CHESS, Applicants will not receive a certificate but will receive a statement of their holding of Shares.

If you are broker sponsored, ASX Settlement Pty Limited will send you a CHESS statement.

The CHESS statement will specify the number of Shares issued under this Prospectus, provide details of your holder identification number, the participant identification number of the sponsor and the terms and conditions applicable to the Shares.

If you are registered on the Issuer Sponsored sub-register, your statement will be despatched by the Company's share registry and will contain the number of Shares issued to you under this Prospectus and your security holder reference number.

A CHESS statement or Issuer Sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their Shareholding changes. Shareholders may request a statement at any other time; however, a charge may be made for additional statements.

1.17 **Ineligible Foreign Shareholders**

This Prospectus, and any accompanying Application Form, do not, and are not intended to, constitute an offer of Shares in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus or the Shares under the Offers. In particular, this Prospectus may not be distributed to any person, and the Shares may not be offered or sold, in any country outside Australia except to the extent permitted in Sections 1.18 to 1.20.

The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

The Company believes that it is unreasonable to extend the Entitlement Offer to ineligible Foreign Shareholders. The Company has formed this view having considered:

- (a) the number and value of the Shares that would be offered to those Shareholders; and
- (b) the cost of complying with the legal requirements and the requirements of regulatory authorities in the overseas jurisdictions.

Accordingly, Ineligible Foreign Shareholders will not be entitled to participate in the Offers.

1.18 **Hong Kong**

WARNING: This Prospectus may be distributed in Hong Kong only to:

- (a) not more than 50 existing shareholders of the Company; and
- (b) any other shareholder who is a “professional investor” (as defined in the Securities and Futures Ordinance of Hong Kong, Chapter 571 of the Laws of Hong Kong).

This Prospectus may not be distributed, published, reproduced or disclosed (in whole or in part) to any other person in Hong Kong or used for any purpose in Hong Kong other than in connection with the recipient’s consideration of the Offers.

You are advised to exercise caution in relation to the Offers. If you are in doubt about any contents of this document, you should obtain independent professional advice.

This Prospectus has not been reviewed by any Hong Kong regulatory authority. In particular, this Prospectus has not been, and will not be, registered as a prospectus under the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of the Laws of Hong Kong, nor has it been authorised by the Securities and Futures Commission in Hong Kong.

1.19 **Malaysia**

No approval from, or recognition by, the Securities Commission of Malaysia has been or will be obtained in relation to the offer of New Shares. The New Shares may not be offered, sold or issued in Malaysia except to existing shareholders of the Company. Any New Shares not taken up under the entitlement offer may not be offered, sold or issued in Malaysia except pursuant to, and to persons prescribed under, pursuant to Part I of Schedule 6 and Schedule 7 of the Malaysian Capital Markets and Services Act 2007.

1.20 **New Zealand**

The Shares are not being offered to the public within New Zealand other than to existing Shareholders with registered addresses in New Zealand to whom the offer of these Shares is being made in reliance on the Financial Markets Conduct (Incidental Offers) Exemption Notice 2021.

This Prospectus has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority under the Financial Markets Conduct Act 2013. If you wish to participate in the Offers you must make payment by BPAY® or cheque.

Cash, bank drafts, and money order payments will not be accepted. Receipts for payments will not be issued.

The Company will treat Applicants as applying for as many New Shares as their BPAY® or cheque payment will pay for in full. Any Application Monies received from Eligible Shareholders for more than their final allocation of Shares will be refunded in full without interest. No interest will be paid on any Application Monies received or refunded.

Application Monies received from Eligible Shareholders will be held on trust until such time as the relevant Shares are issued or the Application Monies are refunded.

To the fullest extent permitted by law, each Eligible Shareholder agrees that any Application Monies paid by them to the Company will not entitle them to any interest against the Company and that any interest earned in respect of Application Monies will belong to the Company. You should be aware that your financial institution branch may implement earlier cut-off times with regard to electronic payment and you should therefore take this into consideration when making payment.

Eligible Shareholders making payment via cheque will need to make your cheque payable in Australian dollars to "Registry Direct Limited Application Account" and cross "Not Negotiable". The cheque must be drawn from an Australian bank.

Completed cheques must be posted with your personalised and completed Application Form to the Share Registry at c/- Registry Direct Limited, PO Box 572 Sandringham, VIC 3191.

Your BPAY® or cheque application cannot be withdrawn once received, except for in the limited circumstances provided for under the Corporations Act. No cooling off period applies.

2.8 **Warranties made on acceptance of an Offer**

- (c) the costs of the Placement are approximately \$3,403; and
- (d) the costs of the Offers are approximately \$52,675.

- (c) Latest available: \$0.082

4. Risk Factors

Activities in the Company and its controlled entities, as in any business, are subject to risks, which may impact on the Company's future performance. The Company and its controlled entity have implemented appropriate strategies, actions, systems and safeguards for known risks, however, some are outside its control.

The Directors consider that the following summary, which is not exhaustive, represents some of the major risk factors which prospective investors need to be aware of in evaluating the Company's business and risks of investing in the Company. Prospective investors should carefully consider the following factors in addition to the other information presented in this Prospectus.

The principal risks include, but are not limited to, the following:

4.1 Risks specific to the Company

(a) Exploration and development risk

Mineral exploration and development are high-risk undertakings. There can be no assurance that exploration and development will result in the discovery of further mineral deposits. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited. Mineral exploration and development involve substantial expenses related to locating and establishing mineral reserves, developing metallurgical processes, and operating mining and processing facilities at a particular site. Until a deposit is actually mined and processed, the quantity of mineral resources and grades must be considered as estimates only, and are expressions of judgement based on knowledge, mining experience, analysis of drilling results and industry best practices. The future exploration and development activities of the Company may be affected by a range of factors, including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, native title process, changing government regulations and many other factors beyond the control of the Company.

(b) Future capital and funding requirements

The Company will require further financing in the future, in addition to amounts raised under the Entitlement Offer, Top-Up Offer, Shortfall Offer, and the Placement.

Any additional equity financing may be dilutive to Shareholders, may be undertaken at lower prices than the current market price or may involve restrictive covenants which limit the Company's operations and business strategy. Debt financing, if available, may involve restrictions on financing and operating activities.

As an exploration entity, the Company is making a loss, meaning it is reliant on raising funds from investors or lenders in order to continue to fund its operations and to scale growth.

Although the Directors believe that additional capital can be obtained, no assurances can be made that appropriate capital or funding, if and when needed, will be available on terms favourable to the Company or at all. If the Company is unable to obtain additional financing as needed, the Company may be required to reduce the scope of its activities, which could have a material adverse effect on the Company's activities and could affect the Company's ability to continue as a going concern.

The Company may undertake additional offerings of Shares and of Securities convertible into Shares in the future. The increase in the number of Shares issued and outstanding and the possibility of sales of such Shares may have a depressive effect on the price of Shares. In addition, as a result of such additional Shares, the voting power of the Company's existing Shareholders will be diluted.

(c) **Operational risks**

The operations of the Company may be affected by various factors, including:

- (i) failure to locate or identify mineral deposits;
- (ii) failure to achieve predicted grades in exploration and mining;
- (iii) operational and technical difficulties encountered in mining;
- (iv) insufficient or unreliable infrastructure, such as power, water and transport;
- (v) difficulties in commissioning and operating plant and equipment;
- (vi) mechanical failure or plant breakdown;
- (vii) unanticipated metallurgical problems which may affect extraction costs; and
- (viii) adverse weather conditions.

In the event that any of these potential risks eventuate, the Company's operational and financial performance may be adversely affected.

(d) **Acquisition and disposal of projects**

The Company may acquire new projects or divest some or all of its interest in its existing projects in the future. There can be no guarantee that any new project acquisition will eventuate from these pursuits, or that any acquisitions will result in a return for Shareholders.

The Directors will use their expertise and experience in the energy and resources sector to assess the value of potential projects that have characteristics that are likely to provide returns to Shareholders, however, Shareholders should be aware that future acquisitions and the cost of funding exploration on future projects will likely contribute directly or indirectly to the issue of further Shares, which in turn will further dilute Shareholders' interest in the Company and deplete the Company's cash.

(e) **Option Agreement risk**

Pursuant to an option agreement between the Company and York Harbour Metals Inc. as announced on 6 June 2024 (**Option Agreement**), the Company has been granted an option to acquire up to an 80% legal and beneficial interest in six licences comprising the York Harbour Project, located in Newfoundland and Labrador, Canada by way of a staged earn-in (**Acquisition**).

The Acquisition is conditional on (amongst other things) the prior receipt of Shareholder approval at the Meeting for the issue of up to 175,000,000 Consideration Shares to the Vendor (or its nominees), which will result in the Vendor acquiring a relevant interest in the Company exceeding 20%. This condition cannot be waived by either the Company or the Vendor. Accordingly, there is a risk if Shareholders do not approve the issue of the Consideration Shares to the Vendor (or its nominees), and the Acquisition will not proceed.

Pursuant to the Option Agreement, the Company is also required to satisfy certain exploration commitment targets across each earn-in stage. There is a risk that if the Company fails to meet these requisite exploration commitment targets, the Company may not be able to earn up to the full 80% interest in the York Harbour Project or the Vendor may seek to terminate the Option Agreement. If the Option Agreement is terminated prior to the Company having earned a 49% interest in the York Harbour Project, the Company will not have a residual interest in the York Harbour Project, which will adversely affect the financial position of the Company.

(f) **Joint venture risk**

The Company will enter into joint venture arrangements with the Vendor in respect of the York Harbour Project upon the earlier of: (i) the termination of the Option Agreement; or (ii) upon the Company exercising the option under the Option Agreement in full.

As with any joint venture, it is subject to various counterparty risks including failure by the joint venture counterparty, to act in the best interests of the joint venture. Any failure by the counterparty to act in the best interests of the joint venture may or may not give the Company contractual remedies, however, even if such remedies are available, they may be costly and time consuming to pursue. There is also a risk that if the Company is unable to make contributions under the joint venture, its interest in the York Harbour Project will be diluted.

(g) **Sovereign risk**

The York Harbour Project is located in Canada and will be subject to the risks associated in operating in a foreign country. These risks may include economic, social or political instability or change, hyperinflation, currency non-convertibility or instability and changes of law affecting foreign ownership, government participation, taxation, working conditions, rates of exchange, exchange control, exploration licensing, export duties, repatriation of income or return of capital, environmental protection, labour relations as well as government control over natural resources or government regulations that require the employment of local staff or contractors or require other benefits to be provided to local residents.

Any future material adverse changes in government policies or legislation in foreign jurisdictions in which the Company has projects that affect foreign ownership, exploration, development or activities of companies involved in exploration and production, may affect the viability and profitability of the Company.

(h) **Developing country risk**

The Company's Picha Project and Charque Project are located in Peru, South America. Peru is considered to be a developing country and is subject to emerging legal and political systems.

In addition to any of the sovereign risks set out in Section 4.1(g), possible sovereign risks in respect to Picha Project and Charque Project include, without limitation, changes in the terms of mining legislation, changes to royalty arrangements, changes to taxation rates and concessions and changes in the ability to enforce legal rights. Any of these factors may, in the future, adversely affect the financial performance of the Company and the market price of its Shares.

No assurance can be given regarding future stability in Peru. Additionally, if a dispute arises regarding the Company's project interests in Peru, the Company may not be able to rely on western legal standards.

4.2 **Mining industry risks**

(a) **Resource risk**

There is inherent uncertainty with mineral resource estimates. In addition, there is no guarantee that inferred mineral resource estimates can successfully be converted to indicated or measured mineral resource estimates to allow potential reserve estimates. There remains risk, regardless of JORC Code or other status, with actual mining performance against any resource or reserve estimate.

(b) **Operating risk**

The operations of the Company may be affected by various factors, including failure to

locate or identify mineral deposits, failure to achieve predicted grades in exploration and mining, operational and technical difficulties encountered in mining; difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs; adverse weather conditions, industrial and environmental accidents, industrial disputes and unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment.

No assurances can be given that the Company will achieve commercial viability through the successful exploration and/or mining of its tenement interests. Unless and until the Company is able to realise value from its projects, it is likely to incur ongoing operating losses.

(c) **Tenure and renewals**

Mining and exploration tenements are subject to periodic renewal. There is no guarantee that current or future tenements or future applications for production tenements will be approved. Tenements are subject to the applicable mining acts and regulations in Western Australia and Queensland. The renewal of the term of a granted tenement is also subject to the discretion of the relevant Minister. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of any tenement comprising a project. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Company.

(d) **Metallurgy**

Metal and/or mineral recoveries are dependent upon the metallurgical process, and by its nature contain elements of significant risk such as:

- (i) identifying a metallurgical process through test work to produce a saleable metal and/or concentrate;
- (ii) developing an economic process route to produce a metal and/or concentrate; and
- (iii) changes in mineralogy in the ore deposit can result in inconsistent metal recovery, affecting the economic viability of the project.

(e) **Environmental risks**

The operations and proposed activities of the Company are subject to laws and regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

Also refer to the climate change risk factor summarised in Section 4.3(i) below.

(f) **Commodity and currency price risk**

As the Company's potential earnings will be largely derived from the sale of mineral commodities, the Company's future revenues and cash flows will be impacted by changes in the prices and available markets of these commodities. Any substantial decline in the price of those commodities or in transport or distribution costs may have a material adverse effect on the Company and the value of its Shares. Commodity prices fluctuate and are affected by numerous factors beyond the control of the Company.

These factors include current and expected future supply and demand, forward selling by producers, production cost levels in major mineral producing centres as well as macroeconomic conditions such as inflation and interest rates.

(g) **Unforeseen expenditure risk**

The Company's cost estimates and financial forecasts include appropriate provisions for material risks and uncertainties and are considered to be fit for purpose for the proposed activities of the Company. If risks and uncertainties prove to be greater than expected, or if new currently unforeseen material risks and uncertainties arise, the expenditure proposals of the Company are likely to be adversely affected.

(h) **Native title, First Nations and cultural heritage**

The effect of the present laws in respect of native title that apply in Australia is that the Company's tenements may be affected by native title claims or procedures. This may preclude or delay granting of exploration and mining tenements or the ability of the Company to explore, develop and/or commercialise the resources on the Company's tenements. Considerable expenses may be incurred negotiating and resolving issues, including any compensation arrangements reached in settling native title claims lodged over any of the tenements held or acquired by the Company.

The presence of Aboriginal sacred sites and cultural heritage artefacts on the Company's tenements is protected by State and Commonwealth laws. Any destruction or harming of such sites and artefacts may result in the Company incurring significant fines and Court injunctions, which may adversely impact on exploration and mining activities. The Company will conduct surveys before conducting exploration work which could disturb the surface of the land. The Company's tenements may contain sites of cultural significance which will need to be avoided during field programs and any resulting mining operations. The existence of such sites may limit or preclude future exploration or mining activities on those sites and delays and expenses may be experienced in obtaining clearances.

In relation to the tenements comprising the York Harbour Project, there may be areas of First Nations owned land exist. In the event the Company acquires an interest in the York Harbour Project and where such rights exist, the ability of the Company to gain access to tenements (through obtaining consent of any relevant landowner), or to progress from the exploration phase to the development and mining phases of operations may be adversely affected.

The Company understands the importance of establishing and maintaining positive relationships with all affected by any future exploration activities, particularly with the Indigenous peoples whose lands we may operate on. In the event the Company acquires an interest in the York Harbour Project, the Company is committed to engagement with local First Nation communities in Canada, and other areas where the Company may operate, to work together in a spirit of mutual respect, collaboration and understanding.

The Directors will closely monitor the potential effect of first nation owned land, native title determinations and claims and cultural heritage matters involving tenements in which the Company has or may have an interest and will undertake such heritage surveys and seek such consents as are required to comply with these obligations.

4.3 **General risks**

(a) **General economic climate**

Factors such as inflation, currency fluctuations, interest rates, legislative changes, political decisions and industrial disruption have an impact on operating costs. The Company's future income, asset values and share price can be affected by these factors and, in particular, by exchange rate movements.

(b) **Share market conditions**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(c) **Taxation**

The acquisition and disposal of Securities will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Securities from a taxation viewpoint and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Securities under this Prospectus.

(d) **Government and legal risk**

Changes in government, monetary policies, taxation and other laws can have a significant impact on the Company's assets, operations and ultimately the financial performance of the Company and its Shares. Such changes are likely to be beyond the control of the Company and may affect industry profitability as well as the Company's capacity to explore and mine.

The Company is not aware of any reviews or changes that would affect its permits. However, changes in community attitudes on matters such as taxation, competition policy and environmental issues may bring about reviews and possibly changes in government policies. There is a risk that such changes may affect the Company's development plans or its rights and obligations in respect of its permits. Any such government action may also require increased capital or operating expenditures and could prevent or delay certain operations by the Company.

(e) **Litigation risks**

The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is not currently engaged in any material litigation.

(f) **Reliance on key personnel**

For personal use only

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance that there will be no detrimental impact on the Company if one or more of these employees cease their employment.

(g) **Insurance**

Insurance against all risks associated with the Company's business is not always available or affordable. The Company maintains insurance where it is considered appropriate for its needs however it will not be insured against all risks either because appropriate cover is not available or because the Directors consider the required premiums to be excessive having regard to the benefits that would accrue.

(h) **Force majeure**

The Company's projects now or in the future may be adversely affected by risks outside the control of the Company including labour unrest, subversive activities or sabotage, fires, floods, explosions or other catastrophes.

(i) **Climate change risks**

Climate change is a risk the Company has considered, particularly related to its operations in the mining industry. The climate change risks particularly attributable to the Company include:

- (i) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and
- (ii) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.

(j) **Infectious diseases**

The price of the Company's Securities may be adversely affected by the economic uncertainty caused by infectious diseases (including COVID-19). Measures to limit the transmission of infectious diseases implemented by governments around the world (such as travel bans and quarantining) may adversely impact the Company's operations and may interrupt the Company carrying out its contractual obligations or cause disruptions to supply chains.

4.4 **Investment speculative**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Securities offered under this Prospectus.

Therefore, the Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Securities.

Potential investors should consider that the investment in the Company is highly speculative and should consult their professional advisers before deciding whether to apply for Securities pursuant to this Prospectus.

5. Additional Information

5.1 Rights and liabilities attaching to Shares

A summary of the rights attaching to Shares in the Company is below. This summary is qualified by the full terms of the Constitution (a full copy of the Constitution is available from the Company on request free of charge) and does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities of Shareholders. These rights and liabilities can involve complex questions of law arising from an interaction of the Constitution with statutory and common law requirements. For a Shareholder to obtain a definitive assessment of the rights and liabilities which attach to Shares in any specific circumstances, the Shareholder should seek legal advice.

(a) General meeting and notices

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

- (i) every Shareholder present and entitled to vote may vote in person or by attorney, proxy or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder, has one vote for every fully paid Share held and a fraction of one vote for each partly paid up Share held, equal to the proportion which the amount paid up on that Share (excluding amounts credited) is to the total amounts paid up and payable (excluding amounts credited) on that Share.

(d) Dividend rights

Subject to the rights of the holders of any shares with special rights to dividends, the Directors may determine or declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid is of the total amounts paid and payable in respect of such Shares.

No dividend carries interest against the Company and the declaration of Directors as to the amount to be distributed is conclusive.

The Company must not pay a dividend unless the Company's assets exceed its liabilities immediately before the dividend is declared and the excess is sufficient for the payment of the dividend. The Directors may capitalise any profits of the Company and distribute that

capital to the Shareholders, in the same proportions as the Shareholders are entitled to a distribution by dividend.

(e) **Variation of rights**

If at any time the share capital is divided into different classes of shares, the rights attaching to the Shares may only be varied by the consent in writing of the holders of three-quarters of the issued shares of that class, or with the sanction of a special resolution passed at a separate general meeting of the holders of the shares in that class.

Until the transferee has been registered, the transferor is deemed to remain the holder, even after signing the instrument of transfer.

In some circumstances, the Directors may refuse to register a transfer if upon registration the transferee will hold less than a marketable parcel. The Board may refuse to register a transfer of Shares upon which the Company has a lien. The Company must refuse to register a transfer of Shares where the Corporations Act, Listing Rules or ASX Settlement Operating Rules or a law about stamp duty requires the Company to do so.

(g) **Future increase in capital**

The issue of any Shares is under the control of the Board of the Company as appointed from time to time. Subject to restrictions on the issue or grant of Securities contained in the Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing Share or class of shares), the Directors may issue Shares and other Securities as they shall, in their absolute discretion, determine.

(h) **Rights on winding up**

If the Company is wound up, the liquidator may with the sanction of special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company and may for that purpose set such value as the liquidator considers fair on any property to be so divided and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

5.2 **Lead Manager Mandate**

On 4 June 2024, the Company entered into a mandate with 708 Capital Pty Ltd (the **Lead Manager**) for the provision of lead managerial and bookrunner services, including the coordination and management of the Entitlement Offer, Shortfall Offer and Placement (excluding the placement of the Tranche 2 Placement Shares) (**Lead Manager Mandate**).

5.3 **Company is a disclosing entity**

The Company is a disclosing entity under the Corporations Act. It is subject to regular reporting and disclosure obligations under both the Corporations Act and the Listing Rules. These obligations require the Company to notify ASX of information about specific events and matters as they arise for the purpose of ASX making the information available to the securities market conducted by ASX.
