Our values

Always stand up for the little guy

- We stand up for the underdog, giving a voice to those who would otherwise be unheard.
- We are tenacious and never, ever give up.
- We pride ourselves on not shying away from the tough cases.

Dare to be different

- We are not your typical law firm, we follow our own path.
- We believe the impossible can be achieved.
- We challenge the status quo in our pursuit of justice for our clients.

Ahead of the pack

- We look to the future for tomorrow's opportunities.
- We pioneer new ways.
- We are leaders rather than followers.

⁷ Adjusted EPS excludes the items described in footnote 3.

Letter from the Chairman and the Managing Director & CEO

Year in review

After a disappointing financial result in FY23, we undertook a strategic reshape of our business in the financial year to 30 June 2024. We made the decision to divest non-core work types in order to focus on our personal injuries and class actions practices. We went back to basics in re-evaluating our organisational structure, company overheads and cash flow, taking a number of difficult decisions to reset the business.

After conducting a review of our practice areas, we ceased our work in employment and travel law and estate and landholder litigation and sold our Queensland family law practice.

In our personal injury practice, we focused on case execution and file resolution and wrote off time which was determined to be unrecoverable, particularly in abuse and commercial dispute files. In the class actions practice we received strong cash flow from the settlement of several actions, but reversed revenue where we did not recover all of our fees. This negatively impacted earnings before interest, tax, depreciation and amortisation (EBITDA) in FY24 but will support growth in FY25 and beyond.

Our charity partner, the Good Box

Recognising NAIDOC week.

Financial performance

EBITDA, adjusted to exclude non-recurring items (the reversal of revenue in the Ethicon and Boston Scientific mesh class actions as a result of the recovery of part only of our fees, fair value losses on deferred consideration and restructuring costs) was \$45 million compared with \$61.4 million in the previous year (which was adjusted to exclude the impact of the fair value adjustment for interest in the Ethicon Mesh Class Action), a decrease of 26.7 percent.

Net profit after tax of \$6 million compared with \$3.3 million previously. As a result of our focus on generating cash, our gross operating cash flow (GOCF) was \$51.8 million. This is a significant turnaround compared with -\$3.9 million in the previous period and reflects strong case resolution outcomes for our clients during the year.

Highlights

While we faced challenges, we achieved a number of significant positive outcomes in FY24. Resetting the business while not losing focus on achieving outcomes for our clients is a testament to our people and their resilience, commitment and compassion.

During the year the Group resolved more than 5,000 cases, securing damages in excess of \$810 million.

Class action settlements totalling \$170.7 million were approved by the court during the financial year, including actions against the Commonwealth Department of Defence for contamination from the use of firefighting foam in a range of sites across Australia, including Wreck Bay and an action against Evans Dixon in relation to conflicted advice given to clients.

Our lawyers admitted to practice

We also received fees from the settlement of the Ethicon and Boston Scientific mesh class actions and reached agreement to settle a class action for up to \$180.4 million against the Western Australian Government for Stolen Wages on behalf of thousands of Aboriginal Australian workers, subject to court approval. In the Ethicon Mesh Class Action, we are preparing an application to seek recovery of an amount of interest on the disbursement funding facilities used in that action.

Class actions were filed during the financial year against KFC for failure to provide paid breaks for employees, Rest Superannuation for wrongful deduction of insurance premiums and Aussie Home Loans for inappropriate advice and policy sales.

We are investigating a class action on behalf of First Nations families who have been subjected to discriminatory practices in several States and have filed complaints with the Australian Human Rights Commission against the Department of Communities & Justice (New South Wales Family & Community Services) and the Department of Communities (Western Australian Department of Communities). In addition, we assisted affiliate Shine Lawyers New Zealand to file group actions in New Zealand in relation to loss arising from the Edgecumbe floods and allegedly defective Toyota vehicles.

In conjunction with US firm Milberg Coleman Bryson Phillips Grossman, we are investigating whether companies manufacturing and selling proton pump inhibitor drugs failed to inform Australian consumers about the risks. We have developed relationships with a number of US firms and anticipate a future flow of class action cases being initiated in conjunction with them in FY25.

The Board is extremely proud that through our class actions work we secured an historic apology on behalf of the State of Western Australia to Aboriginal and Torres Strait Islander people who worked for little or no wages over a long period last century.

Dividend

The Directors have declared a final dividend of 4 cents per Share (unfranked). When added to the 1.5 cents per Share unfranked interim dividend declared in February 2024, dividends for the year totalled 5.5 cents per Share. The decision to pay this amount has been taken in view of strong cash generation in the Financial Year and our confidence in expected earnings in FY25.

FY25 Outlook

FY24 saw the implementation of a company-wide cost reduction program which included reduction of overhead costs and rightsizing legal teams. The positive benefits of these changes will flow through to improvements in GOCF and EBITDA.

Our business as a leading personal injuries and class actions practice is strong, with a committed and talented team who share the strategic focus to deliver improved results and grow earnings in new and existing markets. We have budgeted for growth in both the personal injuries and class actions practices over the next 12 months.

Conclusion

Over the eleven years since the Company listed on the ASX, our team has grown from 615 to 995, our revenue increased from \$105 million to \$199 million and our branch network expanded from 35 to 51. We acknowledge the hard work behind these accomplishments.

Every decision we make is driven by achieving maximum compensation for our clients through the lens of three key values that have defined Shine for decades: Always stand up for the little guy, Dare to be

different and Ahead of the pack. We are grateful to our talented team members for their dedication during the past year.

We would like to take this opportunity to thank our fellow Directors for their valuable contribution and insights in governing the Group. We continue to benefit from the skills and experience consistently provided by our dedicated Board.

We farewell our Chief Financial Officer, Ravin Raj, who has decided to retire next month. We acknowledge and thank Ravin for his valuable contribution to the Group. We welcome our new CFO Marc Devine, who will commence in the role next month, bringing over two decades of experience in all aspects of financial and executive management and commercial finance, most recently as CFO of ASX listed Alliance Aviation Services Limited.

Thank you for your ongoing support.

Simon Morrison	Managing Director & Chief Executive Officer (CEO)

Other key management personnel

Name	Position
Ravin Raj	Chief Financial Officer (CFO)
Jodie Willey	Chief Operating Officer (COO)
Lisa Flynn	Chief Legal Officer (CLO)

On 8 August 2024, the Company announced that Ravin Raj will retire on 27 September 2024 and Marc Devine will commence as CFO on 23 September 2024. There have been no other changes since the end of the reporting period.

b) Remuneration policy and link to performance

The Nomination and Remuneration Committee is made up of independent Non-executive Directors. The Committee reviews and determines remuneration policy and structure annually to ensure it remains aligned to business needs and applies general remuneration principles. In particular, the Committee aims to ensure that remuneration practices are:

- competitive and reasonable, enabling the Company to attract and retain key talent
- aligned to the Company's strategic and business objectives and the creation of shareholder value
- transparent and easily understood, and
- in the interests of shareholders.

Balancing short-term and long-term performance

Annual incentives are set to drive annual performance without encouraging undue risk-taking.

Long-term incentives are assessed over a three-year period and are designed to drive long-term performance, promote retention of key staff and provide alignment with shareholders.

The target remuneration mix for FY24 reflects the:

- short-term incentives (STI) opportunity for the current year that is available if the performance conditions are satisfied, and
- value of the Long-Term Incentive (LTI) Plan Performance Rights granted during the year.

Figure 1
Remuneration framework FY24

Element	Purpose	Performance metrics		Potential value	Changes in FY24
Fixed remuneration (FR)	Provide competitive market salary including superannuation and non-monetary benefits	Meets role expectations		Positioned at median market rate	Reviewed in line with market positioning
STI	Reward for in-year performance	CFO: General company performance: 60% Operational performance: 35% People: 5%	COO, CLO: General company performance: 50% Operational performance: 30% People: 20%	\$100,000	No change in amount; some changes in KPIs
LTI	Alignment to long-term shareholder value	EPS growth: 50% Cumulative annual TSR: 25% Strategic Objectives: 25%		Executive KMP: 30% of FR	No changes

Assessing performance and claw-back of remuneration

The Nomination and Remuneration Committee is responsible for assessing performance against KPIs and determining the STI and LTI to be paid to executive KMP. To assist in this assessment, the Committee receives detailed reports on performance from management which are based on independently verifiable data such as financial measures and data from independent surveys.

Unvested Performance Rights may be cancelled and STI payments withheld in the event of unacceptable conduct.

c) Elements of remuneration and link between remuneration and performance

(i) Fixed annual remuneration (FR)

Executives may receive their fixed remuneration as:

- cash, or
- cash with non-monetary benefits such as car allowances, motor vehicle and car parking benefits.

FR is reviewed annually, or on promotion. It is benchmarked against market data for comparable roles in companies in a similar industry and with similar market capitalisation. The Nomination and Remuneration Committee aims to position executives at or near the median, with flexibility to take into account capability, experience, value to the organisation and performance of the individual.

For the executive KMP, superannuation is included in FR.

(ii) Short-term incentives

Set out below are the short-term incentives available to the CFO, the COO and the CLO. The Managing Director & CEO, Simon Morrison, does not participate in the STI plan. The following STI plans are conditional upon satisfaction of a “gateway measure” of EBITDA being achieved before an entitlement may arise.

As the “gateway” EBITDA was not achieved, the Board did not award the CFO, the COO or the CLO any short-term incentive for FY24.

Statutory performance indicators

Figure 2 below shows measures of the Group’s financial performance over the last five years as required by the Corporations Act.

(iii) Long-term incentives and performance

Executive KMP participate in the LTI plan comprising annual grants of Performance Rights which are subject to the following hurdles which apply during a 3 year performance period:

- Cumulative annual Total Shareholder Return (TSR) performance,
- Earnings per Share (EPS) growth condition, and
- Strategic objectives.

Executive KMP (other than Simon Morrison) also received benefits in the form of shares resulting from the vesting of the FY21 Performance Rights after satisfaction in part of the performance conditions. These equity instruments had been granted under the LTIP in a prior year.

Further detail on the FY24 LTI plan is shown in Figure 4 below:

Figure 4
Structure of the FY24 LTI (continued)

Feature	Description
Performance hurdle – Strategic Objectives (SO) <i>(25% weighting, 5% in each category)</i>	Strategic objectives are achieved over 3 years to the end of FY26 relating to the following 5 categories: 1. Clients (including a seamless and transparent client experience) 2. Team members (including engagement and retention targets) 3. Growth (including market share targets) 4. Financial strength (including financial margins and ratios) 5. Innovation (including new ways to maximise damages for clients) Rights vest subject to achievement of the strategic hurdles described above, with straight line vesting of 50% - 100% in each category if the objectives are determined by the Board to be substantially (at least 75%) achieved.
Vesting	Performance Rights are granted under the LTIP for no consideration and carry no dividend or voting rights. When vested, each right converts into one Share. The vesting price on which the number of rights granted is based is the weighted average price at which the Company's shares are traded on the ASX on 15 days before plus 15 days after the release of the Shine Justice Annual Report in the financial year to which they relate.
Forfeiture and termination	The Performance Rights will lapse if performance conditions are not met. Rights will be forfeited on cessation of employment unless the Board determines otherwise, e.g.: in the case of retirement due to injury, disability or death.
Board discretion	The Board retains discretion to adjust the performance measures if warranted by relevant circumstances at the time of vesting. The Board may also cancel some or all of individual performance rights on the basis they constitute an inappropriate benefit to the KMP due to any unacceptable conduct, including fraud or dishonesty or acting in a manner which brings the Shine Group into disrepute.

Due to his substantial shareholding in the Company, Managing Director & CEO Simon Morrison does not participate in the LTIP.

Terms and conditions of the share-based payment arrangements

The terms and conditions of each grant of Performance Rights affecting remuneration in the current or a future reporting period are as follows:

- 1 Cumulative annual TSR is assessed over 3 years to the end of FY24. This is designed to focus executives on delivering sustainable long-term shareholder returns. The Directors consider that a pre-set TSR hurdle is a suitable hurdle for the FY22 Performance Rights and for future grants under the LTIP, given challenges associated with selecting an appropriate peer group against which to measure RTSR.
- 2 Cumulative annual TSR is assessed over 3 years to the end of FY25. This is designed to focus executives on delivering sustainable long-term shareholder returns. The Directors consider that a pre-set TSR hurdle is a suitable hurdle for the FY23 Performance Rights and for future grants under the LTIP, given challenges associated with selecting an appropriate peer group against which to measure RTSR.
- 3 Cumulative annual TSR is assessed over 3 years to the end of FY26. This is designed to focus executives on delivering sustainable long-term shareholder returns. The Directors consider that a pre-set TSR hurdle is a suitable hurdle for the FY24 Performance Rights and for future grants under the LTIP, given challenges associated with selecting an appropriate peer group against which to measure RTSR.

The number of rights over ordinary shares in the Company provided as remuneration to KMP is shown in figure 9 below. See pages 25 and 26 for the conditions that must be satisfied for the FY24 Performance Rights to vest. When vested, each right is replaced with one Share in Shine Justice Ltd. The vesting price on which the number of rights granted is based is the weighted average price at which the Company's shares are traded on the ASX on 15 days before plus 15 days after the release of the Shine Justice Annual Report in the financial year to which they relate.

¹ No STI was payable in FY2024 or FY2023 as the gateway EBITDA hurdle was not met.

² 'Other' comprises ad hoc payments treated as remuneration, such as a car parking, car allowance, and other benefits for Simon Morrison, Ravin Raj and Jodie Willey.

³ Performance Rights granted under the current FY21-FY24 Long Term Incentive Plan and the Non-Executive Director Equity Plan rights for FY23-FY24, are expensed or credited over the performance period, which includes the year to which the rights relate. Credits can occur when estimates of achieving performance hurdles are lowered to an extent that offsets any positive value from rights granted that would otherwise be expected.

⁴ Other long-term benefits as per Corporations Regulation 2M.3.03(1) Item 16.8. The amounts disclosed in this column now represent both leave accrued and taken in the year for annual leave and long-service leave. 2023 has been reclassified on the same basis for comparability, with no net change in total salary. Note the amount may be negative where total leave taken exceeds leave accrued in a financial year.

e) Contractual arrangements with executive KMP

Component	Managing Director & CEO	Other executive KMP
Fixed remuneration	\$516,596	Range between \$441,749 and \$481,699

Notice of termination by the individual/ Company (without cause)	6 months	3 months
Termination of employment (with cause)	No notice	No notice
Termination except in limited circumstances (eg death or disability)	STI is not awarded, and all unvested LTI will lapse	

During FY24, the Managing Director & CEO employment arrangement was restructured to dual employment agreements. A new contract of employment was entered into with Shine Lawyers US LLC, a Group entity incorporated in the USA. The base salary amount is USD208,000 per annum. The base salary through the existing employment contract with Shine Justice Ltd has been reduced to the difference between the Australian dollar equivalent of the USD208,000 per annum and the total salary in Australian dollars. All other entitlements, benefits, terms and conditions remain unchanged.

f) Non-executive Director arrangements

Non-executive Directors receive a Board fee, see table below. They do not receive performance-based pay or retirement allowances. Superannuation is paid in addition to the fees.

There are no additional fees payable for chairing or being a member of a Board committee.

Fees are reviewed annually by the Board taking into account comparable roles. The FY23 base fees were reviewed with effect from 1 July 2023.

The maximum annual aggregate Directors' fee pool limit is \$950,000 (including superannuation) and was approved by shareholders at the annual general meeting on 19 October 2022.

Base fees per annum (excluding superannuation)	From 1 July 2023	From 1 July 2024
Chairman	\$262,500	\$267,750
Other Non-executive Directors	\$126,000	\$128,520

All Non-executive Directors enter into a service agreement with the Company in the form of a letter of appointment. The letter summarises the Board policies and terms, including remuneration, relevant to the office of Director.

¹ NED Rights (salary sacrifice rights) granted under the NED Equity Plan described on page 31.

f) Non-executive Director arrangements (continued)

Non-executive Director (NED) Equity Plan

In November 2020, the Board adopted the NED Equity Plan, under which the Non-executive Directors may increase their holdings of Shares in Shine Justice Ltd in order to share in the growth of the business and more closely align their interests with those of shareholders. The NED Equity Plan supports the Board's policy that Directors should be encouraged to accumulate a shareholding equivalent in value to their annual Directors' fees over a three-year period.

The NED Equity Plan provides for Non-executive Directors to sacrifice a percentage of their fees over an agreed period and to be granted rights to acquire a number of Shares reflecting the amount to be sacrificed over the period. The participating Directors' fees are reduced in equal amounts each fortnight during the participation period. NED Rights are granted for no consideration at the beginning of the period during which salary sacrifices are made and vest into Shares at the end of that period.

For the FY23 Rights granted on 1 July 2022, the price on which the number of granted NED Rights was calculated was the volume weighted average closing price of Shares on ASX on the 20 trading days before, the date of the offer (29 June 2022), being \$0.96. The fair value of \$0.91 is lower due to no entitlement to dividends over the service period. The FY23 NED Rights vested on 30 August 2023.

For the FY24 Rights granted 3 July 2023, the price on which the number of granted NED Rights was calculated was the volume weighted average closing price of Shares on ASX from 1 June 2023 to 21 June 2023, being \$0.73. The fair valuation of the rights granted is based on the closing share price of \$0.71 at grant date on 3 July 2023. The FY24 NED Rights will vest on or around 30 August 2024.

On vesting of NED Rights, the participating Director is allocated a number of Shares purchased on market, equivalent to the number of vested NED Rights held by the Director. Shares allocated or transferred to Non-executive Directors following vesting are subject to a disposal restriction until the earlier of the date of the Non-executive Director's retirement from the Board or 15 years after allocation or transfer of the Shares. While the disposal restriction applies, the Non-executive Directors are not permitted to dispose of the Shares held as a result of the vesting of NED Rights.

If a participating Director retires from the Board prior to the vesting of NED Rights, pro-rata vesting or a repayment of sacrificed fees may occur and disposal restrictions will cease to apply. NED Rights do not carry any voting or dividend rights.

Figure 8 shows for each executive KMP (other than the Managing Director & CEO) how much of their STI cash bonus was awarded and how much was forfeited. It also shows the value of Performance Rights that were granted, vested and forfeited during FY24. The number of rights and percentages vested/forfeited for each grant are disclosed in section (iii).

(iii) Loans given to KMP

Details of loans made to Directors of Shine Justice and other KMP of the Group, including their close family members and entities related to them, are set out below.

Loans outstanding at the end of the current and prior year include loans to a New Zealand company affiliated with Shine, of which Simon Morrison is a director and shareholder.

Name	Balance at the start of the year	Interest paid and payable for the year	Balance at the end of the year	Highest indebtedness during the year
	\$	\$	\$	\$
Simon Morrison	6,242,758	397,512	7,194,586	7,194,586

Interest was payable on this loan at Shine Justice's Australian working capital facility loan rate plus 2%. The amounts shown for interest not charged in the tables above represent the difference between the amount paid and payable for the year and the amount of interest that would have been charged on an arm's-length basis.

No write-downs or allowances for doubtful receivables have been recognised in relation to any loans made to key management personnel.

g) Additional statutory information (continued)

(iv) Other transactions with KMP

The following transactions occurred with a New Zealand company affiliated with Shine, of which Simon Morrison is a director and shareholder:

	FY24	FY23
	\$	\$
Sales and purchases of goods and services		
<i>Sale of goods, rent and services to entity controlled by KMP</i>	1,582,874	1,722,839
<i>Purchases of premises rent from entity controlled by KMP</i>	1,016,991	1,083,372
Interest received from related parties	397,512	260,358

The Group acquired the following goods and services from entities that are controlled by Simon Morrison:

- Leases over and fit outs of commercial properties occupied by parts of the Group. The lease agreements are based on normal commercial terms and conditions.

Consultancy fees

Consultancy fees were paid to a company owned by Rod Douglas of \$12,375 (including GST) (2023: \$49,500) for the provision of services including leadership and strategy mentoring until the end of October 2023.

(v) External remuneration consultants

There were no remuneration consultants engaged during the year.

(vi) Voting of shareholders at last year's annual general meeting

Shine Justice Ltd received a 97.63% "yes" vote on its remuneration report for the FY23 financial year. The Company did not receive any specific feedback from shareholders at the AGM or throughout the year on its remuneration practices.

END OF REMUNERATION REPORT

Officers' indemnities and insurance

The Constitution provides that the Company must indemnify any person who is, or has been, a Director or executive officer of the Group, and may indemnify other current or former officers and auditors, against liabilities incurred whilst acting as such officers or auditors, to the extent permitted by law.

The Company has entered into a Deed of Access, Indemnity and Insurance with each of the Directors and the Company Secretary. The Company has paid a premium for insurance for the Directors and officers of the Group against liabilities for costs and expenses incurred by them in defending legal proceedings arising from their conduct while acting in the capacity of Directors and officers of the Group, other than conduct involving a wilful breach of duty in relation to the Group.

Indemnifying auditors

To the extent permitted by law, the Group has agreed to indemnify its auditors, PwC, and its former auditors against claims by third parties arising from the audit (for an unspecified amount). No payment has been made to indemnify the Group's auditors or former auditors during, or since the end of, the Financial Year.

No leave to bring proceedings on behalf of the company

No person has applied to Court for leave to bring proceedings on behalf of the Company or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings. The Group was not a party to any such proceedings during the Financial Year.

Environmental regulation

The Group's operations are not subject to any significant environmental regulation under the laws of the Commonwealth or States.

Dividends

The Board's dividend policy has been structured in order to maintain investor, creditor and market confidence and to sustain future development of the Group's business. The Group manages capital with a view to ensuring that the goals of continuing as a going concern and the provision of acceptable shareholder returns are met.

The amount of dividends declared by the Board at any time will be influenced by underlying financial performance and cash flow, balance sheet, debt and treasury risk management, working capital needs and competing internal and external investment opportunities necessary for growth.

The Company's aim is to pay between 30% and 50% of NPAT as dividends each financial year. To the extent the Company has franking credits, it intends to distribute them to shareholders in the form of franked dividends. The declaration of dividends is at the sole discretion of the Board and no guarantee can be given about the amount of any dividends declared or the level of franking or imputation.

In respect of the Financial Year, an interim dividend of 1.5 cents per Share (unfranked) was declared on 23 February 2024 and paid on 22 March 2024. A final dividend of 4 cents per share (unfranked) was declared on 29 August 2024 and is expected to be paid on 14 October 2024.

In respect of FY23, as detailed in the Directors' Report for that financial year, the Directors determined not to pay a final dividend in the interests of prudent cash management.

State of affairs

In the opinion of the Directors, there were no significant changes in the state of affairs of the Group that occurred during the Financial Year.

Events since the end of the Financial Year

The Directors are not aware of any events or developments which are not set out in this Annual Report that have, or would have, a significant effect on the Group's state of affairs, or its expected results in future years.

Rights and options

There are currently 1,508,565 FY22 Performance Rights, 2,280,106 FY23 Performance Rights and 4,977,388 FY24 Performance Rights on issue.

There are 281,755 FY24 NED Rights and 228,862 FY25 NED Rights on issue.

There are no options on issue.

Non-Audit Services

During the Financial Year, the Company's auditor, PwC, performed no other services in addition to their audit responsibilities. The engagement to perform non-audit services in FY23 was approved on the basis that it was more cost-effective than engaging a firm without knowledge of the Group.

The Board, in accordance with advice from the Audit & Risk Management Committee, was satisfied that the provision of non-audit services by PwC (or by another person or firm on their behalf) during FY23 was compatible with the general standard of independence for auditors imposed by the Corporations Act because the nature of the services provided does not compromise the general principles relating to auditor independence in accordance with APES 110: Code of Ethics for Professional Accountants set by the Accounting Professional and Ethical Standards Board.

Details of the amounts paid or payable to PwC for non-audit services provided during the Financial Year are set out below.

Non-audit services

Services	FY24	FY23
Auditing or reviewing financial reports	\$493,680	\$597,139
Non-audit services	Nil	\$11,867
Total	\$493,680	\$609,006

Auditor's independence declaration

No officer of the Company is a former partner or director of PwC, and a copy of the Auditor's Independence Declaration as required under the Corporations Act is set out in, and forms part of, this Report.

Declarations

Simon Morrison (as Managing Director & CEO) and Ravin Raj (as Chief Financial Officer) have each provided a declaration to the Board in accordance with section 295A of the Corporations Act that, in their opinion, the financial records of the Group have been properly maintained, the financial statements and notes in this Report comply with the accounting standards and give a true and fair view of the Group's financial position and performance, the consolidated entity disclosure statement on page 162 is true and correct and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

Rounding of amounts

In accordance with ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, amounts in the Directors' Report and the financial statements are rounded to the nearest thousand dollars, or in certain cases, the nearest dollar.

Operating and Financial Review

Principal activities

The principal activities of the Group during the year were the provision of legal services in Australia and in New Zealand in conjunction with affiliate Shine NZ.

No significant changes in the nature of Shine's principal activities occurred during the Financial Year.

However, after conducting a review of our practice areas, we ceased our work in employment and travel law and estate and landholder litigation and sold our Queensland family law practice.

Overview and strategies

The objective of the Board is to create and deliver long-term shareholder value through the provision of a range of legal services, with a focus on personal injuries and class actions.

Whilst each area of the Group's business activities holds significant value and makes a substantial contribution towards achieving this objective, management of the synergies arising from the various business activities is critical to achieving the objective.

Whilst the Company was founded in Queensland 48 years ago, a core element of the Group strategy is to continue to extend its reach into other jurisdictions to mitigate the impact of exposure to a single market. As the Group's personal injury products operate under state government schemes, diversification into other markets is important in respect of managing exposure to tort reform.

The Board believes that the best way to operate in the personal injury and class actions markets is with the benefit of scale and as a listed entity.

Through its critical mass, the Group is able to leverage its investment in technology and provide better training and access to specialisation for staff.

The Board oversees the implementation of a range of strategies in five priority areas relating to clients, team members, growth, financial strength and innovation.

Review of operations

The Group specialises primarily in damages based plaintiff litigation legal services, primarily relating to personal injury. The balance of the Financial Year's revenue derived from class actions and practice areas including superannuation and disability, dust disease and medical negligence.

Personal injury

In our personal injury practice, we focused on case execution and file resolution and wrote off time which was determined to be unrecoverable, particularly in abuse and commercial dispute files.

We went back to basics in re-evaluating our organisational structure, company overheads and cash flow, taking a number of difficult decisions to reset the business.

During the year the Group resolved more than 5,000 cases, securing damages in excess of \$810 million.

The Group's Western Australian businesses (Stephen Browne Lawyers and Bradley Bayly) performed consistently, as did Sciacca's Lawyers in Queensland.

We launched a new Shine Lawyers website and Shine Lawyers advertising campaign, with a strong increase in new enquiries.

The Case Tracker App has been successfully integrated allowing clients to access their workers compensation, public liability and motor vehicle claims in our Queensland operations.

Our Dust Diseases team is continuing to lead the way in compensation claims for workers suffering from silicosis, a serious and potentially deadly lung disease impacting miners, stonemasons and construction and tunnelling industry workers. Our team has been at the forefront of pioneering compensation outcomes for silica induced autoimmune diseases, including scleroderma, rheumatoid arthritis and lupus. Following tireless lobbying and advocacy by many groups including our team, Australia has become the first country to announce a ban on engineered stone, the manufacture, supply and installation of which was banned from 1 July 2024.

Class actions

In the class actions space we received strong cash flow from the settlement of several actions, but reversed revenue where we did not recover all of our fees. This negatively impacted EBITDA in FY24 but will support growth in FY25 and beyond.

The following class action settlements totalling \$170.7 million were approved by the court during the Financial Year:

- an action against the Commonwealth Department of Defence for contamination from the use of firefighting foam in a range of sites across Australia;
- an action against the Commonwealth Department of Defence for contamination from firefighting foam in Wreck Bay; and
- an action against Evans Dixon in relation to conflicted advice given to clients.

We also received fees from the settlement of the Ethicon and Boston Scientific mesh class actions and reached agreement to settle a class action against the Western Australian Government for Stolen Wages on behalf of thousands of Aboriginal Australian workers for up to \$180.4 million, subject to court approval. We achieved an historic apology on behalf of the State of Western Australia to Aboriginal and Torres Strait Islander people who worked for little or no wages over a long period last century.

Class actions were filed during the Financial Year against:

- KFC for failure to provide paid breaks for employees;
- Rest Superannuation for wrongful deduction of insurance premiums; and
- Aussie Home Loans for inappropriate advice and policy sales.

In addition, we assisted affiliate Shine Lawyers NZ Limited to file group actions in New Zealand in relation to loss arising from the Edgecumbe floods and allegedly defective Toyota vehicles.

We are investigating a class action on behalf of First Nations families who have been subjected to discriminatory practices in several States and have filed complaints with the Australian Human Rights Commission against the Department of Communities & Justice (New South Wales Family & Community Services) and the Department of Communities (Western Australian Department of Communities).

Future developments and prospects

The Group will seek to continue to grow its business by concentrating on the activities and strategies outlined below.

Damages based plaintiff litigation

The Group continues to execute its strategy to grow its damages based plaintiff litigation business with a focus on personal injuries and class actions. The Group intends to grow organically in FY25, with a pipeline of acquisition opportunities also being available for consideration.

Tort Reform

Although tort reform initiatives pose risks for the Group's business, it has considerable experience adapting its business model to regulatory change. Tort reform presents opportunities, particularly in the acquisition of smaller practices which do not have the systems in place to deal with complex regulatory changes.

International Opportunities

The Group has established an entity in the US and is building relationships with US lawyers and funders with a view to future opportunities in class actions and international mass torts.

In conjunction with US firm Milberg Coleman Bryson Phillips Grossman, we are investigating whether companies manufacturing and selling proton pump inhibitor drugs failed to inform Australian consumers about the risks.

A number of US cases have been identified as having prospects for Shine to undertake in Australia.

Consolidated Financial Position

The Group seeks to maintain an optimal capital structure by ensuring that there is an appropriate balance of debt and equity. The current target is a maximum interest-bearing debt to equity ratio of 30%. At 30 June 2024, the ratio was 20%. The Group utilises a combination of short and long term debt to ensure that it has an appropriate level of liquidity available throughout the financial year.

The Group's finance facilities with the Commonwealth Bank of Australia (CBA) continued for the Financial Year. Details of these facilities are set out in note 6(h) in the Financial Report.

The finance facilities are subject to financial covenants including a WIP gearing ratio (borrowings cannot exceed 30% of net WIP) and debt to EBITDA ratio (not to exceed 2.25:1). For a discussion about compliance with these financial covenants, please refer to note 12(a) in the Financial Report.

In addition to the CBA facilities, the Group also has disbursement funding providers that support eligible clients with funds to cover disbursements in relation to their claims. The use of disbursement funding is expected to continue to improve the Group's operating cash flows. Details of the disbursement funding facilities are set out in note 6(g) in the Financial Report.

The Group will generally only seek to raise new capital for material events. No material acquisitions are currently proposed.

Risk Management

The Group's business is subject to risk factors, both specific to its business activities and risks of a general nature. The risks the Directors highlight below do not represent all risks associated with the Group, but represent, in the Directors' opinion, the material business risks. The most significant factors relating to future financial performance are set out in the following commentary.

Conflict of Duties

The Group, through those subsidiaries engaged in the provision of legal services, has a paramount duty to the court, first, and then to its clients. Those duties prevail over the Group's duty to shareholders. There may be instances where the Group and its lawyers, in fulfilling their duties to the Court or to the client (or both), act other than in the best interests of shareholders.

To mitigate this risk, the Group has strong case management systems and processes to identify such conflicts so that they can be avoided or appropriately managed.

The Board respects the paramount duty owed by Shine and its lawyers to the courts and their duty to act in the best interests of clients, but believes that doing so will also be in the long term best interests of Shine and its shareholders.

Regulatory Environment

The Group operates in a regulated environment. Its business operations could be adversely affected by actions of State, Territory and Commonwealth governments, including changes in legislation, guidelines and regulations that affect the areas of law in which the Group practises.

To mitigate this risk, the Group's senior legal practitioners seek to meet with policymakers and participate in stakeholder working groups when reform is being considered in the areas of law in which the Group practises.

WIP and Disbursement Funding Interest Recoverability

Because the Group operates largely on a speculative fee basis and in areas of law where the ultimate recovery of fees is regulated, failure to recover WIP is a key risk. Given the inherent uncertainty associated with determining WIP recoverability, the Group has taken measures to ensure its case management systems and processes are designed to mitigate the risk of failing to realise booked revenue. This exposure is greater in relation to class actions as the WIP exposure on a single matter is higher. The Group seeks to mitigate this risk by adopting appropriate case selection methodologies and utilising litigation funding.

To mitigate risk in relation to the personal injuries practice area, case management systems and processes have been implemented to assist in improving WIP recoverability and predictability.

Growth and Integration Risk

There is a risk that the Group may be unable to manage its future growth successfully. Historically, the Group has grown through a combination of organic growth and acquisitions. That growth strategy will continue, and may include new locations. A variety of factors, including unexpected integration issues, might cause future growth to be implemented less successfully than it has in the past.

To mitigate this risk, the Group continually refines its growth criteria to ensure that strategic and cultural alignment, adequate financial return and integration risks are considered before expansion opportunities are approved.

Our People

The Group depends on the talent and experience of its people. In particular, the Group's growth is reliant on attracting and retaining professional fee-earning staff. Should any of its key people or a significant number of people leave the Group, particularly to work for a competitor, this may have an adverse effect on the Group. It may be difficult to replace them, or to do so in a timely manner or at comparable expense.

The Group continues to focus on recruiting high calibre employees closely aligned to its values. The Group attracts, retains and incentivises talent by promoting its values based culture and by providing an environment where individuals and teams are recognised, rewarded and inspired to deliver outcomes for clients.

Brand and Reputational Risk

The success of the Group is reliant on its reputation and its brands. Anything that diminishes the Group's reputation or its brands could have a significantly adverse financial effect. In particular, the actions of the Group's employees, including breaches of relevant regulations or negligence in the provision of legal advice, could damage the Group's brands and diminish future profitability and growth.

To mitigate this risk, the Group has strong case management systems and processes to identify cases where brand and reputation risk could emerge, particularly through the initial case selection process. The Group also has a disciplined public relations process to ensure that the views of the Group are not misrepresented.

Digital Disruption and Cybersecurity

The Group monitors threats from digital technology in order to ensure that, where possible, it is positioned to respond appropriately.

Shine monitors cybersecurity threats given the potential consequences of a cybersecurity breach, including but not limited to unauthorised access or disclosure (inadvertent or otherwise) of personal information held by the Group.

From time to time, the Group engages cybersecurity experts to provide an independent assessment of the Group's exposures and protective measures.

Economic, Environmental and Social Sustainability Risks

The material economic risks associated with the Group's business are discussed above under 'WIP Recoverability' and 'Growth and Integration Risk'.

The Directors do not believe the Group has any material exposure to environmental risk.

However, the Group recognises that environmental sustainability is a critical component in a responsible and ethical management strategy and has adopted an Environmental Sustainability Policy to reflect its commitment to conducting business in an environmentally responsible manner. For further information, please refer to page 45.

Other than the risks discussed under 'Brand and Reputational Risk' above, the Directors do not believe the Group has any material exposure to social sustainability risk.

This Directors' Report is signed in accordance with a resolution of Directors made pursuant to section 298(2) of the Corporations Act.

Environmental

Shine Justice adopted an Environmental Sustainability Policy in 2020.

Shine Justice is committed to operating its business in a manner which reduces its impact on the environment, including through the following sustainability measures:

Regular consideration of environmental and sustainability issues in the consideration of potential acquisitions and new premises

High (65.22%) shareholder uptake of electronic communications

Installation of LED panels rather than fluorescent tubes

City offices have end-of-trip facilities to encourage walking and cycling to work

Automatic 'Energy-Saver' mode on laptops, monitors and printers when left idle

High Energy Star rating appliances

Encouraging meetings to be held online rather than involving travel where possible and appropriate

Increased range of 'Earth Saver' products from our stationery supplier, which utilise recycled materials and minimise environmental impact

Flexible work reduces our team members' commutes

Reduction of paper consumption, including by having printers default to double sided printing and greater reliance on electronic communications and records

Carbon Neutral and Recycled copy paper

Recycling of e-waste (electrical or electronic devices no longer required)

Donation of furniture no longer required to support schools and education

Installation of sensor lighting where possible to turn off lights in unoccupied offices

Social

Reconciliation

At Shine, we're committed to promoting Reconciliation, championing First Nations people and increasing understanding and appreciation of Aboriginal and Torres Strait Islander cultures, histories and achievements.

Following completion of our inaugural ('Reflect') Reconciliation Action Plan (RAP), which focused on establishing foundational pieces of work on education, protocols and acknowledgements, we were pleased to launch our second ('Innovate') RAP in FY23. Our RAP sets out actions we are taking to create a more inclusive business and build strong, respectful and mutually beneficial relationships that create opportunities for Aboriginal and Torres Strait Islander peoples and recognise the unique contribution they make to our shared culture and heritage. Our team members are supportive and proud of the work we are undertaking under our RAP.

We celebrated National Reconciliation Week and encouraged all teams to share morning tea to commemorate the significance of the week.

We recognised NAIDOC Week, encouraging our people to participate in a range of events to learn about First Nations Culture and history.

We continued to foster a partnership with a university to provide First Nations law clerks with legal placements and First Nations artwork has been commissioned and installed in several of our premises.

Our Class Actions team continues to work tirelessly to bring justice for First Nations group members in our Northern Territory Stolen Generation, Northern Territory Stolen Wages, Western Australia Stolen Wages and Wreck Bay contamination class actions and in child removal complaints and investigations in several States.

Diversity and Inclusion

We have formalised our ongoing commitment to a diverse and inclusive workplace and community through our Diversity, Equity and Inclusion (DEI) Plans.

During the year, we run events and awareness campaigns to recognise key dates of significance, including International Women's Day, Harmony Week, Pride Month, Wear it Purple Day and International Day of People with Disability, with teams across Shine eagerly showing their support.

Team members celebrated Pride Month with a lively panel discussion about what it means to be a good ally and at the Moreton Bay Pridefest, an event proudly sponsored by Shine.

Shine A Light Foundation

The Group's philanthropic initiative, the Shine A Light Foundation, awarded a \$15,000 grant (for the second year running) to charity partner, The Good Box, an Australian Charity and social enterprise dedicated to helping people experiencing homelessness to receive vital resources with dignity.

The Good Box is on a mission to abolish the misconceptions that prevent people from helping people experiencing homelessness by breaking these barriers and opening up meaningful conversations. They provide beautifully packaged boxes to those in need, filled with quality essential items such as food and hygiene products to help those experiencing homelessness.

Abuse and dust disease work

Shine undertakes significant and growing work representing survivors of abuse. We have expanded our growing abuse practice into South Australia, where we are fighting for justice for survivors abused in detention.

Our Dust Diseases team is continuing to lead the way in compensation claims for workers suffering from silicosis, a serious and potentially deadly lung disease impacting miners, stonemasons and construction and tunnelling industry workers.

Our team has been at the forefront of pioneering compensation outcomes for silica induced autoimmune diseases, including scleroderma, rheumatoid arthritis and lupus. Following tireless lobbying and advocacy by many groups including our team, Australia has become the first country to announce a ban on engineered stone, the manufacture, supply and installation of which was banned from 1 July 2024.

Modern Slavery

The Board has adopted a Modern Slavery Policy and Supplier Code of Conduct to reflect its commitment to protecting human rights. Shine lodged its fourth Modern Slavery Statement under the Modern Slavery Act 2018 with the Department of Home Affairs in December 2023.

Governance

The Board recognises the positive relationship between the creation and delivery of long-term shareholder value and corporate governance. Shine's corporate governance framework fosters the values of integrity, respect, trust and openness among and between the Board members, management, employees, clients, suppliers and shareholders.

Shine's Corporate Governance Statement is set out on the following pages.

Corporate Governance Statement

The ASX Corporate Governance Council's Corporate Governance Principles and Recommendations (fourth edition) (Principles and Recommendations) set out recommended corporate governance practices for ASX listed entities. The Principles and Recommendations state that they are designed to 'achieve good governance outcomes and meet the reasonable expectations of most investors in most situations'. The following assessment of the Group's compliance with the Principles and Recommendations as at 30 June 2024 has been approved by the Board.

Principles and Recommendations

Shine Justice Group's Compliance

Principle 1**Lay solid foundations for management and oversight:**

A listed entity should clearly delineate the respective roles and responsibilities of its board and management and regularly review their performance.

1.1 A listed entity should have and disclose a board charter setting out: a. the respective roles and responsibilities of its board and management; and b. those matters expressly reserved to the board and those delegated to management.	The Board is responsible for demonstrating leadership and for the overall strategic guidance and corporate governance of the Shine Justice Group. It has distinguished which functions and responsibilities are reserved for the Board and those which are delegated to management. These are set out in the Board Charter, which also sets out the role of the Chairman, Directors and management. The Board Charter is available on the Company's website (shinejustice.com.au).	
1.2 A listed entity should: a. undertake appropriate checks before appointing a director or senior executive or putting someone forward for election as a director; and b. provide security holders with all material information in its possession relevant to a decision on whether or not to elect or reelect a director.	Shine Justice conducts appropriate checks to verify the suitability of candidates considered for nomination to the Board, having regard to each candidate's character, experience, education and skills, in addition to any interests and associations of the candidate. Comprehensive biographical information is provided to shareholders in notices of meeting to enable them to make an informed decision on whether to elect or re-elect a Director.	
1.3 A listed entity should have a written agreement with each director and senior executive setting out the terms of their appointment.	All Directors and senior executives have a written agreement which formalises the terms of their appointment. Each Director commits to a letter of appointment which specifies the term of their appointment, the envisaged time commitment, expectations and duties relating to the position, remuneration, disclosure and confidentiality obligations, insurance and indemnity entitlements and details of the Group's corporate governance policies. Each member of the Leadership Team enters into a contract which describes their role and duties, remuneration and termination rights and entitlements.	
1.4 The company secretary of a listed entity should be accountable directly to the board on all matters to do with the proper functioning of the board.	The Company Secretary is accountable to the Board for facilitating the Company's corporate governance processes and the functioning of the Board. The Board is responsible for the appointment and removal of the Company Secretary and all Directors are able to access the advice and services of the Company Secretary. Details of the Company Secretary's qualifications and experience are available on the Company's website and are set out on page 16.	

Principles and Recommendations

Shine Justice Group's Compliance

- 1.5** A listed entity should:
- have and disclose a diversity policy;
 - through its board or a committee of the board set measurable objectives for achieving gender diversity in the composition of its board, senior executives and workforce generally; and
 - disclose in relation to each reporting period:
 - the measurable objectives set for that period to achieve gender diversity;
 - the entity's progress towards achieving those objectives; and
 - relevantly, the respective proportions of men and women on the board, in senior executive positions and across the whole workforce.

Shine Justice aims to actively promote a culture that supports diversity in the workplace, in the composition of its Board and senior management and throughout the Group. Shine Justice defines diversity as including, but not limited to, diversity of gender, age, ethnicity and cultural background.

Shine Justice's Diversity Policy is disclosed on the Company's website and sets out its objectives and reporting practices regarding diversity.

The Nomination and Remuneration Committee reviews and reports to the Board on the Group's diversity profile with a view to setting meaningful targets for the advancement of diversity within the Group. At present, the targets include to:

Target	Progress
Maintain female representation on the Board of at least 25% of the Non-executive Directors, with a view to increasing that percentage over time	The Board currently includes one female Director (25% of the Non-executive Directors). While an increase in that percentage is targeted over time, the size and constitution of the Board is considered appropriate for the size and needs of the Group at this time.
Analyse gender pay parity across the Group with a view to resolving any inconsistencies	Work is continuing in this regard, with good progress made in reducing any inconsistencies.
Implement the Group's second (Innovate) Reconciliation Action Plan	The Group adopted its second ('Innovate') Reconciliation Action Plan in FY23, with good progress made against the actions committed to in the plan (refer page 45 for more detail).
Introduce a formal Inclusion and Diversity Program	Our Diversity, Equity and Inclusion Committee launched during FY24, running events and awareness campaigns and recognising days of significance during the year (refer page 46 for more detail).

As at 30 June 2024:

- 20% of the Board members were women (25% of the Non-executive Directors);
- 60% of the Leadership Team were female; and
- 76% of the Group's team members were female.

- 1.6** A listed entity should
- have and disclose a process for periodically evaluating the performance of the board, its committees and individual directors; and
 - disclose for each reporting period whether a performance evaluation has been undertaken in accordance with that process during or in respect of that period.

The Board regularly undertakes an evaluation process to assess its performance.

The Board renewal process which was completed in 2020 included a detailed evaluation of the skills, knowledge, experience, independence and diversity required to ensure that the renewed Board and its Committees are ideally placed to perform their governance and other functions. A further internal evaluation process was conducted during 2024 to ensure that this remains the case.

Principles and Recommendations	Shine Justice Group's Compliance	
1.7 A listed entity should: a. have and disclose a process for evaluating the performance of its senior executives at least once every reporting period; and b. disclose for each reporting period whether a performance evaluation has been undertaken in accordance with that process during or in respect of that reporting period.	The Nomination and Remuneration Committee is responsible for evaluating the performance of the Key Management Personnel. The Chairman is also responsible for reviewing the performance of the Managing Director & CEO. A review of the performance of the Key Management Personnel in FY24 has been undertaken.	
Principle 2 Structure the Board to be effective and add value: The board of a listed entity should be of an appropriate size and collectively have the skills, commitment and knowledge of the entity and the industry in which it operates, to enable it to discharge its duties effectively and to add value.		
2.1 The board of a listed entity should: a. have a nomination committee which has at least three members, a majority of whom are independent directors and is chaired by an independent director; and b. disclose the charter, members and meeting attendance of the committee.	A Nomination and Remuneration Committee with its own charter and consisting of all three of the independent Directors was in place during the Financial Year. The Nomination and Remuneration Committee was chaired at all times by an independent Director (Graham Bradley) during the Financial Year. Details of the Nomination and Remuneration Committee's functions are set out in the Nomination and Remuneration Committee Charter which is available on the Company's website. Details of the number of meetings and attendance by the Directors at those meetings are disclosed on page 13.	

Principles and Recommendations	Shine Justice Group's Compliance										
2.2 A listed entity should have and disclose a board skills matrix setting out the mix of skills and diversity that the board currently has or is looking to achieve in its membership.	The skills, knowledge and experience set out in the table below have been identified as those that are required for the effective management of the Group. Principles and Recommendations	Shine Justice Group's Compliance	
2.3 A listed entity should disclose: a. the names of the directors that the board considers to be independent directors; and b. if a director has an interest, position or relationship of the type described in Box 2.3 of the Principles and Recommendations, but the board is of the opinion that it does not compromise the director's independence, the nature of the interest, position and relationship and an explanation of why the board is of that opinion; and c. the length of service of each director.	The Group currently has a five member Board, of whom three (Graham Bradley AM, Teresa Dyson and David Bayes) are considered to be independent. Non-executive Director Rod Douglas provided consultancy services including leadership and strategy mentoring to the Group during part of the Financial Year, so is not currently classified by the Board as independent. None of the Directors who are considered to be independent has an interest, position or relationship described in Box 2.3 of the Principles and Recommendations. The date of appointment of each Director and details of their skills and experience are set out on pages 13 to 15 and on the Website.	
2.4 A majority of the board of a listed company should be independent directors.	Three of the five Board members are considered to be independent – Graham Bradley AM, Teresa Dyson and David Bayes. In accordance with the Board Charter which is available on the Company's website, a Director is considered independent if the Director is independent of management and free of any business or other relationship that could materially interfere, or be perceived as interfering, with the exercise of an unfettered and independent judgment in relation to matters concerning the Company. Non-executive Director Rod Douglas provided consultancy services including leadership and strategy mentoring to the Group during part of the Financial Year, so is not currently classified by the Board as independent.	
2.5 The chair of the board of a listed entity should be an independent director and, in particular, should not be the same person as the CEO of the entity.	The Chairman, Graham Bradley AM, is an independent Non-executive Director. Simon Morrison is the Group's Managing Director & CEO.	
2.6 A listed entity should have a program for inducting new directors and for periodically reviewing whether there is a need for existing directors to undertake professional development to maintain the skills and knowledge needed to perform their role as directors effectively.	The Nomination and Remuneration Committee is responsible for induction and continuous development programs for Directors. Directors are encouraged to undertake continuing professional development activities each year and to join appropriate professional associations in order to continually develop and enhance their respective levels of industry knowledge, technical knowledge and other skills required to discharge their role effectively.	

Principles and Recommendations

Shine Justice Group's Compliance

Principle 3**Instil a culture of acting lawfully, ethically and responsibly:**

A listed entity should instil and continually reinforce a culture across the organisation of acting lawfully, ethically and responsibly.

3.1	A listed entity should articulate and disclose its values.	The Shine Justice Group's values are integral to its operations at all levels. They are included on its intranet and website and are embedded regularly throughout the business in a variety of formats. They appear on page 5 of this report.	✓
3.2	A listed entity should: a. have and disclose a code of conduct for its directors, senior executives and employees; and b. ensure that the board or a committee of the board is informed of any material breaches of that code.	Shine Justice has a Code of Conduct for Directors, executives, employees, consultants and contractors which sets out the fundamental principles of business conduct expected by the Company. The Code of Conduct is available on the Website. Any material breaches of the Code of Conduct are reported to the Audit & Risk Management Committee. No material breaches were reported during FY24.	✓
3.3	A listed entity should: a. have and disclose a whistleblower policy; and b. ensure that the board or a committee of the board is informed of any material incidents reported under that policy.	The Shine Justice Group has a Whistleblower Policy under which any unlawful, unethical or improper conduct may be reported, including anonymously and to an independent external body. Any material incidents reported under the policy are reported to the Audit & Risk Management Committee. No material incidents were reported during FY24.	✓
3.4	A listed entity should: a. have and disclose an anti-bribery and corruption policy; and b. ensure that the board or a committee of the board is informed of any material breaches of that policy.	The Shine Justice Group's anti-bribery and corruption policy is included in its Code of Conduct. Any material breaches of the policy are reported to the Audit & Risk Management Committee. No material breaches were reported during FY24.	✓

Principles and Recommendations

Shine Justice Group's Compliance

Principle 4**Safeguard the integrity of corporate reports:**

A listed entity should have appropriate processes in place to verify the integrity of its corporate reports.

4.1 The board of a listed entity should: a. have an audit committee with at least three members, all of whom are non-executive directors and a majority of whom are independent directors, is chaired by an independent director who is not the chair of the board; and b. disclose the charter of the committee, the qualifications and experience of its members and their attendance at committee meetings.	The Board has an Audit & Risk Management Committee, comprised of the three independent Non-executive Directors and chaired by an independent Non-executive Director (Teresa Dyson). Further details about the membership of the Audit & Risk Management Committee, including the names and qualifications of its members, are set out on pages 14 and 15. The Charter of the Audit & Risk Management Committee is available on the Company's website along with information about its members. The number of meetings held by the Committee and the Directors' attendance at meetings is disclosed each year in the Group's annual report and can be found on page 13 for FY24.	
4.2 The board of a listed entity should, before it approves the entity's financial statements for a financial period, receive from its CEO and CFO a declaration that, in their opinion, the financial records of the entity have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.	The Managing Director & CEO and the CFO each provide a statement to the Board and the Audit & Risk Management Committee in advance of seeking approval of any financial report to the effect that the Group's risk management and internal control systems are operating effectively in all material respects. In accordance with the above, the Board has received a written assurance that the declaration provided under section 295A of the Corporations Act is based on a sound system of internal control and risk management, which is operating effectively in all respects in relation to material business risks and financial reporting.	
4.3 A listed entity should disclose its process to verify the integrity of any periodic corporate report it releases to the market that is not audited or reviewed by an external auditor.	The Group's half year financial statements are reviewed by its external auditor and its full year financial statements are audited by its external auditors. A verification process is undertaken in relation to the Directors' Report and any part of this document which is not audited, to ensure that it is materially accurate, balanced and provides investors with appropriate information to make informed investment decisions. The process includes compiling a record of verification material for any material statement of fact.	

Principles and Recommendations

Shine Justice Group's Compliance

Principle 5**Make timely and balanced disclosure:**

A listed entity should make timely and balanced disclosure of all matters concerning it that a reasonable person would expect to have a material effect on the price or value of its securities.

5.1	A listed entity should have and disclose a written policy for complying with its continuous disclosure obligations under Listing Rule 3.1.	The Company has a Continuous Disclosure Policy which is designed to ensure that all material matters are appropriately disclosed in a balanced and timely manner and in accordance with the requirements of the Listing Rules. The policy sets out the processes and practices that ensure compliance with these requirements. The Continuous Disclosure Policy is published on the Company's website.	✓
5.2	A listed entity should ensure that its board receives copies of all material market announcements promptly after they have been made.	In accordance with the Continuous Disclosure Policy, material market announcements are approved by the Directors in advance whenever practicable. If for any reason that is not possible, they receive a copy immediately following release.	✓
5.3	A listed entity that gives a new and substantial investor or analyst presentation should release a copy of the presentation materials on the ASX Market Announcements Platform ahead of the presentation.	New and substantial investor or analyst presentations are released to the market ahead of presentation.	✓

Principle 6**Respect the rights of security holders:**

A listed entity should provide its security holders with appropriate information and facilities to allow them to exercise their rights as security holders effectively.

6.1	A listed entity should provide information about itself and its governance to investors via its website.	The Company's website contains information about the Company, its values and business activities and other information relevant to investors. Investors may access copies of ASX announcements, notices of meeting and annual reports, as well as general information about the Company, on the Website.	✓
6.2	A listed entity should have an investor relations program that facilitates effective two-way communication with investors.	The Company conducts regular market briefings, including interim and full year results presentations and investor roadshows in order to facilitate communication with investors and other stakeholders. Presentation material is provided to ASX and uploaded to the Website to ensure that all shareholders have timely access to information. The Company aims to ensure that all shareholders are well informed of all major developments affecting the Group.	✓
6.3	A listed entity should disclose how it facilitates and encourage participation at meetings of security holders.	Shareholders are encouraged to attend the Company's annual general meeting and to ask questions of Directors. The notice of meeting includes a process to enable shareholders to submit questions to the Board and the Company's auditor prior to the meeting.	✓
6.4	A listed entity should ensure that all substantive resolutions at a meeting of security holders are decided by a poll rather than by a show of hands.	All resolutions at the Company's general meetings are decided by a poll.	✓

Principles and Recommendations		Shine Justice Group's Compliance	
6.5	A listed entity should give security holders the option to receive communications from, and send communications to, the entity and its security registry electronically.	Shine provides its investors with the option to receive communications from, and send communications to, the Company and the share registry electronically.	✓
Principle 7 Recognise and manage risk: A listed entity should establish a sound risk management framework and periodically review the effectiveness of that framework.			
7.1	The board should a. have a committee to oversee risk which has at least three members, a majority of whom are independent directors and is chaired by an independent director; and b. disclose the charter, members and meeting attendance of the committee.	The Board has an Audit & Risk Management Committee, comprised of the three independent Non-executive Directors and chaired by an independent Non-executive Director (Teresa Dyson). Further details about the membership of the Audit & Risk Management Committee, including the names and qualifications of its members, are set out on pages 14 and 15. The Charter of the Audit & Risk Management Committee is available on the Website along with information about its members. The number of meetings held by the Committee and the Directors' attendance at meetings is disclosed each year in the Group's annual report and can be found on page 13 for FY24.	✓
7.2	The board or a committee of the board should: a. review the entity's risk management framework at least annually to satisfy itself that it continues to be sound and that the entity is operating with due regard to the risk appetite set by the board; and b. disclose, in relation to each reporting period, whether such a review has taken place.	The Board is responsible for the oversight and management of risk, including the identification of material business risks on an ongoing basis and is assisted by the Audit & Risk Management Committee where required. A review of material business risks has been conducted in the Financial Year, which concluded that controls over risk management processes were adequate and effective.	✓
7.3	A listed entity should disclose if it has an internal audit function, how the function is structured and what role it performs.	The Company has an Internal Audit function which reports directly to the Chair of the Audit & Risk Management Committee in order to maintain independence. The Internal Audit & Risk Manager reviews the systems of internal control and risk management to ensure compliance with the Group's published policies and procedures and its legal and regulatory obligations. Reviews of specific areas of risk or control are undertaken by a combination of internal and external parties on an ad-hoc basis and by the Company's internal and external auditors as required for the Group's audit. Improvements are made where identified to increase the effectiveness of the Group's internal controls.	✓
7.4	A listed entity should disclose whether it has any material exposure to environmental or social risks and, if it does, how it manages or intends to manage those risks.	The Group's exposure to material business risks is disclosed in the Directors' Report on pages 40 and 41. The Directors do not believe the Group has any material exposure to environmental or social risks. The Group has adopted an Environmental Sustainability Policy and a Modern Slavery Policy (and supporting Supplier Code of Conduct), each of which appear on the Website. Shine Justice has lodged Modern Slavery Statements with the Department of Home Affairs in accordance with the <i>Modern Slavery Act 2018</i>. Further information about the Group's environmental, social and governance profile is set out commencing on page 44.	✓

Principles and Recommendations

Shine Justice Group's Compliance

Principle 8**Remunerate fairly and responsibly:**

A listed entity should pay director remuneration sufficient to attract and retain high quality directors and design its executive remuneration to attract, retain and motivate high quality senior executives and to align their interests with the creation of value for security holders and with the entity's values and risk appetite.

8.1 The board should: a. have a remuneration committee which has at least three members, the majority of whom are independent directors and which is chaired by an independent director; and b. disclose the charter, members and meeting attendance of the committee.	A Nomination and Remuneration Committee, consisting of all three independent Directors and chaired by an independent Director, assisted the Board to discharge its responsibilities in relation to remuneration and issues relevant to remuneration policies and practices, including those for senior management and Non-executive Directors, during the Financial Year. The number of meetings held by the Committee and the Directors' attendance at meetings is disclosed each year in the Group's annual report and can be found on page 13 for FY24. The Charter of the Committee is available on the Website.	
8.2 A listed entity should separately disclose its policies and practices regarding the remuneration of non-executive directors, and the remuneration of executive directors and other senior executives.	The Company seeks to attract and retain high-performing Directors and executives with the experience, skills and qualifications necessary to add value to the Company and fulfil the roles required. Accordingly, the Company seeks to recruit by offering remuneration which is competitive for comparable executive roles. Further information about key factors affecting Director and executive remuneration are disclosed each year in the Remuneration Report which can be found commencing on page 18.	
8.3 A listed entity which has an equity-based remuneration scheme should: a. have a policy on whether participants are permitted to enter into transactions (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the scheme; and b. disclose that policy or a summary of it.	Details of the Group's equity based remuneration scheme are set out in the Remuneration Report commencing on page 18. The equity based remuneration scheme prohibits transactions which conflict with the Group's Securities Trading Policy (which prohibits Directors and executives from entering into margin lending arrangements or short-term trading in relation to Company securities). A copy of the Securities Trading Policy is available on the Website.

1. Significant changes in the current reporting period

The financial position and performance of the Group included the following events and transactions during the reporting period:

- The sale of Best Wilson Buckley Family Law Pty Ltd subsidiary effective 30 June 2024.
- Divestment of Commercial Disputes, Employment and Private Client Services worktypes.

The above activities form part of the ongoing strategy to focus on Class Actions within the NPA segment.

The Group remains well placed to grow revenues organically through ongoing practice innovation.

The Group has sufficient headroom to enable it to conform to covenants on its existing borrowings and sufficient working capital and undrawn financing facilities to service its operating activities.

Emerging business risks

There were no new significant business risks that impacted the financial performance or financial position of the Group as at 30 June 2024.

For a further discussion about the Group's performance and financial position please refer to the operating and financial review on pages 38 to 41.

How Numbers are Calculated

This section provides additional information about those individual line items in the financial statements that the Directors consider most relevant in the context of the operations of the Group, including:

- (a) accounting policies that are relevant for an understanding of the items recognised in the financial statements. These cover situations where the accounting standards either allow a choice or do not deal with a particular type of transaction
- (b) analysis and subtotals, including segment information, and
- (c) information about estimates and judgements made in relation to particular items. relation to items.

2. Segment information

a. Description of segments and principal activities

The Group's Managing Director examines the Group's performance from a legal service perspective and has identified two reportable segments of its business:

i. Personal Injury

Personal injury remains the core business in damages-based plaintiff litigation.

The Shine Lawyers Core PI business includes:

- motor vehicle accidents
- abuse law
- workers' compensation
- public liability
- head trauma, and
- Catastrophic injuries

In addition, other brands included within this segment are:

- SB Law Pty Ltd
- Sciacas Lawyers Pty Ltd
- Bradley Bayly Holdings Pty Ltd
- Claims Consolidated Pty Ltd, and
- Claimify Legal Pty Ltd

Head trauma is now included in the PI segment effective 1 July 2023. The Group has restated the previously reported segment information for the year ended 30 June 2023 as required by AASB 8.

ii. NPA

The NPA segment includes those worktypes not considered Core PI.

The Shine Lawyers NPA business includes:

- class actions
- disability insurance and superannuation claims
- asbestos and dust disease
- medical law
- commercial disputes (in wind-down)
- employment (closed during the financial year)
- private client services (sold during the financial year), and
- family law

In addition, other brands included within this segment are:

- Shine NZ Services Pty Ltd
- Best Wilson Buckley Family Law Pty Ltd (sold effective 30 June 2024)
- Carr & Co Divorce and Family Lawyers Pty Ltd
- Risk Worldwide New Zealand Limited
- Shine Lawyers US, LLC, and
- My Insurance Claim Pty Ltd

The business undertaken by Risk Worldwide New Zealand Limited and My Insurance Claim Pty Ltd does not meet the specific criteria in AASB 8 *Operating Segments* which means it is not considered as its own reporting segment. Therefore, as the business currently accounts for significantly less than 10% of the Group revenue, profit or assets, this business has been grouped under New Practice Areas, as permitted under AASB 8.

iii. Other

The column includes corporate head office and Group services.

The Managing Director primarily uses a measure of:

- Adjusted earnings before interest, tax, depreciation and amortisation (Adjusted EBITDA), and
- gross operating cash flow (GOCF)

to assess the financial performance of the operating segments.

The Managing Director also receives information about the segments' revenue and assets on a monthly basis.

Information about segment revenue is disclosed in note 3.

Accounting policy

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The Managing Director assesses the financial performance and position of the Group and makes strategic decisions.

2. Segment information (continued)

b. Adjusted EBITDA

Adjusted EBITDA excludes discontinued operations and the significant items of income and expenditure which may have an impact on the quality of earnings such as legal expenses and impairments where the impairment is a result of an isolated, non-recurring event.

Interest income and finance costs are not allocated to segments, as this type of activity is driven by the Group finance function, which manages the cash position of the Group.

Adjusted EBITDA is not an IFRS measure and excludes those costs which are managed by the Group finance function.

Adjusted EBITDA reconciles to operating profit after income tax as follows:

	Notes	2024 \$'000	2023 \$'000
Profit after income tax from continuing operations		6,206	3,460
Finance costs		9,657	7,662
Depreciation and amortisation		15,366	15,888
Income tax expense		3,442	2,603
Interest revenue		(838)	(623)
Fair value adjustment on Ethicon Mesh unbilled disbursements		-	32,400
WIP write-off associated with Ethicon and Boston Scientific Mesh class actions		7,632	-
Fair value losses on deferred consideration		1,956	-
Restructuring costs		1,582	-
Adjusted EBITDA from continuing operations		45,003	61,390

Adjusted EBITDA based on the operations of the segments is shown below:

	2024 \$'000	2023 \$'000
Personal Injury	31,647	42,950
NPA	12,646	17,067
Other	710	1,373
Adjusted EBITDA	45,003	61,390

2. Segment information (continued)

c. GOCF

The Managing Director utilises GOCF as a key measure to monitor cashflow generated from operations.

GOCF is not an IFRS measure and excludes those costs which are managed by the Group finance function.

GOCF reconciles to Net cash inflows from operating activities as follows:

	2024 \$'000	2023 \$'000
Cash inflow from operating activities	49,444	4,820
Net cashflows from disbursement funding	(4,139)	(16,057)
Finance costs paid	8,358	5,883
Income taxes (refunded) / paid	(1,030)	2,072
Interest received	(838)	(623)
Gross Operating Cash Flow in / (out)	51,795	(3,905)

In the 2023 financial year, net cashflows from disbursement funding includes an amount of \$22,601,000 which was repaid to the disbursement funder following the interim Ethicon Mesh hearing in April 2023. This amount included \$15,657,000 of Shine professional fees which would ordinarily not be repaid to the disbursement funder but was done to mitigate the interest accruing on the facility. Shine also made in the 2023 financial year a fair value adjustment of \$32,400,000.

d. Segment assets

Segment assets are measured in the same way as in the financial statements. These assets are allocated based on the operations of the segment.

	2024 \$'000	2023 \$'000
Personal Injury	419,133	401,039
NPA	161,365	204,191
Other	12,078	16,067
Total assets as per the balance sheet	592,576	621,297

The total of non-current assets other than financial instruments, broken down by location of the assets, is shown below.

	2024 \$'000	2023 \$'000
Australia	242,538	259,892
New Zealand	1,416	1,736
Total non-current assets as per the balance sheet	243,954	261,628

2. Segment information (continued)

e. Segment liabilities

Segment liabilities are measured in the same way as in the financial statements. These liabilities are allocated based on the operations of the segment.

The Group's borrowings and derivative financial instruments are not considered to be segment liabilities but are managed by the Group finance function.

	2024 \$'000	2023 \$'000
Personal Injury	90,772	107,883
NPA	55,302	61,074
Other	922	989
Total segment liabilities	146,996	169,946
Unallocated:		
Deferred tax liabilities	116,675	116,083
Borrowings	55,530	64,424
Current tax liability	747	-
Total liabilities as per the balance sheet	319,948	350,453

3. Revenue

a. Revenue from contracts with customers

The Group derives revenue from the transfer of services over time under contracts that are either no-win-no-fee or time and materials based, with a fee that is either fixed or variable in the following major segment lines:

	Personal Injury		NPA		Other		Total	
	2024 \$'000	2023 \$'000	2024 \$'000	2023 \$'000	2024 \$'000	2023 \$'000	2024 \$'000	2023 \$'000

Total segment revenue	145,538	153,493	50,196	69,660	2,855	3,080	198,589	226,233

Revenue from external customers comes from the provision of legal services. The revenue from both Personal Injury and New Practice Areas relates to the Shine Lawyers brand as well as other Group brands.

The Group does not derive any revenue from any single external customer which is greater than 10% of total revenue.

The amount of its revenue from external customers broken down by location of the customers is shown below.

	2024 \$'000	2023 \$'000
Australia	195,674	222,928
New Zealand	60	209
Revenue from external customers	195,734	223,137

3. Revenue (continued)

c. Assets and liabilities related to contracts with customers

The Group has recognised the following assets and liabilities related to contracts with customers:

	2024 \$'000	2023 \$'000
Current contract assets relating to work in progress	189,120	210,521
Non-current contract assets relating to work in progress	167,252	170,412
Total contract assets	356,372	380,933

There are no liabilities relating to contracts with customers.

Head Trauma is now included in the PI segment effective 1 July 2023. The Group has restated the previously reported segment information for the year ended 30 June 2023 as required by AASB 8.

Accounting policy

Work in progress (WIP) represents revenue recognised (costs incurred and profit recognised) on client cases that are in progress and have not yet been invoiced at the end of the reporting date. WIP is recorded at its recoverable amount.

The Company recognises WIP where it is highly probable that the WIP will be recovered on completion of the matter. In assessing the probability of a significant reversal of revenue and hence WIP, Shine reviews the historical recovery rates of closed cases across similar matter types and stages of completion for the past 18 months. The calculated closed file recovery rate includes both matters that were billed and those that were closed with no fee.

Cases that have been identified as unlikely to be successful but not yet closed are not considered to be highly probable and no WIP or revenue is recognised for these matters.

Work in progress and revenue recognition on some larger cases, such as class actions and major claims, consider the specific aspects of each case or class action, including any third-party funding arrangements that may be applicable to the action.

Where there is a risk of a significant reversal of revenue in a future period the revenue and associated work in progress in relation to those matters are not recognised in the current reporting period. The Group also assesses on a forward-looking basis the expected credit loss associated with its WIP balances. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Historical experience and knowledge of the client cases has been used to determine the carrying amount of work in progress at balance date and the classification between current and non-current.

3. Revenue (continued)

d. Revenue streams

i. Legal services: No-win-no-fee variable

This revenue stream operates based on contingent fee arrangements, whereby fees are earned only if there is a successful outcome of a matter. Revenue is recognised on either:

- a. time recorded and materials basis net of any constraint of variable consideration, or
- b. a combination of milestone scale, time and materials basis net of any constraint of variable consideration

Certain larger matters including some class actions are undertaken on a partially or fully funded basis. The Group has arrangements with third party funders to provide a portion of the fees receivable over time as services are performed. In such arrangements, the funded portion of fees is billed and recognised as revenue regularly over time and is not contingent on the successful outcome of the matter. The remaining portion of fees is variable consideration which is conditional on the successful resolution of the litigation. The variable consideration is included in revenue as services are performed only to the extent that it is highly probable that the amount will not be subject to significant reversal when the uncertainty is resolved.

ii. Legal services: No-win-no-fee fixed

This revenue stream operates based on contingent fee arrangements, whereby fees are earned only if there is a successful outcome of a matter.

Revenue is recognised on a time recorded and materials basis net of any constraint of variable consideration.

iii. Legal services: Time and materials

The Group earns revenue through a broad range of disciplines within its NPA segment. Fee arrangements include fixed fee arrangements and unconditional fee for service arrangements (time and materials). Revenue is recognised over time in the accounting period when services are rendered.

For unconditional time and materials contracts, revenue is recognised in line with the amount of fees that the Group is entitled to invoice for services performed to date based on contracted rates.

The Group has taken advantage of the practical expedient as set out in AASB 15 as the Group has a right to consideration from a customer in an amount that corresponds directly with the value to the customer of the Group's performance completed to date (as matters are billed for a fixed amount for each hour of service provided) and as such the Group has recognised revenue in the amount to which the Group has a right to invoice less any constraint on variable consideration.

Accounting policies and significant judgements

Estimating variable consideration

Under AASB 15, where consideration in respect of a contract is variable, revenue can only be recognised to the extent that it is highly probable that the cumulative amount of revenue recognised in respect of a contract will not be subject to a significant reversal when the uncertainty associated with the variable consideration is subsequently resolved (this is referred to as the 'constraint' requirement). WIP has been recognised net of a constraint of \$90,386,000 (2023: \$82,680,000).

The Group has determined statistically that its existing modelling for expected losses for contingent matters is compliant with the constraint requirements for variable consideration.

Performance obligations

Performance obligations within contracts outline the specific goods and services that are to be delivered to the customer over the life of the contract. For legal services, contracts with clients generally comprise a single distinct performance obligation, being the provision of services in pursuit of the successful settlement of a customer's claim, and the transaction price is allocated to this single performance obligation. Some contracts contain multiple deliverables – for example in respect of a statutory claim and a common law claim, or initial pre-issue work and litigation work. In such circumstances, these multiple deliverables are considered to represent a single distinct performance obligation, given there is a significant level of integration performed by the Group in delivering these services.

Transaction price – variable

The Group provides various services based on contingent fee arrangements. The uncertainty around the fees ultimately receivable under these types of contracts is generally only fully resolved when a matter is concluded.

Where the Group has sufficient historical experience in similar contracts in order to be able to estimate the expected outcome of a group of existing contracts reliably, revenue is estimated using the "expected value" method. Revenue is recognised only to the extent that it is highly probable that the cumulative amount of revenue recognised in respect of a contract at the end of a

3. Revenue (continued)

reporting period will not be subject to significant reversal when a matter is concluded.

To determine the probability of success of a case using the expected value method, a level of judgement is required to be applied based on past experience and historical performance of similar matters. The estimated amount of variable consideration is based on the expected fee for the nature of the legal service provided with reference to historical fee levels and relative rates of successful and unsuccessful outcomes.

Where historical averages are not predictive of the probability of outcomes for a given contract, or where the Group has limited historical experience with similar contracts, the expected amount of variable consideration is estimated using a most likely amount approach on a contract by contract basis. In such circumstances, a level of judgement is required to determine the likelihood of success of a given matter, as well as the estimated amount of fees that will be recovered in respect of the matter.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

Measuring progress of completion

Revenue is recognised when control of a service is transferred to the customer. The Group recognises revenue in matters 'over time' (as opposed to at a 'point in time') as the customer receives and consumes the benefits of the contract as the Group provides the promised goods and services. A stage of completion approach is used to measure progress towards completion of the performance obligation.

The stage of completion is determined using either:

- Time recorded productivity adjusted for potential billing write-offs and unsuccessful matters,
- Milestone recognition driven by activities representing matter progression, adjusted for potential billing write-offs and unsuccessful matters, or
- Judgement based estimates of percentage of completion. The percentage of completion is determined by comparing the work performed to date against the expected fee to be billed at the conclusion of the matter, considering the approximate amount of time incurred and any potential uplifts/ downsides that may be present upon completion.

Disbursements

Disbursements (costs from third parties in relation to matters) are arranged on behalf of the client. The Group cannot influence the services or goods provided by disbursement suppliers, therefore no profit margin is recognised on the activities when clients are on-charged the cost incurred by the Group. The Group acts as an agent for disbursements and no revenue is recognised. The disbursements recoverable at the end of the matter are treated as a separate financial asset measured at fair value through the profit or loss.

Conversion of work in progress to receivable

The conversion of work in progress to a receivable in relation to services is recognised when a bill has been raised, as this is the point in time that the consideration becomes unconditional because only the passage of time is required before the payment is due. For No-win-no-fee matters, billing occurs when the matter is successfully resolved. For non-contingent revenue contracts, billing occurs over the life of the contract in line with contractual terms.

No significant financing component

Generally, the Group provides services to customers over multiple accounting periods.

The Group has determined that no significant financing component exists in respect of its revenue streams. The reasoning for this decision is as follows:

- For contingent matters, a substantial amount of the consideration promised by the customer is variable subject to the occurrence or non-occurrence of a future event that is not substantially within the control of the customer or the Group, and
- With respect to fee for service and fixed fee arrangements, a substantial amount of the consideration promised by the customer is variable subject to the occurrence or non-occurrence of a future event that is not substantially within the control of the customer or the Group.

4. Other income and expense items

This note provides a breakdown of the items included in other income, other gains/(losses), costs and an analysis of expenses by nature. Information about specific profit and loss items (such as gains and losses in relation to financial instruments) is disclosed in the related balance sheet notes.

a. Other income

	2024 \$'000	2023 \$'000
Services management fee	1,583	1,723
Interest income	838	623
Other	434	750
Total other income	2,855	3,096

i. Interest income

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit impaired. For credit impaired financial assets, the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance). This amount excludes amounts of interest recovered on unbilled disbursements. Refer also Note 4(d).

ii. Services management fee

Sales of goods, rent, and services to Shine Lawyers NZ Ltd, an affiliated entity of the Group. Refer to note 18 for further detail.

b. Other gains/(losses)

Accounting policy

Current income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated based on the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate based on amounts expected to be paid to the tax authorities.

Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in foreign operations where the company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

6. Financial assets and financial liabilities

This note provides information about the Group's financial instruments, including:

- an overview of all financial instruments held by the Group
- specific information about each type of financial instrument
- accounting policies, and
- information about determining the fair value of the instruments, including judgements and estimation uncertainty involved.

The Group holds the following financial instruments:

FINANCIAL ASSETS	Notes	2024 \$'000	2023 \$'000
Assets at amortised cost

The Group's exposure to various risks associated with the financial instruments is discussed in note 11. The maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of financial assets mentioned above.

Accounting policy

Classification

The Group classifies its financial assets in the following measurement categories:

- those measured subsequently at fair value (either through Other comprehensive income (OCI) or through
- profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

Recognition and derecognition

Purchases and sales of financial assets are recognised on trade date, being the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

Measurement

At initial recognition, the Group measures a financial asset at its fair value (plus, in the case of a financial asset not at fair value through profit or loss (FVPL)), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Impairment

The Group assesses on a forward-looking basis the expected credit loss associated with its trade receivables carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

The Group applies the simplified approach permitted by AASB 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables, see note 11(c) for further details.

6. Financial assets and financial liabilities (continued)

a. Trade and other receivables

	Notes	2024 \$'000	2023 \$'000
Current			
Trade receivables from contracts with customers		9,763	12,481
Loss allowance	11(c)	(871)	(1,043)
		8,892	11,438
Other receivables		392	1,358
Total trade and other receivables – current		9,284	12,796
Non-current			
Trade receivables from contracts with customers		1,819	536
Loss allowance	11(c)	(602)	-
Total trade and other receivables – non-current		1,217	536
Total trade and other receivables		10,501	13,332

i. Fair values of trade receivables

Due to the short-term nature of the current receivables, their carrying amount is the same as their fair value.

ii. Impairment and risk exposure

Information about the impairment of trade receivables and the Group's exposure to credit risk and foreign currency risk can be found in note 11(c) and 11(b).

Accounting policy

Trade receivables are amounts due from customers for services performed in the ordinary course of business. Trade receivables expected to be collected within 12 months of the end of the reporting period are classified as current. All other trade receivables are classified as non-current.

Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method less loss allowance.

Details about the Group's impairment policies and the calculation of the loss allowance are provided in note 11(c).

6. Financial assets and financial liabilities (continued)

b. Other financial assets at amortised cost

Financial assets at amortised cost include the following debt investments:

	Notes	2024 \$'000	2023 \$'000
Current			
Loans to related parties (i)		-	1
Total other financial assets at amortised cost - current		-	1
Non-current			
Loans to related parties (i)		7,219	6,264

Total other financial assets at amortised cost – non-current		7,219	6,243
Total other financial assets at amortised cost		7,219	6,244

i. Loans to related parties

Further information relating to loans to related parties is set out in note 18.

ii. Impairment and risk exposure

Information about the impairment of loans to related parties and the Group's exposure to credit risk can be found in note 11(c).

Accounting policy

The Group classifies its financial assets as at amortised cost only if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cash flows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

6. Financial assets and financial liabilities (continued)

c. Cash and cash equivalents

	Notes	2024 \$'000	2023 \$'000
Current assets			
Cash at bank and in hand		29,427	21,088
Balance per statement of cash flows	9(b)	29,427	21,088

i. Classification as cash equivalents

Term deposits are presented as cash equivalents if they have a maturity of three months or less from the date of acquisition and are receivable with 31 days' notice with an interest adjustment based on the percentage of the original term elapsed as at the end of the 31-day notice period.

ii. Restricted cash

There is no restricted cash held by the Group (2023: \$nil).

Accounting policy

For the purpose of presentation in the consolidated statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less and that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

6. Financial assets and financial liabilities (continued)

d. Unbilled disbursements

	Notes	2024 \$'000	2023 \$'000
Current		56,935	53,812
Non-current		38,477	35,240
Total unbilled disbursements	6(i)	95,412	89,052

i. Classification as unbilled disbursements

Accounting policy

Disbursements represent costs incurred on behalf of clients during a matter that are recovered from clients on case resolution.

Shine utilises Deferred Payment facilities, Credit facilities and Exclusive Service Provider deeds (as described in Note 6(g)) to facilitate funding some of its disbursements. In some cases, client cost agreements specifically give Shine the right to recover fees, interest and charges incurred on these facilities.

Unbilled disbursements represent the contractual right to receive cash on settlement of a case. As the recovery of this cash flow is contingent on the success of a case, this financial asset is measured at fair value through profit and loss given these contractual cash flows are not solely principal plus interest.

Where, through funding arrangements, the right to recover the cash flows on successful resolution of the case is transferred to the funders (as described in note 6(g)), consideration is given as to whether the asset should be derecognised. Where Shine provides a guarantee to the Funder in the event of an unsuccessful outcome, or should there be insufficient proceeds on settlement of the case, Shine retains substantially all of the risks and rewards. This asset continues to be recognised and a liability is recorded representing the cash advanced by the Funders.

The fair value of the asset is determined through the accumulation of reimbursable costs and interest (for those client contracts where Shine is entitled to recover those costs) adjusted by a fair value measurement reflecting Shine's estimate of the

recoverability of those costs on settlement of the cases

The Group determines the classification between current and non-current by evaluating the expected timing of settlements and billings of each case, considering historical trends and average length of time that cases are open.

Interest with respect to these arrangements is outlined in Note 4(d).

A fair value adjustment is made to unbilled disbursements and associated interest based on the Group's history of amounts not recovered over previous years where there is demonstrated evidence that informs the consideration of the fair value of the asset. A specific assessment is made on a case-by-case basis on the recoverability of disbursements on major no win no fee cases such as class actions.

The fair value of interest recoverable is included within this balance due to the contractual arrangements Shine holds with their clients to recover these costs in funding the client matters. As at 30 June 2024, this amount was \$9.9 million (2023: \$8.2 million) with the remaining balance primarily representing barrister fees, expert report costs and medical fees.

6. Financial assets and financial liabilities (continued)

ii. Fair values of unbilled disbursements

It has been assessed whether the unbilled disbursements are held at 'at risk' could impact the analysis that Shine is the agent rather than principal in respect of the disbursements under AASB 15.

In assessing the indicators whether the Group might be considered a principal under AASB 15, it is noted that the Group:

- is not responsible for fulfilling the promise of providing the good or service (e.g., Shine is not responsible for providing a medical report)
- does not have inventory risk in respect of the underlying good or service (e.g., in respect of a medical report), and
- does not have price discretion in respect of the disbursements (as this sits with the disbursement provider e.g., the doctor).

None of these indicators are impacted by the fact that the disbursements receivable is at risk, and therefore it has been assessed as appropriate that Group continues to be considered an agent in respect of disbursements.

See note 6(i) for more detail relating to the recognition of fair value measurements.

e. Other financial assets at fair value through profit or loss

i. Classification of financial assets at fair value through profit or loss

Financial assets mandatorily measured at FVPL include the following:

	Notes	2024 \$'000	2023 \$'000
Current			
Deferred consideration	13(c)	5,406	1,894

Total trade and other payables - current		103,292	108,327

i. Disbursement funding creditors

See note 6(g) for further details.

ii. Other disbursement creditors

Disbursements payable by Shine which is not funded by an external disbursement funder. These include speculative matters and barristers' fees which are payable on the settlement of a case.

Accounting policy

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days to 24 months of recognition.

Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period or there is no unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Deferred Payment Agreement

Shine Lawyers Pty Ltd has a Deferred Payment Agreement with a third party to fund disbursements incurred on behalf of Shine's clients. The disbursement funder reimburses Shine for disbursements incurred in respect of individual client matters and the disbursement funder is subsequently repaid out of settlement proceeds on completion of the matter. Should there be insufficient proceeds on settlement of a case or a case be unsuccessful Shine has the primary responsibility to repay the disbursement.

The principal drawdown on the Deferred Payment Agreement at 30 June 2024 \$30,345,000 (2023: \$39,813,000) reflecting total disbursements that are funded. Total accrued interest is \$15,379,000 (2023: \$13,589,000). The principal and interest in aggregate represents the Group's maximum potential exposure. The comparative figures have been adjusted to recognise an increased facility limit and undrawn limit available.

Credit contracts and Exclusive Service Provider Deed

Shine Justice Ltd and Shine Lawyers has an Exclusive Service Provider Deed with a third party that establishes a disbursement funding facility.

Disbursement loans are provided directly to clients of the Group by the funder for the sole purpose of funding disbursements. The funding agreement is between the client and the funder. Should there be insufficient proceeds on settlement of a case or case be unsuccessful Shine has guaranteed to repay the disbursement on behalf of the client.

There is no limit to the total value of client loans that can be approved by the third party. The total principal drawdown at 30 June 2024 was \$27,689,000 (2023: \$22,365,000).

Accounting policy

The amount of disbursements funded under these facilities is recognised within disbursement funding creditors (see note 6(g)) and an offsetting amount is recognised in unbilled disbursements (debtors), where there is a contractual right for the Group to do so.

A fair value adjustment is recognised against unbilled disbursements to reflect the value of unrecoverable disbursements and funding fees which were not expected to be recovered from clients.

6. Financial assets and financial liabilities (continued)

h. Borrowings

Financing arrangements

The Group's borrowing facilities were as follows:

	Notes	2024 \$'000	2023 \$'000
Variable rate – bank loans

Non-current	9(b)	45,000	-
Total borrowings		55,530	72,569

6. Financial assets and financial liabilities (continued)

i. Compliance with loan covenants

Refer to note 12(a) for details of compliance with covenants.

ii. Fair value

For most of the borrowings, the fair values are not materially different from their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short-term nature.

iii. Risk exposures

Details of the Group's exposure to risks arising from current and non-current borrowings are set out in note 11.

On 20 December 2023, the Group entered a deed of variation with the primary lender to extend the maturity dates until at least 31 March 2026 on the same or better commercial terms.

iv. Lease Reclassification

Refer to Note 7(a)(i) for details regarding a change in presentation for the prior period.

Accounting policy

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all the facility will be drawn down, the fee is capitalised as a prepayment and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs. Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

6. Financial assets and financial liabilities (continued)

i. Recognised fair value measurements

i. Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised and measured at fair value in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standards. An explanation of each level follows underneath the table.

	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Recurring fair value measurements At 30 June 2024				
Financial assets				
Financial assets at FVPL				
Deferred consideration	-	-	13,076	13,076
Unbilled disbursements	-	-	95,412	95,412
Total financial assets	-	-	108,488	108,488

Financial assets				
Financial assets at FVPL				
Deferred consideration	-	-	11,346	11,346
Unbilled disbursements	-	-	89,052	89,052
Hedging derivatives – interest rate swap	-	1,398	-	1,398
Total financial assets	-	1,398	100,398	101,796

There were no transfers into or out of Level 3 fair value measurements during the twelve months ended 30 June 2024.

The Group's policy is to recognise transfers into and out of fair value hierarchy levels as at the end of the reporting period.

The Group did not measure any financial assets or financial liabilities at fair value on a non-recurring basis as at 30 June 2024.

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

6. Financial assets and financial liabilities (continued)

ii. Valuation techniques used to determine fair values

Specific valuation techniques used to value financial instruments include:

- The use of quoted market prices or dealer quotes for similar instruments
- For interest rate swaps – the present value of the estimated future cash flows based on observable yield curves
- For foreign currency forwards – present value of future cash flows based on the forward exchange rates at the balance sheet date, and
- For other financial instruments – discounted cash flow analysis.

All the resulting fair value estimates are included in level 3. In prior year for certain derivative contracts the fair values were determined based on present values and the discount rates used were adjusted for counterparty or own credit risk.

iii. Fair value measurements using significant unobservable inputs

The following table presents the changes in level 3 items for the periods ended 30 June 2024 and 30 June 2023:

Movements	Unbilled disbursements \$'000	Deferred consideration \$'000	Total \$'000

Discontinued operations	(8)	-	(8)
Balance at 30 June 2024	95,412	13,076	108,488

iv. Transfers between levels and changes in valuation techniques

There were no transfers between the levels of the fair value hierarchy in the twelve months to 30 June 2024. There were also no changes made to any of the valuation techniques applied as at 30 June 2023.

v. Valuation inputs and relationships to fair value

The following table summarises the quantitative information about the significant unobservable inputs used in level 3 fair value measurements (see (ii) above for the valuation techniques adopted).

Description	Fair value at 30 June 2024 \$'000	Unobservable inputs	Relationship of unobservable inputs to fair value
Unbilled disbursements	95,412	Internal historical recovery rates Qualitative individual matters	If the recovery rate was 1% higher or (lower), the fair value would increase/(decrease) by \$996,479
Deferred consideration	13,076	Internal historical recovery rates Qualitative individual matters	If the recovery rate was 1% higher or (lower), the fair value would increase/(decrease) by \$120,000/(\$133,000)
		Internal historical collection periods Qualitative individual matters	If the collection period was 3 months shorter or (longer) the fair value would increase/(decrease) by \$173,000/(\$171,000)
		Risk-adjusted discount rate	If the discount rate was 100bps (higher)/lower, the fair value would (decrease)/increase by (\$201,000)/\$196,000

7. Non-financial assets and liabilities (continued)

i. Lease Reclassification

During FY2024, it was identified that some arrangements previously accounted for under AASB 16 Leases, were borrowing arrangements rather than leases. The 30 June 2023 financial information was updated to reflect this position, leading to reclassifications amounting to \$7,808,000 from right-of-use assets to PPE and \$8,145,000 from lease liabilities to borrowings. In addition, cash outflows to acquire property, plant and equipment of \$5,612,000 were reclassified from financing activities to investing activities.

ii. Depreciation methods and useful lives

Depreciation is calculated using the straight-line method to allocate the cost or revalued amounts of the assets, net of their residual values, over their estimated useful lives.

The depreciation rates are as follows:

- Fixtures and fittings 10-50%
- Office furniture and equipment..... 10-40%
- Computer equipment 20-50%

Accounting policy

The Group's accounting policy for plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

The depreciation methods and periods used by the Group are disclosed above.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 24(c)).

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss. When revalued assets are sold, it is Group policy to transfer any amounts included in other reserves in respect of those assets to retained earnings.

b. Leases

This note provides information on leases where the Group is a lessee.

i. Amounts recognised in the balance sheet

The balance sheet shows the following amounts relating to leases:

	Notes	2024 \$'000	2023 \$'000
Right-of-use-assets			
Premises		22,408	30,891
Equipment		968	371
Total right-of-use-assets		23,376	31,262
Lease liabilities			
Current		8,396	8,304
Non-current		22,063	31,007
Total lease liabilities	9(c)	30,459	39,311

Additions to the right-of-use assets during the 2024 financial year were \$906,549 (2023: \$11,736,000). Refer to Note 7(a)(i) for details regarding a change in presentation for the prior period.

ii. Amounts recognised in the statement of profit or loss

	Notes	2024 \$'000	2023 \$'000
Depreciation charge of right-of-use-assets			
Premises		(7,238)	(8,611)
Equipment		(395)	(1,489)
Total depreciation charge of right-of-use-assets		(7,633)	(10,100)
Interest expense (included in finance cost)	4(d)	(1,849)	(2,328)
Expense relating to short-term leases (included in other expenses)		(180)	(274)
Expense relating to leases of low-value assets that are not shown above as short-term leases (included in other expenses)		(5)	(12)

The total cash outflow for leases in 2024 was \$8,626,000 (2023: \$8,169,000).

iii. The Groups leasing activities and how these are accounted for

The Group leases various office premises and equipment. Rental contracts are typically made for fixed periods of 12 months to 5 years, but may have extension options as described in (iv) below.

Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. However, for leases of real estate for which the Group is a lessee, it has elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interest in the leased assets that are held by the lessor with the exception for equipment finance leases that are governed by financial covenants under the group's borrowing arrangements as presented in note 12. Leased assets may not be used as security for borrowing purposes.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments, less any lease incentives receivable
- variable lease payments that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the Group under residual value guarantees
- the exercise price of a purchase option if the Group is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by Shine Justice Ltd, which does not have recent third party financing, and
- makes adjustments specific to the lease, eg term, country, currency and security.

The Group is exposed to potential future increases in variable lease payments based on an index or rate, which are not included in the lease liability, until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases of equipment and vehicles and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise IT equipment and small items of office furniture.

iv. Extension and termination options

Extension and termination options are included in a number of property and equipment leases across the Group. These are used to maximise operational flexibility in terms of managing the assets used in the Group's operations. The majority of extension and termination options held are exercisable only by the Group and not by the respective lessor.

7. Non-financial assets and liabilities (continued)

Critical judgements in determining the lease term

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

For leases of office premises and equipment, the following factors are normally the most relevant:

- If there are significant penalties to terminate (or not extend), the Group is typically reasonably certain to extend (or not terminate),
- If any leasehold improvements are expected to have a significant remaining value, the Group is typically reasonably certain to extend (or not terminate), and
- Otherwise, the Group considers other factors including historical lease durations and the costs and business disruption required to replace the leased asset.

Most extension options in offices and equipment leases have not been included in the lease liability, because the Group could replace the assets without significant cost or business disruption.

The lease term is reassessed if an option is actually exercised (or not exercised) or the Group becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and that is within the control of the lessee.

During the current financial year, there was no financial effect of revising termination options to the lease liability (2023: \$3,066,000) or the right of use asset (2023: \$2,322,000).

There was no exercising of extensions during the year that were not already taken up in the lease liability.

v. Residual value guarantees

To optimise lease costs during the contract period, the Group sometimes provides residual value guarantees in relation to equipment leases.

Estimating the amount payable under residual value guarantees

The Group initially estimates and recognises amounts expected to be payable under residual value guarantees as part of the lease liability. Typically the expected residual value at lease commencement is equal to or higher than the guaranteed amount, so the Group does not expect to pay anything under the guarantees.

At the end of each reporting period, the expected residual values are reviewed to reflect actual residual values achieved on comparable assets and expectations about future prices.

i. Amortisation methods and useful lives

The Group amortises intangible assets with a limited useful life using the straight-line method over the following periods:

- Transformation Project costs8 years
- IT development and software 3-5 years

See note 24(c) for the Group’s policy regarding impairments.

Transformation Project Costs

This is amortised on a straight-line basis to the extent that it will deliver future economic benefits and these benefits can be measured reliably.

Accounting policy

Software

Costs associated with maintaining software programmes are recognised as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the Group are recognised as intangible assets where the following criteria are met:

- it is technically feasible to complete the software so that it will be available for use
- management intends to complete the software and use or sell it
- there is an ability to use or sell the software
- it can be demonstrated how the software will generate probable future economic benefits
- adequate technical, financial and other resources to complete the development and to use or sell the software is available, and
- the expenditure attributable to the software during its development can be reliably measured.

Directly attributable costs that are capitalised as part of the software include employee costs and an appropriate portion of relevant overheads.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is ready for use.

7. Non-financial assets and liabilities (continued)

ii. Impairment tests for goodwill

Goodwill is monitored by management at the level of the two operating segments identified in note 2(a). During the year, the Head Trauma business was moved from the NPA segment to the PI segment. As a result, a goodwill amount of \$1,325,000 relating to the Head Trauma business was reclassified on a relative fair value basis.

Furthermore, the disposal of Best Wilson Buckley Family Law Pty Ltd reduced goodwill by \$929,000.

A summary of the goodwill allocation by segment is presented below:

	2024 \$'000	2023 \$'000
Goodwill carrying amount		
Personal Injury	21,433	20,108
New Practice Areas	10,825	13,081
Total goodwill carrying amount	32,258	33,189

Significant estimate: key assumptions used for value-in-use calculations

The Group tests whether goodwill has suffered any impairment on an annual basis. The recoverable amount of the cash-generating units (CGUs) was determined based on value-in-use calculations which require the use of assumptions. The calculations use cash flow projections based on board approved financial budgets for FY25. Cash flows are extrapolated using the estimated growth rates stated below. These growth rates are based on the strategic focus on (a) Personal Injury and (b) Class Actions within the NPA segment, to result in the future forecasts projected.

The following table sets out the key assumptions for those CGUs that have significant goodwill allocated to them:

2024	Personal Injury ¹	NPA ¹
Revenue (% annual growth rate)	6.7	10.1
Operating costs (% annual growth rate)	3.0 to 7.0	3.0 to 5.0
Long-term growth rate (%)	3.0	3.0
Pre-tax discount rate (%)	13.6	13.9
2023		
Revenue (% annual growth rate)	5.3	2.9
Operating costs (% annual growth rate)	3.0 to 7.0	3.0 to 7.0
Long-term growth rate (%)	3.0	3.0
Pre-tax discount rate (%)	13.8	14.4

1 Comparatives have been revised to reflect the sensitivities of the Head Trauma business being included in the Personal Injury segment and the disposal of Best Wilson Buckley Family Law Pty Ltd.

7. Non-financial assets and liabilities (continued)

Management has determined the values assigned to each of the above key assumptions as follows:

Assumption	Approach used to determine values
Revenue	Average annual growth rate over the five-year forecast period is based on past performance, FY25 budget and management's expectations of future changes in the market. Case settlement timeframes are based on a combination of historical performance in each respective segment and specific case-by-case analysis. The Group also assumes that over time, productivity growth and billings growth converge. Personal Injury Segment In relation to the PI CGU, the long-term compound average annual growth rates is considered as a starting point. The FY25 budget prepared by management incorporates a focus on improvements and as a result, is forecast to be below trend before normalising in years to historical averages. As a result, it is considered appropriate that based on expectations of future performance, it is reasonable to maintain an annual growth rate of 6.7%. NPA Segment In relation to the NPA CGU, the long-term compound average annual growth rate is considered as a starting point. It is anticipated future growth will primarily be driven from the Class Action business with a number of cases expected to commence from FY25 as well as feeders commencing from the USA and New Zealand in the future. As a result, it is considered appropriate that based on expectations of future performance, it is reasonable to continue to maintain an annual growth rate of 10.1%.
Operating costs	Fixed costs of the CGUs, which do not vary significantly with revenue volumes or prices. Management forecasts these costs based on the current structure of the business, adjusting for inflationary increases but not reflecting any future restructurings or cost-saving measures. The amounts disclosed above are the average operating costs for the five-year forecast period.
Long-term growth rate	This is the weighted average growth rate used to extrapolate cash flows beyond the budget period. The rates are consistent with forecasts included in industry reports.
Pre-tax discount rates	Reflect specific risks relating to the relevant segments and the jurisdictions in which they operate.

iii. Significant estimate: impairment charge

Based on the impairment testing performed, the results of the impairment testing of each CGU concluded that no impairment charge against goodwill is to be recognised at 30 June 2024.

iv. Significant estimate: impairment if changes in key assumptions

The Directors and management have considered and assessed reasonably possible changes for other key assumptions and have discussed these instances that could cause the carrying amount of the Personal Injury CGU and the New Practice Areas CGU to exceed its recoverable amount below.

7. Non-financial assets and liabilities (continued)

Personal Injury CGU

Management has executed on the strategy for cash conversion, case settlements and reducing costs during FY2024. This continued focus in FY2025 and beyond will see further reductions in the carrying value of WIP and improve the cashflow of the CGU, thereby mitigating the risk of a future impairment. The recoverable amount of this CGU would equal its carrying amount if the key assumptions were to change as follows, with all other assumptions remaining constant:

	2024		2023	
	From	To	From	To
Revenue (% annual growth rate)	6.7	5.0	5.3	4.2
Long-term growth rate (%)	3.0	-1.3	3.0	-0.5
Pre-tax discount rate (%)	13.6	15.9	13.8	15.8

New Practice Areas CGU

Although there are no reasonably possible changes in key assumptions that would indicate an impairment, the recoverable amount of this CGU would equal its carrying amount if the key assumptions were to change as follows with all other assumptions remaining constant:

	2024		2023	
	From	To	From	To
Revenue (% annual growth rate)	10.1	4.7	2.9	-3.9
Long-term growth rate (%)	3.0	-64.9	3.0	N/A ¹
Pre-tax discount rate (%)	13.9	26.6	14.4	28.5

- ¹ The FY23 terminal growth rate sensitivity for NPA is not applicable as sufficient cashflows are already projected before the terminal value is applied.

Accounting policy

Goodwill

Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill is not amortised, but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to CGUs for the purpose of impairment testing. The allocation is made to those CGUs or groups of CGUs that are expected to benefit from the business combination in which the goodwill arose. The units or groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes, being the operating segments (note 2).

Significant estimates

The deferred tax assets include an amount of nil (2023: \$8,100,000) which relates to Australian carried-forward tax losses. The primary driver of the increased carried-forward losses, is the growth in WIP and disbursements during the year. New Zealand carry forward tax losses amount to \$449,000 (2023: \$293,000). The Group has concluded that the deferred tax assets will be recoverable using the estimated future taxable income based on the approved business plans and budgets for the Group. The losses can be carried forward indefinitely and have no expiry date. See note 5(c) for more details.

Total employee benefit obligations	9,663	1,483	11,146	10,596	1,364	11,960

Leave obligations

The leave obligations cover the Group's liabilities for long service leave and annual leave which are classified as either other long-term benefits or short-term benefits.

The current portion of this liability includes all the accrued annual leave, the unconditional entitlements to long service leave where employees have completed the required period of service and for those employees who are entitled to pro-rata payments in certain circumstances. The provision of \$9,663,000 (2023: \$10,596,000) is presented as current, since the Group does not have an unconditional right to defer settlement for any of these obligations. However, based on past experience, the Group does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months. The following amounts reflect leave that is not expected to be taken or paid within the next 12 months.

	2024 \$'000	2023 \$'000
Current leave obligations expected to be settled after 12 months	6,728	6,076

Accounting policy

Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits and annual leave that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

The liabilities are presented as current employee benefit obligations in the balance sheet.

Other long-term employee benefit obligations

The Group also has liabilities for long service leave and annual leave that are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. These obligations are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the end of the reporting period of high-quality corporate bonds with terms and currencies that match, as closely as possible, the estimated future cash outflows.

The obligations are presented as current liabilities in the balance sheet if the Company does not have an unconditional right to defer settlement for at least 12 months after the reporting period, regardless of when the actual settlement is expected to occur.

Make good provision

Shine Justice Ltd is required to restore the leased premises of its offices and branches to their original condition at the end of the respective lease terms. A provision has been recognised for the present value of the estimated expenditure required to remove any leasehold improvements. These costs have been capitalised as part of the right of use asset and are amortised over the shorter of the term of the lease and the useful life of the assets.

Balance at 30 June 2024	2,099

Accounting policy

Provisions for make good obligations are recognised when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are several similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

The Company does not have a limited amount of authorised capital. The ordinary shares have no par value.

iii. Dividend reinvestment plan

The Company does not currently operate a dividend reinvestment plan.

iv. Employee share scheme issues

Information relating to the Shine Justice Performance Rights Plan, including details of performance rights issued, exercised and lapsed during the financial year and rights outstanding at the end of the reporting period, is set out in note 19.

v. Share buy-back

There is no current on-market buy-back.

Accounting policy

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Where any Group company purchases the Company's equity instruments, for example as the result of a share buy-back or a share-based payment plan, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the owners of Shine Justice Ltd as treasury shares until the shares are cancelled or reissued. Where such ordinary shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the owners of Shine Justice Ltd.

Shares held by the Shine Justice Employee Share Trust are disclosed as treasury shares and deducted from contributed equity.

8. Equity (continued)

b. Other equity

i. Treasury shares

Treasury shares are shares in Shine Justice Ltd that are held by the Shine Justice Employee Share Trust for the purpose of allocating shares under the Shine Justice Performance Rights Plan and the Shine Justice Non-Executive Director Equity Plan (see note 19 for further information). Treasury shares are acquired on market for cash.

Nature and purposes of reserves

Equity share reserve

The equity share reserve is used to recognise:

- the grant date fair value of performance rights granted to employees but not yet vested,
- the allocation of shares held by the Shine Justice Ltd Employee Share Trust to employees, and
- the allocation of shares held by the Shine Justice Ltd Employee Share Trust to non-executive directors.

Transactions with non-controlling interests

This reserve is used to record the differences described in note 14(b) which may arise as a result of transactions with non-controlling interests that do not result in a loss of control.

Foreign currency translation

Exchange differences arising on translation of the foreign controlled entity are recognised in other comprehensive income as described in note 24(b) and accumulated in a separate reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed of.

Hedging reserves

The hedging reserve includes the cash flow hedge reserve. The cash flow hedge reserve is used to recognise the effective portion of gains or losses on derivatives that are designated and qualify as cash flow hedges, as described in note 24(f).

d. Retained earnings

Movement in retained earnings were as follows:

	Notes	2024 \$'000	2023 \$'000

The comparative amounts in the Statement of Cash flows have been restated to correct a computational error. This has resulted in a reduction in disbursements recovered of \$3.5m and a reduction in repayments to disbursements funders of \$3.5m.

Risk

This section of the notes discusses the Group’s exposure to various risks and shows how these could affect the Group’s financial position and performance.

10. Critical estimates, judgements and errors

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Group's accounting policies.

This note provides an overview of the areas that involve a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different. Detailed information about each of these estimates and judgements is included in other notes together with information about the basis of calculation for each affected line item in the financial statements. In addition, this note also explains (if applicable) where there have been actual adjustments this year as a result of an error and of changes to previous estimates.

a. Significant estimates and judgements

The areas involving significant estimates or judgements are:

- estimated fair value of certain financial assets – note 6(i)
- estimation uncertainties and judgements made in relation to lease accounting – note 7(b)
- estimated recovery of goodwill – note 7(c)
- recoverability of work in progress – note 3
- recoverability of interest on the Ethicon Mesh disbursement funding facility – note 6(i)
- impairment of financial assets – note 11(c)

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

11. Financial risk management

This note explains the Group's exposure to financial risks and how these risks could affect the Group's future financial performance. Current year profit and loss information has been included where relevant to add further context.

Risk	Exposure arising from	Measurement	Management
Market risk – foreign exchange	Future commercial transactions Recognised financial assets and liabilities not denominated in Australian dollars	Cash flow forecasting Sensitivity analysis	Negligible
Market risk – interest rate	Long-term borrowings at variable rates	Sensitivity analysis	Negligible
Credit risk	Cash and cash equivalents, trade receivables and contract assets	Ageing analysis Credit ratings	Diversification of bank deposits and credit limits
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities

The Group's financial risk management is predominantly controlled by the Group Finance department under policies approved by the board of directors. Group Finance identifies, evaluates and hedges financial risks in close co-operation with the Group's operating units.

The board approves written principles for overall risk management, as well as policies covering specific areas, such as:

- foreign exchange risk
- interest rate risk
- credit risk
- use of derivative financial instruments and non-derivative financial instruments, and
- investment of excess liquidity.

Where all relevant criteria are met, hedge accounting is applied to remove the accounting mismatch between the hedging instrument and the hedged item. This will effectively result in recognising interest expense at a fixed interest rate for the hedged floating rate borrowings.

a. Derivatives

The Group has the following derivative financial instruments in the following line items in the balance sheet:

	2024 \$'000	2023 \$'000
Current assets		
Interest rate swaps – cash flow hedges (b)(ii)	-	1,398
Total current derivative financial instrument assets	-	1,398

11. Financial risk management (continued)

i. Classification of derivatives

Derivatives are only used for economic hedging purposes and not as speculative investments. However, where derivatives do not meet the hedge accounting criteria, they are classified as 'held for trading' for accounting purposes and are accounted for at fair value through profit or loss. They are presented as current assets or liabilities to the extent they are expected to be settled within 12 months after the end of the reporting period.

The Group's accounting policy for its cash flow hedges is set out in note 24(f). Further information about the derivatives used by the Group is provided in note 11(b) below.

ii. Fair value measurement

For information about the methods and assumptions used in determining the fair value of derivatives, see note 6(i).

iii. Hedging reserves

The Group's hedging reserves disclosed in note 8(c) relate to the following hedging instruments:

	Notes	Interest rate swap \$'000	Total hedge reserves \$'000
Balance at 1 July 2022		1,413	1,413
Add: Change in fair value of hedging instrument recognised in OCI for the year		(621)	(621)
Add: Deferred tax		186	186
Balance at 30 June 2023 & 1 July 2023		978	978
Less: Change in fair value of hedging instrument recognised in OCI for the year	8(c)	(1,397)	(1,397)
Add: Deferred tax	8(c)	419	419
Balance at 30 June 2024		-	-

Hedge effectiveness

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument.

Where appropriate, the Group enters into interest rate swaps that have similar critical terms as the hedged item, such as:

- reference rate
- reset dates
- payment dates
- maturities, and
- notional amount.

The Group does not hedge 100% of its loans, therefore the hedged item is identified as a proportion of the outstanding loans up to the notional amount of the swaps. As all critical terms matched during the year, there is an economic relationship.

Hedge ineffectiveness for interest rate swaps may occur due to:

- the credit value/debit value adjustment on the interest rate swaps which is not matched by the loan, and
- differences in critical terms between the interest rate swaps and loans.

Hedge ineffectiveness in relation to the interest rate swaps was negligible for 2024.

11. Financial risk management (continued)

b. Market risk

i. Foreign exchange risk

Exposure

The Group's exposure to foreign currency risk at the end of the reporting period was as follows:

	2024 USD \$'000	2024 NZD \$'000	2023 USD \$'000	2023 NZD \$'000
Cash and cash equivalents	11	200	-	358
Trade receivables	-	42	-	24
Trade payables	(6)	(1)	-	(2)
Lease liabilities	-	(1,089)	-	(1,362)
Other	4	394	-	338

The aggregate net foreign exchange gains/(losses) recognised in profit or loss were:

	2024 USD \$'000	2024 NZD \$'000	2023 USD \$'000	2023 NZD \$'000
Net foreign exchange gain in other gains/(losses)	-	(6)	-	13
Exchange gains/(losses) on foreign currency borrowing included in finance costs	-	(40)	-	117
Total net foreign exchanges gain/(loss) recognised in profit before income tax for the period	-	(46)	-	130

Instruments used by the Group

The Group operates internationally and is exposed to foreign exchange risk, primarily the New Zealand dollar. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the functional currency of the relevant Group entity.

There is currently no hedging of the foreign exchange risk.

Sensitivity

The Group is primarily exposed to changes in NZ/AUD exchange rates. The sensitivity of profit or loss to changes in the exchange rates arises mainly from NZ dollar-denominated financial instruments and the impact on other components of equity is currently considered immaterial.

11. Financial risk management (continued)

ii. Cash flow and fair value interest rate risk

The Group's main interest rate risk arises from long-term borrowings with variable rates, which expose the Group to cash flow interest rate risk. The Board periodically reviews the Group's interest rate exposure and may enter into short term interest rate hedge arrangements. During 2024, the Group's borrowings at variable rate were mainly denominated in Australian dollars only.

The Group's borrowings and receivables are carried at amortised cost. The borrowings are periodically contractually repriced and to that extent are also exposed to the risk of future changes in market interest rates.

The exposure of the Group's borrowings to interest rate changes at the end of the reporting period are as follows:

	Note	2024 \$'000	% of total loans borrowings	2023 \$'000	% of total loans borrowings
Variable rate borrowings	6(h)	48,096	87%	27,114	37%
Fixed rate borrowings – repricing or maturity dates					
Less than 1 year	6(h)(iii)	7,434	13%	45,455	63%
1 – 5 years	6(h)(iii)	-	-	-	-
Over 5 years		-	-	-	-
		55,530	100%	72,569	100%

An analysis by maturities is provided in note 11(d)(ii). The percentage of total borrowings shows the proportion of borrowings that are currently at variable rates in relation to the total amount of borrowings.

Instruments used by the Group

The interest rate swaps established in a prior year have now expired in June 2024. Before expiry, this swap covered approximately 78% (2023: 59%) of the variable loan principal outstanding. The fixed interest rate of the swap was 0.65% and the variable rates of the loans were between 2.69% and 3.50% above the 90-day bank bill rate which at the end of the period was 4.46% (2023: 4.40%).

The swap contracts required settlement of net interest receivable or payable every 90 days. The settlement dates coincided with the dates on which interest was payable on the underlying debt.

Effects of hedge accounting on the financial position and performance

The effects of the interest rate swaps on the Group's financial position and performance are as follows:

	2024 \$'000	2023 \$'000
Carrying amount (current and non-current asset) (\$'000)	-	1,398
Notional amount (\$'000)	36,000	36,000
Maturity date	2024	2024
Hedge ratio	1:1	1:1
Change in fair value of outstanding hedging instruments since 1 July (\$'000)	(1,398)	(621)
Change in value of hedged item used to determine hedge effectiveness (\$'000)	1,398	621
Weighted average hedged rate for the year (%)	0.65	0.65

11. Financial risk management (continued)

Sensitivity

Profit or loss is sensitive to higher/lower interest income from cash and cash equivalents as a result of changes in interest rates.

Other components of equity change as a result of an increase/decrease in the fair value of the cash flow hedges of borrowings and the fair value of debt investments at fair value through other comprehensive income.

	Impact on post-tax profit		Impact on other component of equity	
	2024 \$'000	2023 \$'000	2024 \$'000	2023 \$'000
Interest rates – increase by 100 basis points (2023: 100bps) ¹	(322)	(172)	322	160
Interest rates – decrease by 100 basis points (2023: 100bps) ¹	322	172	(322)	(160)

¹ Holding all other variables constant

Collectability risk

One of the Group's main risks arises from unbilled disbursements where there is a risk of non-recoverability on legal matters that are on a no-win no-fee basis. This risk is mitigated through a number of processes including the case selection process and regular review of likelihood of success during the life of the matter.

The exposure of the Group's unbilled disbursements to provision rate changes at the end of the reporting period are as follows:

	Impact on post-tax profit		Impact on other component of equity	
	2024 \$'000	2023 \$'000	2024 \$'000	2023 \$'000
Provision rates – increase by 1% (2023: 1%) ¹	(996)	(1,277)	(996)	(1,277)
Provision rates – decrease by 1% (2023: 1%) ¹	996	1,277	996	1,277

¹ Holding all other variables constant

11. Financial risk management (continued)

c. Credit risk

Credit risk arises from:

- cash and cash equivalents
- deposits with banks and financial institutions, and
- credit exposures to customers, including outstanding receivables.

i. Risk management

Credit risk is managed on a Group basis. For banks and financial institutions, only independently rated parties with a minimum rating of 'A' are accepted.

There are no significant concentrations of credit risk, whether through exposure to individual customers, specific industry sectors and/or regions.

ii. Security

For some trade receivables the Group may obtain security in the form of guarantees, deeds of undertaking or letters of credit which can be called upon if the counterparty is in default under the terms of the agreement.

iii. Impairment of financial assets

The Group uses the expected credit loss model on trade receivables from the provision of legal services.

While cash and cash equivalents are also subject to the impairment requirements of AASB 9, the identified impairment loss was immaterial.

Trade receivables

The Group applies the AASB 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables.

To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due.

The expected loss rates are based on the corresponding historical credit losses experienced. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The Group has identified the following to be the most relevant factors in determining expected loss rates:

- unemployment rate
- inflation, and
- Reserve Bank of Australia cash rate

11. Financial risk management (continued)

On that basis, the loss allowance as at 30 June 2024 and 30 June 2023 was determined as follows for trade receivables:

	Current	More than 30 days past due	More than 60 days past due	More than 90 days past due	More than 120 days past due	Total
30 June 2024						
Expected loss rate (%)	0%	0%	0%	4%	34%	
Gross carrying amount (\$'000)	5,060	1,518	178	567	4,259	11,582
Loss allowance (\$'000)	-	-	-	25	1,448	1,473
30 June 2023						
Expected loss rate (%)	0%	0%	0%	5%	34%	
Gross carrying amount (\$'000)	4,958	2,213	813	569	4,464	13,017
Loss allowance (\$'000)	-	-	-	34	1,009	1,043

The loss allowance for trade receivables as at 30 June 2024 reconciles to the opening loss allowance as follows:

	2024 \$'000	2023 \$'000
Balance at start of financial year	1,043	663
Increase in loss allowance recognised in profit or loss during the year	1,363	1,178
Receivables written off during the year as uncollectable	(933)	(798)
Balance at 30 June	1,473	1,043

Trade receivables are written off where there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Group, and a failure to make contractual payments for a period of greater than 90 days past due.

Impairment losses on trade receivables are presented as net impairment losses within operating profit. Subsequent recoveries of amounts previously written off are credited against the same line item.

11. Financial risk management (continued)

Other financial assets at amortised cost

Other financial assets at amortised cost include loans to related parties and other receivables.

The loss allowance for other financial assets at amortised cost as at 30 June 2024 reconciles to the opening loss allowance as follows:

	Related parties \$'000	Total \$'000
Opening loss allowance as at 1 July 2022	21	21
Closing loss allowance as at 30 June 2023	21	21
Closing loss allowance as at 30 June 2024	-	-

Significant estimates and judgements

Impairment of financial assets

The loss allowances for financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history and existing market conditions as well as forward-looking estimates at the end of each reporting period.

d. Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. At the end of the reporting period the Group held cash at hand of \$29,457,000 (2023: \$21,088,000). Due to the dynamic nature of the underlying businesses, Group finance maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Group's liquidity reserve (comprising the undrawn borrowing facilities below) and cash and cash equivalents (note 6(c)) based on expected cash flows. This is generally carried out at local level in the operating companies of the Group in accordance with practice and limits set by the Group. These limits vary by location to take into account the liquidity of the market in which the entity operates. In addition, the Group's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

11. Financial risk management (continued)

i. Financing arrangements

The Group had access to the following undrawn borrowing facilities at the end of the reporting period:

	2024 \$'000	2023 \$'000
Variable rate		
Expiring within one year (line of credit)	14,587	11,904
Expiring beyond one year (bank loans)	31,008	11,458
Total undrawn borrowing facilities	45,595	23,362
Made up of:		
On-call facilities	26,500	7,000
Special purpose financing facilities	19,095	16,362
Total undrawn borrowing facilities	45,595	23,362

The line of credit may be drawn at any time and may be terminated by the bank without notice. The CBA facility may be drawn at any time and is subject to annual review. Subject to the ongoing compliance with the terms of the facility, the bank loan facilities may be drawn at any time.

11. Financial risk management (continued)

ii. Maturities of financial liabilities

The table below analyses the Group's financial liabilities into relevant maturity groupings based on their contractual maturities for all:

- a. non-derivative financial liabilities, and
- b. derivative financial instruments

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant. For interest rate swaps the cash flows have been estimated using forward interest rates applicable at the end of the reporting period.

Contractual maturities of financial liabilities	Within 1 year \$'000	Between 1 and 5 years \$'000	Over 5 years \$'000	Total contractual cash flows \$'000	Carrying amount \$'000

12. Capital management

a. Risk management

The Group's objectives when managing capital is to:

- safeguard its ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, and
- maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may:

- adjust the amount of dividends paid to shareholders
- return capital to shareholders
- issue new shares, or
- sell assets to reduce debt.

Consistent with others in the industry, the Group monitors capital based on the following net debt to equity ratio:

Net debt as per note 9(b)

divided by

Total 'equity' (as shown in the balance sheet, including non-controlling interests).

The net debt to equity ratios at 30 June 2024 and 30 June 2023 were as follows:

	Notes	2024 \$'000	2023 \$'000
Net debt	9(b)	56,562	90,792
Total equity		272,628	270,844
Net debt to equity ratio		21%	34%

Financial covenants

Under the terms of the major borrowing facilities, the Group is required to comply with the following financial covenants:

- The WIP Gearing Ratio does not exceed 30%,
- The Total Gearing Ratio does not exceed 40% of the value of Net WIP and Unbilled disbursement assets, and
- The Debt to Group EBITDA Ratio does not exceed 2.25:1.00.

The Group has complied with these covenants throughout the reporting period.

On 25 August 2023, the Group's main financier confirmed it was their view that the impact of the fair value adjustment on the Ethicon disbursement funding facility interest should not be included in the calculation of the Group's covenants, specifically the "Debt to Group EBITDA" ratio, as at 30 June 2023. If this adjustment is not included, the Group would have complied with all financial covenants. However, as there is a technical accounting interpretation of the terms of the CBA agreements that would include the impact of the adjustment made in respect of the Ethicon disbursement funding facility in the relevant ratio as at 30 June 2023 and as the formal communication from CBA confirming they do not consider there to have been a formal breach was only received after 30 June 2023, the portion of non-current borrowings (\$45.0 million) and non-current borrowings in relation to equipment and fit out financing (\$5.9 million) impacted, were reclassified to current in the financial statements, as a conservative approach. Although the balances have been reclassified to current, the Group did not consider that there was a liquidity impact from this reclassification due to the waiver received and, as at 30 June 2023, even with this reclassification, the Group still had over \$100 million in net current assets.

From 22 December 2023, the Group's main financier has permitted up to \$10 million of non-recurring amounts charged to the profit & loss that are abnormal in nature and/or outside the ordinary course of business in any 12-month period to be adjusted in the Debt to Group EBITDA Ratio described above. This is in addition to the exclusion of the impact of the fair value adjustment on the Ethicon disbursement funding facility interest described above.

b. Dividends

i. Ordinary shares

	2024 \$'000	2023 \$'000
Final dividend for the year ended 30 June 2023 not paid (2022: 3.50 cents) per fully paid share	-	6,064
Interim dividend for the year ended 30 June 2024 of 1.50 cents (2023: 1.50 cents) per fully paid share	2,599	2,599
Total paid during the year	2,599	8,663

ii. Dividends not recognised at the end of the reporting period

	2024 \$'000	2023 \$'000
In addition to the above dividends, since year end the Directors have declared a final dividend of 4.00 cents per fully paid ordinary share (2023: no final dividend declared or proposed). The aggregate amount of the proposed dividend expected to be paid on 14 October 2024 from retained earnings at 30 June 2024, but not recognised as a liability at year end, is:	6,930	-

iii. Franked dividends

There are franking credits of \$1,171,000 (2023: nil) held by Shine Justice Ltd arising from the payment of instalments of income tax in the year ending 30 June 2024.

Group structure

This section provides information which will help users understand how the Group structure affects the financial position and performance of the Group. In particular, there is information about:

- changes to the structure that occurred during the year as a result of discontinued operations, and

Best Wilson Buckley Family Law Pty Ltd

a. Description

On 27 June 2024, the Group entered into an agreement to sell its Australian subsidiary, Best Wilson Buckley Family Law Pty Ltd (BWB), to Tracey Ryan Legal Pty Ltd as trustee for The Ryan Legal Family Trust and O'Toole Legal Pty Ltd as trustee for The O'Toole Legal Family Trust. The buyers acquired the shares in BWB in equal shares.

The effective date of sale of the subsidiary was 30 June 2024 and is reported in the current period as a discontinued operation. Financial information relating to the discontinued operation for the period to the date of disposal is set out below.

b. Financial performance and cash flow information

The financial performance and cash flow information presented are for the year ended 30 June 2024 and year ended 30 June 2023:

	2024 \$'000	2023 \$'000
Revenue (note 3)	5,058	5,407
Expenses	(5,286)	(5,505)
Loss before income tax	(228)	(98)

Fair value of deferred consideration	1,311
Total disposal consideration	622
Carrying amounts of net assets sold	(621)
Gain on sale before income tax	1
Income tax expense on gain	-
Gain on sale after income tax	1

Under the Share Sale Agreement, the gross deferred sales proceeds due from the purchaser are \$1,650,000. However, accounting standards require that adjustments are made for timing of payments, recovery rates and risk-adjusted discount rates, which resulted in a discounting of this number to a fair value of \$1,311,000. The deferred consideration has been recognised as a financial asset at fair value through profit or loss (see note 6(e)).

The calculated carrying amounts of assets and liabilities as at the effective date of sale were:

	30 June 2024 \$'000
Trade receivables	537
Work in progress	359
Unbilled disbursements	8
Property and equipment	125

Accounting policy

Principles of consolidation

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity where the Group is exposed to, or has rights to, variable returns from its involvement with the entity and can affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Inter-company transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit or loss, statement of comprehensive income, statement of changes in equity and balance sheet respectively.

Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributable to owners of Shine Justice Ltd.

b. Non-controlling interests (NCI)

Set out below is summarised financial information of Carr & Co Divorce & Family Lawyers Pty Ltd, the only subsidiary that has non-controlling interests. The amounts disclosed are before inter-company eliminations.

Unrecognised items

There is no requirement to highlight separately any unrecognised items. However, we believe that this information is useful for users in assessing the financial performance and position of the Group.

15. Contingent liabilities and contingent assets

a. Bank guarantees

Bank guarantees are contracts that are measured in accordance with AASB 137 *Provisions, Contingent Liabilities and Contingent Assets*. The Group's bank guarantees are as follows:

	2024 \$'000	2023 \$'000
Bank Guarantee Facility		
Limit	5,000	5,000
Unused	448	587

b. Contingent liabilities

The Group has received a small number of individual notifications submitted by former clients against the Group. When each notification is received, the Group assesses the likelihood that the potential notice will proceed to a legal claim. The Group's estimate of the notifications that may progress to a claim at 30 June 2024 is \$339,999 (2023: \$380,000).

c. Contingent assets

The Group had no contingent assets at 30 June 2024.

16. Commitments

a. Capital commitments

g. Terms and conditions

Goods were sold to related parties during the year based on the price lists in force and terms that would be available to third parties.

All other transactions were made on normal commercial terms and conditions and at market rates.

The loans to other related parties are repayable one year from the reporting date but have historically been re-negotiated to a later date on an as-required basis. The loan attracts interest at the rate equivalent to Shine Justice's Australian working capital facility loan rate plus 2%. The interest rate on loans during the year was 6.2% (2023: 4.9%).

Outstanding balances are unsecured and are repayable in cash.

h. Consultancy fees

During the year, consultancy fees were paid to Stephen Roche of \$264,000 (including GST) (2023: \$264,000).

During the year, consultancy fees were paid to a company owned by Rod Douglas of \$12,375 (including GST) (2023: \$49,500).

19. Share-based payments

a. Employee Share long-term incentive scheme

The issue of securities under the Shine Justice Ltd Performance Rights (LTIP) Plan (the Plan) was approved by shareholders at the 2016, 2019 and 2022 annual general meetings. The Plan is designed to amalgamate retention strategies as well as providing long-term incentives for senior managers and create alignment with shareholders. Under the Plan, participants are granted Performance Rights which only vest if certain performance criteria are met. Participation in the Plan is at the Board's discretion and no individual has a contractual right to participate in the scheme or to receive any guaranteed benefits. The Plan is administered by the Board. This trust is consolidated in accordance with note 14(a)(i). The amount of the current FY24 Performance Rights that will vest depends on Shine Justice Ltd:

- **Earnings per share (EPS) growth – 50% weighting**, achieving EPS growth of an average of 10% per annum during the three-year Performance Period from 1 July 2023, with partial vesting (straight line vesting between 50% and 100% if 7-10% return is achieved)
- **Cumulative annual total shareholder return (TSR) – 25% weighting**, achieving cumulative annual TSR of an average of 10% during the Performance Period, with partial vesting (straight line vesting between 50% and 100%) if 9-12% return is achieved, and
- **Strategic Objectives - 25% weighting**, if identified strategic objectives are achieved (as to 5% in each of the 5 categories set out below), with straight line vesting in each category between 50% and 100% if the objectives are determined by the Board to be achieved as to 75% to 100%. The 5 categories being:
 1. Clients (including a seamless and transparent client experience)
 2. team members (including engagement and retention targets)
 3. growth (including market share targets)
 4. financial strength (including financial margins and ratios), and
 5. innovation (including new ways to maximise damages for clients).

The Board retains a discretion to adjust the performance measures if warranted by relevant circumstances at the time of vesting.

Performance Rights are granted under the LTIP for no consideration and carry no dividend or voting rights. When vested, each right converts into one Share. The vesting price on which the number of rights granted is based is the weighted average price at which the Company's shares are traded on the ASX on 15 days before plus 15 days after the release of the Shine Justice Annual Report in the financial year to which they relate.

i. Fair value of rights granted

The assessed fair value at grant date of Performance Rights granted during the year ended 30 June 2024 was:

- EPS: \$0.58 per right (2023: \$0.85)
- TSR: \$0.24 per right (2023: \$0.33)
- Strategic Objectives: \$0.58 per right (2023: \$0.85)

EPS

The fair value at grant date is independently determined using a Black-Scholes Model (BSM). Under this approach the value is based on the share price at the valuation date with an adjustment for the dividends foregone during the vesting period.

TSR

The fair value at grant date is independently determined using an adjusted form of the BSM which includes a Monte Carlo simulation model that considers the:

- term of the rights
- impact of dilution (where material)
- share price at grant date
- expected price volatility of the underlying share
- expected dividend yields
- risk-free interest rate for the term of the right, and
- correlations and volatilities of the peer group companies.

The model inputs for rights granted during the year ended 30 June 2024 included:

- rights are granted for no consideration and vest based on Shine Justice Ltd TSR over a three-year period.
- **grant date:** 15 December 2023 (2023: 7 December 2022)
- **expiry date of performance period:** 30 June 2026 (2023: 30 June 2025)
- **share price at grant date:** \$0.70 (2023: \$1.00)
- **expected price volatility of the company's shares:** 39.98% (2023: 38.99%)
- **expected dividend yield:** 7.14% (2023: 6.0%)
- **risk-free interest rate:** 3.84% (2023: 3.11%)

The expected price volatility is based on the historic volatility (based on the remaining life of the rights), adjusted for any expected changes to future volatility due to publicly available information.

The fair value of the EPS and TSR rights at grant date of \$0.58 (2023: \$0.85) and \$0.24 (2023: \$0.33) respectively was estimated by taking the market price of the Company's shares on that date less the present value of expected dividends that will not be received by the holders on their rights during the three-year vesting period.

19. Share-based payments (continued)

b. Expenses/(credits) arising from share-based payment transactions

Total expenses/(credits) arising from share-based payment transactions recognised during the period as part of employee benefit expense were as follows:

	2024 \$	2023 \$
Rights issued under long-term incentive schemes	(68,000)	43,000
Total expenses/(credits) arising from share-based payment transactions	(68,000)	43,000

Accounting policy

Share-based compensation benefits are provided to employees via the Shine Justice Performance Rights Plan.

Employee Performance Rights

The fair value of rights granted under the Shine Justice Performance Rights Plan is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be initially expensed is determined by reference to the fair value of the Rights granted:

- including any market performance conditions (e.g. Shine's share price)
- excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the Company over a specified time period), and
- including the impact of any non-vesting conditions (e.g. the requirement for employees to save or hold shares for a specific period of time).

The total expense is recognised over the vesting period, which is the period over which all the specified vesting conditions are to be satisfied. At the end of each period, the Company revises its estimates of the number of Rights that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

The Employee Share Scheme performance rights are administered by the Shine Employee Share Trust, which is consolidated in accordance with the principles in Note 14(a). When the performance rights vest, the shares may be issued by the Company or transferred by the Trust. The Company can issue or fund the Trust to acquire shares. The Board also has the discretion to pay cash instead. The proceeds received net of any directly attributable transaction costs are credited directly to equity.

19. Share-based payments (continued)

Non-executive director (NED) Equity Plan

In November 2020, the Board adopted the NED Equity Plan, under which the Non-executive Directors may increase their holdings of Shares in order to share in the growth of the business and more closely align their interests with those of shareholders. The NED Equity Plan supports the Board's policy that Directors should be encouraged to accumulate a shareholding equivalent in value to their annual Directors' fees over a three-year period.

The NED Equity Plan provides for Non-executive Directors to sacrifice a percentage of their fees over an agreed period and to be granted rights to acquire a number of Shares reflecting the amount to be sacrificed over the period. The participating Directors fees are reduced in equal amounts each fortnight during the participation period. NED Rights are granted for no consideration at the beginning of the period during which salary sacrifices are made and vest into Shares at the end of that period.

The NED rights have been classified by the ASX as a separate class – Salary Sacrifice Rights. This class is separate from the class of Performance Rights issued under the Company's Performance Rights Plan (LTIP).

For the FY24 Rights granted on 3 July 2023, the price on which the number of granted NED Rights was calculated was the volume weighted average closing price of Shares on the ASX for the trading days 1 June 2023 to 21 June 2023 inclusive (FY23 Rights: trading days 1 June 2022 to 28 June 2022 inclusive) being \$0.73 (FY23 Rights: \$0.96). The fair value of the FY24 Rights on grant date on 3 July 2023 was \$0.71 (FY23 Rights: \$1.08).

On vesting of NED Rights, the participating Director will be allocated a number of Shares purchased on market, equivalent to the number of vested NED Rights held by the Director. Shares allocated or transferred to Non-executive Directors following vesting will be subject to a Disposal Restriction until the earlier of the date of the Non-executive Director's retirement from the Board or 15 years after allocation or transfer of the Shares. While the Disposal Restriction applies, the Non-executive Directors will not be permitted to dispose of their Shares.

Set out below are summaries of the Rights granted under the Plan:

		Salary sacrifice rights	
		Number of rights 2024	Number of rights 2023

e. Information concerning the classification of securities

Deferred shares

Rights to deferred shares granted to executives and employees under the Group's long-term incentive scheme are included in the calculation of diluted earnings per share assuming all outstanding rights will vest. The rights are not included in the determination of basic earnings per share. Further information about the rights is provided in note 19.

Accounting policy

Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the company, excluding any costs of servicing equity other than ordinary shares
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

Diluted earnings per share

Adjusts the figures used in the determination of basic earnings per share to consider:

- the after-income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

22. Deed of cross guarantee

Shine Justice Ltd and its subsidiaries listed below are parties to a deed of cross guarantee under which each company guarantees the debts of the others. By entering into the deed, the wholly owned entities have been relieved from the requirement to prepare a financial report and directors' report under ASIC Corporations (Wholly owned Companies) Instrument 2016/785.

The subsidiaries are listed below:

- Shine Lawyers Pty Ltd
- My Insurance Claim Pty Ltd
- Shine DIR Pty Ltd
- Shine (U.S.) Pty Ltd

While Shine Justice Ltd had accumulated losses at 30 June 2024, this was subsequently addressed on 12 August 2024 via a \$30,000,000 dividend from Shine Lawyers Pty Ltd.

23. Parent entity financial information (continued)

b. Guarantees entered into by the parent entity

The parent entity has provided financial guarantees in respect of bank guarantees amounting to \$4,552,000 (2023: \$4,413,000).

The parent entity has also given secured guarantees in respect of:

- Bank loans which are secured by a fixed and floating charge over the assets of the Group, and
- Lease and hire purchase liabilities secured by the underlying assets.

In addition, there are cross guarantees given by Shine Justice Ltd and its subsidiaries as described in note 22. No deficiencies of assets exist in any of these companies.

No liability was recognised by the parent entity or the Group in relation to these last two guarantees, as the fair value of the guarantees is immaterial.

c. Contingent liabilities of the parent entity

The parent entity did not have any contingent liabilities as at 30 June 2024 or 30 June 2023. For information about guarantees given by the parent entity, please see above.

d. Contractual commitments for the acquisition of plant or equipment

The parent entity did not have any contractual commitments for the acquisition of plant or equipment as at 30 June 2024 or 30 June 2023.

e. Determining the parent entity financial information

The financial information for the parent entity has been prepared on the same basis as the consolidated financial statements, except as set out below.

i. Investments in subsidiaries

Investments in subsidiaries are accounted for at cost in the financial statements of Shine Justice Ltd.

ii. Tax consolidation

Shine Justice Ltd and its wholly owned Australian controlled entities have implemented the tax consolidation legislation.

The head entity, Shine Justice Ltd, and the controlled entities in the tax consolidated group account for their own current and deferred tax amounts. These tax amounts are measured as if each entity in the tax consolidated group continues to be a stand-alone taxpayer.

In addition to its own current and deferred tax amounts, Shine Justice Ltd also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group.

The entities have also entered into a tax funding agreement under which the wholly owned entities fully compensate Shine Justice Ltd for any current tax payable assumed and are compensated by Shine Justice Ltd for any current tax receivable and deferred tax assets relating to unused tax losses or unused tax credits that are transferred to Shine Justice Ltd under the tax consolidation legislation. The funding amounts are determined by reference to the amounts recognised in the wholly owned entities' financial statements.

The amounts receivable/payable under the tax funding agreement are due upon receipt of the funding advice from the head entity, which is issued as soon as practicable after the end of each financial year. The head entity may also require payment of interim funding amounts to assist with its obligations to pay tax instalments.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as current amounts receivable from or payable to other entities in the Group.

Any difference between the amounts assumed and amounts receivable or payable under the tax funding agreement are recognised as a contribution to (or distribution from) wholly owned tax consolidated entities.

iii. Financial guarantees

Where the parent entity has provided financial guarantees in relation to loans and payables of subsidiaries for no compensation, the fair values of these guarantees are accounted for as contributions and recognised as part of the cost of the investment.

24. Summary of other material accounting policies

This note provides a list of the material accounting policies adopted in the preparation of these consolidated financial statements to the extent they have not already been disclosed in the other notes above. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial statements are for the group consisting of Shine Justice Ltd and its subsidiaries.

a. Basis of preparation

These general-purpose financial statements have been prepared in accordance with:

- Australian Accounting Standards
- Interpretations issued by the Australian Accounting Standards Board, and
- the *Corporations Act 2001*.

Shine Justice Ltd is a for-profit entity for the purpose of preparing the financial statements.

i. Compliance with IFRS

The consolidated financial statements of the Shine Justice Ltd Group also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

ii. Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) – measured at fair value

iii. New and amended standards adopted by the Group

The Group has applied the following standards and amendments for the first time for their annual reporting period commencing 1 July 2023:

- **AASB 17 Insurance Contracts and amendments to AASB 17 Insurance Contracts** – AASB 17 Insurance Contracts is applicable for legal agreements where an indemnity is provided by Shine to a plaintiff to cover party-party costs in the event of an unsuccessful outcome. The impact at 30 June 2024 is not considered material and so no adjustment has been made to the Financial Statements to reflect this. This accounting for this will be applied in FY25.
- **AASB 2020-5 Amendments to Australian Accounting Standards** – Insurance Contracts [AASB 4 & AASB 17]
- **AASB 2022-1 Amendments to Australian Accounting Standards** – Initial Application of AASB 17 and AASB 9 – Comparative Information [AASB 17]
- **AASB 2022-8 Amendments to Australian Accounting Standards** – Insurance Contracts: Consequential Amendments

- **AASB 2021-5 Amendments to Australian Accounting Standards** – Deferred Tax related to Assets and Liabilities arising from a Single Transaction [AASB 112].
- **AASB 2020-1 Amendments to Australian Accounting Standards** – Classification of Liabilities as Current or Non-current
- **AASB 2022-6 Amendments to Australian Accounting Standards** – Non-current Liabilities with Covenants
- **AASB 2021-2 Amendments to Australian Accounting Standards** – Disclosure of Accounting Policies and Definition of Accounting Estimates
- **AASB 2022-5: Amendments to Australian Accounting Standards** – Lease Liability in a Sale and Leaseback
- **AASB 2023-2 Amendments to Australian Accounting Standards** – Definition of Accounting
- Estimates International Tax Reform – Pillar Two Model Rules [AASB 112].

iv. New standards and interpretations not yet adopted

The following new accounting standards and interpretations have been published that are not mandatory for 30 June 2024 reporting periods and have not been early adopted by the Group:

- **AASB 2020-1 Amendments to Australian Accounting Standards** – Classification of Liabilities as Current or Non-current [AASB 101]
- **AASB 2020-6 Amendments to Australian Accounting Standards** – Classification of Liabilities as Current or Non-current – Deferral of Effective Date [AASB 101]
- **AASB 2022-6 Amendments to Australian Accounting Standards** – Non-current Liabilities with Covenants [AASB 101 and AASB Practice Statement 2]
- **AASB 2023-3 Amendments to Australian Accounting Standards** – Non-current Liabilities with Covenants: Tier 2 [AASB 1060]
- **AASB 2022-5 Amendments to Australian Accounting Standards** – Lease Liability in a Sale and Leaseback [AASB 16]
- **AASB 2023-1 Amendments to Australian Accounting Standards** – Supplier Finance Arrangements [AASB 7 & AASB 107]
- **AASB 2014-10 Amendments to Australian Accounting Standards** – Sale or Contribution of Assets Between an Investor and its Associate or Joint Venture
- **AASB 2015-10 Amendments to Australian Accounting Standards** – Effective Date of Amendments to AASB 10 and AASB 128
- **AASB 2017-5 Amendments to Australian Accounting Standards** – Effective Date of Amendments to AASB 10 and AASB 128 and Editorial Corrections
- **AASB 2021-7 Amendments to Australian Accounting Standards** – Effective Date of Amendments to AASB 10 and AASB 128 and Editorial Corrections

24. Summary of other material accounting policies (continued)

b. Foreign currency translation

i. Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency').

The consolidated financial statements are presented in Australian dollar (\$), which is Shine Justice Ltd's functional and presentation currency.

ii. Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. They are deferred in equity if they relate to qualifying cash flow hedges and qualifying net investment hedges or are attributable to part of the net investment in a foreign operation.

Foreign exchange gains and losses that relate to borrowings are presented in the statement of profit or loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit or loss on a net basis within other gains/(losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equities classified as at fair value through other comprehensive income are recognised in other comprehensive income.

iii. Group companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet
- income and expenses for each statement of profit or loss and statement of comprehensive income are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions), and
- all resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

c. Impairment of assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units).

Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

24. Summary of other material accounting policies (continued)

d. Rounding of amounts

The Company is of a kind referred to in ASIC Legislative Instrument 2016/191, relating to the 'rounding off' of amounts in the financial statements. Amounts in the financial statements have been rounded off in accordance with the instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

e. Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the balance sheet.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

f. Derivatives and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into, and they are subsequently remeasured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The Group designates certain derivatives as:

- hedges of a particular risk associated with the cash flows of recognised assets and liabilities and highly probable forecast transactions (cash flow hedges).

At inception of the hedge relationship, the Group documents the economic relationship between hedging instruments and hedged items including whether changes in the cash flows of the hedging instruments are expected to offset changes in the cash flows of hedged items. The Group documents its risk management objective and strategy for undertaking its hedge transactions.

The fair values of derivative financial instruments designated in hedge relationships are disclosed in note 7(h). Movements in the hedging reserve in shareholders' equity are shown in note 8(c). The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months. Trading derivatives are classified as a current asset or liability.

Independent Auditor's Report

Independent auditor's report

To the members of Shine Justice Ltd

Report on the audit of the financial report

Our opinion

In our opinion:

The accompanying financial report of Shine Justice Ltd (the Company) and its controlled entities (together the Group) is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group's financial position as at 30 June 2024 and of its financial performance for the year then ended
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

What we have audited

The financial report comprises:

- the consolidated balance sheet as at 30 June 2024
- the consolidated statement of comprehensive income for the year then ended
- the consolidated statement of profit or loss for the year then ended
- the consolidated statement of changes in equity for the year then ended
- the consolidated statement of cash flows for the year then ended
- the notes to the financial statements, including material accounting policy information and other explanatory information
- the consolidated entity disclosure statement as at 30 June 2024
- the directors' declaration.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Our audit approach

An audit is designed to provide reasonable assurance about whether the financial report is free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial report as a whole, taking into account the geographic and management structure of the Group, its accounting processes and controls and the industry in which it operates.

The Group operates a variety of businesses in the legal industry across a number of regions throughout Australia, New Zealand and United States.

Audit scope	Key audit matters
- Our audit focused on where the Group made subjective judgements; for example, significant accounting estimates involving assumptions and inherently uncertain future events. - The accounting processes are structured around a Group finance function at its head office in Brisbane, where we predominantly performed our audit procedures.	- Amongst other relevant topics, we communicated the following key audit matters to the Audit and Risk Committee: - Revenue Recognition and Recoverability of Work In Progress (WIP) and Unbilled Disbursements - Carrying Value of Goodwill - These are further described in the <i>Key audit matters</i> section of our report.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report for the current period. The key audit matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Further, any commentary on the outcomes of a particular audit procedure is made in that context.

Key audit matter	How our audit addressed the key audit matter
Revenue Recognition and Recoverability of Work In Progress (WIP) and Unbilled Disbursements (Refer to note 3(c) and 6(d)). At 30 June 2024, the carrying value of WIP was \$356.4m and unbilled disbursements was \$95.4m. The Group recognises WIP where it is highly probable that the cumulative value of revenue and hence WIP recognised in relation to legal matters will not be	To evaluate revenue recognition and the recoverability of WIP and Unbilled Disbursements, we performed the following procedures, amongst others: Developed an understanding of the accounting policies, relevant processes and controls in place over revenue recognition, WIP and disbursement cycles.

subject to significant reversal when the contract outcome is finalised.

Unbilled disbursements represent the contractual right to receive cash on settlement of a case and are measured at fair value through profit and loss.

The Group applied judgement based on past experience and historical performance of similar contracts to assess the probability of success and expected billing recovery on successful outcomes. Where historical averages are not predictive of the probability of outcomes or there is limited historical experiences with similar contracts, the Group assessed probability on a contract-by-contract basis.

Any revisions to estimated outcomes are recognised in the consolidated statement of profit or loss in the period which give rise to the revision.

This was a key audit matter due to the judgement involved in determining the probability of contract outcomes.

- For a selection of time entries driving revenue recognition, we have agreed hours recorded back to timesheet records and agreed rates applied to approved scale rates.
- For a selection of activity-based revenue transactions, we have agreed the activity rate to approved cost agreements and agreed the related activity back to case records.
- For a sample of settlements in the period, we have agreed relevant attributes to customer agreements, settlement deeds and cash received.
- Assessed the Group's consideration of the probability of significant reversal of revenue with reference to both historical case outcomes in the current and prior years.
- Assessed management's disaggregation of legal work types into cohorts to demonstrate their consideration of the likelihood and magnitude of significant reversal.
- Performed lookback procedures through undertaking the trend analysis on the probability of success over time, as well as assessing the Group's historical ability to forecast their probability of success compared to the actual outcome.
- For a selection of matters where historical performance was not considered predictive of probable outcomes, we performed the following procedures to assess the Group's position regarding likely case outcomes:
 - Enquired of the various Group's legal practitioners, Leadership and management's experts to understand the status of cases.

Key audit matter

How our audit addressed the key audit matter

- Evaluated relevant data and assumptions supporting the recoverability of the cases.
- Obtained external evidence, where available, to demonstrate the case progress and success prospects.
- For a selection of Unbilled Disbursements, we inspected supporting documents and respective case records.
- Assessed the fair value of Unbilled Disbursements with reference to specific cases, the existence of disbursements funding arrangements and the extent of Unbilled Disbursements written off during the current and prior year.
- Evaluated whether the disclosures made in notes to the financial statements including those regarding the significant assumptions were consistent with our understanding based on our audit procedures and the requirements of Australian Accounting Standards.

Carrying Value of Goodwill (Refer to note 7(c)) [\$32.3m]

As at 30 June 2024, Goodwill of \$32.3 million had been recognised, \$21.4 million attributable to the Personal Injury (PI) cash generating unit (CGU) and \$10.8m attributable to the New Practice Areas (NPA) CGU.

The Group has tested the recoverable amount of PI and NPA CGUs including Goodwill based on a value in use (VIU) methodology, utilising a discounted cash

To evaluate the Group's assessment of the carrying value of goodwill, we performed a number of procedures including the following:

- Assessed whether the determination of CGUs is consistent with our knowledge of the Group's operations and internal Group reporting through examination of system, processes, reporting lines and personnel responsibility splits.
- Considered the restructuring of the Head Trauma Practice during the year ended 30

flow model (the model) that includes the following significant assumptions:

- Annual revenue growth rate
- Annual operating costs growth rate
- Long-term growth rate
- Pre-tax discount rate

Given the judgements incorporated by the Group in determining the recoverable amount of the PI and NPA CGUs this was included as a key audit matter.

June 2024 and evaluated the related reallocation of goodwill between the CGUs.

- Considered whether the valuation approach and methodology used by the Group was consistent with the basis required by Australian Accounting Standards and our understanding of the nature of the business.
- Assessed the allocation of the Group's assets and liabilities into the PI and NPA CGUs.
- Considered the historical reliability of the Group's cash flow forecasting process by comparing prior year budgets with reported actual results for the respective years.
- Assessed the FY25 board approved budget with reference to historic performance and agreed the FY25 cash flows per the financial model to the budget.
- Assessed growth rate assumptions for the remainder of the discrete forecasting period (FY26-FY29) against external benchmarking data and historic trends.
- Together with PwC valuation experts, assessed the valuation methodology of the model and compared the discount rate and long term growth rate assumptions to market observable inputs.
- Evaluated whether the disclosures made in the notes to the financial statements, including those regarding the significant assumptions, were consistent with our understanding based on our audit procedures and the requirements of Australian Accounting Standards.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report for the year ended 30 June 2024, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon through our opinion on the financial report. We have issued a separate opinion on the remuneration report.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Company are responsible for the preparation of the financial report in accordance with Australian Accounting Standards and the *Corporations Act 2001*, including giving a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:

https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf. This description forms part of our auditor's report.

Report on the remuneration report

Our opinion on the remuneration report

We have audited the remuneration report included in the directors' report for the year ended 30 June 2024.

In our opinion, the remuneration report of Shine Justice Ltd for the year ended 30 June 2024 complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the remuneration report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.
