Quarterly Report – Q4 FY2024

ASX Release

GREAT DIVIDE MINING LTD.

Great Divide Mining is a Gold, Antimony and critical metals explorer in Queensland, with four projects across eleven tenements. GDM's focus is on developing assets within areas of historical mining and past exploration with nearby infrastructure, thus enabling rapid development. Through a staged exploration and development programme, GDM intends to generate cash flow from its initial projects to support further exploration across its portfolio of highly prospective tenements.

Chief Executive Officer of Great Divide Mining, Justin Haines, commented:

We're pleased that we were able to undertake exploration activities at Coonambula and progress the Yellow Jack project. We have again held expenses tight, and been ready to head in-field as soon as weather allowed.

It has been a busy quarter for GDM, despite setbacks due to wet weather at a number of our sites.

Our primary focus has remained on Yellow Jack, finding the best ore processing solution at the nearby Big Rush Mine site which will define our mine optimisation studies.

Sampling was undertaken at the Banshee South prospect at Coonambula, with results expected next quarter.

We're also finalising exploration scheduling for Devils Mountain, which will kick off again once the new tenement acquisitions are completed next quarter".

Refer to Listing Rule Disclosures at end of document.

Recent Highlights

- Planned exploration progresses despite adverse weather conditions
- An ionic leach soil sampling program completed at Coonambula
- Asset sale agreement completed for 2 Additional tenements at Devils Mountain
- MOU signed with Great Eastern Gold Ltd (GEG) for processing Yellow Jack ores at GEG's Big Rush site

Project Overview and Updates

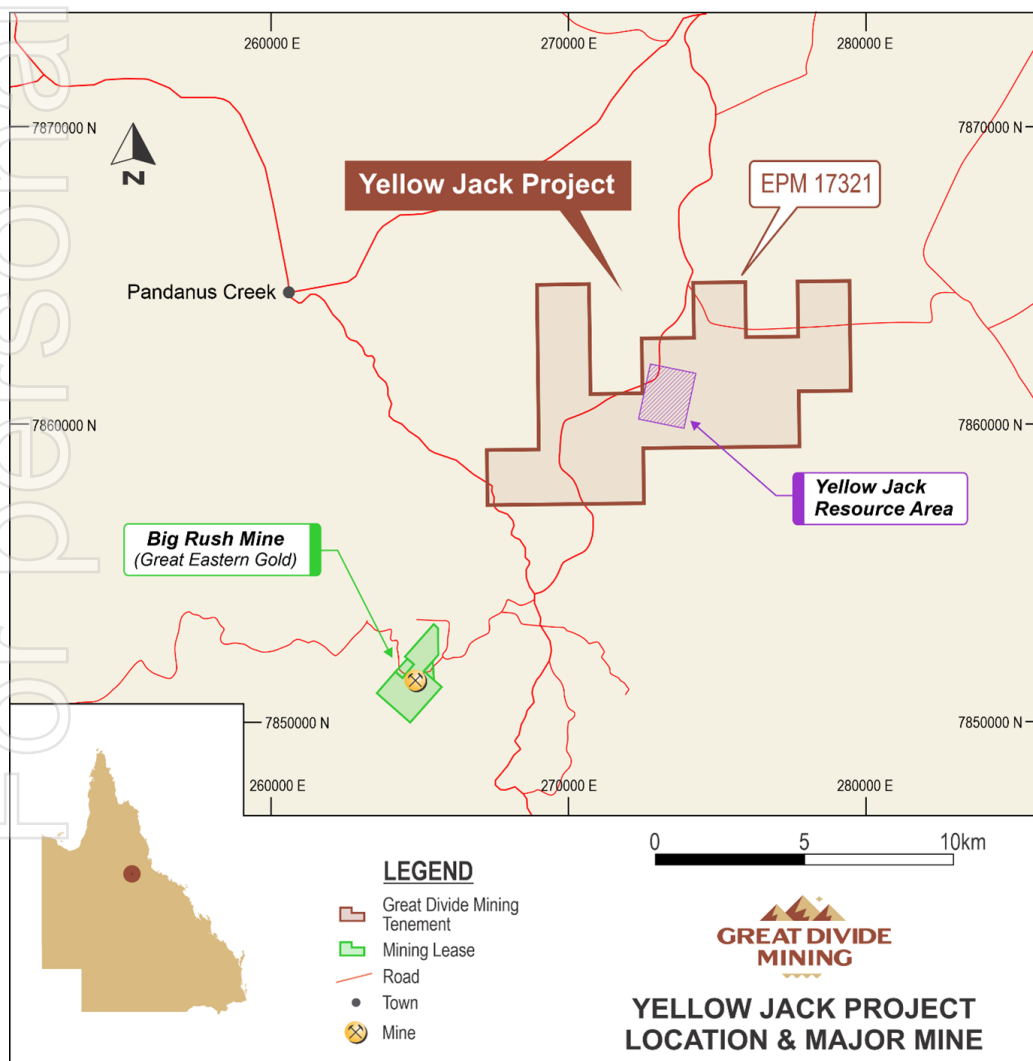

Yellow Jack

Data from confirmatory drilling at Yellow Jack was received by the Company in January 2024 enabling the commencement of geological and mining optimisation studies.

Announced on 20 June 2024, Great Eastern Gold Ltd (GEG) and GDM signed an MOU to explore toll treatment services for GDM's Yellow Jack ore at GEG's nearby Big Rush site approximately 14km from the Yellow Jack deposit. This has the potential to reduce CAPEX, provide schedule and cost benefits, and significantly reduce haulage costs compared to other potential processing options.

The MOU with GEG includes a six-month exclusivity provision and confidentiality.

GDM is working with GEG's technical team to develop a processing solution suitable for both parties with the intention of reaching a binding commercial Toll Treatment Agreement as soon as possible during Q1FY25.

Cape Project

GDM has planned exploration works to follow up on the success of the sampling undertaken during December 2023 at our New Goldfield tenement. Exploration works to include mapping, sampling, and mobile ion soil sampling. The extended wet season on Cape York has prevented access to date.

The Company is scheduled to complete these works during Q1FY25.

Coonambula Project

The Company recently completed reinterpretation of existing drilling, soil and rock chip sampling, and geophysical data over the southern Coonambula targets including the Banshee Antimony-Gold prospect.

We were fortunate to gain access to a newly identified potential southern extension to the Banshee area and collected 87 soil samples including an orientation line across the known Banshee mineralisation. Analyses and interpretation from the soil samples is expected in Q1FY25.

Soil sampling at Coonambula

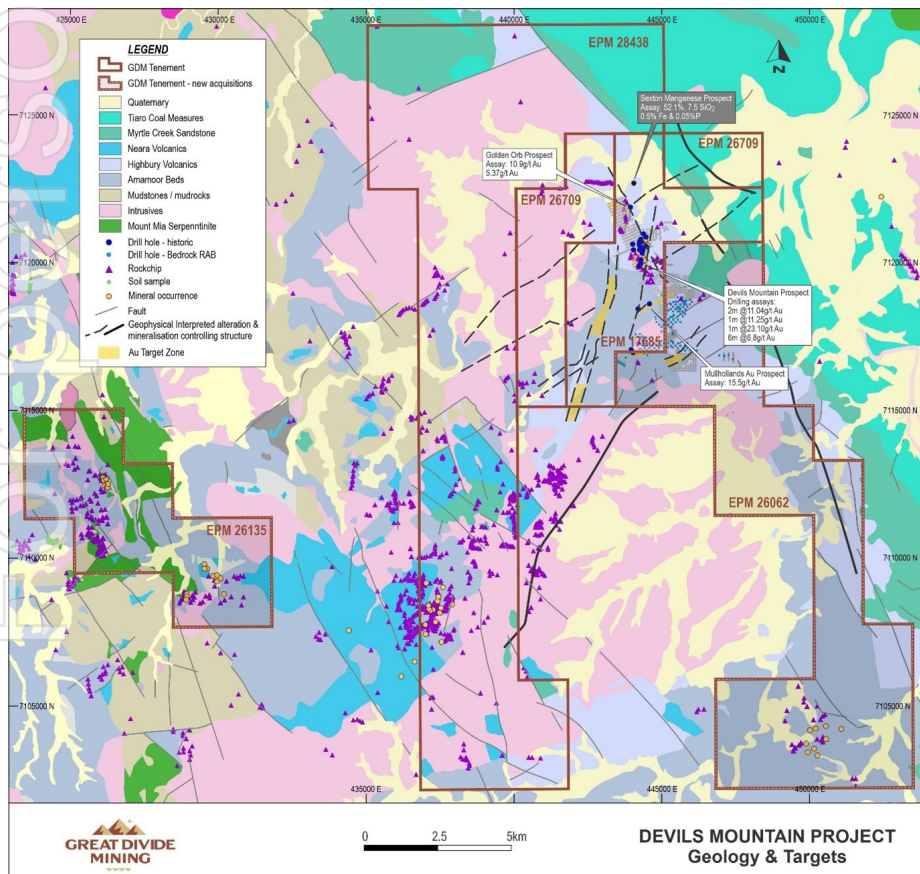

Devils Mountain

We were pleased to announce agreements to acquire two additional tenements at Devils Mountain on 11 June 2024. GDM views these acquisitions as a significant regional consolidation of the Devils Mountain – Kilkivan historical gold and copper mineralisation and mines. The tenements are historically under explored with limited sampling and drilling; this presents a significant upside.

These additional tenements will provide GDM with control over our mineralised prospects including:

- extending the Devils Mountain Gold Prospect from 4.5 km to approximately 7.5 km in length. There are historic workings along this entire length allowing targeted exploration.
- extending GDM's Project to cover the historic Glastonbury Goldfield which has a significant number of historic, high grade gold mines and more recent exploration drill holes and data; and,
- extensions over significant historic copper and gold mines in the Kilkivan field including the Long Tunnel prospect.

The Company is working to update exploration plans to include these new tenements while undertaking the necessary due diligence works to finalise the acquisitions.

Corporate Overview

The June quarter saw continued wet conditions in northern Australia, which limited access for exploration activities. During Q4 FY24 GDM undertook planned exploration activities on Coonambula and continued some mining and other studies at Yellow Jack.

Exploration expenditure during the quarter totalled \$369k, with the majority of those funds being allocated towards Yellow Jack - funding the resource and mining studies.

The Company expects exploration cash outflows in Q1 FY25 to continue at budget levels.

PROSPECTUS USE OF FUNDS CALCULATIONS

In accordance with ASX Listing Rule 5.3.4 the Company provides the following comparison between the Prospectus Use of Funds and the actual expenditure by the Company.

	Budget Year 1	Budget Year 2	Budget TOTAL	Actual YTD FY24 Q4
	\$'000	\$'000	\$'000	\$'000
Cash at Bank - Op. Bal	53	2294	53	9
Net Proceeds from Offer			-	
Proceeds from Offer	5000		5000	5000
Less: Expenses of Offer	(535)		(535)	(749)
Funds Available	4518	2294	4518	4260
Use of funds				
Exploration expenditure			-	
Cape Project	200	200	400	55
Coonambula Project	340	335	675	74
Devils Mountain Project	155	595	750	78
Yellow Jack Project	495	215	710	1333
Unallocated (All Projects)	238	269	507	-
Total Exploration expenditure	1428	1614	3042	1540
Seed Funding repayment	100		100	100
Directors' fees	120	120	240	110

Total Funds allocated	2224	2294	4518	2790
Cash at Bank - Cl. Bal	2294			1470

The Company notes that the "Unallocated (All Projects)" provision in the Prospectus was a general provision for the purpose of the Use of Funds, however as funds are expended, they will be allocated towards a project. Accordingly the Company does not expect to report any funds expended against that provision.

Other Projects

GDM Management Agreement with Bougainville Mineral Investments

GDM has reached an agreement with Bougainville Mineral Investments Ltd (BMI), an associated entity, by which GDM will provide management and exploration services. This agreement allows GDM's management to be more fully utilised during any future periods of inclement weather, and for GDM's management costs and overheads to be leveraged to generate revenue. GDM will provide these services at a cost plus 7.5% basis to BMI.
