## \$5 MILLION EQUITY RAISING

Firm commitments to fund Australia's next Gold-Antimony producer

### Highlights

- **Single tranche Placement of 47.6 million shares to raise \$5 million (before costs)**
- **Larvotto Resources is now well-funded to continue development and exploration at its flagship Hillgrove gold-antimony project (100%-owned)<sup>1</sup> in New South Wales, Australia**
- **Proceeds from the Placement will be focused on further development of the Hillgrove project including near-term completion of the Pre-Feasibility Study as well as exploration drilling to follow-up high-grade intersections, such as the recently announced 31m at 65.8g/t Au at Bakers Creek<sup>2</sup>, outside the existing Hillgrove JORC resource of 1.4Moz AuEq at 6.1g/t AuEq**

Larvotto Resources Limited (ASX: LRV, Germany: K6X, 'Larvotto' or 'the Company') has received firm commitments for a placement to raise \$5,000,000 (before issue costs) through the issue of 47.6 million New Shares (the "Placement") at \$0.105 per fully paid ordinary share. The Placement was strongly supported by the existing and new domestic and offshore sophisticated and institutional investors.

In conjunction with the Placement, the Company will also be offering a Share Purchase Plan to raise up to \$1 million ("SPP"). The SPP will be offered to eligible shareholders and completed at the same price as the Placement, being \$0.105 per fully paid ordinary share.

### Managing Director, Ron Heeks commented,

*"This equity raising positions the Company to rapidly complete the Pre-Feasibility Study which outlines how we will bring the Hillgrove project back into production to deliver gold and antimony at a time of favourable pricing for both of our two key commodities. Given the advanced nature of the Hillgrove project, with its existing plant, well-developed infrastructure and ready access to ore from existing declines, we intend to move rapidly from the published Pre-Feasibility Study to the Bankable Feasibility Study stage.*

*We are also continuing our discussions with offtake partners for both our gold and antimony concentrates, which we expect to provide additional funding options for Larvotto.*

*In the meantime, funds from this equity raising will be directed to ongoing drilling at the Hillgrove project. We have recently enjoyed great success with the drill-bit, notably at Bakers Creek, and are confident of adding materially to our high-grade resource base, giving investors exposure to potential mine life extensions and enhanced mine scheduling flexibility at Australia's next gold-antimony mine."*
