MANAGEMENT COMMENT

Managing Director, Mark English, said: "Gold has sold at up to \$3,727 per ounce during August with more to come.

"BML have delivered in excess of 154,000 tonnes to the Coolgardie mill with haulage and milling continuing. Some of that ore will be processed in another campaign later in the year. The current campaign is continuing to produce thousands of ounces of gold.

"Already we have passed \$13.77 Million in gold sales for this current campaign of the year and total gold sales for 2024 passing \$18.23 Million. We are in the middle of a highly successful time for the Company.

"By the middle of September, Jeffreys Find Gold Mine is expected to generate in excess of \$25 Million in gross gold sales for 2024. This current campaign is due to finish in early September. Unforeseen power outages and some inclement weather have slowed the whole process down, but we are hopeful more than 130,000 tonnes of the 150,000 tonne allocation at the Mill will get utilised in this campaign.

"A further campaign is planned at the Greenfields Mill towards the end of this year.

"The mill contract is to process 300,000 tonnes in 2024 so everyone is focussed on making that happen," said Mr English.

³ Estimated

The current milling campaign is taking place across approximately six weeks and is expected to conclude on 4 September 2024.

A further gold milling campaign is scheduled in November/December 2024 at the Greenfields Mill.

BML is planning to mine up to 400,000 tonnes into early 2025. A contract has been executed for 300,000 tonnes to be processed at Greenfields Mill.

As at today's date, apart from a small repayment of the working capital cash advance, all gross revenue received has been paid or retained by BML for mining, haulage, milling and related costs.

Auric will receive up to \$3.0 Million from BML within a fortnight, being \$2.0 Million in initial surplus cash distribution from the Joint Venture and the balance of the \$1.0 Million repayment of working capital contribution.

The Joint Venture is between Auric and BML. BML are the miners, operators and managers of the Jeffreys Find Gol Project. BML incur and pay all mining, trucking, milling costs and related expenses. After sale of the gold, the partners subtract all direct costs before splitting the surplus cash proceeds on a 50:50 basis. Surplus cash distributions are paid to Auric by BML after agreement between the partners.

Auric will update the market on a regular basis whilst processing and gold sales are occurring.

Jeffreys Find Gold Mine: 13 August 2024.
