Letter from the Chairman

9 July 2024

Dear Shareholder

This Prospectus relates to the redeemable, unsecured convertible notes (**Convertible Notes**) to be issued to Mercer Street Global Opportunity Fund II LP (**Mercer**) pursuant to a convertible securities agreement between TOY and Mercer dated 15 March 2024 (**Convertible Securities Agreement**).

Under the Convertible Securities Agreement, Mercer has agreed to advance to the Company an amount to be agreed in writing by the Company and Mercer of between \$500,000 and not more than \$3,500,000 (**Subsequent Investment Amount**). In consideration of this advance, the Company has agreed to issue to Mercer the Convertible Notes with an aggregate face value equal to 110% of the relevant Subsequent Investment Amount.

Given the suspension of the Company's Shares in July 2023, this Prospectus has been prepared primarily for the purpose of the Offer being made in accordance with 713 of the Corporations Act to ensure that there are no trading restrictions on any subsequent sale of any shares issued on conversion of the Convertible Notes.

The Offer is only available to Mercer. An Application Form will be provided to Mercer only.

I encourage you to read this Prospectus in its entirety before making an investment decision.

Yours faithfully

A change to the current taxation regime in Australia or in overseas jurisdictions in which TOY operates may affect TOY and its shareholders.

Accounting standards

Australian Accounting Standards are set by the Australian Accounting Standards Board (**AASB**) and are outside TOY's control. Changes to Accounting Standards issued by AASB could materially adversely affect the financial performance and position reported in TOY's financial statements.

5.3 Specific risks

Below is an analysis of some of the specific business risks facing TOY in the conduct of its activities. TOY is exposed to risks relevant to many businesses, including increasing competition, information systems failure risk and protection of intellectual property. This section is intended to be a concise summary of the key risks to TOY's business – not an exhaustive list of all possible risks.

Financial risk

If TOY is unable to manage its indebtedness and the restrictions applicable to it as a result of this indebtedness, its ability to implement its business strategy may be impaired and the results of its operations and financial condition may be adversely affected.

TOY may need to raise additional funds

TOY may require additional funds to satisfy its existing and future debt facilities and to invest in its other activities and future projects. Any further equity funds raised may result in a dilution in your shareholding. There is also a risk that TOY may not be able to raise further funds as and when required.

Operational risk

TOY is exposed to a range of operational risks including equipment failures and other accidents, industrial action or disputes, lease renewals, damage by third parties, floods, fire, major cyclone, earthquake, terrorist attack or other disaster. These risks may have a material adverse impact on TOY's financial performance and cash flows.

Sustainability of revenues and margins

The sustainability and growth in the level of TOY's revenue and profit margins is dependent on its continued ability to secure and maintain relationships with customers and suppliers. TOY relies on various key customer and supplier relationships and the loss or impairment of any of these relationships could have a material adverse effect on the Company's operations, financial condition and prospects.

Supply chain disruptions

TOY has established an extensive and reliable supply chain that allows it to procure and deliver products to customers in a timely and efficient manner. Disruption to any aspect of this supply chain could have a material adverse impact on TOY's operational and financial performance.

IT systems

TOY is reliant on the capability and reliability of its information technology systems and backup systems and those of its external service providers (such as communication carriers) to process transactions, manage inventory, report financial results and manage its business. The failure of any of TOY's or its customers' IT systems, including inventory management systems, could have a significant impact on TOY's ability to trade. Such failures may have an adverse effect on the Company's future financial performance.

Counterparty risk

Third parties, such as customers, suppliers and other counterparties to contracts may not be willing or able to perform their obligations to TOY. TOY provides credit to its customers and the inability of its customers to pay their debts may materially impact the Company's financial performance, position and prospects.

Loss of key personnel

TOY's business operations depend to a significant extent on its key personnel, in particular its senior management team. These individuals have extensive experience in, and knowledge of, the markets TOY operates in and TOY's business. The loss of key personnel and the time taken to recruit suitable replacement(s) or additional personnel could adversely affect the Company's future financial performance.

Product risk

The products TOY supplies to customers are subject to sales agreements with customers and must meet certain specifications. Despite controls and measures being in place, products may fall outside these specifications due to process failures, equipment malfunctions, or variability of inputs during the manufacturing and packaging processes, which could have a material adverse effect on the Company's reputation, financial condition and results of operations. Furthermore, TOY may be exposed to certain warranty and liability risks relating to defects in products. If any product it sells is defective or fails to meet the required specifications, the relevant customer may assert claims against the Company.

Occupational health and safety

TOY's operations are subject to health and safety laws and regulations. Failure to comply with these laws and regulations could result in enforcement action by regulatory authorities which could result in monetary penalties for the Company. In addition, any significant regulatory body investigation or enforcement of health and safety requirements could damage the Company's reputation as a responsible corporate citizen and employer or could result in suspension or closure of operations.

Intellectual property

There can be no assurances that the validity, ownership or authorised use of intellectual property including technology, know-how, trademarks, designs and patents (both owned and licensed) relevant to TOY's business may not be challenged.

Insurance

It is not always possible to obtain insurance against all risks and TOY may decide not to insure against certain risks as a result of high premiums or other reasons. The occurrence of an event that is not fully covered, or covered at all, by insurance, could have a materially adverse effect on the Company's financial position.

Consumer demand

TOY's operating and financial performance is dependent on consumer demand for its products. If the Company does not deliver products that appeal to consumers, or if there is a decline in consumer demand for its products, TOY's financial and operating performance could be materially adversely affected. If product input costs increase and TOY seeks to pass on such increases to consumers through higher prices, this could result in a reduction in consumer demand for TOY's products and a fall in revenue.

Retailer relationships

Any adverse change in TOY's existing relationships with key distributors and retailers could have a material adverse impact on its operations and financial performance. Any action by distributors or retailers to reduce their inventories could also result in a fall in revenue for TOY. The Company notes that two of its key retailers are currently implementing revised strategic plans, and TOY is expanding its distribution base domestically and internationally to diversify this potential risk.

Product sourcing and licensing

TOY relies on a range of parties for its product sourcing and licensing strategy. Any change in existing relationships (including termination of any key supply arrangements) or any change in terms or conditions of overseas suppliers and any change in the international political or economic environment may lead to material adverse changes to TOY's operational and financial performance.

Damage to brands

The reputation and value associated with TOY's and/or its licensors' brands could be adversely impacted by a range of factors and could have an adverse effect on the Company's future financial performance.

Interest rates and foreign exchange risks

Adverse movements in exchange rates may impact product costs and price competitiveness which may impact the operations and financial performance of TOY. Also, adverse fluctuations in interest rates may impact TOY's financial performance.

Competition

TOY competes in the toy, sporting and confectionary product segments in both Australia and overseas. The Company has a wide range of competitors including major international companies, and a large number of smaller companies. The actions of these competitors or changes in consumer preferences may adversely affect TOY's financial performance.

Litigation and disputes

Legal and other disputes may arise from time to time in the ordinary course of the Company's operations. Any such dispute may impact profitability or affect the value of TOY's assets.

5.4 Cautionary statement

Statements in this Prospectus may be forward looking statements.

Forward looking statements can be identified by the use of forward looking terminology such as, but not limited to, 'may', 'will', 'expect', 'anticipate', 'estimate', 'would be', 'believe', or 'continue' or the negative or other variations of comparable terminology. These statements are subject to

For personal use only

risks and uncertainties that could cause actual results to differ materially from those projected. The Directors' expectations, beliefs and projections are expressed in good faith and are believed to have a reasonable basis. They are based on, among other sources, the examination of historical operating trends, data in the Company's records and other data available from third parties. There can be no assurance, however, that the Directors' expectations, beliefs or projections will give the results projected in the forward-looking statements. Mercer should not place undue reliance on these forward-looking statements.

Additional factors that could cause actual results to differ materially from those indicated in the forward-looking statements are discussed earlier in this section.

6 Material agreements

6.1 Key documents

The Board considers that certain agreements relating to TOY are significant to the Offer, the operations of TOY or may be relevant to Mercer. A description of material agreements or arrangements, together with a summary of the more important details of each of these agreements is set out below.

6.2 Constitution

The following is a summary of the major provisions of the Company's constitution (**Constitution**):

General Meeting

Shareholders are entitled to be present in person (which includes attendance in a virtual or hybrid meeting), or by proxy, attorney or representative to attend and vote at general meetings of the Company. Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of Shareholders or classes of Shareholders:

- (a) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (b) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (c) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by them, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

If a person present at a general meeting represents personally or by proxy, attorney or representative more than one Shareholder, on a show of hands the person is entitled to one vote only, even though he or she represents more than one Shareholder.

Dividends and interim dividends

The Directors may pay any interim and final dividends.

Dividend reinvestment plan

Subject to the ASX Listing Rules and the Corporations Act, the Directors of the Company may on terms they decide, implement a dividend reinvestment plan. No such plan exists as at the date of this Prospectus.

Winding-up

If the Company is wound up, the liquidator may, with the authority of a special resolution of Shareholders, divide among the Shareholders the whole or any part of the property of the Company and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

Transfer of Shares

Generally, Shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act or the ASX Listing Rules.

Future increase in capital

Subject to the Constitution, the Directors may issue Shares and preference shares from time to time.

Variation of rights

Under Section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares. If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class) may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

Alteration of Constitution

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution at a general meeting passed by at least three quarters of votes validly cast for Shares at the general meeting. In addition, at least 28 days' written notice specifying the intention to propose the resolution as a special resolution must be given.

Listing Rules

If the Company is admitted to trading on the Official List, then despite anything in the Constitution, if the Listing Rules prohibit an act being done, the act must not be done. Nothing in the Constitution prevents an act being done that the Listing Rules require to be done. If the Listing Rules require an act to be done or not to be done, authority is given for that act to be done or not to be done (as the case may be). If the Listing Rules require the Constitution to contain a provision and it does not contain such a provision, the Constitution is deemed to contain that provision. If the Listing Rules require the Constitution not to contain a provision and it contains such a provision, the Constitution is deemed not to contain that provision. If a provision of the Constitution is or becomes inconsistent with the Listing Rules, the Constitution is deemed not to contain that provision to the extent of the inconsistency.

6.3 Mercer convertible securities agreement

The Company entered into a convertible securities agreement with Mercer on 20 March 2024 (**Mercer Convertible Securities Agreement**). Under the Mercer Convertible Securities Agreement, Mercer was required to pay to the Company \$700,000, pursuant to which, the Company issued to Mercer:

- (a) 793,000 convertible notes with a face value of \$1 each as consideration for a \$700,000 investment by Mercer;
- (b) shares in the Company for nil consideration for entering into the Mercer Convertible Securities Agreement equal to \$199,500 divided by the 10- day average VWAP immediately prior to the completion of the issue of the Convertible Securities (**Commencement Shares**); and
- (c) unlisted options to purchase new Shares in the Company equal to 50% of the amount invested divided by 120% of the 10 day VWAP per Company share immediately prior to the issue of the Convertible Notes , with a three year expiry with an exercise price of 120% of the 10 day VWAP per share immediately prior to the issue of the Convertible Notes (**Convertible Security Options**).

Additionally, subject to agreement by Mercer and the Company subsequent tranches of convertible securities may be issued to Mercer as consideration for further investments by Mercer of up to \$3.5 million, subject to completion of certain conditions being met (**Subsequent Tranche**). Securities to be issued in respect of Subsequent Tranches are the Convertible Notes offered under this Prospectus.

Under clause 2.2 of the Convertible Securities Agreement, Mercer and the Company could agree for Mercer to advance to the Company further amounts (as agreed in writing) of between \$500,000 and not more than \$3,500,000 (**Subsequent Investment Amount**). Mercer and the Company have agreed to Mercer advancing a Subsequent Investment Amount of \$785,000 and in consideration of this advance, the Company has agreed to issue to Mercer the Convertible Notes with aggregate face value equal to 110% of the relevant Subsequent Investment Amount.

The funding provided by Mercer under the Convertible Securities Agreement will be used for to support the investment in inventory, launch and acquisition of new brands to support House of Brands strategy, delivery of growth and investment in technology to support operational infrastructure.

The material terms of the Mercer Convertible Securities Agreement are as follows:

- (d) Convertible Notes
- (i) If Mercer provides a conversion notice on or before the date that is two months after the date of execution of the Mercer Convertible Securities Agreement (**Execution Date**), the relevant Convertible Notes will convert into fully paid ordinary shares at 100% of the VWAP during the preceding ten (10) trading days on which Shares were traded on the ASX prior to the Execution Date (**Conversion Price A**). From two months after the Execution Date, the Convertible Notes will be convertible at the lesser of Conversion Price A, and 90% of the lowest VWAP during the preceding fifteen (15) trading days on which Shares were traded on the ASX immediately prior to notice of conversion by Mercer, subject to a minimum conversion price of \$0.05 (on a post-consolidation basis) (the **Floor Price**).
 - (ii) The Subsequent Tranches of convertible securities will convert into fully paid ordinary shares at the same conversion price as the Convertible Notes.
 - (iii) The Convertible Notes have a term of 18 months from the draw down date and the Subsequent Tranche Convertible Notes (including those offered by this Prospectus) have a term of 15 months from the draw down date.
 - (iv) No interest is payable on the Convertible Notes or the undrawn funds.

- For personal use only
- (v) Mercer may convert any Convertible Notes at any time prior to maturity, by giving the Company a conversion notice, provided such conversion is for a face value in an amount equal to or greater than \$25,000 (unless the remaining face value of the Convertible Notes on issue is less than \$25,000, in which case for the full remaining value).
 - (vi) The Company has the right to repurchase any unconverted convertible securities, at any time during the term of each tranche, at 105% of the outstanding face value. If the repurchase is elected, Mercer will have the right to convert up to 30% of any outstanding face value prior to settlement.
 - (vii) In the event of a default by the Company, the Company must pay interest at a rate of 18% per annum on the face value of all outstanding Convertible Notes. The relevant interest will accrue from the date of default, calculated daily and compounded monthly until the outstanding liability is satisfied.
- (e) Commencement Shares
- (i) The number of Commencement Shares is, under the Mercer Convertible Securities Agreement, determined by dividing \$199,500 by the 10-day average VWAP immediately prior to the completion of the issue of the initial convertible securities (**Commencement Share VWAP**).
- (f) Convertible Security Options
- (i) For each tranche, Mercer will receive a 50% option coverage to purchase new Shares in the Company (calculated using the relevant investment amount divided by 120% of the 10 day VWAP per Company share immediately prior to the relevant closing date (**Convertible Security Options VWAP**)). The options relating to the initial tranche of convertible securities will have an exercise price of an amount equal to 120% of the 10 day VWAP per share immediately prior to the first closing date. Any subsequent investment options will have an exercise price of an amount equal to 120% of the 10 day VWAP per Share immediately prior to the date of issue of those options.
 - (ii) The options will have a 36 month term and will be unlisted.
- (g) Default
- (i) Shareholders should also note that the Mercer Convertible Securities Agreement is subject to a number of operating restrictions, and termination provisions which may prevent the Company drawing on the funding facility or requiring repayment of the Convertible Notes prior to maturity. This includes where there is an event of default that is not remedied; there is a change of control of the Company under a takeover bid or scheme of arrangement; and/or there is an adverse change in law or where the Company's shares are delisted from ASX.
