Brief Explanation and background to the above results:

1. In its 70th year of operation Imperial Pacific's investment values rose significantly by 19% and gross revenues rose from a combination of higher dividends and management fees, including a solid performance fee arising from the major gain in London City's portfolio. Dividend was increased.

2. London City, 41% owned, had an excellent year with Net Worth improving by 25%. Its dividend payout also rose. Its two strategic holdings in Fiducian Group (7% owned) and Excelsior Capital (8% owned directly) both increased in value significantly over the year.

3. Excelsior Capital, 2% owned by Imperial in an associate group holding 12.8%, improved its market value by 28% after selling main business undertaking, CMI Electrical, for \$101 million. In addition there may be a further \$9 million due if certain profit levels are achieved. Despite such a substantial flow of cash into Excelsior and significant franking credits held for shareholders, its Board opted to give not one cent to shareholders. We note London City is pursuing legal action.

4. Since balance date the Board of Imperial Pacific has seen a continuing rise in its portfolio values and has estimated the Net Worth of its shares now stand at \$1.84 each.

Note 1: Summary of significant accounting policies

The financial report is a general purpose financial report that has been prepared in accordance with Accounting Standards, including Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001. International Financial Reporting Standards ("IFRS") form the basis of Australian Accounting Standards ("AASBs") adopted by the AASB. The financial report has been prepared in accordance with AIFRS (Australian Equivalents to International Financial Reporting Standards).

In this report "Group" refers to the consolidated entity and "Company" refers to the parent entity, Imperial Pacific Limited. This financial report consists of financial statements for the consolidated entity which consists of Imperial Pacific Limited and its respective subsidiaries and its equity accounted associate London City Equities Limited.

The Group has tried to adopt "Plain English" where possible to assist in information transparency.

The following is a summary of the significant accounting policies adopted by the economic entity in the preparation of the financial report. The accounting policies have been consistently applied, unless stated otherwise.

(a) Basis of Accounting

Imperial Pacific Limited is a listed public company incorporated and domiciled in Australia. It has subsidiary companies also incorporated and domiciled in Australia. The financial statements are prepared using the valuation methods described below for holdings of securities. All other items have been treated in accordance with historical cost convention.

In the application of the Company's accounting policies described above, the Directors are required to evaluate estimates and judgments that may be incorporated into the financial statements. Estimates and associated assumptions are based on historical experience and assume a reasonable expectation of future events. Actual results may differ from these estimates.

There are no estimates or judgments that have a material impact on the Company's financial results for the year ended 30 June 2024. All material financial assets are valued by reference to quoted prices and therefore no significant estimates or judgments are required in respect to their valuation. Revisions to accounting policies are recognised in the period in which the estimate is revised.

(b) Principles of Consolidation

A controlled entity is any entity controlled by Imperial Pacific Limited. Control exists where Imperial Pacific Limited has the capacity to dominate the decision-making in relation to the financial and operating policies of another entity so that the other entity operates with Imperial Pacific Limited to achieve the objectives of Imperial Pacific Limited. A list of controlled entities is contained in Note 27 to the financial statements. All inter-company balances and transactions between entities in the economic entity, including any unrealised profits or losses have been eliminated on consolidation.

Where controlled entities have entered or left the economic entity during the year, their operating results have been included from the date control was obtained or until the date control ceased.

The accounts of 40.94% owned London City Equities Limited are included by adopting the equity method of accounting (equity accounted as a 40.47% owned entity in 2023).

(c) Investments: Controlled Entities & Associates

The investments in subsidiary companies are carried at their cost of acquisition less any provision for impairment. Dividends are brought to account in the profit and loss account when they are credited or paid by the controlled entity.

London City Equities Limited is not recognised as a controlled entity because it is a company over which the group is not able to exercise control despite its 40.94% equity ownership, as one other shareholder controls a similar percentage of London City's issued capital. It is an associated company.

Investments in associated companies are recognised in the financial statements by applying the equity method of accounting.

IMPERIAL PACIFIC LIMITED

Notes to the financial statements - 30 June 2024

(d) Income Tax Expense

The income tax expense or credit for the period is the tax payable on the current period's taxable income adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the asset bases of assets and liabilities and their carrying amounts in the financial statements and to unused tax losses. Deferred tax assets and liabilities are offset as all current and deferred taxes relate to the Australian Taxation Office and can legally be settled on a net basis.

A tax provision is made for the unrealised gain or loss on Trading Portfolio securities valued at market value through the Income Statement. A tax rate of 25.0% has been adopted (25.0% in 2023).

Where non-current Investment Portfolio securities are adjusted for unrealised gains or losses at balance date in the Unrealised Revaluation Reserve an assessed deferred tax liability or asset is created to reflect the applicable tax, even though there may be no intention to dispose of those holdings. The tax sum is applied to the Unrealised Revaluation Reserve on one hand and the deferred tax liability or asset on the other.

Where the company might dispose of such securities, tax is calculated on gains made according to the particular parcels allocated to the sale for tax purposes offset against any capital losses carried forward.

Imperial Pacific Limited and its wholly-owned subsidiaries have formed an income tax consolidation group under the Tax Consolidation Regime. Imperial Pacific Limited is responsible for recognising the current and deferred tax assets and liabilities for the tax consolidated group. The tax consolidated group has entered a tax sharing agreement whereby each company in the group contributes to the income tax payable in proportion to their contribution to the net profit before tax of the consolidated group.

(e) Investments

The Company has two discrete types of investments. They are Trading Portfolio Financial Assets (Current Assets) and Investment Portfolio Financial Assets (Non-Current Assets).

All investments are initially recognised at the fair value of the consideration paid. After initial recognition, investments (classified as either Trading or Investment Portfolio) are measured at their fair value. Fair value of listed securities is determined by reference to the last sale price at the close of business at balance date. Gains on Trading Portfolio investments are recognised in the Income Statement.

Gains on Investment Portfolio securities are recognised as a separate component of equity until the investment is sold, collected or otherwise disposed of.

Dividend income is only taken to account when the right to receive a dividend is established, interest revenue being recognised on a proportional basis taking into account interest rates applicable to the financial assets.

(f) Non-Current Assets

The carrying amounts of all non-current assets other than investments are reviewed at least annually to determine whether they are in excess of their recoverable amount. If the carrying amount of a non-current asset exceeds the recoverable amount, the asset is written down to the lower value. In assessing recoverable amounts, the relevant cash flows have been discounted to their present value.

(g) Derivatives

The economic entity is from time to time exposed to fluctuations in interest rates from its activities. It is not the policy of the economic entity to use derivative financial instruments. The economic entity does not hedge its exposure to interest rate fluctuations. It has no foreign exchange exposure.

(h) Employee Entitlements

The company has no employees.

(i) Cash and cash equivalents

For cash flow statement presentation purposes, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(j) Financial Risk issues

The economic entity has in place risk management controls supervised by the Board and the Audit, Compliance and Risk Management Committee. Risk issues are explained further in Note 19 of the financial statements.

(k) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the Australian Taxation Office (ATO). In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable where invoiced. The net amount of GST recoverable from, or payable to the ATO is included with other payables in the balance sheet. Cash Flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the ATO, are reported as operating cash flow.

IMPERIAL PACIFIC LIMITED

Notes to the financial statements - 30 June 2024

(l) Revenue

Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets.

Dividend revenue is recognised when the right to receive a dividend has been established. Revenues from the rendering of a service is recognised upon meeting the relevant performance obligations.

Management revenue is recognised on an accruals basis.

(m) Leases

The lease liability is measured at the present value of the lease payments still to be paid, discounted at the interest rate implicit in the lease. Lease payments included in the measurement of the lease liability include fixed lease payments less any lease incentive, amounts expected to be payable by the lessee under residual values guarantees, exercise of options and penalties for terminating the lease.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made, initial direct costs, less accumulated depreciation and impairment losses, if any.

(n) New Standards and interpretations not yet adopted.

The Australian Accounting Standards Board has issued a number of new and amended Accounting Standards and Interpretations that have mandatory application dates for future reporting periods. The reported results and position of the Company will not change on adoption of these pronouncements as they do not result in any changes to the Company's existing accounting policies. Adoption will, however, result in changes to information currently disclosed in the financial statements. The Group does not intend to adopt any of these pronouncements before their effective date.

(o) Financial Statements Approval

The financial statements were authorised for issue by the Board of Directors on 16 August 2024.

IMPERIAL PACIFIC LIMITED

Notes to the financial statements - 30 June 2024

Note 16. Capital Management

The Company's objective in managing capital is to continue to provide shareholders with attractive investment returns over the medium to longer term through access to investment management fee income, a steady stream of fully-franked dividends, minimum gearing and enhancement of capital invested. These goals include paying dividends that will, over time, grow faster than the rate of inflation. The company recognises that its capital will fluctuate in accordance with market conditions and the performance of its underlying investments. It may adjust the dividends paid, issue new shares from time to time or buy-back its shares or sell assets to minimise debt.

(d) Nature and purpose of reserves

Realised Capital Gains Reserve

The Realised Capital Gains Reserve records gains from the sale of non-current assets. The reserve may be used for the distribution of bonus shares to shareholders and is available for the payment of cash dividends as permitted by law.

Unrealised Revaluation Reserve

The Unrealised Revaluation Reserve is used to record increments and decrements on the revaluation of non-current Investment Portfolio assets, as described in the accounting policies, adjusted to reflect the applicable deferred tax liability or asset.

Note 19. Financial instruments and risk

A. Financial instruments - fair value of financial assets and liabilities

Accounting Standards require the disclosure of fair value measurements by level of the following fair value measurement hierarchy:

Level 1 - Quoted prices in active markets for identical assets or liabilities

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3 - Inputs for the asset or liabilities that are not based on observable market data (unobservable inputs).

B. Risk Considerations - Main factors

The Group's activities expose it to various financial risks, mainly market risk, credit risk and liquidity risk. Risk management is carried out by senior management under policies and strategies approved by the Board and the Audit, Compliance and Risk Management Committee. The Group is not directly exposed to currency risk.

(a) Market Risk

This is the risk that the fair value of future cash flows of financial instruments may fluctuate because of changes in market prices that depend on many factors, including economic conditions, corporate profitability and management competence. The group seeks to reduce market risk by adhering to the prudent investment guidelines of its board, including guidelines in respect of industry status, investee position in the industry, performance outlook, management skills and level of strategic shareholding acquired. Price and Interest Rate risk issues are shown below.

IMPERIAL PACIFIC LIMITED

Notes to the financial statements - 30 June 2024

Note 19. Financial instruments and risk (Cont'd)

(a) (i) Price Risk

The Group is exposed to price risk in relation to equities securities and convertible loan notes. These arise from:

- Investments held by the Group and classified on the balance sheet as either Trading or Portfolio; and
- Exposure to adverse movements in equity prices which may have negative flow-on effects to the revenue derived from the management of clients' investment portfolios.

The Group is not directly exposed to commodity price risk or derivative securities risk.

Price Risk Sensitivity Analysis:

The table below summarises the pre-tax impact of both a general fall and general increase in stock-market prices on listed equity securities by 10%. The analysis is based on the assumption that the movements are spread equally over all assets in the investment and trading portfolios. It assumes no performance fees payable from managed funds.

	----- 2024 -----		----- 2023 -----	
	10.0% increase in market prices	10.0% decrease in market prices	10.0% increase in market prices	10.0% decrease in market prices
	\$	\$	\$	\$
Impact on Profit (Pre tax)	22,844	(22,844)	17,305	(17,305)
Impact on Equity (Pre tax)	1,063,349	(1,063,349)	855,885	(855,885)

(a) (ii) Interest Rate Risk

This is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. At balance date the Group had money on deposit with its bankers. As such, the Group's revenues and assets are subject to interest rate risk to the extent that the cash rate might fall over any given period. Given that the Group does not have any interest bearing liabilities at balance date, however, the Board and management do not consider it necessary to hedge the group's exposure to interest rate risk.

Interest Rate Risk Sensitivity Analysis:

The table below summarises the pre-tax impact of both a decrease and an increase in interest rates by 100 basis points (1.00%). The analysis is based on the assumption that the change is based on the amounts of cash at bank and cash at year end.

	----- 2024 -----		----- 2023 -----	
	100 bps increase in Interest Rate	100 bps decrease in Interest Rate	100 bps increase in Interest Rate	100 bps decrease in Interest Rate
	\$	\$	\$	\$
Impact on profit (pre-tax)	240	(240)	199	(199)

(b) Credit Risk

The credit risk on the financial assets of the entity is the risk that one party to a financial instrument may cause a financial loss for the other party by failing to discharge an obligation. This credit risk for Imperial Pacific is minimised by its policy of placing surplus funds with the company's bankers.

(b) (i) Cash and Cash Equivalents

The credit risk of the Group in relation to cash and cash equivalents in the carrying amount and any accrued unpaid interest. The average weighted maturity of the cash portfolio at any time is no greater than 90 days. The credit quality of cash deposits and equivalents can be assessed by reference to external credit ratings.

	2024	2023
Cash at bank and short-term bank deposits	\$	\$
- Credit Rating (Short)	AA -	24,008
		19,906

(b) (ii) Trade and sundry receivables

The credit risk of the Group in relation to trade and sundry receivables is their carrying amounts. The sums are minor and relate mainly to accrued unpaid interest and prepayments. The risk is mitigated by internal monitoring.

IMPERIAL PACIFIC LIMITED

Notes to the financial statements - 30 June 2024

Note 19. Financial instruments and risk (Cont'd)

(c) Liquidity Risk

This risk is that experienced by an entity when it has difficulties meeting its financial obligations. The Imperial Pacific consolidated entity has no formal external borrowings, although it has temporary related party director advances of \$1,247,591 at 30 June 2024 which carry no interest and a 90 day prior repayment notice.

Imperial Pacific manages maturity balances of deposits, marketable securities and cash flows carefully. The Group's management and its Board actively review the liquidity position on a regular basis to ensure that the Group can always meet its commitments, including investment programmes.

(c) (i) Maturities of financial assets

The following table details the Group's maturity periods of its financial assets. This table has been prepared based on the fair values of financial assets as at 30 June and according to the committed deposit maturing dates. Estimates are continually evaluated and are based on historical experience and expectations which are considered reasonable.

	2024	2023
To 30 days	24,008	19,906
30 - 90 days	542,882	-
90 - 120 days	22,634	157,592
Long Term	8,559,883	8,559,883

(c) (ii) Maturities of financial liabilities

The following table details the Group's maturity periods of its financial liabilities. This table has been prepared based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group is liable to meet its obligations. The table includes both interest (where applicable) and principal cash flows.

	2024	2023
To 30 days	137,009	137,009
30 - 90 days	1,331,280	-

Notes to the financial statements - 30 June 2024

Note 20. Directors and Executives' Remuneration (Cont'd)

(d) Remuneration Practices

The company's policy for determining the nature and amount of emoluments of board members and senior executives of the company is as follows:

1. The remuneration arrangements for directors are determined by the shareholders in general meeting. From time to time the Board may submit proposals to increase the fees, which are presently have a maximum of \$125,000. The company has scope to remunerate Directors for special duties that may be requested on occasion. Mr Murray does not receive Directors Fees from the Company.
2. The company has no formal executives. In the case of Mr Murray his remuneration is based on an assessment of his experience, performance and tasks undertaken through the year where, in the main, an hourly fee of \$90 is payable, plus a share of corporate advisory fee income, if any.
3. The company has a Remuneration Committee in operation.

IMPERIAL PACIFIC LIMITED

Notes to the financial statements - 30 June 2024

Note 29. Economic dependency

The major business activities of the group during the year 2023/24 were the management of the London City Equities portfolio, portfolio investment, economic and research monitoring.

The 40.94% owned London City Equities at 30 June 2024 owns interests in companies in the financial services and Portfolio investor with hedge fund type unit trust investments. Imperial Pacific has its own interests in similar sectors. Accordingly the group has dependency on the financial services and some hedge type investment holdings (Excelsior Capital Limited).

Note 30. Events occurring after balance date

The Directors have declared a fully franked dividend of 7.00 cents per share for 2024. This is not shown in the accounts. Market values of underlying securities have improved since 30 June and net worth has been estimated to have risen to \$9,780,000 (\$1.84 per share).
