Commentary on results:

3. Statement of comprehensive income

Refer to attached financial statements

4. Statement of Financial Position

Refer to attached financial statements

5. Statement of Cash Flows

Refer to attached financial statements

6. Statement of Retained Earnings/Changes in Equity

Refer to attached financial statements

7. Dividends/Distributions

No dividends declared in the current or prior year

8. Details of Dividend Reinvestment Plans

Not applicable

9. Net Tangible Assets Per Share

	30 Jun 2024	30 Jun 2023
Net tangible (liability) backing per ordinary security (cents)	(0.06)	(0.09)

10. Details of entities over which control has been gained or lost during the period

Control gained over entities

Name of entity (or group of entities)	N/A
Date control gained	N/A
Contribution of such entities to the reporting entity's profit/(loss) from ordinary activities during the period (where material)	N/A
Profit/(loss) of the controlled entity (or group of entities) whilst controlled during the whole of the previous corresponding period (where material)	N/A

Loss of control over entities

Name of entity (or group of entities)	N/A
Date control lost	N/A
Contribution of such entities to the reporting entity's profit/(loss) from ordinary activities during the period (where material)	N/A
Profit/(loss) of the controlled entity (or group of entities) whilst controlled during the whole of the previous corresponding period (where material)	N/A

11. Details of Associates and Joint Venture entities

Name of associate or joint venture entity	N/A
Reporting entity's percentage holding in this entity	N/A
Contribution to net profit/(loss) (where material)	N/A
Aggregate share of profits/(losses) of the above entity (where material)	N/A

12. Any other significant information needed by an investor to make an informed assessment of the Company's financial performance and financial position

Refer to attached financial statements

13. Foreign entities

Refer to attached financial statements

14. Commentary on results for period and explanatory information

Refer to commentary on page 6 of the attached financial statements

15. Audit

This Preliminary final report is based on accounts which are in the process of being audited. It is likely that the Auditor will issue an Independent Auditor's Report that will contain an 'Emphasis of Matter' paragraph drawing attention to a material uncertainty that may cast a significant doubt about the Group's ability to continue as a going concern. The attached Preliminary Final Report has been prepared on a going concern basis. Please refer to note 2 Going Concern.

Authorised for release by the Board

Note 1. General information

TrivarX Limited ('TrivarX', 'the Company', or 'the Parent') is a for profit company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange.

Note 2. Basis of preparation

The preliminary final report has been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. The preliminary final report also complies with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

This preliminary final report has been prepared in accordance with ASX Listing Rules as they relate to the Appendix 4E and in accordance with the recognition and measurement requirements of the Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board, Urgent Issues Group Interpretations and the Corporations Act 2001. As such, this preliminary final report does not include all the notes of the type included in an annual financial report and accordingly, should be read in conjunction with the annual report for the year ended 30 June 2023 and any ASX announcements made by the Company during the period.

Going concern

The preliminary final report has been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business. The Group incurred a loss for the year ended 30 June 2024 of \$1,237,093 (2023: \$3,070,546) and net cash outflows from operations was \$848,312 (2023: \$932,083). As at 30 June 2024, cash and cash equivalents was \$848,096 (2023: \$214,113).

Whilst the Group is expected to be cash-flow negative in the foreseeable future as a result of research and development activities, the ability of the Group to continue as a going concern is dependent on securing additional funding through equity or debt or a combination of both to continue to fund its operational and technological development activities. These conditions indicate a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern and, therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

The directors believe the Group will continue as a going concern after consideration of the following factors:

- the Group successfully raised \$4,928,638 (before transaction costs) during the financial year ended 30 June 2024 and management has confidence in its ability to raise further capital when required.
- the Group anticipates the receipt, subject to approval, of government grants and tax incentives related to its research and development activities.
- the directors of TrivarX Limited have reason to believe that in addition to the cash flow currently available, the level of expenditure can be managed to meet working capital requirements for at least the next twelve (12) months.

The preliminary final report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or liabilities that might be necessary should the Group not continue as a going concern and meet its debts as and when they become due and payable.

The directors plan to continue the Group's operations on the basis outlined above and believe there will be sufficient funds for the Group to meet its obligations and liabilities for at least twelve (12) months from the date of this report.

Note 3. Other expenses

	Consolidated	
	2024	2023
	\$	\$
Consulting and advisory expenses	820,758	758,651

	<u>10,129,209</u>	<u>7,628,777</u>

Accounting policy for intangible assets

Intangible assets acquired as part of a business combination, other than goodwill, are initially measured at their fair value at the date of the acquisition. Intangible assets acquired separately are initially recognised at cost. Indefinite life intangible assets are not amortised and are subsequently measured at cost less any impairment. Finite life intangible assets are subsequently measured at cost less amortisation and any impairment. The gains or losses recognised in profit or loss arising from the derecognition of intangible assets are measured as the difference between net disposal proceeds and the carrying amount of the intangible asset. The method and useful lives of finite life intangible assets are reviewed annually. Changes in the expected pattern of consumption or useful life are accounted for prospectively by changing the amortisation method or period.

Goodwill

Goodwill arises on the acquisition of a business. Goodwill is not amortised. Instead, goodwill is tested annually for impairment, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Impairment losses on goodwill are taken to profit or loss and are not subsequently reversed.

Research and development

Research costs are expensed in the period in which they are incurred. Development costs are capitalised when it is probable that the project will be a success considering its commercial and technical feasibility; the Group is able to use or sell the asset; the Group has sufficient resources and intent to complete the development; and its costs can be measured reliably. Capitalised development costs are amortised on a straight-line basis over the period of their expected benefit, being their finite life of 5 years.

The recoverable amount of the group's indefinite life intangible assets has been determined by fair value less costs to sell based on the cost approach, with the recoverable amount based on the cost to collect further data files from recent and ongoing studies. Consideration has also been given to outcomes of the studies and progress in developing the technology as well as published costs of studies. Key assumptions include the costs paid to suppliers for data files as well as the allocation of internal staff time to generate and analyse additional data files. There has been no change since the prior period in the calculation method.

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the Company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Share buy-back

There is no current on-market share buy-back.

Capital Management

Due to the nature of the Group's activities, the Group does not have ready access to credit facilities, with the primary source of funding being equity and/or debt raisings. Therefore, the focus of the Group's capital risk management is the current working capital position against the requirements of the Group to meet research and development programs and corporate overheads. The Group's strategy is to ensure appropriate liquidity is maintained to meet anticipated operating requirements, with a view to initiating appropriate capital raisings as required. Any surplus funds are invested with major financial institutions.

Accounting policy for issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.
