Executive Summary

For personal use only

Equity Raising Overview

- The Company is undertaking a capital raise to appropriately capitalise the business in the context of the available growth opportunities
- The Company is seeking to raise up to approximately A\$5.0 million at A\$0.0220 per share New Share, comprising of:
 - A Two-Tranche Institutional Placement (**Placement**) to raise up to A\$5.0 million; and
 - A Share Purchase Plan (**SPP**) to raise up to A\$0.5 million to existing eligible shareholders.
- New Shares issued under the Placement and SPP will include one (1) free attaching option for every two (2) New Shares issued, exercisable at A\$0.0440, expiring three (3) years from the date of issue (Attaching Options), subject to shareholder approval at a General Meeting.

Use of Proceeds

- Funds raised will provide Beonic capital flexibility to execute the strategic refresh and accelerate growth
- Funds raised will be used for:
 - Restructuring & staff exit costs
 - Investment in new sales and marketing functions
 - Offshore software development
 - Infrastructure as a service (IaaS)
 - Global partner channel
 - Accelerated product development
- The combination of the funds from the placement will complement the recently secured US\$1.0m debt from Blue Venshures in strengthening BEO's access to capital

Strategic refresh to drive concentrated growth in key markets

- Capitalise on macro tailwinds that exist in core verticals with the right approach to growth
- Refined product strategy to embrace hardware flexibility, prioritising client satisfaction, scale and standardize products for specific verticals
- Increase utilisation of partner-led distribution model
- Grow existing customer revenues through cross-sell and upsell

Outlook

Specific Areas of Focus for the Beonic Team

For personal use only

Focused sales initiatives on core high margin, high growth verticals, specifically airports and retail property

Accelerate roll out of off-the-shelf models to scalable low-touch venues such as QSR, retail and education

Increase utilisation of partner-led distribution model as a complementary growth channel

Deployment of sales teams in key regions to increase the quantum and conversion rate of our already deep \$29m qualified deal pipeline

Right-sized and appropriately positioned headcount to drive cost saving and efficiency

Initial focus to ensure recurring revenue exceeds cost base. Long-term focus to capture opportunities to drive profitability and shareholder value

Transformation Strategy

For personal use only

FY24-26 Strategic Objectives

For personal use only

Clear Path To Breakeven

- ARR >70% of total revenue
- Secure major new contracts in airport and large retail sectors
- Intensive cost out program to right-size operating expenditure
- Transfer certain roles to low cost hubs
- Streamline leadership structure delivering material savings
- Refine product strategy and deprecation of legacy technology (i.e Causely, Blix, etc)
- Qualified Pipeline over \$29m

HORIZON 1

Rebasing For Growth

- Invest in developers to deliver on product vision also to replace 3rd party software
- Formalise channel partner program to enhance distribution
- Capture “land and expand” opportunities in airport vertical
- Sales initiatives in Americas with incentive structure aligned to ARR
- Standardise products to rapidly deploy across high-volume venues like QSRs, stadiums, and retail (i.e. Self-service)
- Greater focus on customer success to drive upsell and cross-sell
- Sales and engineering to represent >30% of headcount, <20% today
- Cost out initiatives to deliver >\$3.0m per annum of savings

HORIZON 2

Transition To Profitability

- Target ARR to be greater than 80% of total revenue
- ARR to outpace total operating expenses
- Increase airport footprint by >25%
- Targeting 200+ technology device integrations to accelerate the deployment of SaaS revenues
- Enhanced back-end tooling features to facilitate self-service capability and certified partners
- Partner led revenues at 32% today, over 60% by 2026
- Qualified pipeline to exceed \$50m

HORIZON 3

Core Verticals Experience Structural Growth

Key Trends

Long-term Global Passenger Traffic

2016-2052

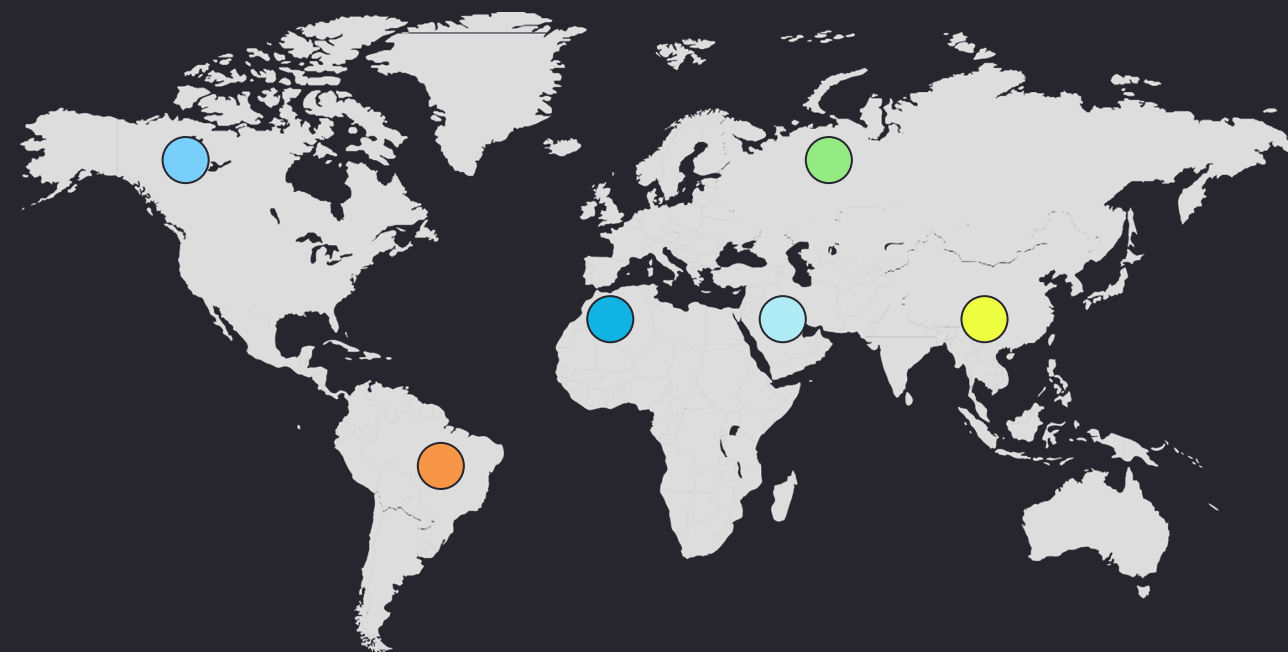

Airport passenger numbers projected to **double** between 2024 and 2042 however much more modest growth in global airport infrastructure

Source: ACI (2024), Oxford Economics (2021)

Global Airport Capex Required

2021-2040

- US\$ 427bn Europe
- US\$ 32bn Africa
- US\$ 400bn North America
- US\$ 1.3tr Asia-Pacific
- US\$ 94bn Latin America and the Caribbean
- US\$ 151bn Middle East

Implications of Airport Underinvestment

By 2040, for every 8 weekly flights lost due to airport capacity constraints it impacts the local economy with:

Beonic's Value Proposition

- BEO solutions are a small component of airport capex
- Recent deployment at ADIA delivered \$5m TCV which represents less than **0.03%** of the total capital expenditure to build the terminal

'Land and Expand' Approach

Proven Product Solution in Lucrative Airport Vertical

For personal use only

>40%

CAGR of Airport ARR post CrowdVision acquisition in 2021

>94%

Total ARR growth in airports post Crowdvision acquisition

- Beonic currently has contracts in place with 81 airports globally
- In almost all cases Beonic is delivering a solution to a single part of that airport, often in a single terminal only with a single product
- Successful performance will drive continued cross-sell (Land and expand)
- Recent footprint expansion at Heathrow and JFK are examples of successful execution of the airport strategy
- Over \$80m in implementation revenue and >\$20m of new ARR upside from cross sell opportunities from current Airport footprint within our existing client base

Our Clients

Client-First Product Strategy

Driving Innovation

Ramp up Integrations

- Become hardware agnostic and integrate with legacy and leading-edge IoT devices to stay ahead and lower adoption costs (ToF, cameras, HVAC)
- Expand 3rd party data feeds (AODB, weather, Smart Bathrooms)
- Enable integration with any presentation layer for seamless connection (wayfinding screens, Power BI)

Focus on Client Experience

- Put the client at the centre of every product decision
- Create a clear upsell path for clients with ongoing feature development driven by tight feedback loops
- Heighten client stickiness via proprietary in-platform rule setups

Scale & Standardise Products

- Package products for specific verticals with self-service automation
- Rapidly deploy across high-volume venues like QSRs, stadiums, and retail
- Establish Belfast as the Technology Centre of Excellence for innovation

Value-Added Reseller

Seal Networks

- Contract secured with Hapvida Intermedicia, largest healthcare provider in Brazil, 26 hospitals, +150 clinics
- Phase I involves deploying Beonic platform across 3,000 WiFi Access Points, US\$400k TCV over 36 months
- Phase II negotiations for an additional 3,500 APs (Aruba & Aerohive) underway, promising significant growth

Managed Service Provider

Verizon

- Signed Master Services Agreement with Verizon in 2022 and attained Gold tier partnership with Verizon Business Group
- Integrated white-labelled solution into Verizon's technology stack - bundling removes customer friction
- Partnership has collectively produced \$2.1m AUD in total contract value (TCV)
 - E.g. Won deal with IKEA for LiDAR checkout queue enhancement
 - Valued at \$167k AUD for 12 months
 - Potential for mass rollout across US

Authorised Reseller

Abu Dhabi International Airport

- Secured contract with Next50 for Abu Dhabi International Airport's Terminal A development
- Next50, a leading Abu Dhabi-based Industrial AI company specialising in aviation sector solutions
- Initial three-year contract (with two-year extension option), totaling over \$5m in contract value, including implementation and recurring revenue

Delivering Transformational Cost Reductions

Operating Cash Flow Analysis

Net Cash Flow from Operating Activities

In Q3 FY24, Beonic generated operating cash outflow of \$0.53m, which was exclusive of the impacts of capitalisation of employee and contractor and other expenditure attributable to software development. Net Cash Flow for the period was impacted by \$260k for one-off restructuring costs.

The year-to-date operating cash outflow for Beonic was \$1.4m, inclusive of \$1.0m attributed to one-off costs related restructuring, CEO transition and rebranding.

Cash Position

Beonic has secured total loan facilities ('the Facility') of USD \$3.1m with Blue Venshures SPV 1 LLC ('Blue Venshures').

As at 31 May 2024, BEO had drawn US\$3.1m of the facility and had an unaudited cash position of AUD\$1.83m.

Recent Wins

For personal use only

So far in 2024, Beonic has secured several key new contracts, signalling growth and further demonstrating product-market fit:

> In partnership with SITA, Orlando International Airport has committed to an upgrade to a LiDAR-based Queue management solution, covering two major checkpoints. With over 25 million passengers annually, Orlando Airport is the eighth busiest in the US.

> Implementation of a visitor flow system utilising BEO's unique insights and occupancy analytics to We The Curious, a science and arts centre situated in England, attracting over 350,000 visitors each year

> Secured a 5-year contract with Ford Field Stadium in the USA, home of the Detroit Lions to deploy our Crowd Analytics solution which will be the first of its kind at an NFL stadium.

> Luxury Health Spa operator, World Springs will deploy our Crowd Analytics solution.

> In Brazil, a 3-year contract was signed with the leading medical operator, Hapvida Intermedica, spanning 26 hospitals and +150 clinics.

> Hosting over 1m visitors each year, the largest Indoor arena, Spooky Nook has been contracted to deploy our proprietary visitor flow and occupancy solution.

Growth Opportunities

Airport Vertical - Large Addressable Market

For personal use only

The Opportunity²

- Airports continue to expand Beonic's Queue Management solution (QMS) into some of the world's largest airports
- QMS represents a business critical requirement for airports
- Significant expansion opportunities within existing airport partners (+80 airports)
- Revenue potential is not limited to ARR, with ~\$350m in non-recurring revenues, generating meaningful gross profit

¹ Annual Recurring Revenue (ARR) based on monthly contracted recurring revenues multiplied by twelve months
² Addressable market assumptions based on average revenue generated by airport by terminal extrapolated out on a per passenger basis

Commentary

Established presence in the Retail Property sector in ANZ, poised for further expansion:

- Blue chip retail property clients under contract (GPT, Dexus, McArthur Glen, etc)
- 51% of retail property clients under contract have People Counting solutions, however, they only represent 20% of total retail property ARR
- A significant cross-selling potential exists, given that merely 18% of venues have adopted multiple Beonic products

¹ Addressable market assumptions based on average ARR generated by existing client shopping malls multiplied by total shopping malls globally
