ASX RELEASE

Appendix 4C Cashflow Statement and Quarterly Activities Report

31 July 2024, Brisbane, Australia: The Calmer Co. International Limited (ASX:CCO) submits the following Activities Report and Appendix 4C Cash Flow Statement for the three-month period ended 30 June 2024.

Highlights

- **Record quarterly sales of \$1.8m**, an increase of 68% vs Q3 and of 195% vs Prior Corresponding Period (PCP), demonstrating yearlong consistent sales growth, consolidating a FY24 unaudited **annual sales result exceeding \$4m for FY24**.
- **Cash receipts grew by 57%** vs Q3 to over \$1.44m (+130% vs PCP, Q4FY23).
- **Net cash used in operations fell by 9%** compared to Q3FY24 to \$843k.
- **Coles Australia has expanded the ranging of 3 SKUs nationally by 40%** following a strong initial quarter of sales across the 50g and 150g FijiKava® Instant Kava and TakiMai® Kava-shot, the first Ready-to-Drink kava product in Australia.
- **The company has completed an oversubscribed Rights Issue raising \$2.65m**, which will provide funding for the upgrade of the Navua facility and to support inventory expansion and marketing activities required to penetrate the US market in line with the eCommerce led strategy.

CEO Anthony Noble, said, "The company has finished the financial year strongly with another record quarter of sales, whilst continuing to focus on cost control and minimising cash burn. Inventory levels are more than keeping pace with growing sales, which is a testimony to the exceptional hard work of our Fiji operations and sourcing teams."

"Australian eCommerce continues to outperform expectations and our complementary retail presence in Coles Australia is expanding after the initial quarter with three SKUs on shelves, meaning distribution in Australia's largest supermarket chain now encompasses most locations around Australia."

"The team is now focussed on consolidating our position in Australia, while developing a range of new products to be launched in FY25 in the USA, that will allow us to replicate our success in the eCommerce channel in the world's biggest consumer goods market."

Financial Overview

Record revenues were recognised in the quarter of \$1.8m, with 70% being generated in the Australian market. This was an increase of 195% vs the prior corresponding period and an increase of 68% vs the prior quarter. This result was driven by continued growth in our eCommerce channels in Australia and continued strong sales to the Coles retail channel over the quarter. With full stock levels across the quarter, sales grew consistently from the \$450k baseline in March across April, May and June (as per the graph presented below).

Cash receipts grew in line with sales to more than \$1.4m, which taken together with a >\$300k receivable from Coles at 30th June 2024, demonstrates that cash receipts and receivables are well in line with sales. Expenses remain under control. Total operational cash expenditure rose by 25% vs prior quarter, while both sales and cash receipts rose by over 68% and 57% respectively.

The company has also continued building inventory over the quarter with \$1.3m being invested in product manufacturing and operating cost. The company held an inventory level of \$1.4m at the end of the period, which has met our >90 days holding level target. The company plans to increase inventory holding in Q1FY25 to accommodate plant and equipment installation and commissioning which is part of the Navua facility upgrades planned to begin from October.

Advertising and marketing costs grew but did so steadily and consistently, tracking to 17% of sales this quarter as in the last quarter. These activities are key to driving growth in our eCommerce and complementary retail channels, focussed on social media and paid search; where a high Return on Advertising Spend (ROAS) was maintained throughout the quarter in Australia, USA and on Amazon.com. Staff costs rose to \$397k with new team members joining the eCommerce team in Australia and the Quality Assurance team in Fiji.

According to ASX LR4.7C.3, the Company advises that \$5,500 was paid to James Dack for tax advice on his remuneration as a Director of The Calmer Co International Limited and \$4,650 was paid to James Tonkin as fees for his role as a Director of Fiji Kava Inc. USA.

Sales Analysis

Sales by Region

Australian and New Zealand sales were \$1.3m during the period. This was largely driven by our Shopify eCommerce site and by our retail channel partner, Coles Australia. Two additional SKUs were launched with Coles in Q3.

Sales in the USA grew by 20% to \$457k in the quarter. This was driven by the Shopify eCommerce site, including Walmart.com referrals, as well as consistent Amazon.com sales.

Sales in the Fiji market were 6% of the total sales globally in the quarter, where retail sales in the tourist channel and wholesale drinking kava sales both contributed equally.

Sales by Channel

eCommerce sales contributed more than 70% of total sales for the quarter, with the Shopify website (www.fijikava.com.au), Amazon.com and www.fijikava.com all growing over Q4.

Retail sales represented 23% of total sales, driven largely by Coles orders in Australia continuing to grow.

Wholesale orders to kava bar customers and to IMCD for Kavaton® extract contributed just over 6% of sales at \$115k for the period.

Sales by Format

Drinking kava powder continues to be the driving force behind the retail and eCommerce sales results and now accounts for more than 90% of revenue across all channels.

The medicinal format (tablet and capsule) products have been discontinued in Australia and sales including clearance of these lines accounted for 4% of total sales in the quarter.

The RTD products including Taki Mai Kava shots were available exclusively through Coles Australia in Q4 and accounted for 4% of total sales. The RTD shots will launch online in Australia in Q1 and become a larger part of the mix in FY25.
