About Ronin Resources Ltd

Ronin Resources Limited (ASX: RON) is an ASX listed company focused on the evaluation and assessment of the Vetás and the Hornby Lake Lithium Projects located in Colombia and Ontario Bay, Canada respectively and both 100% owned by Ronin. The Company also seeks to evaluate and assess complementary new business opportunities capable of delivering shareholder returns.

ASX Announcement

30 July 2024

June 2024 Quarterly Activities Report and Appendix 5B

- During the quarter, the Company continued its efforts to initiate drill testing of the Vetás Project and remains committed to doing so when circumstances allow (the timeframe for which is currently unclear). In the intervening period, the Company's focus has shifted to the advancement of the Hornby Lake Lithium Project and the evaluation and assessment of new business development opportunities.
- During the quarter the Company continued the review of a potential 2024 field program to target the south-western portion of the Hornby Lake Project area.
- The Company also remains actively engaged in the evaluation and assessment of complementary new business development opportunities.
- As at 30 June 2024 Ronin Resources held cash reserves of \$3.150m.

Ronin Resources Ltd (**ASX: RON**) (**Ronin** or the **Company**) provides the following report and attached Appendix 5B to its shareholders for the quarter ending 30 June 2024.

Hornby Lake Lithium Project

The Company recently completed a maiden field exploration program at the 100% owned Hornby Lake Lithium Project. Assays received confirm the presence of fractionated LCT-type pegmatites with anomalism consistent with fertile granites in Ontario, however no lithium mineralisation was present in the pegmatites encountered.

The project is located in North-western Ontario, Canada, 15km west of Frontier Lithium Inc's (**Frontier**) (TSXV:FL) PAK and Spark lithium projects and comprises 622 active mineral claims covering an area of approximately 123km².

Next Steps

The Company continues the review of a potential 2024 field program targeting the south and southwestern extents of the Hornby Lake Project. The proposed program would closely follow the procedures established in the 2023 program, including field reconnaissance, rock chip sampling and include potential channel sampling.

Assay data confirms the pegmatitic and pegmatoidal granite dykes in the northern section of the project are unlikely to be part of an LCT pegmatite system. Accordingly, the Company has relinquished its interest in this section.

Vetas Project – Maiden drill campaign

The Vetas Project's tenure consists of a Mining Contract (Contrato de Concesion) and Mining Contract Applications (Propuesta de Contrato de Concesion). The Company has submitted to the Colombian National Mining Agency (ANM) an environmental license application (PMA) and an accompanying mine plan application (PTO) modelled on a near-term, low capex mining operation at the Vetas Project.

Despite ongoing contact with authorities and local stakeholders and retaining a local presence alongside its selected drilling contractor, the Company remains unable to initiate a drilling campaign.

In recognition of the ongoing socio-political instability which has prevented the Company for commencing a drilling campaign, the National Mining Agency (ANM) has considered the Company's request and as announced on 23 October 2023 (*Vetas Project Update*) retrospectively suspended the contractual obligations of the Vetas Project for the period ending August 2023. This suspension has the primary effect of suspending the land tax and reporting obligations of the Vetas Project for the relevant period.

Ronin remains committed to initiating a maiden diamond drilling campaign at the Vetas Project, when circumstances allow (the timeframe for which is currently unclear). During the intervening period, the Company will shift its focus and priority to the advancement of the Hornby Lake Lithium Project and the evaluation and assessment of new business development opportunities.

Business Development

As contemplated in the IPO Prospectus, the Company actively seeks to identify and review potential new business development opportunities capable of enhancing the portfolio and driving shareholder returns.

The Company has reviewed a number of opportunities, primarily in lithium, copper, gold, and coal, and opportunistically acquired the Hornby Lake Lithium Project. Ronin will keep the market informed as its business development efforts progress.

Appendix 5B related party payments

Payments during the June 2024 quarter to related parties amounted to \$23k which related to Director remuneration for the June 2024 quarter. Effective 1 April 2024 Director remuneration has been reduced to \$27k per quarter.

This announcement has been approved for release by the Board of RON.

About Ronin Resources Ltd

The Company was admitted to the Official List (ASX code: RON) in December 2021 and focused on the assessment and evaluation of its 100% owned Vetás and Santa Rosa Projects, both projects which are located in Colombia. Since listing, the Company has acquired the Hornby Lake lithium project in Canada and continues to seek to identify, assess and potentially acquire other complementary new business opportunities capable of delivering shareholder returns.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
