Commentary on the Results for the Half Year

Results for H1 FY24 included the following key activity:

- Revenue up 24% to \$1.14 million on pcpc due to the accelerating shift towards automation and streamlining of processes that the Company is seeing with an increasing number of multinational companies.
- Way2VAT secured additional multinational clients to increase the enterprise client count to 375, a 15.4% increase over pcpc. These include Randstad, Fever, Acciona, SGS, CyberArk, and Hipra. While none of these individual new contracts are material in their own right, the smooth integration with existing and new partnerships enables Way2VAT to grow and strengthen its position as an automated VAT/ GST recovery solution provider.
- The Company signed its first multinational Australia-based industrial client with 6,000 employees across 15 countries. Way2VAT is helping strengthen the company's ability to recover more of its

GST/VAT claims across its operations by integration into its current expense, invoice, and travel management platform.

- Consolidated Operational Expenses for 1H24 increased by 19% on pcp to \$3.08 million. This was partly due to updating the provision and recording of expenses in connection with key research and development government grants, and was a non-cash item. While marketing cost increases provided for a growing sales team and their initiatives to support the business, there were one-off recruitment costs and non-cash general and administrative expenses included in this 1H24 result.
- A lower Cost of Goods Sold, despite the higher revenues recorded, led to a 41% increase in Gross Profit to \$856k (1H23: 606k) and a Gross Margin of 75%, speaking well for the business' ability to scale on higher volumes.
- Cash position bolstered by capital raise activity including Convertible Notes issuance, Share Purchase Plan and a strongly supported Placement.
- Cash balance of \$1.825 million as at 30 June 2024.
- The Company's funding runway is also backed by an extension of the \$700k loan facility for another 12 months from 30 August 2024, with Bank Hapoalim.

Review report on interim financial information to the shareholders of WAY2VAT LTD.

Introduction

We have reviewed the accompanying condensed interim consolidated statements of financial position of WAY2VAT Ltd. (the "Company") as of 30 June 2024 and the related condensed interim consolidated statements of loss and other comprehensive income (loss), changes in shareholders' equity (deficit) and cash flows for the six months then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with International Accounting Standard IAS 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with international standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of Interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim consolidated financial information does not present fairly, in all material respects, the consolidated financial position of the Company as of 30 June 2024, and of its financial performance and its consolidated cash flows for the six months then ended in accordance International Accounting Standard IAS 34.

Emphasis of Matter

We draw attention to note 1.c. of the financial information, which indicates that the company has incurred negative cash from operation of \$1,057 thousand and net losses of \$2,131 thousand during the six months ended 30 June 2024. As stated in note 1.c., these matters indicate that a material uncertainty exists that may cast significant doubt on the company's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

WAY2VAT LTD.
NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
(USD in thousands)

NOTE 1 - GENERAL:

- a. Way 2 Vat Ltd. ("the Company") was incorporated on 19 February 2014, under the laws of Israel and commenced operations on 1 March 2016. The Company is listed, and its shares are publicly traded on the Australian Securities Exchange ("ASX"). The Company, along with its subsidiaries, is developing applications for automatic VAT reclaims for enterprises.
- b. The condensed interim consolidated financial statements include the results of the Company and its wholly owned subsidiaries as follows (together "the Group"):

Entity name	Country of incorporation	Proportion of ownership interest as of:		Held by
		30 June 2024	31 December 2023	
WAY2VAT SRL	Romania	100%	100%	WAY2VAT Ltd.
WAY2VAT UK Limited	UK	100%	100%	WAY2VAT Ltd.
WAY2VAT Inc.	USA	100%	100%	WAY2VAT Ltd.
DevoluIVA S.L.U	Spain	100%	100%	WAY2VAT Ltd.

- c. The Company financed its operation through fundraising via its listing on the ASX, private placements, bank loans, governmental loans and grants. The Group has incurred negative cash from operating activities of \$1,057 thousand and net loss of \$2,131 thousand for the six months ended 30 June 2024 and, as of that date, the Group's current liabilities exceeded its current assets by \$686 thousand. As a result of these matters, there is a material uncertainty that may cast significant doubt on the entity's ability to continue as a going concern.

The directors believe that the Company will be able to pay its debts when they fall due, and to fund near term anticipated activities based on proceeds primarily from:

- Additional support from existing and new shareholders.
- Growth in revenues from existing and new clients.

The Directors are satisfied that it is appropriate to prepare the condensed interim consolidated financial statements on a going concern basis on the basis that the above can be reasonably expected to be accomplished. The condensed interim consolidated financial statements do not include adjustments relating to the recoverability or classification of the recorded assets nor to the amounts or classification of liabilities that might be necessary should the company not be able to continue as a going concern.

The condensed interim financial statements as of 30 June 2024, have not been audited.

b. Significant accounting policies

The Group has applied the same accounting policies and methods of computation in its condensed interim consolidated financial statements as in its 2023 annual consolidated financial statements.

NOTE 4 – DERIVATIVE LIABILITY - OPTIONS:

a. Stock options granted to investors

The outstanding options granted to investors for the six months ended 30 June 2024 are as follows:

	Number of options
Outstanding as of 1 January 2024	-
Granted	147,978,901
Exercised	-
Forfeited	-
Outstanding as of 30 June 2024	147,978,901

Those options have an exercise price denominated in A\$, which differs from the Company's functional currency and as a result they should be recorded as liabilities and not within the consolidated statements of changes of equity /(deficit). They were recorded initially at fair value, the same as of 30 June 2024 and should be continually measured at fair value at each cut-off date.

Those options break into two categories:

First category – The options that were granted in connection with the Tranche 1 Placement, Tranche 2 Placement and SPP (105,681,818 options), see Note 5.b.2 and 5.b.3 for further information – those were granted as part of a unit, each unit was issued for price of A\$0.022 and comprised of one share and two third option. The Company utilized a Black-Scholes valuation method in order to measure the option fair value at the grant date (the key figures inserted into the formula beside the known figures such as the stock price, the exercise price and expected terms were volatility – 84%, Dividend yield – None and Risk-free interest rate – 4.30%), resulted in a fair value of A\$0.0057 per option. As a result, the Company bifurcated the options fair value from the Tranche 1 Placement, Tranche 2 Placement and SPP aggregated to A\$598 thousand (approximately \$394 thousand based on the exchange rate of \$1.00 / A\$1.54 in effect as of 29 February 2024) from the total consideration to a liability under Derivative liability – Options.

Second category - The options that were granted to the Convertible Note holders (42,297,083 options), see Note 5.b.1 for further information – those options were not granted as part of the Convertible Note subscription agreements but rather subsequent to that and as such were recorded as finance expenses on their grant date and were not bifurcated from the Convertible Note consideration.

NOTE 4 – DERIVATIVE LIABILITY – OPTIONS (CONT.):

a. Stock options granted to investors (cont.)

The Company utilized a Black-Scholes valuation method in order to identify the option fair value at the grant date (the key figures inserted into the formula beside the known figures such as the stock price, the exercise price and expected terms were volatility – 84%, Dividend yield – None and Risk-free interest rate – 4.30%), resulted in a fair value of A\$0.0073 per option. As a result, the Company recorded a finance expense aggregated to A\$309 thousand (approximately \$206 thousand based on the exchange rate of \$1.00 / A\$1.50 in effect as of 10 March 2024).

The options commenced trading on 6 May 2024 and therefore the fair value as of 30 June 2024 was derived from the traded price as of such date (A\$0.002). Updating the fair value of the entire options was recorded versus finance income/expenses and the fair value as of 30 June 2024 aggregated to A\$296 (approximately \$196 thousand based on the exchange rate of \$1.00 / A\$1.51 in effect as of 30 June 2024).

b. Fair value measurement

	Fair value hierarchy			
	Level 1	Level 2	Level 3	Total
Options granted to investors*	196	-	-	196
