**Commenting on the Quarter, C29 Metals Managing Director, Shannon Green, stated:** "The June Quarter of 2024 was transformational for C29, seeing us approve the acquisition of a new Uranium asset in Kazakhstan – the world's top Uranium producer.

*The Ulytau Uranium Project, situated near Lake Balkhash and close to the well-known Bota-Burum Mine, presents a new opportunity for C29 to explore in a world leading Uranium production region, as well as the cornerstone for our ambitious growth strategy. There was a fantastic effort by the C29 team to bring the acquisition across the line, and we have already sought to expand our reach in the region with two new applications going in for surrounding areas with a combined size of approximately 252km<sup>2</sup> to the northeast and southeast of Ulytau.*

*We were also pleased to have had the opportunity to consult with the local community in the village of Aksuyek, who have shown their support for the Company's proposed exploration programs. A social support agreement was signed on the 9 July 2024 with the district government providing the framework for the Company to assist the village of Aksuyek with projects aligned to the social development of the community.*

At the same time, back home following a General Meeting, we saw a successful capital raise to assist as we start our exploration project at Ulytau, where the resource is open in almost all directions.”
