# Capral delivers first half result in line with expectations

*Wednesday, 28 August 2024*

### Capral Half Year 2024 Results and Outlook

Capral Limited (ASX: CAA) ("Capral" or the "Company"), Australia's largest extruder and distributor of aluminium products, releases its financial results for the six months ending 30 June 2024 (1H24).

#### 1H24 highlights:

- Volume 33,500 tonnes down 6% on prior period due to reduced demand in residential housing market, with industrial sectors remaining solid
- Underlying EBITDA<sup>1</sup> of \$28.7m (1H23: \$31.7m)
- Underlying EBIT<sup>1</sup> of \$16.9m (1H23: \$20.7m)
- EBIT of \$17.5m (1H23: \$20.2m)
- Net Profit After Tax (NPAT) of \$14.7m (1H23: \$16.6m)
- Earnings Per Share (EPS) for 1H24 at \$0.83 (1H23: \$0.93)
- Strong balance sheet with net cash increasing to \$67.8m and no debt
- Share buy-back returned \$0.18 per share equivalent in first half

"We have delivered a solid first half result that is in line with our expectations, despite challenging market conditions. Capral was able to achieve this by continuing to invest in its operational efficiency, product innovation, and customer service, all while maintaining direct customer market share against imports. This, combined with our strong cash flow and profitability, drives long-term growth and value for our shareholders," said Capral's CEO, Tony Dragicevich.

He added: "Our commitment to enhancing our sustainability performance and reducing our environmental impact is a key focus. We have made progress in several areas, such as packaging and waste management, supply chain analysis and climate risks. We are proud to be a member of the Aluminium Stewardship Initiative and to adhere to its standards of responsible production, sourcing, and stewardship of aluminium."

Capral anticipates continued softness in the residential housing market, largely due to macro-economic conditions. Although, this will be partly offset by ongoing solid demand in the industrial sectors.

During the second half of 2024, Capral will focus on maintaining its market position, optimising its cost base, and generating strong cash flow. The Company will also pursue growth opportunities, leveraging its product portfolio, technical capabilities, and customer relationships.

The acquisitions of Aluminium Trade Centre in March and Apple Aluminium in July were successfully completed and integrated into the Capral trade centre network. These acquisitions have bolstered Capral's national footprint and have complemented the Company's servicing and technical capabilities.

## DIRECTORS' REPORT

The directors present their report on the consolidated Group consisting of Capral Limited (**Capral**) and the entity it controlled at the end of, or during, the half-year ended 30 June 2024 and the independent auditor's review report thereon.

### Directors

The following persons were directors of Capral during the half-year and up to the date of this report:

Name	Period Office Held
R. L. Wood-Ward	6 November 2008 – 8 May 2024
A. M. Dragicevich	15 April 2013 – Date of this report
K. Ostin	17 June 2020 – Date of this report
M. White	1 September 2021 – Date of this report
B. Tisher	24 February 2022 – Date of this report

### Review of operations and key results

Capral is pleased to announce its 2024 first half result which was in line with expectations. Profit after tax was \$14.7 million for the half-year ended 30 June 2024 (1H24), compared with \$16.6 million for the half-year ended 30 June 2023 (1H23). This resulted in Earnings per Share for the first half of \$0.84, down from \$0.93 per share in 1H23.

### Results Overview

Capral delivered Underlying EBITDA<sup>1</sup> of \$28.7 million down 10% on \$31.7 million in 1H23. Sales volume at 33,500 tonnes was 6% below the first half last year, and sales revenue fell 5% to \$313 million. Underlying EBIT<sup>1</sup> fell to \$16.9 million as compared to \$20.7 million in 1H23. 1H23 included a \$2.0m benefit from a one-off claims cost reversal.

As expected, volume fell as a result of reduced demand from the residential housing market. Commencements continued at low levels and the backlog of work that supported demand in 2023 fell away. Market share gains against imports to direct customers has been maintained despite international supply chains returning to normal, however volume to resellers softened. Demand in our key industrial sectors remained solid, especially transport and industrial construction.

The lower volume reduced capacity utilisation in our extrusion plants. However, the ongoing benefits of the 2019 operational restructure reduced the impact on bottom line profitability.

The balance sheet remains strong with net cash lifting to \$67.8 million, after \$9.3 million in shareholder distributions, \$4.7 million capital expenditure, and \$2.4m in acquisitions during 1H24.

The acquisitions of Aluminium Trade Centre in March 2024 and Apple Aluminium in July 2024 were successfully completed and integrated into Capral's trade centre network.

### Share Buy-back

Capral's solid first half performance and cash position supports continuing distributions to shareholders.

Capral announced the commencement of another on-market share buy-back on or about 23<sup>rd</sup> February 2024 of up to 10% of issued shares during the 2024 year. During 1H24, Capral acquired 340,335 shares, equivalent to 18cps. No interim dividend declared (1H23:20cps).

### Sustainability

In the first half, Capral advanced its sustainability efforts by targeting packaging and waste management and enhancing analysis of our supply chain, site operations, climate risks, and gender equality. This reflects our commitment to the Aluminium Stewardship Initiative's Performance and Chain of Custody Standards. Additionally, Capral has begun mapping Scope 3 emissions as a recognised element of our emission reduction strategy.

Our ESG team completed training in Life Cycle Assessment methodologies to enhance our climate impact reporting requirements and the development of Environmental Product Declarations. Capral's ongoing approach to sustainability and broader ESG compliance is integral to achieving our long-term sustainability goals and demonstrating our commitment to reducing our overall environmental footprint.
