About Joaquin Silver District Acquisition

The Joaquin Silver District, strategically located in the central Deseado Massif geological province, encompasses 35,000 hectares across 16 titles. USL's recent acquisition of Minera Joaquin SA from Pan American Silver Corp. and Cerro Puntudo from Yamana Argentina Servicios SA consolidates a historically divided silver district into a unified project. This marks the first time a junior company has gained 100% ownership of this underexplored area, which includes a single epithermal vein system with significant silver mineralisation, historically estimated at 73 Moz AgEq. The acquisition enhances USL's robust portfolio within the world-class Santa Cruz precious metal province, providing increased optionality for future development.
